### 617.20 Appendix A State Environmental Quality Review

## **FULL ENVIRONMENTAL ASSESSMENT FORM**

Purpose: The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

Full EAF Components: The full EAF is comprised of three parts:

Part 1:	Provides objective data and information about a given project and its site. By	identifying basic project data, it assists a

reviewer in the analysis that takes place in Parts 2 and 3.

Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to Part 2:

whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also

identifies whether an impact can be mitigated or reduced.

Part 3:	If any impact in Part 2 is identified as potentially-t important.	large, then Part 3 is used to evaluate whether or not the impact is actually

Identify the Portion	s of EAF completed for this project:	x Part 1 x Part 2 Part 3			
		and 2 and 3 if appropriate), and any other supporting nce of each impact, it is reasonably determined by the lead			
<b>x</b> A.		nd important impact(s) and, therefore, is one which will not nment, therefore a negative declaration will be prepared.			
■ B.	B. Although the project could have a significant effect on the environment, there will not be a significant effect for this Unlisted Action because the mitigation measures described in PART 3 have been required, therefore a CONDITIONED negative declaration will be prepared.*				
C.	C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore a positive declaration will be prepared.				
*A Condition	ned Negative Declaration is only valid for	r Unlisted Actions

PART 1-PROJECT INFORMATION

# PART 1--PROJECT INFORMATION Prepared by Project Sponsor

NOTICE: This document is designed to assist in determining whether the action proposed may have a significant effect on the environment. Please complete the entire form, Parts A through E. Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

Name of Action Verizon - Condo, 240 East 38th St., NY, N	NY - Property Transfer	
Location of Action (include Street Address, Municipality and	d County)	
240 East 38th Street, New York, NY 10016 (Block 918, Lo	ot 1017)	· 
Name of Applicant/Sponsor Verizon New York Inc. ("Ver	rizon")	
Address c/o Eileen Huggard, 140 West Street		
City / PO New York	State NY	Zip Code 10007
Business Telephone (212) 321-8070		
Name of Owner (if different)		
Address

Description of Action:		
Verizon New York Inc. (Verizon) intends to sell the Third and to use the proceeds of the sale for general corporate p Section 99 of the Public Service Law.	d Floor Unit of a condominium located surposes in New York. Verizon seeks a	at 240 East 38th Street, New York, NY, approval of this transaction pursuant to

### Please Complete Each Question--Indicate N.A. if not applicable

### A. SITE DESCRIPTION Physical setting of overall project, both developed and undeveloped areas. 1. Present Land Use: Urban Industrial Commercial Residential (suburban) Rural (non-farm) Agriculture Other 2. Total acreage of project area: \_\_\_\_\_0.78 acres. APPROXIMATE ACREAGE PRESENTLY AFTER COMPLETION Meadow or Brushland (Non-agricultural) acres acres Forested acres acres Agricultural (Includes orchards, cropland, pasture, etc.) acres acres Wetland (Freshwater or tidal as per Articles 24,25 of ECL) acres acres Water Surface Area acres acres Unvegetated (Rock, earth or fill) acres acres Roads, buildings and other paved surfaces acres \_\_\_\_ acres Other (Indicate type) acres acres 3. What is predominant soil type(s) on project site? N/A - the site is entirely paved. Well drained \_\_\_\_% of site \_\_\_ Moderately well drained \_\_\_\_\_% of site. a. Soil drainage: Poorly drained \_\_\_\_\_% of site If any agricultural land is involved, how many acres of soil are classified within soil group 1 through 4 of the NYS Land Classification System? N/A acres (see 1 NYCRR 370). Are there bedrock outcroppings on project site? a. What is depth to bedrock \_\_\_\_\_ (in feet) 5. Approximate percentage of proposed project site with slopes: 10- 15% \_\_\_\_\_% 15% or greater \_\_\_\_\_% ✓ 0-10% 100% 6. Is project substantially contiguous to, or contain a building, site, or district, listed on the State or National Registers of **Historic Places?** 7. Is project substantially contiguous to a site listed on the Register of National Natural Landmarks? 8. What is the depth of the water table? N/A (in feet) 9. Is site located over a primary, principal, or sole source aquifer? No

