## MUNICIPAL ELECTRIC UTILITIES

# ANNUAL REPORT

OF

### VILLAGE OF RICHMONDVILLE

Exact legal name of reporting municipality
(If name was changed during year, show also the previous name and date of change)

295 Main Street, Richmondville, NY 12149

(Address of principal business office at end of year)

FOR THE

Year Ended May 31, 2012 TO THE

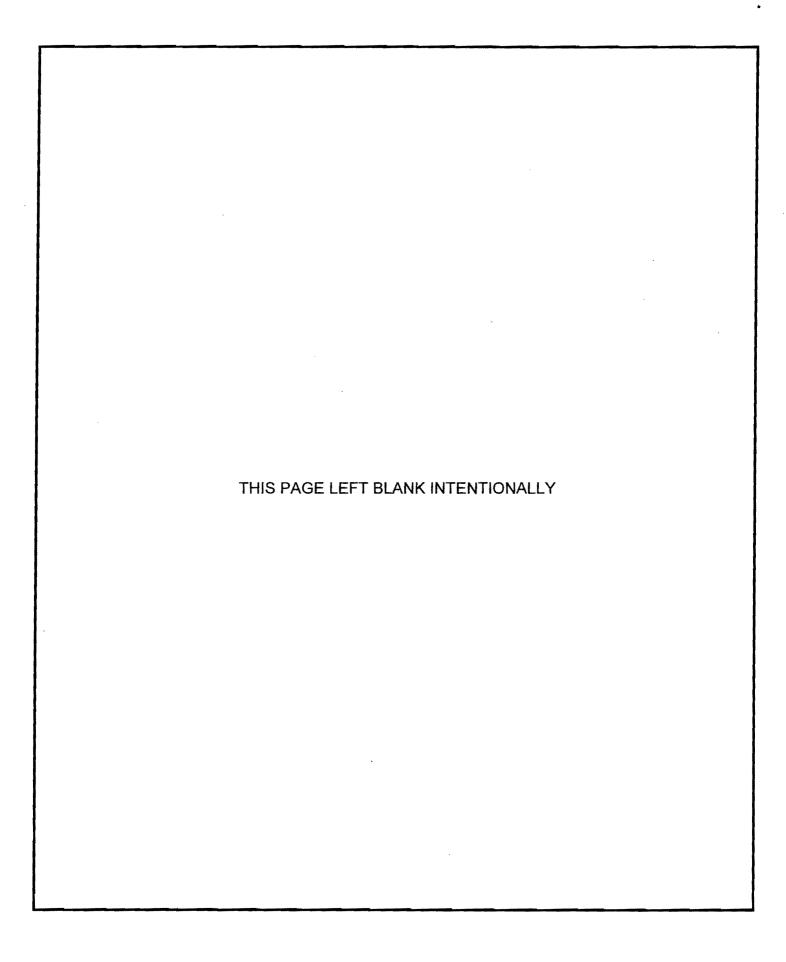

STATE OF NEW YORK

**PUBLIC SERVICE COMMISSION** 

Name, title, address and telephone number (including area code), of the person to contact concerning this report:

Ashley Puro - Treasurer, 295 Main Street, Richmondville, NY 12149, (518) 294-7700

James Swartout - Superintendent, 295 Main Street, Richmondville, NY 12149, (518) 294-7700

#### **GENERAL INSTRUCTIONS**

- 1. This form of annual report is prepared in conformity with the Uniform System of Accounts prescribed for municipal electric utilities by the Public Service Commission, State of New York, in Case 8312, as provided in the statutes of the said State, and except as otherwise indicated, all accounting words and phrases, herein are to be interpreted in accordance with the said classification.
- The respondent should make its annual report on this form in duplicate and file the original copy, duly verified, in the office of the Public Service Commission, retaining the other copy in its files. Additional copies shall be filed if required by the Commission.
- 3. Every annual report should be complete and reference to former years or to other reports should not be made to take the place of required entries except as otherwise authorized.
- 4. This report form is designed to cover the fiscal year ended May 31. If the respondent makes a report for any other period, that period must be clearly stated on the front cover and elsewhere throughout the report where the period covered is shown.
- 5. Whenever the term respondent is used, it shall be understood to mean the reporting utility.
- 6. Submit to the Commission with this report a copy of the latest annual report of the lighting department to to the municipal board. If such report is not available, state that fact.
- 7 Inserts, if any, should be appropriately identified with the schedules to which they relate.
- 8. Cents are to be omitted on all schedules except where they apply to averages and figures per unit where cents are important. The amounts shown on all supporting schedules shall agree with the item in the statement they support.

