Small Claims /Commercial Claims Part
County of New York, Harlem
170 East 121 Street
New York, N.Y. 10035

2:00 PM

Today's Date: 11-27-2019
Index No.:

60027 HSC 2019

FEE: 31.10 Paid

MODERN TECHNOLOGIES vs. VERIZON

Your Case is Scheduled for:

Thursday,

January 16, 2020

2:00 PM

The Hearing of your claim has been set for 6:30 P.M. in the
Small Claims /Commercial Claims Part Courtroom
Third Floor

Only the Judge presiding at the Hearing can grant an adjournment.
The Clerk cannot grant any change in the scheduled date or time.

INSTRUCTIONS TO CLAIMANT

HEARING

You must be present, with any witness(es) and/or other proof of your claim, at the time and place indicated above.
If your claim is for property damage, in order to prove your claim you must produce, at the time of trial, either:

- (1) An Expert Witness (for example, a Mechanic)
- (2) A Paid Receipt (itemized, marked "Paid," and signed), or
- (3) Two Estimates for services or repairs (itemized and signed)

Once service of the Notice of Claim is complete, you may request the Clerk to issue a Subpoena for Records and/or a Subpoena to Testify, to compel someone to appear. Such Subpoenas are issued by the Court without any fee, but you will be required to pay a fee to the person on whom the Subpoena is served. Your request for such Subpoena must be made of the Clerk before the date of the Hearing.

If you have not received a copy of the booklet "A Guide to Small Claims" or "A Guide to Commercial Claims", please request one.

JUDGES AND ARBITRATORS

The Judge can only hear a limited number of cases at each session of Court. Most Hearings are held before volunteer Arbitrators who are attorneys with at least five years of experience and thoroughly knowledgeable in the law.

The decision of a Judge is subject to appeal but no appeal of an Arbitrator's decision is permitted since there is no official court transcript of Hearings held before Arbitrators.

Either party may choose to have the case heard only by the Judge, by responding "by the Court," at the time of the calendar call. If you request your case "by the Court" it is quite possible that you will have to return for trial at another time.

INSTRUCTIONS FOR ANSWERING THE CALENDAR CALL

If you are ready for trial and you are willing to have your case heard by an Arbitrator Answer: (Your Name/Claimant), Ready

If you wish: to request a postponement of your case,
to change the amount of the claim, or
to add an additional party

Answer: Your Name, Application

If you are ready for trial but you are not willing to have your case heard by
an Arbitrator and you are requesting that the case be heard only by the Judge

Answer: Your Name, Ready By the Court

RESULT OF NON-APPEARANCE (DEFAULT)

If the Defendant (the person you are suing) fails to answer or appear for trial an Inquest may be held. In an Inquest, you (the Claimant) must prove your case to the satisfaction of the Arbitrator even though the Defendant is not present. In almost all instances the Inquest will result in a Judgment in favor of the Claimant.

If you (the Claimant who is suing) fail to appear, the case will generally be Dismissed.

SETTLEMENT

If you and the Defendant are able to work out a settlement, the written agreement (Stipulation of Settlement) should be filed with the Court. This should be done on or before the date set for the Hearing. The document provided to the Court must include the SC Number of your case and the year.

If the Defendant admits the claim but desires more time to pay, and you are not willing to accept the plan for payment, you must both appear personally on the date set for the Hearing. At that time, with the aid of the Court, you may be able to reach agreement on the terms of payment.

AVISO: ESTA INFORMACIÓN ESTÁ DISPONIBLE EN ESPAÑOL BAJO PEDIDO.

