**Re: Matter 21-00752: Application of Riverside Solar, LLC for a Permit Pursuant to § 94-c of the New York Executive Law for Construction of a Solar Electric Generating Facility to be Located in the Towns of Lyme and Brownville, Jefferson County, NY**

Dear Sir/Madam:

We represent Riverside Solar, LLC (the “Applicant”), in the above-referenced proceeding. The Applicant hereby files its Application for a Permit to operate a Major Renewable Energy Facility pursuant to Section 94-c of the New York State Executive Law and Title 19 of NYCRR, Part 900, seeking a permit to construct an approximately 100-megawatt (MW) alternating current (AC) solar facility in the Towns of Lyme and Brownville, Jefferson County, New York (the “Project” or “Facility”).

The Project will significantly contribute to the State’s clean energy and carbon reduction goals and provide direct environmental and socioeconomic benefits to the State and the local economy. The Project is a zero-emission, renewable source of energy that will assist the State in meeting the goals of both the Climate Leadership and Community Protection Act (CLCPA) and State Energy Plan, which include obtaining 70% of the State’s energy consumption from renewable sources by 2030, and 100% of the State’s energy from clean sources by 2040. These carbon reduction benefits will enable achievement of the public health and economic goals of the CLCPA and provide benefits to consumers through the additional supply of clean, renewable electricity onto the State’s electric grid.

The Facility will also provide an economic stimulus to the area during construction by providing jobs and local contracts for goods and services. During operation, the Facility will offer long-term highly skilled operational positions and significant long-term economic benefits through lease revenue to local landowners and revenue to the community.

Although the construction and operation of the Project may result in certain temporary and long-term environmental impacts, as fully described in the Application, the Applicant has thoughtfully designed the Project in accordance with the Office of Renewable Energy Siting’s (the “Office” or

“ORES”) regulations to avoid and minimize negative impacts to land and the community. The Project design considers the natural features and surrounding land uses of the area and avoids forest clearing and wetlands to the extent practicable. The Applicant consulted with the Office and relevant State agencies, including the New York State Department of Environmental Conservation and the State Office of Parks and Historic Preservation, on the scope and preparation of environmental and cultural resource studies to ensure that the Applicant’s assessment of Project impacts aligned with State law and the Office’s regulations.

Throughout the Project design and pre-application phases, the Applicant worked with local officials from the Towns of Lyme and Brownville to understand the requirements of local law with respect to construction and operation of the Project. The Applicant held virtual meetings and open houses throughout the pre-application stage. These meetings were open to the public and provided interested stakeholders with the opportunity to learn about the Project and provide feedback on elements of Project planning. The Applicant considered and incorporated feedback from stakeholders on local concerns and interests. After many months of pre-application engagement and study, the Applicant is pleased to submit this Application under the State’s new major renewable energy facility siting and permitting process pursuant to Execution Law Section 94-c and 19 NYCRR Part 900.

In accordance with 19 NYCRR §§ 900-1.4(a)(1) and (2), the enclosed Application includes the Office’s application form and all exhibits required pursuant to 19 NYCRR Subpart 900-2. The Applicant has not requested any site-specific conditions in lieu of any exhibit requirement or uniform standard or condition. The remainder of this correspondence addresses compliance with 19 NYCRR § 900-1.4(a)(4)-(10) and § 900-1.4(b).

#### **19 NYCRR § 900-1.4(a)**

##### **(4) Project Website.**

The Applicant has created a website through which it has disseminated, and will continue to disseminate, information to the public. See <https://www.aes.com/riverside-solar-project>. The website provides the material required by 19 NYCRR § 900-1.4(a)(4).

##### **(5) Identification of Critical Infrastructure and Trade Secret Information.**

Concurrent with the filing of this Application, the Applicant submitted a request to the Office that certain documents and information contained within the Application be treated as confidential (“Request for Nondisclosure”), as specifically identified therein, pursuant to Article 7 of the New York State Public Officers Law and other applicable state and federal laws. The Applicant’s Request for Nondisclosure is provided with this Application.

##### **(6) Identification of Confidential Information.**

The application does contain confidential information with respect to the location, character, or ownership of cultural resources in Exhibit 9 and Appendices thereto. The confidential information is submitted under confidential cover with a request for confidential protection, as noted in section (5) above.

(7) Affidavit of Service.

Enclosed as Attachment 1 are the Affidavits of Service for the Application and all accompanying documents hand-delivered to ORES and for service upon the other parties identified in 19 NYCRR § 900-1.6(a) on October 15, 2021 via USPS.

(8) Payment of Local Agency Fee.

Prior to filing of this Application, the Applicant deposited payment in the local agency account in an amount equal to one thousand (1,000) dollars for each one thousand (1,000) kilowatts of the proposed project's nameplate capacity, as required by 19 NYCRR § 900- 1.4(a)(8). ORES has been notified that payment was wired for both the Local Agency and Application Fees.

(9) Payment of Application Fee.

Prior to filing of this Application, the Applicant submitted to the Office the fee required by 19 NYCRR § 900-1.5.

(10) Additional Information Requested by the Office.

The Applicant is not aware of any additional information requested by the Office.

**19 NYCRR § 900-1.4(b)**

Water Quality Certification

The Applicant will consult with the appropriate agencies, including ORES, as soon as practicable after filing the application regarding Water Quality Certification.

In accordance with 19 NYCRR § 900-1.6(c), no less than 3 days prior to the submission of this Application, the Applicant published and served 3-day notices to inform stakeholders and members of the public of the forthcoming Application. Proofs of service for these 3-day notices, which included mailings to those identified in Section 900-1.6(c) of the regulations and publication in the *Watertown Daily Times* and *Thousand Islands Sun* are appended hereto as Attachment 2. This notice is also posted to the Project website and the Town of Lyme website (<https://www.townoflyme.com/>).

