

STATE OF NEW YORK  
PUBLIC SERVICE COMMISSION

CASE 25-E-0072 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Consolidated Edison Company of New York, Inc. for Electric Service.

CASE 25-G-0073 - Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Consolidated Edison Company of New York, Inc. for Gas Service.

NOTICE SOLICITING COMMENTS AND ANNOUNCING  
IN-PERSON PUBLIC STATEMENT HEARINGS

(Issued June 13, 2025)

**PLEASE TAKE NOTICE** that public comment is invited concerning proposed changes in the electric and gas delivery rates and practices of Consolidated Edison Company of New York, Inc. (Con Edison).

Con Edison filed amendments to its electric and gas tariff schedules on January 31, 2025, proposing to increase its annual electric and gas delivery revenues for the 12-month period ending December 31, 2026. Con Edison proposes to increase its electric delivery revenues by approximately \$1.6 billion (an 11.4 percent increase in total revenues or 18.0 percent increase in base delivery revenues), and its natural gas delivery revenues by approximately \$440 million (a 13.3 percent increase in total revenues or 18.8 percent increase in base delivery revenues). The actual bill impacts of these proposed changes on any particular customer class will vary based upon revenue allocation and rate design.

Con Edison states that the requested electric increase will help accommodate demand growth, especially with clean energy options and substation investments; maintain reliability

with investments in feeder replacements; and allow for enhanced system resiliency. Con Edison states that the requested gas increase would allow it to maintain the safety of its gas system, reduce methane emissions, improve customer outreach and accessibility, enhance customer support, and promote energy efficiency programs. Con Edison also indicates that the primary drivers of the requested electric delivery revenue increase are local property taxes, new infrastructure investments, and operating expense, and that the primary drivers of the requested gas delivery revenue increase are operating expenses, depreciation expenses, new infrastructure expenses, and return on equity.