10. Do hunting, fishing or shell fishing opportunities presently exist in the project area?

11.	Does project site contain any species of plant or animal life that is identified as threatened or endangered?
	According to:
	Identify each species:
12.	Are there any unique or unusual land forms on the project site? (i.e., cliffs, dunes, other geological formations?
	Yes ■ No
	Describe:
13.	Is the project site presently used by the community or neighborhood as an open space or recreation area?
	Yes   ■ No
	If yes, explain:
14	Does the present site include scenic views known to be important to the community?  Yes  No
• • •	Tes the present site mental seems that a seempercant to the community.
16	Streams within or contiguous to project area:
٠.,	
	N/A
	New of Change of Division 1 and 1 an
	a. Name of Stream and name of River to which it is tributary
	N/A
16.	Lakes, ponds, wetland areas within or contiguous to project area:
	N/A
	b. Size (in acres):
	N/A

Is the site served by existing public utilities?
a. If YES, does sufficient capacity exist to allow connection?
b. If YES, will improvements be necessary to allow connection?
Is the site located in an agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?  Yes  No
Is the site located in or substantially contiguous to a Critical Environmental Area designated pursuant to Article 8 of the ECL, and 6 NYCRR 617? Yes No
Has the site ever been used for the disposal of solid or hazardous wastes?  Yes  Project Description
Physical dimensions and scale of project (fill in dimensions as appropriate).
a. Total contiguous acreage owned or controlled by project sponsor: N/A acres.
b. Project acreage to be developed: N/A acres initially; N/A acres ultimately.
c. Project acreage to remain undeveloped: N/A acres.
d. Length of project, in miles: N/A (if appropriate)
e. If the project is an expansion, indicate percent of expansion proposed. $N/A$ %
f. Number of off-street parking spaces existing6; proposed
g. Maximum vehicular trips generated per hour: N/A (upon completion of project)? No change from No Action
n. If residential: Number and type of housing units: N/A
One Family Two Family Multiple Family Condominium
Initially
Ultimately
. Dimensions (in feet) of largest proposed structure:N/A height;N/A width;N/A length.
Linear feet of frontage along a public thoroughfare project will occupy is? N/A ft.
How much natural material (i.e. rock, earth, etc.) will be removed from the site? N/A tons/cubic yards.
Will disturbed areas be reclaimed Yes No NA
If yes, for what intended purpose is the site being reclaimed?
o. Will topsoil be stockpiled for reclamation?
Will topsoil be stockpiled for reclamation?     Will upper subsoil be stockpiled for reclamation?     Yes     No

5.	Will any mature forest (over 100 years old) or other locally-important vegetation be removed by this project?
	Yes ■ No
6.	If single phase project: Anticipated period of construction: $N/A$ months, (including demolition)
7.	If multi-phased: N/A
	a. Total number of phases anticipated (number)
	b. Anticipated date of commencement phase 1: month year, (including demolition)
	c. Approximate completion date of final phase: month year.
	d. Is phase 1 functionally dependent on subsequent phases? Yes No
8.	Will blasting occur during construction? Yes No
9.	Number of jobs generated: during construction $N/A$ ; after project is complete
10	. Number of jobs eliminated by this project $N/A$ .
11.	Will project require relocation of any projects or facilities? Yes No
	If yes, explain:
12.	. Is surface liquid waste disposal involved? Yes No
	a. If yes, indicate type of waste (sewage, industrial, etc) and amount
	b. Name of water body into which effluent will be discharged
13.	. Is subsurface liquid waste disposal involved? Yes • No Type
14.	Will surface area of an existing water body increase or decrease by proposal? Yes No
	If yes, explain:
	. Is project or any portion of project located in a 100 year flood plain? Yes No
16.	Will the project generate solid waste? Yes No
	a. If yes, what is the amount per month?tons
	b. If yes, will an existing solid waste facility be used? Yes No
	c. If yes, give name ; location
	d. Will any wastes not go into a sewage disposal system or into a sanitary landfill? Yes No