— BRING THIS SHEET WITH YOU AT ALL TIMES —

CIVIL COURT OF NYC
SMALL CLAIMS COURT

JOMO WILLIAMS,
PLAINTIFF

AGAINST
VERIZON
DEFENDANT

AFIRMATION IN
SUPPORT OF
STATEMENT OF CLAIM
& ADVISORY REQUEST

I, JOMO WILLIAMS STATE THE FOLLOWING:

CLAIMS

- 1) Ongoing and between 1996 (yr) to present date, the defendant of this action had:
 - a) in bad faith refusal to provide Wholesale services to plaintiff
 - b) Discriminated due to race to provide services or enter into agreement with plaintiff
 - c) Placed unfair barriers to entry to prevent the plaintiff from entering the Telcom industry
 - d) Committed unfair methods of competition
 - e) Sabotaged plaintiff's business efforts for decades
 - f) DISCOVERY & DISCLOSURE
- 2) Plaintiff possesses the following (a) cell phone video footage from the towing and accident (b) several documents from the abuse of process (c) DMV and Insurance documents for the vehicle (d) Cell phone recordings (e) et.al..
- 3) I demand that all defendants hand over all audio & video footage they have in relation to this action, including but not limited to all the audio & video footage they have from their tower surveillance cameras in relation to this action (esp. from 10/18/15).

FACTS

- 4) Between 1996 – 97 (yrs) plaintiff made his first application to now Verizon, for interconnection/Resale agreement; Verizon, came to the plaintiff's then store front located at 317 w 141 st., NY, NY 10030; but thereafter refuse to communicate with the plaintiff.
- 5) Between 2002-2003 (yrs) the plaintiff, retained counsel to formed Choice Communications INC, and filed with NYS Public Service Commission; but still thereafter Verizon, had refuse to enter into any agreement or properly communicate with the Plaintiff.
- 6) In 2016 (yr) The plaintiff again made application to Verizon, for Resale Agreement; but thereafter Verizon had placed unfair barriers for entry.
- 7) In 2016 (yr) the plaintiff was then compel to seek resale agreement from 3rd party wholesalers (IKANO DSL WHOLESALERS), who Verizon (et.al.) are in agreement with.
- 8) In 2016 (yr) the plaintiff had invested enormous time and monies (securing various retail stores as sales agents; advertisements; website; etc) to implement doing business selling service he had secured from IKANO; but thereafter
 - A) Verizon, went on strike and discriminated then to only repair & install its own work orders while putting resellers orders way on the back burner (never installing/repairing them)
 - B) Refuse to sub contract the plaintiff, so that he could install/repair his own orders during the strike and thereafter.
 - C) Came in agreement with now Spectrum & various landlords, not to install resellers DSL services in various dwellings.
- 9) Verizon had denied to install/repair, mostly all orders that the plaintiff put in via 3rd party wholesaler.

- 10) In 2018 (yr) Plaintiff communicated with Verizon, for resale agreement, but defendant was unresponsive.
- 11) In 2019 (yr) Plaintiff communicated with Verizon, for resale agreement, but defendant was again unresponsive.
- 12) On 11/14/19, Verizon, without notice or remedy, disconnected the plaintiff's business development environment DSL line.
- 13) 1996 (yr) to 2020 (yr) and counting = approx. 24 yrs.

DATE 11/27/19

RESPECTFULLY SUBMITTED

CEASE AND DESIST REQUEST

I, JOMO WILLIAMS, THE OWNER OF MODERN TECHNOLOGIES (DBA: freebee.tv; Choice Communications,) A VETERAN/MINORITY OWNED BUSINESS, HUMBLY REQUEST THAT VERIZON, AND ITS CONTRACTORS; REPRESENTATIVES; AFFILIATES; SUBSIDIARIES; ETC; CEASE AND DESIST THE FOLLOWING CONDUCTS:

Instituting & continuing BARRIERS OF ENTRY; interference with business expectancy; interference with contracts; Slamming; Unfair business; Damaging Business Reputation; continuing wrong; concealment; et.al..

