

State Environmental Quality Review
FULL ENVIRONMENTAL ASSESSMENT FORM

Purpose: The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or unmeasurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

Full EAF Components: The full EAF is comprised of three parts:

- Part 1:** Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
- Part 2:** Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
- Part 3:** If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

DETERMINATION OF SIGNIFICANCE -- Type 1 and Unlisted Actions

Identify the Portions of EAF completed for this project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF (Parts 1 and 2 and 3 if appropriate), and any other supporting information, and considering both the magnitude and importance of each impact, it is reasonably determined by the lead agency that:

- A. The project will not result in any large and important impact(s) and, therefore, is one which will not have a significant impact on the environment, therefore a **negative declaration will be prepared.**
- B. Although the project could have a significant effect on the environment, there will not be a significant effect for this Unlisted Action because the mitigation measures described in PART 3 have been required, therefore a **CONDITIONED negative declaration will be prepared.***
- C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore a **positive declaration will be prepared.**

*A Conditioned Negative Declaration is only valid for Unlisted Actions

EXPLANATORY NOTES TO ATTACHMENT H

1. This Attachment H consists of: (a) a Department of Environmental Conservation "Full Environmental Assessment Form" ("EAF") for Verizon's offering of cable service in North Hempstead, New York, with Part 1 filled in; (b) an EAF Addendum providing certain additional background information; and (c) exhibits to the Addendum, including maps showing environmentally relevant features of the franchise area and a list of state and federal historic sites within that area.

2. The Attachment is submitted without prejudice to Verizon's positions that: (a) the activities for which it seeks approval in this proceeding are not "actions" under the State Environmental Quality Review Act ("SEQRA"), and that therefore no EAF is required; and (b) if an EAF is required in this case, a short-form EAF will suffice.

3. The EAF and the EAF Addendum are based on information in Verizon's possession or available to us through research in readily available sources. Beyond such sources, we have not undertaken any "new studies, research or investigation."¹

4. Historic site information was derived from the SPHINX database of the New York State Historic Preservation Office (*see* <http://www.nysparks.state.ny.us/shpo/resources/index.htm>). Coastal area information was obtained from the New York State Geographic Information Systems Clearinghouse website (*see* <http://www.nysgis.state.ny.us/gisdata/inventories/details.cfm?DSID=317>), as was flood plain data (*see* <http://www.nysgis.state.ny.us/gisdata/inventories/details.cfm?DSID=246>). Information on wetlands locations was obtained from the U.S. Fish & Wildlife Service National Wetlands Inventory (*see* <http://www.fws.gov/nwi/>) and the Cornell University Geospatial Information Repository (*see* <http://cugir.mannlib.cornell.edu/mapbrowse.jsp?series=counties>). Information on agricultural districts was obtained from the Cornell University Geospatial Information Repository (*see* <http://cugir.mannlib.cornell.edu/mapbrowse.jsp?series=counties>). Information on "critical environmental areas" was obtained from the website of the State Department of Environmental Conservation (<http://www.dec.state.ny.us/website/dcs/seqr/cea/index.html>). Information on National Natural Landmarks was obtained from the website of the National Park Service (*see* http://www.nature.nps.gov/nnl/Registry/USA_Map/States/NewYork/new_york.cfm).

5. In response to several questions in Part 1, Verizon has indicated that the question is "Not Applicable" ("N/A") to the confirmation that is the subject of the Petition. The activities to be undertaken pursuant to the franchise for which confirmation is sought involve the delivery of video programming and, thus, do not have a definite location or "area." To the extent any construction — including line extensions, placement of drop wires, extensions, and repairs — takes place after the franchise becomes effective, all of the locations within the franchise area at which such activity will occur cannot be known in advance.

¹ See Full Environmental Assessment Form at 2.

The information provided for contiguity to historic sites, etc., has been provided with respect to Verizon's FTTP facilities in the franchise area, even though it is Verizon's position that such facilities have been constructed pursuant to independent permissions and authorities.

PART 1--PROJECT INFORMATION
Prepared by Project Sponsor

NOTICE: This document is designed to assist in determining whether the action proposed may have a significant effect on the environment. Please complete the entire form, Parts A through E. Answers to these questions will be considered as part of the application for approval and may be subject to further verification and public review. Provide any additional information you believe will be needed to complete Parts 2 and 3.

It is expected that completion of the full EAF will be dependent on information currently available and will not involve new studies, research or investigation. If information requiring such additional work is unavailable, so indicate and specify each instance.