e.	If yes, explain:
17.	Will the project involve the disposal of solid waste? Yes No
	a. If yes, what is the anticipated rate of disposal? tons/month.
	b. If yes, what is the anticipated site life? years.
18.	Will project use herbicides or pesticides? Yes No
19.	Will project routinely produce odors (more than one hour per day)? Yes No
20.	Will project produce operating noise exceeding the local ambient noise levels? Yes No
21,	Will project result in an increase in energy use? Yes No
	If yes, indicate type(s)
Γ	
22.	If water supply is from wells, indicate pumping capacity <u>N/A</u> gallons/minute.
23.	Total anticipated water usage per day $\underline{N/A}$ gallons/day.
24.	Does project involve Local, State or Federal funding? Yes No
lf	yes, explain:
<u> </u>	

25.	Approvals Required:			Туре	Submittal Date
	City, Town, Village Board	Yes	<b>™</b> No	·	
	City, Town, Village Planning Board	Yes	■ No		
	City, Town Zoning Board	Yes	■ No		
	City, County Health Department	Yes	■ No	<u> </u>	
	Other Local Agencies	Yes	■ No		· · · · · · · · · · · · · · · · · · ·
	Other Regional Agencies	Yes	■ No		
	State Agencies	Yes	No No	Approval by the New York  Public Service Commission	11/7/11
	Federal Agencies	Yes	■No		
C. 1.	Zoning and Planning Information  Does proposed action involve a plan  If Yes, indicate decision required:	ning or zonin	g decision? Ye	s No	
	Zoning amendment	Zoning var	riance	New/revision of master plan	Subdivision
	Site plan	Special us	e permit	Resource management plan	Other

Vhat is the zoning classification(s) of the site?			
C1-9			
What is the maximum potential development of the site if	developed as permitted by the prese	nt zoning?	
Maximum Allowable Floor Area Ratio is 10			
What is the proposed zoning of the site?			-
N/A			
What is the maximum potential development of the site if	developed as permitted by the propo	osed zoning?	
N/A			
the proposed action consistent with the recommended u	ses in adopted local land use plans?	Yes	No
/hat are the predominant land use(s) and zoning classifica	tions within a ¼ mile radius of prop	osed action?	
Residential and Commercial	1		
·			
the proposed action compatible with adjoining/surroundi	ng land uses with a ½ mile?	<b>▼</b> Yes	No

10. Will proposed action require any authorization(s) for the formation of sewer or water districts? Yes No	
11. Will the proposed action create a demand for any community provided services (recreation, education, police, fire protection).  Yes  No	on?
a. If yes, is existing capacity sufficient to handle projected demand?	
12. Will the proposed action result in the generation of traffic significantly above present levels?  a. If yes, is the existing road network adequate to handle the additional traffic.  Yes  No	
D. Informational Details  Attach any additional information as may be needed to clarify your project. If there are or may be any adverse impacts associated with your proposal, please discuss such impacts and the measures which you propose to mitigate or avoid them.	
E. Verification	
I certify that the information provided above is true to the best of my knowledge.	
Applicant/Sponsor Name Verizon New York Inc.  Date 11/7/11	·
Signature	

If the action is in the Coastal Area, and you are a state agency, complete the Coastal Assessment Form before proceeding with this assessment.

### PART 2 - PROJECT IMPACTS AND THEIR MAGNITUDE

Responsibility of Lead Agency

General Information	(Read	Carefully	)
---------------------	-------	-----------	---

- In completing the form the reviewer should be guided by the question. Have my responses and determinations been reasonable? The reviewer is not expected to be an expert environmental analyst.
- The Examples provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for a Potential Large Impact response, thus requiring evaluation in Part 3.
- The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been Ţ offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- The number of examples per question does not indicate the importance of each question.
- In identifying impacts, consider long term, short term and cumulative effects.

