24-E-0322 Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Niagara Mohawk Power Corporation d/b/a National Grid for Electric Service.

Dear Secretary Phillips:

This is a public comment submittal by a party to the Case P24-E-0322. It is being submitted at the last minute because I just became aware of a condition in the latest NYSE&G/RG&E rate case that is appropriate here.

Please contact me if there are any questions regarding this submission.

Respectfully submitted,

This is a public comment submittal by a party to the Case P24-E-0322 Proceeding on Motion of the Commission as to the Rates, Charges, Rules and Regulations of Niagara Mohawk Power Corporation d/b/a National Grid for Electric Service. The submittal has only one purpose to recommend that the requirement in Case 22-E-0317 et al., the Oct 2023 latest NYSE&G/RG&E rate case, for a mandated Benefit-Cost table in future filings showing the share of new revenue that funds Climate Leadership and Community Protection Act (CLCPA) mandates vs. core reliability should be included in this rate case. This addresses my concern that CLCPA affordability must be addressed going forward.

It was submitted at the close of the window to submit comments because I only became aware of this provision this afternoon.
