Dear Mr. Brown:

My name is John Massaro and I live at 274 Huxley Drive, Amherst NY 14226. I am a construction worker and have been a member of CABARENS Local 210 for 18 years. It is my understanding that a company named Iberdrola is attempting to buy Energy East. If Iberdrola is successful in their endeavor they are also planning to build 2 billion dollars worth of wind farms in New York. Being a union CABARENS I understand how important it is to have good paying construction jobs in our state. Please approve this merger.

Dear Chairman Brown:

ANTHONY ASCENCAO
Recording Secretary

On behalf of the 40,000 working men and women in New York's Laborers' Union, I'm writing to ask you and the full Public Service Commission to support Iberdrola's proposed acquisition of Energy East in a way that encourages jobs and investment.

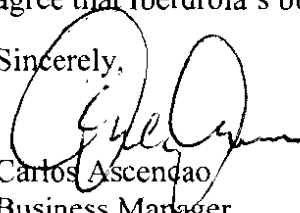

Iberdrola has said this transaction could lead to major investments in New York. Well, New York's workers need the jobs that any big investment would create. Our economy could use some major investments. And everyone would benefit from new sources of energy to give us some relief from our sky-high energy costs.

Almost everyone in New York supports this deal. Unions, Businesses, Economic Development Groups, and Environmentalists. As you know, the main opposition comes from just one party, government bureaucrats who have dug in to oppose this deal. They want to impose higher economic costs in Iberdrola. And they want to limit its ability to invest in New York State.

They're wrong. New York needs the investment, and the PSC should reject the bureaucrats' efforts to increase Iberdrola's costs, obstacles, and hassles.

As always, Labor wants an economy in which working men and women can find and keep good, productive, and sustainable jobs with fair and just pay. We want to support our families, our communities, and New York State. We hope you agree that Iberdrola's business plan is consistent with those values.

Sincerely,

Carlos Ascencao
Business Manager

Dear Sir:

I felt very encouraged with the article in last weeks in regard to the possible merger between Energy Coal and Fluorobak.

With the need to reduce our dependence on oil and the shortage of good paying construction jobs this appears to be a godsend.

I have worked as a laborer through IUNIA for the last thirty-six years. The last few years have been very slow and I am thinking that I have to leave the area in order to feed my family.

I hope that you will do all within your power to assist in anyway that you can.

Dear Mr. Braun,

My name is Chir Cere and I live @ 44 Bingham Road in Marlboro, NY. I am a union construction worker with Laborers Local 17 in Newburgh, NY, for the past 20 years. I am married with 2 girls.

I originally heard at a union meeting that an energy company from Spain named Iberdrola was trying to purchase or merge with Energy East. Further research on my part has told me that they plan to spend approximately 2 billion dollars on Wind Farms.

I am writing you today to express my support for this merger. With gas & oil prices continuing to rise, it is nice to hear that a company is investing in alternative energy sources. As a construction worker, I support the project as it will benefit my family in many ways.

Chir Cere

Dear Chairman Brown:

On behalf of the 40,000 working men and women in New York's Laborers Union, I'm writing to ask you and the full Public Service Commission to support Iberdrola's proposed acquisition of Energy East in a way that encourages jobs and investment.

Iberdrola has said this transaction could lead to major investments in New York. Well, New York's Workers need jobs that any big investment would create. Our economy could use some major investments. And everyone would benefit from new sources of energy it give us some relief from our sky-high energy costs.

Almost everyone in New York supports this deal. Unions, Businesses, Economic Development Groups, and Environmentalists. As you know, the main opposition comes from just one party, government bureaucrats who have dug in to oppose this deal. They want to impose higher economic costs in Iberdrola. And they want to limit its ability to invest in New York State.

They're wrong. New York State needs the investments, and the PSC should reject the bureaucrats' efforts to increase Iberdrola's costs, obstacles, and hassles.

As always, labor wants an economy in which working men and women can find and keep good, productive, and sustainable jobs with fair and just pay. We want to support our families, our communities, and New York State. We hope you agree that Iberdrola's business plan is consistent with those values.

Sincerely,