- 1) Around January 2016, Verizon, had enter into formal negotiations with Modern Technologies, after approx. a decade of informal denials by Verizon, to do the same.
- 2) Around Feb. 2016, Verizon, had discontinue the negotiation process with Modern Technologies, by requiring Modern Technologies (for undisclosed reasons) to enter into a 3 party agreement (financial institution) before Verizon, would provide Modern Technologies, with Wholesale services and product.
- 3) The above 3rd party's, financial terms of agreement was beyond Modern Technologies' means; and also Verizon, wanted Modern Technologies, to make financial commitments blindly without disclosing to Modern Technologies (i) wholesale prices and (ii) other subsequent requirements.
- 4) Thus in Feb. 2016, Modern Technologies, had found and enter into a 3rd party agreement with a Telecommunication aggregate provider (unrelated to the above negotiation process) to (i) raise funds for the financial terms said in facts 3 above, and (ii) further conduct business in the Telecommunication industry.
- 5) The 3rd party Telecom aggregator resells telecommunication services & products from/on the Verizon's network (et.al.). Thus Modern Technologies, had mainly focused on promoting and selling, the Verizon's network as its main product services.
- 6) Modern Technologies had secured many relations with retail stores; telecom technicians; contractors; telecom equipment suppliers; promotions & market suppliers; and open web shop (www.freebee.tv) to accomplish its business endeavors to resell Verizon services as its main product.
- 7) Nonetheless, every time Modern Technologies, had ordered Verizon telecom services from the 3rd party, install deadlines were always delayed and incomplete by Verizon; and fast speeds that first show available for customers, were later denied by Verizon. Just said, made it impossible for modern technologies, to offer services to its business partners; customers; and potential customers; as well as damaged Modern Technologies' business reputation by disabling Modern Technologies, from providing reliable; timely; and fast services to same.
- 8) As a result to just said, many of Modern Technologies' business partners had disassociated themselves with Modern Technologies, and customers had cancelled orders and subscriptions.
- 9) Also Verizon, had used its ILEC, position, in attempts to slam (convert) subscriptions secured by Modern Technologies, into Verizon, subscriptions.

- 10) In April 2016, Verizon workers went on strike.
- 11) Modern Technologies' 3rd party Telecom provider (and Verizon per se), cited the Verizon strike as reasons for extra-long delays (6 months plus) in new ordering & installs (example: we presently have an order pending from Feb-Mar 2016, that is still pending install; recent Verizon stated that install won't be completed until around July 2016, due to the strike).
- 12) Due to the above, Modern Technologies had to cease sales & securing business relations; close its web shop; and refuse to take orders from the retail stores/contractors that didn't disassociate.
- 13) In Apr - May 2016, Modern Technologies had offered to Verizon, Tech support, as a remedy to aid Verizon to install & repair Modern Technologies', orders and services during the Verizon strike (this was Modern Technologies attempt to avoid commencing litigation to seek recoveries for the above)
- 14) In response Verizon acknowledged the fact that Modern Technologies, was well documented in its files several ways as a Verizon business partner & vendor; welcomed Modern Technologies' offer of support Verizon, during the strike and immediately sent contracts with terms & conditions to Modern Technologies. Then later directed Modern Technologies, to contract with a Master contractor of Verizon, to provide the Tech support that Verizon needed.
- 15) In result of receiving the contracts (etc.) from Verizon, Modern Technologies, had made agreements with many of its technicians; subcontractors; U.S. Veterans; Minority owned businesses; agencies; et.al. affiliates of Modern Technologies', in Modern Technologies', need to retain their services. In response, those noticed had accepted the opportunity and spent expenses.
- 16) During discussions between Modern Technologies and the Master contractor, Modern Technologies, had inquired into the policy of invoicing pair techs or single techs for jobs. In response the Master contractor, had emailed Modern Technologies, stating that Verizon was not taking on any more tech support for the strike.
- 17) After that email, Modern Technologies, had immediately, called Verizon, who then stated that: the strike was still on; it still was taking on & needed contractors for the strike; and it was not aware of any Verizon freeze on taking on new Techs.
- 18) Nonetheless, the above inconsistencies (see facts 16, 17, and 19) had currently froze & stopped Modern Technologies, from continuing to participate in the contract process of providing Tech support to Verizon; and compel Modern Technologies to also renege on its offers and agreements it made to its affiliates (see fact 15, above) in relation to the present ongoing Verizon strike.
- 19) Notwithstanding fact# 16, Verizon is still citing work stoppage (strike) to Modern Technologies, as reason for extra-long delays in orders and installs (see fact 11 & 12, above).
- 20) Lastly, I (Jomo Williams) was a former employee of Verizon (NYNEX & NJ BELL) who was wrongfully terminated by Verizon; and there after denied unemployment benefits; and employment opportunities for decades by other companies due to Verizons', wrongful negative employment termination reports to others; and thus forced to seek self-employments. Since I've been found innocent of the cause of the wrongful termination, but never properly compensate for it or its subsequent damages.