#### Instructions (Read carefully)

- Answer each of the 20 questions in PART 2. Answer Yes if there will be any impact. a.
- Maybe answers should be considered as Yes answers. þ.
- If answering Yes to a question then check the appropriate box(column 1 or 2)to indicate the potential size of the impact, If C. impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- ' d. Identifying that an Impact will be potentially large (column 2) does not mean that it is also necessarily significant. Any large impact must be evaluated in PART 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- If reviewer has doubt about size of the impact then consider the impact as potentially large and proceed to PART 3. e.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the Yes box in column 3. A No response indicates that such a reduction is not possible. This must be explained in Part 3.

		1 Small to Moderate Impact	2 Potential Large Impact	3 Can Impact Be Mitigated by Project Change
Impact of	n Land			
Will the Proposed Action result in a site?	physical change to the project	•		
NO X YES

	runoff? NO YES			
	Examples that would apply to column 2 Proposed Action would change flood water flows			Yes No
	Proposed Action may cause substantial erosion.			Yes No
	Proposed Action is incompatible with existing drainage patterns.			Yes No
	<ul> <li>Proposed Action will allow development in a designated floodway.</li> </ul>			Yes No
	Other impacts:			Yes No
	IMPACT ON AIR			
7.	Will Proposed Action affect air quality?  NO YES			
	Examples that would apply to column 2     Proposed Action will induce 1,000 or more vehicle trips in any given hour.			Yes No
	Proposed Action will result in the incineration of more than 1 ton of refuse per hour.			Yes No
	<ul> <li>Emission rate of total contaminants will exceed 5 lbs. per hour or a heat source producing more than 10 million BTU's per hour.</li> </ul>			Yes No
	Proposed Action will allow an increase in the amount of land committed to industrial use.			Yes No
	Proposed Action will allow an increase in the density of industrial development within existing industrial areas.			Yes No
	Other impacts:			Yes No
	IMPACT ON PLANTS AND ANIMALS			· · · · · · · · · · · · · · · · · · ·
8.	Will Proposed Action affect any threatened or endangered species?  NO YES		·	
	Reduction of one or more species listed on the New York or Federal list, using the site, over or near the site, or found on the site.			Yes No

		Small to Moderate Impact	Potential Large Impact	Can Impact Be Mitigated by Project Change
	Removal of any portion of a critical or significant wildlife habitat.			Yes No
	<ul> <li>Application of pesticide or herbicide more than twice a year, other than for agricultural purposes.</li> </ul>			Yes No
	Other impacts:			Yes No
€.	Will Proposed Action substantially affect non-threatened or non-endangered species?  NO YES			
	Proposed Action would substantially interfere with any resident or migratory fish, shellfish or wildlife species.			Yes No
	<ul> <li>Proposed Action requires the removal of more than 10 acres of mature forest (over 100 years of age) or other locally important vegetation.</li> </ul>			Yes No
	Other impacts:			Yes No
	IMPACT ON AGRICULTURAL LAND RESOURCES			
0.	Will Proposed Action affect agricultural land resources?  NO  YES			
	Examples that would apply to column 2     The Proposed Action would sever, cross or limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc.)			Yes No
	<ul> <li>Construction activity would excavate or compact the soil profile of agricultural land.</li> </ul>			Yes No
	<ul> <li>The Proposed Action would irreversibly convert more than 10 acres of agricultural land or, if located in an Agricultural District, more than 2.5 acres of agricultural land.</li> </ul>		· 🗖	Yes No

