

Attention, Shared Meter Department of Con Edison.

CC: NYS Department of Public Service

RE: Account #: 

Dear Sir/ Madam of the shared meter department,

Please be advised the above caption account does not belong to me nor I have or had controlled of this area since January 8 2020. Yet I am still receiving a bill for this account.

Please find attached documentation to verify the previously existing share meter issue had been officially corrected since January 8 2020. Numerous attempts had been made to contact the shared meter department, billing department, inspection department to accurately update your records to reflect the correct financially responsible party ( Ms. Xiomara Peguero).

Instead I have been faced with a financial burden that has been incorrectly issued to me. I am asking once again for Con Edison to correct the record keeping and the accounting issue to reflect the correct responsible party for the above caption account.

If this means that the shared meter department must re-inspect the meters then so be it. I can be reach at  to schedule a re-inspection to verify that there exists no share meter condition.

Thank you in advance for your cooperation.

Monica Nelson
