GLOSSARY TERMS

Key terms used frequently in this Application are defined below:

Applicant: Means Valcour Wethersfield NewCo, LLC.

Existing Facility: Refers to the existing 126-megawatt (MW) wind energy facility and its components located in the Towns of Eagle and Wethersfield, Wyoming County, New York, and commonly known as the Wethersfield Windpark.

Facility Site: Refers to those privately owned parcels under option to lease, purchase, create an easement, or other real property interests with the Applicant on which all Repowered Facility components will be sited, including roads, collector lines, and interconnection with the electrical grid.

Limits of Disturbance: Refers to the portion of the Facility Site that will necessarily be utilized to facilitate construction and operation of the Repowered Facility, including temporary workspaces.

Repowered Facility: Refers to the Wethersfield Wind Repowering Project, an approximately 136 MW wind energy generation facility located in the Towns of Eagle and Wethersfield, Wyoming County, New York, that will consist of new wind turbines, access roads, buried electric collection lines, collection substation facility improvements, temporary laydown and parking, permanent meteorological towers, and an aircraft detection lighting system tower. The Repowered Facility will reuse other existing aboveground components, including overhead collection lines, access roads, an operations and maintenance building, a 34.5-kilovolt (kV) to 230 kV collection substation; and a point of interconnection switchyard station owned by New York State Electric and Gas.

Study Area: Refers to the area evaluated for specific resource identification and/or resource impact assessment. The size of this area is appropriate for the target resource and takes into account the project setting, the significance of the resource or impact being identified or evaluated, and the specific survey distances included in 16 New York Codes, Rules, and Regulations Part 1100. Unless indicated otherwise in a specific exhibit, the Study Area represents the area within a 5-mile radius of the Facility Site.

1.0 EXHIBIT 1 – GENERAL REQUIREMENTS

1.1 APPLICANT INFORMATION

The Applicant is Valcour Wethersfield NewCo, LLC hereinafter, referred to as (“the Applicant”) a wholly owned subsidiary of ACE Development Company, LLC (AES). AES was founded in 1981, went public in 1991, and began operating in New York in 1999. AES is the fifth largest solar developer in the world and the world’s leader in battery-based energy storage. AES signs agreements for two to three gigawatts of renewable energy each year.

AES’s current portfolio in New York includes 238 megawatts of operating solar projects and 612 megawatts of wind energy across 64 operational renewable energy projects. AES possesses the project development experience, technical expertise, and financial resources and commitment to deliver the Wethersfield Wind Repowering Project in furtherance of the goals of New York’s Climate Leadership and Community Protection Act enacted in 2019. Rigorous screening and site selection, collaborative stakeholder engagement, and discipline throughout the construction and operations phases have been the basis for AES’s success in developing previous renewable energy projects.