Wherefore, Modern Technologies, now request that Verizon: (i) repair, or compensate for all the above and (ii) please disclose how many Minority, and Veteran, owned business it resold services to; interconnect with; and contracted to perform services for Verizon, within the past decade time period.(iii) disclose reason in Verizons' file for the termination of Jomo Williams', employment with N.J. Bell Atlantic; and reason given to others since termination for same termination.

Thank you for your time, understanding and any cooperation given

Sincerely

J. WILLIAMS

Dear Mr. Williams,

My name is Rick Carter and I am a Credit Analyst in Verizon's Wholesale Risk Management Department. I would like to thank you for MODERN TECHNOLOGIES' interest in obtaining services with Verizon.

I have attached Verizon's credit Position Letter and an example of a Letter of Credit Draft. The letter is for the credit department's approval of the new services. The Position Letter states Verizon will provide MODERN TECHNOLOGIES a secured line of credit totaling \$10,000.00 to include billed and unbilled usage. Once the letter is signed please fax it to 301-966-4120 and send original hard copy and the original \$10,000.00 Letter of Credit to:

Verizon

Attn: Rick Carter

6929 N. Lakewood Avenue

Mail Drop 5.3-1033

Tulsa, OK 74117

Once Verizon receives the original Letter of Credit and signed position letter the credit will be approved. If you have any questions please feel free to call me.

Modern Technologies
J. Williams

Dear Verizon (Attn: Jim & Rick):

I am in receipt of the position letter and request for letter of credit (Account Security Requirements).

For the following obvious reasons I must again request that Verizon, please furnish me wholesale prices and other requirements that may be needed.

Reasons are:

- 1) Most financial institutions request for a business plan (etc.) before handing secure or unsecure letters (or lines) of credit.
- 2) So we ourselves could compare wholesale prices; possible mark ups; and present retail market values (potential profit margins or losses). To deduct if this agreement we working on will successfully line up with the business model Modern Technologies, is developing.
- 3) Possible Investors will too want to no more (what data speeds are being provided? At what cost wholesale & retail; other expenses (regulatory; industrial; insurances; etc.).

From my many past unsuccessful efforts (Between 1997 - 2002 (yrs.)) I recall laying out thousands of dollars and hours (lawyer fees; corporate filings; DPS filings; pursuing codes; purchasing vehicles and equipment; etc.). However that was approx. 14 yrs., ago. I do see that Verizon, had lessen the entry barriers I had faced in the past, by now communicating and having a special team for new entrants. But I do not know how much requirements and costs this new platform for new entrants had eliminated to ease the process. Nonetheless, from here on out I will infer that all the requirements (and their costs) stated on <https://www22.verizon.com/wholesale/business/local/establish/home/Establish-Maintain-Account-for-Local-Services.html>, are needed for switch-less re-sellers. Please inform me of the standard wholesale prices, and what industrial codes will be needed for Wholesale advantage (DSL) and Wholesale Mobility (broadband, not handsets) services & CPE fulfillment.

Thank you for your time, cooperation and understanding.

Sincerely

Joe

Modern Technologies.

Reasons are:

- 1) Most financial institutions request for a business plan (etc.) before handing secure or unsecure letters (or lines) of credit.
- 2) So we ourselves could compare wholesale prices; possible mark ups; and present retail market values (potential profit margins or losses). To deduct if this agreement we working on will successfully line up with the business model Modern Technologies, is developing.
- 3) Possible Investors will too want to Know more (what data speeds are being provided? At what cost wholesale & retail; other expenses (regulatory; industrial; insurances; etc.).