If system's financial information is audited, reviewed, or compiled by an independent accountant, please attach the accountants' report to the back of this report (paper copy).

\* The numbering system used here coincides with the system used by the FERC electric and gas annual reports.

### **GENERAL INFORMATION**

1. Exact name of the respondent municipality.

Village of Richmondville Power and Light Company

- 2. Under what law or laws is the respondent engaged in:
- (a) Street lighting

(b) Commercial lighting

Village Laws of NYS

Village Laws of NYS

3. By what board or officers is the lighting plant directly controlled? How many members are such controlled?

Board of Trustees (four trustees) and Mayor

- 4. Give date of respondent's beginning:
- (a) Street lighting

(b) Commercial lighting

April 19, 1919

April 19, 1919

5. Does the electric utility use any property jointly owned with any other operating municipality? If so, describe the property so used naming the departments involved and explain the arrangement for the allocation of the expenses connected therein.

Street, Water, and Sewer Departments - Equipment and tools as needed

6. State whether the power plant of the respondent is used for any purpose other than generating electricity, and if so, give full particulars.

No power plant

7. State the character of motive power used in the generation of electricity. If energy is purchased, so state.

Energy is purchased

8. Does respondent distribute any electricity outside the limits of the reporting municipality?

Yes - Town of Richmondville

9. Give the name of village or city clerk at date of verifying report.

Ashley Puro

### COMMISSIONERS, OFFICERS, AND EMPLOYEES (Including Compensation)

- 1. Furnish the indicated data with respect to commissioners, officers and supervisors, whether or not they received any compensation from the respondent. If other than salary is provided, please explain and quantify in the notes.
- 2. Furnish the indicated data with respect to all employees of the municipal electric system. Employees may be grouped by title, e.g., "4 linemen" or "2 meter readers".
- 3. Officers or supervisors include the lighting department's superintendent, clerk-treasurer, deputy and any other person who has significant supervisory or policy making responsibilities.
- 4 Indicate with an asterisk (\*) in column (a) those individuals who were members of the governing board body of the municipal electric system.

NOTES: Provide an estimate of the salary and wages allocated to the electric department which are charged to capital accounts. Provide the basis for such allocation.

CAPITALIZED WAGES, DURING FISCAL YEAR 2011-2012, WERE APPROXIMATELY \$24,622 AND THEY WERE ALLOCATED THROUGH THE WORK ORDER SYSTEM