		Small to Moderate Impact	Potential Large Impact	Can Impact Be Mitigated by Project Change
	<ul> <li>The Proposed Action would disrupt or prevent installation of agricultural land management systems (e.g., subsurface drain lines, outlet ditches, strip cropping); or create a need for such measures (e.g. cause a farm field to drain poorly due to increased runoff).</li> </ul>			Yes No
	Other impacts:			Yes No
	IMPACT ON AESTHETIC RESOURCES			
11.	Will Proposed Action affect aesthetic resources? (If necessary, use the Visual EAF Addendum in Section 617.20, Appendix B.)  NO YES			
	Proposed land uses, or project components obviously different from or in sharp contrast to current surrounding land use patterns, whether man-made or natural.			Yes No
	<ul> <li>Proposed land uses, or project components visible to users of aesthetic resources which will eliminate or significantly reduce their enjoyment of the aesthetic qualities of that resource.</li> </ul>			Yes No
	<ul> <li>Project components that will result in the elimination or significant screening of scenic views known to be important to the area.</li> </ul>			Yes No
	Other impacts:			Yes No
	IMPACT ON HISTORIC AND ARCHAEOLOGICAL RESOURCES	·		
12.	Will Proposed Action impact any site or structure of historic, prehistoric or paleontological importance?			
	Proposed Action occurring wholly or partially within or substantially contiguous to any facility or site listed on the State or National Register of historic places.	<u> </u>		Yes No
	Any impact to an archaeological site or fossil bed located within the project site.			Yes No
	<ul> <li>Proposed Action will occur in an area designated as sensitive for archaeological sites on the NYS Site Inventory.</li> </ul>			Yes No

Case 11-0	:
Environm	ental Quality Review

#### Draft 11/10/11

Under the State Environmental Quality Review Act (SEQRA), Article 8 of the Environmental Conservation Law, and its implementing regulations, (6 NYCRR Part 617 and 16 NYCRR Part 7), all State agencies must determine whether the actions they are requested to approve may have a significant impact on the environment. Other than our approval of the action proposed here, no additional State or local permits or approvals for the sale of the building are required, and so a coordinated review under SEQRA is not needed. We will assume Lead Agency Status under SEQRA and conduct an environmental assessment.

SEQRA (6 NYCRR § 617.6 (a) (3)) requires applicants to submit a completed environmental assessment form (EAF) describing and disclosing the likely impacts of the proposed actions. Petitioner submitted a full Part I EAF long-form.

The proposed action is the approval of the sale of a portion of Verizon's office building located at 240 East 38<sup>th</sup> Street, New York, New York. The proposed action does not meet the definition of either Type 1 or Type 2 actions that are contained in 6 NYCRR §'s 617.4, 617.5, and 16 NYCRR § 7.2, so it is classified as an "unlisted" action requiring SEQRA review. After review of the EAF and the petition, we conclude, based upon the criteria for determining significance listed in 6 NYCRR § 617.7(c), that there will be no changes due to the sale of the property interests that will result in significant adverse environmental impacts. Staff has completed Part 2 of the EAF long-form.

As lead agency, we determine that the action proposed in the petition will not have a significant impact on the environment and adopt a negative declaration pursuant to SEQRA. Because no adverse environmental impacts were found, no Public Notice Requesting Comments is required or will be issued. A Notice of Determination of Non-Significance for this unlisted action is attached. The completed EAF will be retained in our files.

# STATE OF NEW YORK PUBLIC SERVICE COMMISSION

CASE 11-C- Petition of Verizon New York Inc. for Approval to sell the third floor unit of a condominium located at 240 East 38<sup>th</sup> Street, New York, New York.

# NOTICE OF DETERMINATION OF NON-SIGNIFICANCE

NOTICE is hereby given that an Environmental Impact Statement will not be prepared in connection with the approval by the Public Service Commission, for the sale of the third floor unit of a condominium located at 240 East 38<sup>th</sup> Street, New York, New York. by Verizon New York Inc., based upon our determination, in accordance with Article 8 of the Environmental Conservation Law, that such action will not have a significant adverse effect on the environment. The exercise of this approval is an Unlisted Action as defined in 6 NYCRR Section 617.7(c).

Based upon our review of the record, we find that the proposed action, which will authorize the transfer of land and real property from Verizon New York, Inc. to the purchaser, New York University, a company that is not affiliated with Verizon New York Inc., under Section 99 of the Public Service Law, will not result in significant adverse environmental impacts.

The address of the Public Service Commission, the lead agency for the purposes of the Environmental Quality Review of this project is Three Empire State Plaza, Albany, New York 12223-1350. Questions may be directed to Richard H. Powell at (518) 486-2885 or to the address above.

JACLYN A. BRILLING Secretary