From my many past unsuccessful efforts (Between 1997 - 2002 (yrs.)) I recall laying out thousands of dollars and hours (lawyer fees; corporate filings; DPS filings; pursuing codes; purchasing vehicles and equipment; etc.). However that was approx. 14 yrs., ago. I do see that Verizon, had lessen the entry barriers I had faced in the past, by now communicating and having a special team for new entrants. But I do not know how much requirements and costs this new platform for new entrants had eliminated to ease the process. Nonetheless, from here on out I will infer that all the requirements (and their costs) stated on <https://www22.verizon.com/wholesale/business/local/establish/home/Establish-Maintain-Account-for-Local-Services.html>, are needed for switch-less re-sellers. Please inform me of the standard wholesale prices, and what industrial codes will be needed for Wholesale advantage (DSL) and Wholesale Mobility (broadband, not handsets) services & CPE fulfillment.

Thank you for your time, cooperation and understanding.

Sincerely

Joe

Modern Technologies.

Mon, Jul 4, 2016 at 10:41 PM

Dear Rick Carter:

Please clarify.

- (1) Verizon has approved Modern Technologies for credit of services without the need of a 3rd party (financial institution) involvement, or
- (2) Verizon approved Modern Technologies for credit under the condition that Modern Technologies, is approved for credit by a 3rd party (financial institution) via VZB LOC Form.

If the answer is #2 above, please state why a 3rd party is needed (e.g.: based on Dun & Brad street report; credit report; what particular credit reporting agency; what particular alleged fact, debt, charge, etc.).

Thank You

J. Williams

Cc: William Ptak <wptak@tesincilc.com>

Wed, May 18, 2016 at 6:00 PM

As per your discussion with Bill Ptak, attached please find the Verizon sub contractor agreement for the Strike work. If agreeable, please add your company name to each location that shows "sub contractor", initial each page, sign all designated signature areas and send back to me via email.

All insurance must be compliant before any work assignments are made. Also, all candidates must pass the drug screen, pass the background check requirements, and their I-9's must be completed and verified by Tesinc before they are dispatched to a work assignment.

Please do not hesitate to respond with any questions or concerns.

We look forward to your response.

Best regards,

Vilma Rodriguez

GM. Rodriguez

Later today, we hope to discuss with you about the following within the agreement

- (1) Shorter payment terms (see Q 64 from VZ Tech need FAQ)
- (2) Non compete clause (we presently conduct various business in the Telcom industry and intend to pursue others)
- (3) Adding names to vehicle INS (some techs rent their Vans) (3) Vice Versa convenience clause
- (4) Is it necessary for assistants to have D.L.. (see Q 35 from VZ FAQ)
- (5) Et. Al.

Thank You
Joe

Dear Vilma

When I use to work for NYNEX & NJ Bell , in the past it was one tech to a vehicle. But since, I have seen only paired Verizon technicians in the NYC Metro area. When I inquired techs about it they stated to me that Verizon's policy had changed to pairs. Thus I may have misinterpreted FAQ # 35 "paired", when talking to Verizon. Please check. Thank You.

Request for Negotiations - Verizon/Modern Technologies (NY-020216)

14 messages

Golden, Jill E (JILL) <j.gillespie@verizon.com>
To: ModTech Mgmt <nyswebcash@gmail.com>
Cc: "Eger, Peter L (Pete)" <peter.l.eger@verizon.com>

Wed, Feb 3, 2016 at 6:36 PM

Please confirm receipt of the attached draft documents via return email.

Verizon has received Modern Technologies' request for a CLEC comprehensive agreement for the state of New York. The start date for this negotiation is February 2, 2016, the date we received your request. Pete Eger has been assigned to this request and is copied on this email; Pete will be your point of contact going forward. Please complete and return via e-mail the attached Information Request Form in order to provide Verizon with the necessary information to proceed with this request.

