Albany, New York 12223-1350

Zeryai Hagos (ores@dps.ny.gov)

Executive Director, Office of Renewable Energy Siting and Electric Transmission

Department of Public Service

Empire State Plaza

Albany, NY 12242

Case 24-M-0433: In the Matter of the Rules and Regulations for the Environmental Review, Permitting, and Siting in this State of Major Renewable Energy Facilities and Major Electric Transmission Facilities Under the Renewable Action Through Project Interconnection and Deployment Act

Dear Secretary Phillips and Executive Director Hagos,

National Grid Ventures (“NGV”) respectfully submits these comments on the revised RAPID Act regulations released on October 22, 2025.¹ NGV is the competitive arm of National Grid PLC in the US and UK, where it develops, operates and invests in infrastructure projects and businesses that connect customers across the Northeast with reliable, affordable energy. NGV operates 13 generation stations across Long Island, New York, to provide reliable power that becomes vital during periods of high demand, as well as an LNG facility in Providence, Rhode Island which maintains a reserve of gas to meet peak heating demand on the coldest days. NGV invested alongside RWE in the largest offshore wind lease in the NY Bight through its Community Offshore Wind JV. NGV is also part owner of NY Transco which develops, constructs and operates transmission lines as part of NYISO’s Public Policy Transmission Planning Process (PPTPP). In addition to NGV, National Grid also owns and operates regulated utilities in the Northeast US. NGV offers these comments specific to NGV’s interests.

¹ New York Public Service Commission, *Revised RAPID Act Regulations Designed to Speed Development of Renewable Energy Projects Released for Public Comment*, 2025

Respectfully submitted,

Aileen D. Roder
