The Company will invoice the fee monthly either by direct invoice or by incorporating the charges onto the utility's invoice. The Subscriber does not have any right to applicable Tax Credits, Environmental Attributes and Environmental Incentives. A. Solar Facility and Solar Credits. Provider owns the rights to the solar credits from the generation of electricity from the solar photovoltaic system (the "Solar Facility") identified in **Exhibit A** and is delivering or will deliver the electricity to your local electric utility (the "Utility"). In exchange, the Utility will issue monetary credits to your Utility account for the kilowatt hours generated by the Solar Facility ("Solar Credits").

We are offering to sell you a portion of the Solar Credits based on your Allocation (as defined in Section 3(A) below) of the kilowatt hours generated by the Solar Facility during the Utility's regular billing cycle (the "Period"). Solar Credits are a monetary value applied to your utility bill based on the Value Stack methodology established by the New York State Public Service Commission. You are agreeing to pay us the periodic fee set forth in this Agreement (the "Fee") in exchange for receiving the Solar Credits on your Utility bill.

B. Your Utility Bill. You acknowledge that you are not buying the actual energy output of the Solar Facility. Rather, you are paying the Fee to us in exchange for receiving Solar Credits on your Utility bill. You remain fully responsible for paying the Utility bill and for complying with the Utility's regulations.

C. Eligible Subscribers. The program is open to subscribers who have a Service Address in the same local utility service area as the Solar Facility and who meet our credit requirements. You confirm that as of the date of this Agreement you are not currently in arrears in payment of your Utility bills.

D. Subscriber Disclosure. For a summary of the terms contained in this Agreement, please see the Subscriber Disclosure Statement which is hereby incorporated by reference.

2. Length of Agreement and Renewal

A. Term. The term shall be one year commencing on the first day that of the billing cycle where the utility reflects the credits referred to herein, and will continue for 12 months. Thereafter, the agreement will continue year to year thereafter unless either party provides sixty days written notice prior to expiration of the then current term.

B. Termination.

Rescinding Agreement Without Penalty. You have the unrestricted right to rescind this Agreement without penalty or further obligation by calling the toll-free number provided in Article 8 within the (3) business days of receipt of the Agreement.

Termination for Convenience. Either party shall have the right to terminate this Agreement for its convenience at any time after the one (1) year anniversary of the Effective Date. The terminating party will give the other party at least sixty (60) days advance written notice of such termination for convenience. At the second full Period following a termination notice, you will stop accruing Solar Credits and we will stop billing you for the Fee. All payment obligations incurred up to and including the final day of the termination notice period will be due and owing in accordance with the Agreement.

Early termination fee. In the event that the Customer terminates this Agreement before the expiration of the then current term, the Subscriber forfeits any billing credits. Additionally, Customer shall pay a termination fee equal to one cent per kWh for that estimated quantity from the time of cancellation to the end of the then current term. The Provider can terminate this Agreement early in the event that Subscriber breaches this Agreement (including but not limited to non-payment). The Subscriber filing bankruptcy shall constitute a default and Provider will have the right to terminate this Agreement.

3. Subscription Fee, Taxes and Payment.

A. Fees. You agree to pay the Fee associated with the Solar Credits which is calculated from percent of the Solar Facility's generation (your "Allocation"). The Fee will be ____% less than your Solar Credits for the Period.

B. Monthly Invoices. You agree to pay us the Fee for each Period in arrears. We will invoice you monthly in writing by regular or electronic mail. Our monthly invoices will show (i) the number of kilowatt hours generated by the Solar Facility during the Period, (ii) the number of kilowatt hours and Solar Credits in your Allocation for the Period, and (iii) the Fee and any other charges incurred by you under this Agreement during the Period. If the subscriber is a electric

supply customer of USEP, then the charges for the fee will be incorporated onto the supply bill that is issued by the utility.

C. Taxes. Customer is responsible for any federal, Indian, state, local, sales, use or consumption taxes or similar taxes which are now or hereafter imposed. You shall pay such taxes unless the Company is required by law to collect and remit such taxes, in which case the Customer shall remit payment to the Company. If claiming exemption from any such taxes, the Customer must provide the Company a proper exemption certificate. The Company also reserves the right to amend the Customer's supply price if additional taxes, fees or assessments are imposed by any governmental entity.

D. Payment Terms. You agree to pay all amounts due under this Agreement within thirty (30) days from the date you receive our invoice. Any undisputed portion of the invoice amount not paid within the thirty (30) day period shall accrue interest at the rate of one and one-half percent (1.5%) per month, not to exceed the maximum interest rate allowable by law. If included in the utility bill, then the utility's tariff will dictate payment terms.
