Re: Matter 13-00205 – In the Matter of SIR Inventory

Dear Secretary Phillips,

Enclosed please find revised documents for filing New York State Electric & Gas Corporation's ("NYSEG") and Rochester Gas and Electric Corporation's (RG&E) SIR inventory of projects as required by Section II.J "New York State Standardized Interconnection Requirements and Application Process for New Distributed Generators 5 MW or Less Connected in Parallel with Utility Distribution Systems" dated December 2019. This revised monthly submission is being made consistent with the October 16, 2015 request of Michael Worden. A letter requesting confidential treatment and the non-redacted version of the report, both EXCEL and PDF versions, are also being filed with the Records Access Officer.

The reason for revision is due to an incorrect project number identified for "retention of rec" coding. We have corrected the data in this revised submission.

If you have any questions pertaining to this information, please contact me at 607-768-8578.

Respectfully Submitted,

Jessica Flynn