Please feel free to contact our office if you have any questions regarding the above.

Very truly yours,

s/ *Jessica Ansert Klami*

Dear Sir/Madam:

This office represents the Applicant, Riverside Solar, LLC. The Applicant is proposing to construct and operate a major solar electric generating facility of up to 100 Megawatts ("MW") in electric generating capacity in the Towns of Lyme and Brownville, Jefferson County, New York (the "Facility"). Enclosed please find the Applicant's updated 3-Day Notice of Application for filing on DMM. The Applicant anticipates filing the Application on or about October 6, 2021.

Should you have any questions or require anything further, please feel free to contact us.

Respectfully submitted,

---

**NOTICE OF FILING OF APPLICATION**

Riverside Solar, LLC is proposing to construct a major electric generating facility under Section 94-c of the Executive Law. This notice announces that on or about October 5, 2021, Riverside Solar will file an Application pursuant to 19 NYCRR §900 seeking a permit from the Office of Renewable Energy Siting (ORES) authorizing the construction and operation of the Facility. A Notice of Filing of Application was previously published on or about July 21, 2021, but the application filing was delayed. A Notice of Intent to File an Application was previously published in accordance with 19 NYCRR §900-1.3(d) on or about March 26, 2021.

The Riverside Solar Project is a 100 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the towns of Lyme and Brownville in Jefferson County, New York (the “Facility”). The Facility will span approximately 1,000 acres and plans to connect on National Grid's Lyme Tap off of the Thousand Island - Coffeen 115kv line. The Facility is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 133,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include solar panels, access roads, substation, inverters, transformers, electrical collection lines, gen-tie line, and temporary construction staging and storage areas.

For more information about the Facility please visit the Facility website at <https://www.aes.com/riverside-solar-project> or contact Riverside Solar at:

Eric Will  
Senior Manager, Development  
AES Clean Energy  
866-757-7697  
Email: [riversidesidesolar@aes.com](mailto:riversidesidesolar@aes.com)

Upon filing the Application, Riverside Solar will provide funding in the amount of \$100,000 to be deposited into a local agency account to be made available to local agencies and potential community intervenors for the purpose of contributing to a complete record leading to an informed permit decision as to the appropriateness of the site and the Facility, and for local agencies, shall include the use of funds to determine whether a proposed Facility is designed to be sited, constructed and operated in compliance with applicable local laws and regulations.

Any local agency or potential community intervenor shall submit a request for initial funding **within thirty (30) days of the date of application filing** forms are available at the ORES website ([www.ores.ny.gov/resources](http://www.ores.ny.gov/resources)) and such requests can be submitted to:

<a href="mailto:general@ores.ny.gov">general@ores.ny.gov</a>	OR	by mail to:	Attention: Request for Local Agency Account Funding Office of Renewable Energy Siting Empire State Plaza 240 State Street P-1 South, J Dock Albany, NY 12242

## RIVERSIDE SOLAR

### Jefferson County, New York

#### NOTICE OF FILING OF APPLICATION

Riverside Solar, LLC is proposing to construct a major electric generating facility under Section 94-c of the Executive Law. This notice announces that on or about October 5, 2021, Riverside Solar will file an Application pursuant to 19 NYCRR §900 seeking a permit from the Office of Renewable Energy Siting (ORES) authorizing the construction and operation of the Facility. A 3-day Notice of Filing of Application was previously published on or about July 21, 2021, but the application filing was delayed. A 60-day Notice of Intent to File an Application was previously published in accordance with 19 NYCRR §900-1.3(d) on or about March 26, 2021.

The Riverside Solar Project is a 100 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the towns of Lyme and Brownville in Jefferson County, New York (the "Facility"). The Facility will span approximately 1,000 acres and plans to connect on National Grid's Lyme Tap off of the Thousand Island - Coffeen 115kv line. The Facility is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 133,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include solar panels, access roads, substation, inverters, transformers, electrical collection lines, gen-tie line, and temporary construction staging and storage areas.

For more information about the Facility please visit the Facility website at <https://www.aes.com/riverside-solar-project> or contact Riverside Solar at:

Eric Will  
Senior Manager, Development  
AES Clean Energy  
866-757-7697  
Email: [riversidesidesolar@aes.com](mailto:riversidesidesolar@aes.com)

Upon filing the Application, Riverside Solar will provide funding in the amount of \$100,000 to be deposited into a local agency account to be made available to local agencies and potential community intervenors for the purpose of contributing to a complete record leading to an informed permit decision as to the appropriateness of the site and the Facility, and for local agencies, shall include the use of funds to determine whether a proposed Facility is designed to be sited, constructed and operated in compliance with applicable local laws and regulations.

Any local agency or potential community intervenor shall submit a request for initial funding **within thirty (30) days of the date of application filing** forms are available at the ORES website ([www.ores.ny.gov/resources](http://www.ores.ny.gov/resources)) and such requests can be submitted to:

[general@ores.ny.gov](mailto:general@ores.ny.gov)

OR by mail to:

The Riverside Solar Project is a 100 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the towns of Lyme and Brownville in Jefferson County, New York (the "Facility"). The Facility will span approximately 1,000 acres and plans to connect on National Grid's Lyme Tap off of the Thousand Island - Coffeen 115kv line. The Facility is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 133,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include solar panels, access roads, substation, inverters, transformers, electrical collection lines, gen-tie line, and temporary construction staging and storage areas.

For more information about the Facility please visit the Facility website at <https://www.aes.com/riverside-solar-project> or contact Riverside Solar at:

Eric Will
