

STATE OF NEW YORK  
PUBLIC SERVICE COMMISSION

CASE 17-G-0011 - In the Matter of a Review of Tariff Provisions  
Regarding Natural Gas Service to Electric  
Generators.

NOTICE EXTENDING COMMENT PERIODS

(Issued April 11, 2024)

In the Notice Seeking Comments issued February 7, 2024, in this proceeding (February Notice), comments were requested on the Revised Proposal on Electric Generator Rate Design (Revised Proposal) filed on February 6, 2024, by Department of Public Service staff. The February Notice requested initial comments by April 22, 2024, and reply comments by May 6, 2024.

In a letter filed on April 11, 2024, in this proceeding, several companies requested an extension of the comment periods. They assert that the complexities of customer contracts and understanding the effect of the rate design in response to the Revised Proposal warrant a 30-day extension of the deadlines for submitting their initial comments.

**PLEASE TAKE NOTICE** that the date for submitting initial comments on the Revised Proposal is extended until May 22, 2024, and the date for submitting reply comments is extended until June 5, 2024. These extensions are granted to all interested persons or entities. Please refer to the February Notice for additional information, including information on how to file the initial and reply comments.

(SIGNED)

MICHELLE L. PHILLIPS  
Secretary
