Re: Case 22-E-0064 - Consolidated Edison Company of New York, Inc., Electric Rates.
Case 22-G-0065 - Consolidated Edison Company of New York, Inc., Gas Rates.

Dear Edward Sherwin:

I received your letter dated September 26, 2024, on behalf of Consolidated Edison Company of New York, Inc. (the Company), requesting an extension of time to file its business plan for its Retail Access System Replacement project, as required by the Commission in its *Order Adopting Terms of Joint Proposal and Establishing Electric and Gas Rate Plans with Additional Requirements*, issued July 20, 2023 (Order), in the above-referenced proceedings. The filing is due September 30, 2024.

You state that the Company has undertaken a robust process to develop its business plan, including benchmarking with industry peers and reviewing their experience with the products available in the market, as well as conducting multiple surveys of energy services companies and other relevant stakeholders to solicit their feedback on program capabilities, testing protocols, and other key features of the business plan. You advise that the Company is continuing to evaluate its options for replacing its legacy Retail Access systems, including potential alternatives, their relative costs and benefits, and integration with other Company systems. Therefore, you are requesting an extension until December 2, 2024, to complete the Company's review and file its business plan with the Commission.

Based upon the information provided, an extension until December 2, 2024, is granted to Consolidated Edison Company of New York, Inc. to file its Retail Access System Replacement business plan as required by the Order. This extension is granted to promote the fair, orderly, and efficient conduct of these proceedings. This ruling will be posted on the Department's website.

Sincerely,

Michelle L. Phillips
Secretary
