**NOTICE IS HEREBY GIVEN** by The Brooklyn Union Gas Company d/b/a National Grid NY ("Company") that it has filed with the New York State Public Service Commission ("Commission") tariff revisions to its Schedule for Gas Service, PSC No.12 – GAS, that are proposed to become effective March 1, 2016.

The Company is proposing an increase in delivery revenue of approximately \$245 million for Calendar Year 2017 to address its revenue deficiency. The principal reasons for the need for rate relief are substantially higher capital investment requirements and increases in operating costs that are not reflected in current rates. The table below compares the Company's current and proposed rates. Note that the tables do not include a monthly cost of gas factor.

The Company is also proposing to add three new surcharges: (i) a Gas Safety and Reliability Surcharge, (ii) a New York Facilities System Surcharge and (iii) an Electric Generator Revenue Reconciliation Surcharge. Additionally, the Company is proposing a Newtown Creek Project credit and to increase the discount for the Reduced Residential Rate program.

The Company's filing is subject to approval by the Commission and the rates approved may be different from those proposed. The Company expects that the Commission will suspend its proposed rates for the maximum period permitted under the Public Service Law, which would mean an effective date of revised rates of January 1, 2017.

Copies of the proposed revisions are available for public inspection and can be obtained on the Company's website at <https://www1.nationalgridus.com/RateCase2016LI-NYL-RES>, the PSC's website ([dps.ny.gov](http://dps.ny.gov)), or by writing National Grid, Pricing Department, One MetroTech Center, Brooklyn, New York 11201.

**THE BROOKLYN UNION GAS COMPANY d/b/a NATIONAL GRID NY**

**NOTICE IS HEREBY GIVEN** by The Brooklyn Union Gas Company d/b/a National Grid NY ("Company") that it has filed with the New York State Public Service Commission ("Commission") tariff revisions to its Schedule for Gas Service, PSC No.12 – GAS, that are proposed to become effective March 1, 2016.

The Company is proposing an increase in delivery revenue of approximately \$245 million for Calendar Year 2017 to address its revenue deficiency. The principal reasons for the need for rate relief are substantially higher capital investment requirements and increases in operating costs that are not reflected in current rates. The table below compares the Company's current and proposed rates. Note that the tables do not include a monthly cost of gas factor.
