

# REQUIRED INSPECTION

Sorry we missed you...

National Fuel was here to perform mandatory inspection of its natural gas meter and adjoining piping. We were unable to access the meter inside your home/business. A safety inspection of the gas meter and adjoining piping is required by New York State Law.

Your assistance is needed to help us complete the inspection.  
Please contact us at  
716-827-5560,  
Monday through Friday  
to schedule a date and time for us to return.

This inspection will be completed  
at no cost to you.

*The New York State Public Service Commission  
approved a tariff requiring that a \$100 non-access fee  
be charged to your account if you refuse access and  
a safety inspection is not completed.*