In addition to reviewing the attachments hereto, please navigate to the Verizon Support Website, which provides Modern Technologies with:

Resources and information to do business with Verizon, including information on ordering local services, trouble administration, training, provisioning, and billing (<http://www22.verizon.com/wholesale/local/order/gettingstarted/Welcome-to-Verizon-Global-Wholesale-Local-Services.html>).

If Modern Technologies doesn't already have an Account Manager, an Online Request form to request an Account Manager assignment (<http://www22.verizon.com/wholesale/contactsales/Contact-an-Account-Manager.html>).

Information on the CPSST (Customer Profile Self-Service Tool). CPSST enables Modern Technologies to establish an account profile with Verizon (or update Modern Technologies's existing profile) so that when this process is complete and Modern Technologies has an effective agreement in place, Modern Technologies can place local service request (LSR) orders under the new agreement (<http://www22.verizon.com/wholesale/business/local/establish/home/Establish-Maintain-Account-for-Local-Services.html>). Questions regarding the CPSST tool, should be directed to your Account Manager or to profile.management@verizon.com.

Pursuant to your request, I have attached for your review a draft and state-specific pricing for the purpose of this request between Modern Technologies and Verizon. In addition, I have attached the Verizon State Specific Guide, which should be used in conjunction with the draft documents. The attached documents are not executable-ready agreements, and are subject to change throughout this process.

In accordance with the FCC's interim compensation rules for dial-up Internet traffic (see Order on Remand and Report and Order, CC Docket Nos. 96-98, 99-68 adopted April 18, 2001 and Order on Remand and Report and Order and Further Notice of Proposed Rulemaking, CC Docket No. 99-68 adopted November 5, 2008), Verizon offers to all CLECs and CMRS providers an optional reciprocal compensation rate plan for termination of non-Internet traffic subject to Section 251(b)(5). Under this optional plan, such traffic exchanged between Verizon and a CLEC or CMRS provider in a given state will be subject to compensation at the same rate applicable to Internet traffic in that state under the terms of the Order. Verizon refers to this optional plan as a Rate Plan B amendment, which I can provide, upon request from Modern Technologies, for review.

After you have reviewed the attached documents, please contact Pete to request executable-ready versions of the documents and/or proposed changes. Please be advised, at such time as Modern Technologies is ready to move forward with signature-ready copies of the agreement, Modern Technologies will need to have appropriate state-specific CLEC certification to operate under the agreement.

Thank you!

Dear Golden, Jill E:

Modern Technologies, is in receipt of your email dated 2/3/16. From a cursory examination of its attachments we were not able to locate the "state-specific pricing" which you had mentioned within the email. However we are optimistic that the state-specific pricing will be located after a more diligent review.

Thank you for your time and co-op.

Sincerely
J. Williams

Dear Pete

Thx, for the info. I had paid for industrial codes in the past, but of course will have to do so again. I searched ANCA,OCN, and came up with the following:

<http://www.rric.net/faq/acna.htm>

Did you have to obtain an ACNA and an OCN? How did you obtain them?

Qwest said we would have to obtain an ACNA (Access Carrier Name Abbreviation) and an OCN (Operating Company Number). We obtained one of each. Our ACNA is RRV and our OCN is 9812. As it turns out, we never actually needed the OCN. So Qwest forced us to spend \$150 needlessly.

To get an ACNA, you need to contact Telcordia, 45 Knightsbridge Road, Piscataway, NJ 08854, phone 732-699-5577, fax 732-336-2778. When we When we got ours the price was \$100. I am told they have increased the price to \$350.

To get an OCN, you need to contact the National Exchange Carrier Association (NECA), 100 S. Jefferson Road, Whippany, NJ 07981, phone 973-884-8249, fax 973-884-8470. They charged us \$150 for our code.

Please confirm if I need both. Thank You.

Joe

Following your review of the documents in the note below, please contact me if you have any questions regarding the draft agreement or would like an executable-ready version of the agreement. If would like an executable-ready version of the agreement, please complete and return to me the Information Request Form previously provided to you in the note below. If you have any proposed changes to the draft agreement, please provide them to me in writing via a redline markup of Verizon's draft agreement and I will review them and get back to you shortly.