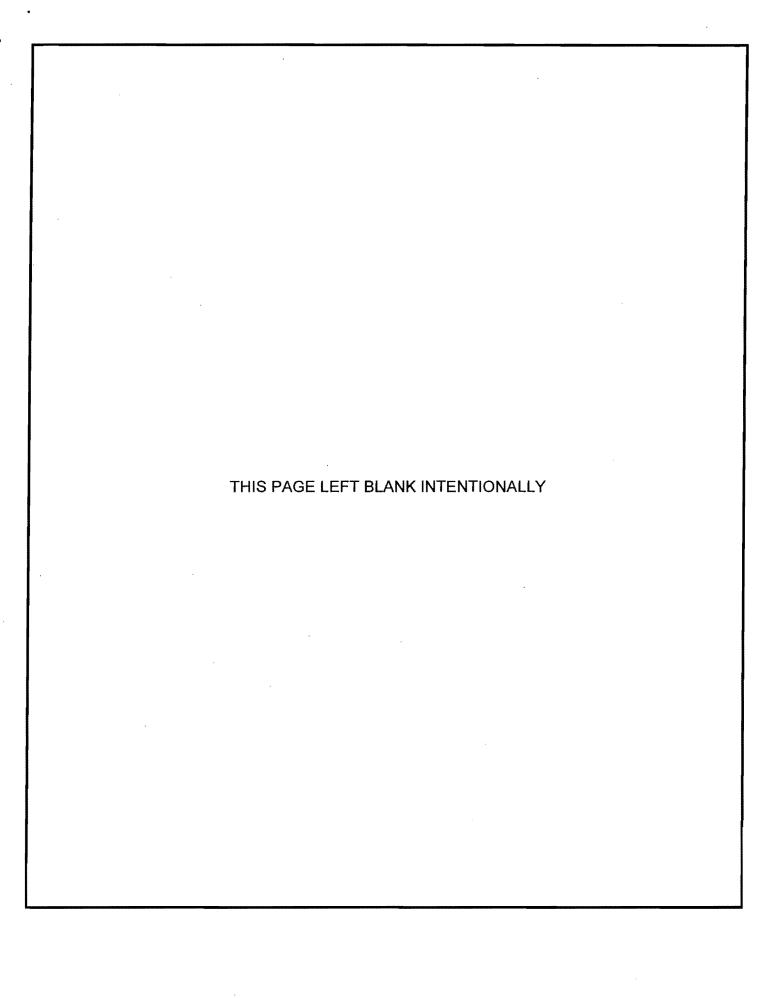

### IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none", "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefor and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- 2. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less.

- 4. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.
- 5. State the estimated annual effect and nature of any important wage scale changes during the year.
- 6. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- Describe briefly any materially important event or transactions of the respondent not disclosed elsewhere in this report.

### **OPERATING PROPERTY**

- 1. Show below the required information regarding electric operating property accounts for the year.
- 2. Transfers in column (e) should be restricted to entries made during the year to reflect changes in use of plant under circumstances which do not call for retirement accounting. This includes the transfer of plant from one class of utility to another, or between plant accounts within the electric department. Include in this column and clearly indicate as such transfers from subdivisions of accounts temporarily carried for plant in process of reclassification.

### **OPERATING PROPERTY (Continued)**

- "Adjustments during the year" should be interpreted to mean entries, if any, made in operating property accounts not to record current transactions but as modification of entries made in prior accounting periods.
- 4. In an attached memorandum explain all entries in column (f).
- 5. In column (i) enter the annual depreciation rate for the continuing property account listed in column (h).
- 6. I column (j) enter the year end balance in the 261 account for the continuing property account listed in column (h).

		Balance at	Acct.	Depreciation Reserve		1

### Investments (Accounts 113, 114, 115 and 117)

- 1. Report below investments in Accounts 113, Loans to Operating Municipality; 114, Miscellaneous Investments; 115, Sinking Funds; and 117, Miscellaneous Special Funds.
- 2. Investment in Securities List and describe each security owned, giving name of issuer. For bonds also give principal amount, date of issue, maturity, and interest rate. For capital stock state number of shares, class and series of stock. Minor investments may be grouped by classes.
- 3. Investment Advances Report separately for each person or company the amounts of loans or investment advances which are subject to repayment but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. Each note should be listed giving date of issuance, maturity date, and specifying whether note is a renewal. Designate any advances due from officers, commissioners, or employees.
- 4. For any securities, notes, or accounts that were pledged, designate such securities, notes or accounts and in a footnote state the name of the pledgee and purpose of the pledge.

### **DEPRECIATION FUNDS (Account 116)**

- Show below a statement of transactions carried out during the year through Account 116 Depreciation Fund
  or through any other account or subaccount maintained for the purpose of holding funds or other investments
  to cover the depreciation or replacement of plant.
- 2. Interest earned on such funds should be shown separately, whether retained in the account or not.
- 3. This schedule is intended to cover all funds maintained for the purposes indicated and to include the depreciation reserve fund required by Section 6-k of the General Municipal Law.

<sup>4.</sup> Summarize the collection and write-off practices applied to overdue customers' accounts.

