PLEASE TAKE NOTICE that public comment is sought regarding an application jointly filed by New York Transco LLC and New York Power Authority (together, the Applicant) for a Certificate of Environmental Compatibility and Public Need (Certificate) pursuant to Article VII of the Public Service Law. If granted, the Certificate would authorize the Applicant to construct, operate, and maintain the Propel NY Energy Project, comprised of approximately 89.7 miles of new underground transmission lines (approximately 78.5 miles at 345 kilovolts [kV] and approximately 11.2 miles at 138 kV) and direct interconnection with nine existing and/or new substations located within Suffolk, Nassau, Queens, Bronx, and Westchester counties. Under New York State Law, the Public Service Commission (Commission) may adopt or reject the Applicant's proposal, in whole or part, or modify it. In doing so, the Commission will consider, among other things, comments from the participating parties and the public.