If you have any other questions and/or concerns in this matter, do not hesitate to contact me. Thanks.

Mr. Williams,

As discussed, once you get your certification effective in NY you can purchase Verizon's resale services from Verizon's NYPSC #9 Resale tariff. An Interconnection Agreement is not needed. Your assigned Account Manager will assist you in this process. As a result, I will be withdrawing your prior Interconnection request. Thank you.

Pete

Fri, Feb 12, 2016 at 4:54 PM

Dear Pete, Eger:

We just spoke on the phone. The account manager assigned to me by Verizon, is: jim.dugan@verizon.com .

Here is the DPS' website link in relation to Modern Technologies' application request to Verizon:
<http://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterSeq=16937&MNO=03-C-0005>

The recent filing to DPS, I had attached to this email.

Thank you for confirming that IAC, is not needed for switchless Resellers. We will continue to work with the DPS, to reactivate certification then re-approach Verizon thereafter.

Question: as IAC, is not needed for Reseller, is too industrial codes not needed also for non-facility base (switchless) Reseller request? Thank You for your time.

Sincerely
J. Williams
Modern Technologies.

Mr. Williams,

Regarding your question, yes you would need to obtain the applicable codes (e.g., ACNA, OCN..) as a Reseller. More information on Resale can be found in the first link of the original note below. Thx.

Pete

Hi, Jo -- Your email was routed to me for further investigation. Please complete the form at the below link -- this will assist in researching the account team to refer you to. Please be sure to specify the services you are interested in reselling (e.g., cell vs. wireline), and whether you are interested in selling as an agent on behalf of Verizon, or as a wholesaler where Choice Communications would be responsible for billing and technical support of the end users. Thanks...

Solution

PER VZ, DISCONNECTED 11/14

Notes for this Ticket:

Brenda H. @ 11/20/2019 3:03:32 PM

Hello, We had received a notice regarding copper retirement in certain areas. We reached out to Verizon at the time and they confirmed none of our customers were going to be affected. Unfortunately, it seems that this customer was on one of the affected wire centers. We apologize for the inconvenience. Please submit a cancel order for this customer.

Partner @ 11/19/2019 11:32:57 AM

How Verizon going to do that with out no notice, or w/o offering an alternative remedy. Just cut cord.

Brenda H. @ 11/18/2019 2:05:55 PM

Hello, Verizon has confirmed that this was disconnected because this area is FIBER ONLY now. Please submit a cancel order as we will not be able to service this customer anymore.

Brenda H. @ 11/18/2019 11:26:58 AM

Hello, We are investigating this. We should get an update in about 45 business hours.

Partner @ 11/18/2019 11:26:06 AM

Currently on hold with IKANO, for approx. 15 minutes counting. Trying to find out (1) when the circuit is going to be back up (repair/order) (2) Who, how, why , etc the circuit was ordered disconnected (3) previous question. Thx.

Partner @ 11/18/2019 11:25:35 AM

Currently on hold with IKANO, for approx. 15 minutes counting. Trying to find out (1) when the circuit is going to be back up (repair/order) (2) Who, how, why , etc the circuit was ordered disconnected (3) previous question. Thx.

Michelle C. @ 11/18/2019 7:27:21 AM

Hello. Per Verizon, they show the DSL was disconnected on 11/14. We have referred the ticket to our orders department to further investigate. Thank you, Ikano Wholesale Support

Partner @ 11/17/2019 10:39:44 AM

Ticket# 7544149 Facts (1) around 11 am Thursday circuit went down for no reason. Line was troubleshooted good to Verizon cross connection box by us. (2) Thursday was noticed that Verizon will come out around 8am-7pm to repair line. (3) meantime on Thursday provided subscriber with temporary hot spot service. (4) Friday Verizon was no show and was informed that some how ticker transferred from repair to order ticket. (5) Saturday still no synced. Subscriber to using our mobile hot spot costing from different carrier. (6) Saturday night 7pm, we order line from cable company, they said they will install next morning. Meantime still no synced on this line or appearance from Verizon. (7) Sunday morning cable company installed new line in subscriber location. Meantime , still at same location, line circuit for 2122348153, is still down (4 days and counting) no sync. Who's going to pay for loss of services and substitute services awaiting poor repair response time by Verizon?