### LONG-TERM DEBT (Accounts 231, 232, and 233)

- 1. Report by balance sheet account the particulars concerning long-term debt included in Accounts 231, Bonds, 232, Long Term Equipment Obligations, and 233, Miscellaneous Long-Term Debt.
- 2. For column (d) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
- Furnish in a footnote particulars regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
- 4. Identify separate indisposed amounts applicable to issues which were redeemed in prior years.
- 5. Explain any debits and credits other than amortization debited to Account 453, Amortization of Debt Discount and Expense, or credited to Account 454, Release of Premium on Debt Credit.

### LONG-TERM DEBT (Accounts 231, 232, and 233)

- 6. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote
- Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued
- If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 8. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 451, Interest on Long-Term Debt.

#### **ELECTRIC OPERATING REVENUES (Account 401)**

- 1. Report below electric operating revenues for the year for each account.
- 2. Number of customers, columns (I) and (m), should be reported on the number of meters, plus number of flat rate accounts, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters so added. The average number of customers means the average of twelve figures at the close of each month. If customer count in the residential and commercial classifications includes customers counted more than once because of special services, indicate in a footnote the number of such customers included in each of the two service classifications.
- 3. If preceding year columns (i), (k) and (m) are not derived from previously reported figures, explain any inconsistencies.

### SALES BY SERVICE CLASSIFICATION - ELECTRIC

- Show below by months the number of customers and the KWH of electric energy under each schedule and classification. When the same
  rate is contained on more than one schedule, all sales and revenues under that rate may be combined, but each schedule and each,
  classification No, must be shown on the column heading above the columns in which sales are listed.
- 2. Contract sales within each month, not charged under a filed tariff, may be combined under a general heading "Contract Sales", all current delivered to the operating municipality should be combined under "Sales to Operating Municipality": sales to other municipalities for street lighting purposes or under special arrangements should be grouped under "Sales to Other Municipalities". Amounts of revenue should be reported on the same basis as entries in column (f) of page 300 and amounts receivable on other than a monthly basis may be allocated on equal amounts to the months where applicable.
- 3. Below line thirteen show the manner in which the sales under the service classification or contracts were distributed to the revenue accounts.
- 4. The Kwh shown in this schedule shall be measured by consumers' meters or in the case of sales not metered, estimated at the point of delivery to the customer, or in the case of street lighting for which the utility furnishes the conductors, at the lamp.
- Show below by months the following information with respect to the Purchased Power Adjustment Clause (PPAC);
   PPAC factor per kwh as shown on monthly statements; (b) total kwh to the PPAC factor was applied; (c) revenues generated from the application of the PPAC.
  - 6. In footnotes provide the following; Base Purchased Power Cost(s) and the period for which effective.

