2.13.2 Terms and Conditions

Violation of any of the foregoing terms and conditions by a Telephone Corporation may result in Commission prosecution of penalty and enforcement proceedings pursuant to Section 24, 25 and 26 of the Public Service Law.

2.14 RATES BASED ON DURATION OF USE

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

Unless otherwise specified, calls are timed in one minute increments. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.

Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).

Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.

All times refer to local times.

Rates are not distance sensitive. As such, unless otherwise indicated, mileage bands are not applicable to the services offered.

Unless otherwise indicated, rates do not vary depending upon day or the time of day (Day, Evening, and Night/Weekend).

Each call is rated and billed in whole cents according to the following conventions: (1) Calls made using any service by the Company are rounded up to the next cent at the termination of the call; and (2) Special rounding arrangements may be made through contractual arrangements.

Recurring and Nonrecurring Charges

In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff.

A Nonrecurring Connection Charge applies when service is first established for a customer who has not previously had service with either the Company or the incumbent local exchange carrier authorized to serve such customer. A Nonrecurring Connection Charge also applies when an existing customer adds an additional line. This charge is separate and distinct from any charges associated with a premises visit or installation work required to establish service.

	<u>Minimum</u>	<u>Maximum</u>
Nonrecurring Connection Charge	\$25.00	\$150.00

Charges for each Message Rate Service line include a monthly recurring Base Service Charge and usage charges for completed calls originated from the customer's line based on the duration of completed calls during the billing period.
