Matter 17-00974: Good Energy 2024 Annual Report

Dear Mr. Rosenthal,

Good Energy has filed public and confidential versions of the CCA Reporting spreadsheet for 2024. The public version includes the total revenues to the CCA Administrator for each program, while the Confidential version includes total revenues and program expenses.

Good Energy respectfully requests confidential treatment of program expenses because they constitute a trade secret of a commercial enterprise. Good Energy requested, and was granted, confidential treatment of program expense information for its 2023 Annual Report and requests the same treatment of this information in its 2024 Report.

In 2023, Good Energy cited its right to confidential treatment of program expense data pursuant to Public Officers Law (“POL”) §§ 89 (5) and 87 (2) and 16 NYCRR § 6-1.3.<sup>1</sup> The information contained in Good Energy’s 2024 Report is substantially similar in nature to its 2023 Report and therefore Good Energy cites the same laws and regulations detailed in its 2023 filing as grounds for confidentiality protections in its 2024 Annual Report submission.

Please contact me if you have any questions related to this filing.

Thank you for your attention to this matter.

Respectfully,

Javier Barrios  
Managing Partner  
Good Energy