### **ELECTRICITY PURCHASED AND SALES TO OTHER DISTRIBUTORS**

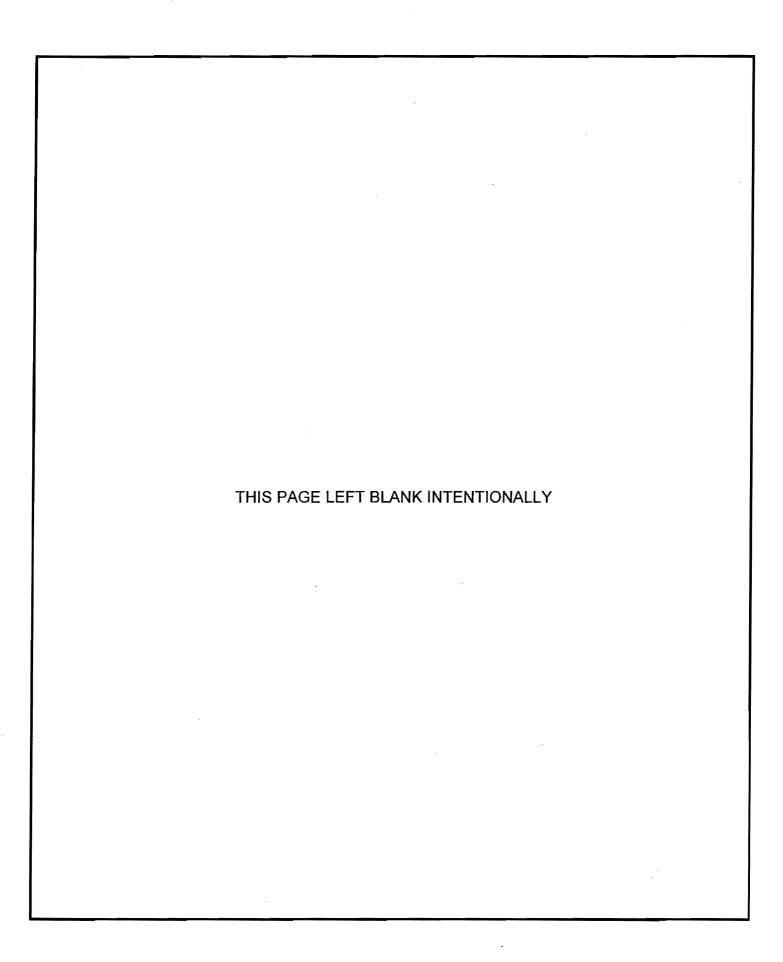

- 1. Show the particulars of electric energy purchased for redistribution in so far as such transactions come within the scope of account 721, Electricity Purchased.
- 2. Give corresponding particulars of such sales of electricity as come within the scope of account 606, Sales to Other Distributors.
- 3. Show in column (b) the Service Classification Number or the date of the contract under which purchases or sales were made. If any change in rates occurred during the year give entries in columns (b) thru (f) separately in respect of each rate, and specify the period within the year to which each rate was applicable.

#### ANALYSIS OF CHARGES TO OTHER DEPARTMENTS OF OPERATING MUNICIPALITY

- 1. Show below all items which during the year were charged by the 3. In column (c) show for each item the basis upon which was electric department to other departments of the operating municipality, determined the amount charged to other departments of the
- Items should be classified according to their nature and should be shown in the following order and lettered to correspond to the subdivisions indicated.
  - a. Contributions of cash, material and supplies, equipment or real property, subdivided according to the nature of the items.
  - b. Salaries of executives, subdivided by title of positions.
  - c. Wages, subdivided by class of labor.
  - d. Other personal service, subdivided by classes of service.
  - e. Public street lighting
  - f. Other electric service
  - g. Steam
  - h. Space rental, subdivided by location and type of structure or lanc an allocated basis or at a rate other than that actually paid.
  - i. Building service, subdivided by location and type of building.
  - Use of Facilities or equipment, subdivided by classes of equipment.
  - k. Insurance, subdivided by types of protection.
  - I. Pensions, subdivided by classes of employees.
  - m. Other items, classified according to type and purpose

- 3. In column (c) show for each item the basis upon which was determined the amount charged to other departments of the municipality and in columns (d) and (e) the amount so charged, subdivided between amounts which are subject to current settlement and amounts representing contributions and includible in account 280. In columns (f) to (i) show for each charge the distribution of credits to accounts of the electric department.
- 4. Payroll charges which are distributed to other departments of the municipality on the basis of the time actually devoted to such departments and at the rate actually paid to the employee should be so described and listed separately from payroll items which are distributed on to an allocated basis or at a rate other than that actually paid.
- In each subdivision, items of like nature which for the year did not exceed five dollars may be grouped and shown in total, provided that for each group the number of such items is stated.

		MONTHLY PEAK	S AND	ОПТРИТ	

- If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.
- 2. Report in column (b) the system's energy output for each month such that the total on line 41 matches the total on line 20.
- 3. Report in column (c) a monthly breakdown of the Non-Requirements Sales for Resale reported on line 24. Include in the monthly amounts any energy losses associated with the

sales so that the total of line 41 exceeds the amount on line 24 by the amount of losses incurred (or estimated) in making the Non-Requirements Sales for Resale.

- 4. Report in column (d) the system's monthly maximum kilowatt load (60-minute integration) associated with the net energy for the system defined as the difference between columns (b) and (c).
- 5. Report in columns (e) and (f) the specified information for each monthly peak load reported in column (d).

### **GENERATING PLANT STATISTICS**

- List plants appropriately under subheadings for steam, hydro, nuclear, internal combustion and gas turbine plants.
   If net peak demand for 60 minutes is not available, give that which is available, specifying period.
- 3. If any plant is equipped with combinations of steam, hydro, internal combustion or gas turbine equipment, report each as a separate plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, or for preheated combustion air in a boiler, report as one plant.