PART 2 - PROJECT IMPACTS AND THEIR MAGNITUDE

Responsibility of Lead Agency

General Information (Read Carefully)

- | In completing the form the reviewer should be guided by the question: Have my responses and determinations been reasonable? The reviewer is not expected to be an expert environmental analyst.
- | The **Examples** provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for a Potential Large Impact response, thus requiring evaluation in Part 3.
- | The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- | The number of examples per question does not indicate the importance of each question.
- | In identifying impacts, consider long term, short term and cumulative effects.

Instructions (Read carefully)

- a. Answer each of the 20 questions in PART 2. Answer **Yes** if there will be any impact.
- b. **Maybe** answers should be considered as **Yes** answers.
- c. If answering **Yes** to a question then check the appropriate box(column 1 or 2)to indicate the potential size of the impact. If impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- d. Identifying that an Impact will be potentially large (column 2) does not mean that it is also necessarily **significant**. Any large impact must be evaluated in PART 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- e. If reviewer has doubt about size of the impact then consider the impact as potentially large and proceed to PART 3.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the **Yes** box in column 3. A **No** response indicates that such a reduction is not possible. This must be explained in Part 3.

**ADDENDUM TO ENVIRONMENTAL ASSESSMENT FORM RELATING TO
CONFIRMATION OF A CABLE TELEVISION FRANCHISE FOR THE
TOWN OF NORTH HEMPSTEAD (NASSAU COUNTY), NEW YORK**

Setting

The Town of North Hempstead is located in the northwest portion of Nassau County. As of the 2000 Census, the Town had a population of 72,768 within a total area of 21.4 square miles.

The Town is (1) not within an agricultural district, (2) not in or substantially contiguous to a Critical Environmental Area, and (3) not substantially contiguous to a National Natural Landmark. A list of historic sites, historic districts, and national historic landmarks in the Town is attached. It is Verizon's policy to conform to all applicable laws and regulations in placing its facilities, including any special requirements that may be applicable to historic sites, districts, or landmarks.

Like much of Long Island, the Town sits atop an aquifer system. The Town is within a coastal area. The Town has designated wetlands areas and designated 100-year flood plains. Verizon's FTTP extensions and drop wires will be placed only to serve existing or future residences and businesses and will be consistent with physical arrangements for the provision of non-video communications services (voice, data), and other types of utility service, to such areas. Video programming will be delivered over existing distribution routes and supporting structures. Moreover, cable service is already provided within the franchise area by the incumbent, Cablevision. Thus, Verizon's construction activities would not impact otherwise undeveloped areas.

Three maps are included with this addendum. The first map shows the franchise area, tidal wetlands and the coastal area boundary.¹ The second map shows the fresh water wetlands. The third map shows 100-year flood plains in this area.

Description of Potential Construction Activities

The Commission is being asked to approve the Town's award of a cable television franchise to Verizon. The franchise will enable Verizon to deliver video programming to subscribers over its FTTP network, which is also used for the provision of voice and data services. It is Verizon's position that the construction, extension, modification, and repair of the facilities comprising the FTTP network are independently authorized, do not require franchise authority, and are thus not included within any "action" (within the meaning of SEQRA) for which approval is sought in this proceeding. Nevertheless, at Staff's request, Verizon is providing the following information concerning work on Verizon's FTTP facilities that may be undertaken in the Town subsequent to the Commission's approval of the franchise.

¹ It was impractical to map the approximately 1,200 historic sites and districts in the Town.

Extensions of Verizon's FTTP network may take place in the Town of North Hempstead following the award of the franchise. FTTP construction in the Town's rights-of-way would relate to facilities that will also be used for Verizon's voice and data services. (Any equipment that is utilized exclusively for the provision of cable services in the Town will be located in Verizon's central offices.) Verizon has completed the construction of its FTTP network to approximately 78% of the current households in the franchise area.

When a Verizon subscriber requests the FiOSSM voice, data, and/or video services that are available over the FTTP network, fiber drop wire is run to the subscriber's home. There are 22,372 households within the Town of North Hempstead that could potentially be served with fiber drops.² In terms of the potential environmental impact of drop placement activities, the fiber drops that are associated with FTTP do not differ in any significant respect from the copper drops that Verizon routinely installs, maintains and on occasion replaces in connection with its current services. Moreover, fiber drops will be deployed to customers who request other FiOS services even if such customers do not elect to purchase FiOS video.

² In general, Verizon's outside plant may include both aerial and underground facilities. Some of the work related to the extension of FTTP facilities and the placement of drops may therefore be underground.
