Hecate Energy LLC,

On October 1<sup>st</sup>, 2018 I met representatives from both Hecate and Tetra Tech to discuss the proposed Hecate Coeymans Solar Farm project located in the town of Coeymans, NY. The purpose of this meeting was to identify and verify if mapped and previously unmapped streams within the project boundary are jurisdictional under NYSDEC Article 15 Protection of Waters.

Based on the site visit, GIS delineation information provided to Region 4 Ecosystem Health received via email on April 5th, 2019, the Supplemental Aquatic Resource Report dated October 2019, additional information received December 26<sup>th</sup>, 2019 and our state regulated resource database, there are no jurisdictional New York State article 15 waters on the parcels listed above. However, these waters may still be subject to other jurisdiction under the 401 Clean Water Act.

If you have additional questions or need technical guidance regarding jurisdiction as the project proceeds, please don't hesitate to contact me via the information below.

Sincerely,

Department of  
Environmental  
Conservation
