Annual Report of

YEAR ENDED

Canandaigua Power Partners, LLC & Canandaigua Power Partners II, LLC

GENERAL INSTRUCTIONS

- 1 This form of annual report is for those electric companies, gas companies and steam companies that have obtained an order providing for lightened regulation from the Public Service Commission of the State of New York, as provided by statutes of the said State.
- 2 The word *respondent*, wherever used in this report, means the person, firm, association, company, partnership, or corporation in whose behalf the report is made.
- 3 The Annual Report should be filed electronically. If the Annual Report is filed confidentially, a redacted and unredacted report should be filed. Both should be filed electronically to the respective e-mail addresses provided at dps.ny.gov. The verification page should be printed, signed by the authorized company representative, notarized and mailed to the Hon. Jaclyn A. Brillling, Secretary, Public Service Commission, 3 Empire State Plaza, Albany, New York 12223. Do not file the entire report in paper, only the verification page.
- 4 If it is necessary or desirable to insert additional statements for the purpose of further explanation of schedules, they should be properly identified electronically. Inserts for each schedule should be numbered and line Numbers, where needed, shown on the margin of each sheet. This also applies to all special or unusual entries not provided for in this form. Where information called for herein is not given, state fully the reason for its omission.
- 5 Every annual report should in all particulars be complete in itself, and reference to reports of former years or to other reports should not be made to take the place of required entries except as otherwise specifically authorized.
- 6 This report form is designed to cover the calendar year. If the respondent makes a report for any other period, the beginning and the end of the period must be clearly stated on the front cover, and throughout the report the appropriate cancellations of printed dates must be made. When operations cease during the year because of the disposition of property, the balance sheet and supporting schedules should consist of balances and items immediately prior to transfer (for accounting purposes), and the income statement and supporting schedules should be to the date of such transfer (for accounting purposes). If the books are not closed as of that date, the data in this report should be supported by information set forth in, or as a part of, the respondent's books of account.
- 7 Cents are to be omitted on all schedules except where they apply to averages and figures per unit where cents are important. The amounts shown on all supporting schedules shall agree with the item in the statement they support.

ELECTRIC PLANT
(Lightly Regulated Companies)

Item (a)	Description (b)
Real Property	The project encompasses approximately 8000 acres. The project stretches roughly 12 miles from end to end located entirely within the township of Cohocton, NY. The project is situated on land that is leased from a collection of 36 separate landowners.
Structures	The project consists of 50 wind turbine generators, 2 electrical substations, 10 miles of overhead transmission line, and an operations and maintenance building.
Generation Units	The project consists of 50 Clipper C96 2.5MW wind turbine generating units with a combined upper operating limit of 125MW.
Reservoirs, Dams and Waterways	The project is situated on agricultural lands scattered among hill top plateaus. As such, there are no major waterways, reservoirs, or dams in the general vicinity of the project.
Electric Delivery Lines	The project owns a 10 mile overhead generator tie line that stretches from our Lent Hill substation to our Brown Hill Substation which doubles as our point of interconnect. This line operates at 115kv. Our project ties into a NYSEG owned transmission line that operates at 230KV and is known as Line 68.
No. of Retail Service Connections	The project utilizes three separate retail service point connections. One is located at our operations and maintenance building, one is located at Lent Hill Substation, and one is located at Brown Hill Substation.

Provide a separate sheet for each separate site listed at Page 7.