Line No.	Name of Plant (a)	Year Orig. Const. (b)	Installed Capacity- Name Plate Rating (in KW) (c)	Net Peak Demand KW (60 Min.) (d)	Net Generation Excluding Plant Use (e)	Cost of Plant

#### TRANSMISSION LINE STATISTICS

- Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.
- Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts.
- 3. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole, wood or steel; (2) H-frame, wood, or steel poles; (3) tower; or (4) underground construction. If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from

the remainder of the line.

- 4. Report in column (f) the total pole miles of each transmission line. In the case of underground lines, report circuit miles.
- Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of lease, and amount of rent for year.
- Designate any transmission line leased to another company and give name of lessee, date and terms of lease, annual rent for year, and how determined.

### SUBSTATIONS

- Report below the information called for concerning substations of the respondent as of the end of the year.
- 2. Substations which serve only one industrial or street railway customer should not be listed below.
- Substations with capacities of less than 10 MVa, except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
- Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended.
- 5. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership by the respondent. For any substation or equipment operated under lease, give name of lessor, date and period of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account.

Line No.	Name and Location Of Substation	Number or Other Designation	Capacity of Substation (In Service) (In MVa)	Number of Trans- formers in Service	Number of Spare Trans- formers

#### DISTRIBUTION SYSTEM

- 1. Report the indicated particulars of the electric distribution system as of the end of the year, including street and highway lighting system.
- 2. For the purposes of this schedule the interpretation of the term "distribution area" shall be at the discretion of, and the responsibility of, the the reporting utility. In general when the territory served covers considerable area these subdivisions should be selected so that, from from territorial and rate standpoints, the data reported will be of reasonable significance. Entries in column (a) should reflect the approximate geographical extent of the individual subdivision.
- 3. Entries in column (b) may be based on estimates. Entries in columns (c) and (d) should not include services.
- 4. Show hereunder a brief general statement in description of the distribution system. Indicate particularly the range of operating voltages and the sizes of wire generally used for different purposes (primaries, secondary, services, etc.) and under differing circumstances. Show also the approximate percentages of network system, of rural lines, of direct current facilities, and of alternating current service rendered at other than a 60-cycle frequency. Identify exceptions to customary practices (i.e. the last two items in the preceding sentence) with applicable distribution areas.

#### **ELECTRIC DISTRIBUTION METERS AND LINE TRANSFORMERS**

- 1. Report below the information called for concerning distribution watt-hour meters and line transformers.
- 2. Include watt-hour demand distribution meters, but not external demand meters.
- 3. Show in a footnote the number of distribution watt-hour meters or line transformers held by the respondent under lease from others, jointly owned with others, or held otherwise than by reason of sole ownership by the respondent. If 500 or more meters or line transformers are held

under a lease, give name of lessor, date and period of lease, and annual rent. If 500 or more meters or line transformers are held other than by reason of sole ownership or lease, give name of co-owner or other parties, explain basis of accounting for expenses between the parties, and state amounts and accounts affected in respondent's books of account

## **ELECTRIC WATTHOUR METERS IN-SERVICE AND TEST RESULTS**

- 1. Show the number of scheduled meter tests completed on each type of meter during the year. Also show separately the number of tests completed on each type of meter as a result of customer complaint.
- 2. Of those tested, show the number found between 98 to 102% average percentage registration before adjustment and show separately the number found that was more than 102% average percentage registration before adjustment.
- 3. List by manufacturer, type and serial number the number of portable standard watt-hour meters (rotating standards) used for testing customer watt-hour meters. Also show the most resent date that calibration was checked on each standard.

### **VERIFICATION**

The Public Service Law requires that "... it shall be the duty of every such person and corporation to file with the Commission an annual report, verified by oath of the president, vice-president, treasurer, secretary, general manager, or receiver, if any, thereof, or by the person required to file the same. The verification shall be made by said official holding office at the time of the filing of said report, and if not made upon the knowledge of the person verifying the same shall set forth the sources of his information and the grounds of his belief as to any matters not stated to be verified upon his knowledge."