Partner @ 11/17/2019 10:37:48 AM

Partner @ 11/16/2019 6:31:14 AM

Update: circuit still down - no sync 3rd day

Partner @ 11/15/2019 11:13:47 AM

We been waiting on site for Telco since 7 am. Are they still coming today? The direction needed to troubleshoot is from Central office to the customers location (again line was good to their terminal cross connection). Please update when they going to REPAIR. thanks.

Michelle C. @ 11/15/2019 6:49:54 AM

Hello. Per telco, the ticket has been referred to their orders department. We are waiting for an update. Thank you, Ikano Wholesale Support

Partner @ 11/14/2019 12:00:34 PM

Meaning still send telco

Partner @ 11/14/2019 11:59:52 AM

Ok. Good

Partner @ 11/14/2019 11:59:24 AM

????

Partner @ 11/14/2019 11:46:35 AM

Also second trouble shoot was able to find tone in basement term cross connect UG 236 x hse 433 BINDING POSTS. HOWEVER STILL NO SYNC.

Michelle C. @ 11/14/2019 10:38:37 AM

Hello. Per your request, we have opened a telco ticket. Please make sure the end user's phone box is accessible (no locked gates, unsecured pets, items blocking the NID, etc.) in the event telco needs to dispatch. If NID is accessible, the end user does not have to be present for dispatch. If good sync is confirmed to the NID and the issue is inside wiring, the end user will need to repair it or hire a 3rd party. Thank you, Ikano Wholesale Support

Partner @ 11/14/2019 10:31:00 AM

Dispatch Day/Time #1: Thursday 6am-7pm - Dispatch Day/Time #2: Friday 6am-7pm

Partner @ 11/14/2019 10:31:00 AM

No sync w/router powered up. Rebooted router. Check all inside wiring with toner test device (it's only approx 2 feet of INSIDE wire between NW1 & ROUTER, then addition 2 feet of housing feeding wire on ILEC provider side of NW1 TO closet floor feeder conduit (inside wiring good). Test outside wiring for tone from apt to basement termy with toner diagnostic tool, no toner sounded picked up in basement wiring or terminal. Still changed inside wire from NW1 to router and still no sync. Checked router software settings, all good. Also changed router equipment, still no sync.

29 Year Old Tech Maven, The Only Black Owned Telecommunications Company

Amani Sawari ([Https://Sawarimi.Org/Archives/Author/Amanisawarigmail-Com](https://Sawarimi.Org/Archives/Author/Amanisawarigmail-Com)) / February 7, 2019

Throughout history we've seen how technological advancements made by African Americans were highjacked and monetized by whites. During the slave era, inventions produced by Blacks to lighten their work load were never promoted as products of their creation. As property, even the product of their thoughts were owned by their masters. For example the cotton gin, a machine that quickly separated cotton from its seeds was patented by Eli Whitney, a white slaveowner, who later lost multiple legal battles over patent infringement. Because Blacks were not citizens, they were not qualified to register with the patent office. While some inventions; true origins have been located, many have not. Once Blacks obtained citizenship in 1870 and were able to secure patents for themselves they could accredit their own inventions. For example, Alexander Miles developed the elevator's opening mechanism in 1887 and Elijah McCoy was a former slave who created a lubricating device for railroads.

Today our ability to take ownership over the products and services that we contribute to society has transformed dramatically. Freddie Figgers is the founder and CEO Figgers Wireless, a \$62 million telecommunications firm based in Florida. It is the only minority owned telecommunications company in the United States. His interest in technology was sparked at the age of nine by an early age broken computer that he was able to fix and continues to use today. His father's dementia motivated him to get into healthcare, by developing a shoe with speech activated GPS monitors that sold for millions. At the incredible age
