Albany, NY 12223

Re: Petition of Your Local Phone Company LLC for  
a Certificate of Public Convenience and Necessity

Dear Secretary Phillips:

Attached is an amendment to the Your Local Phone Company LLC's petition for a CPCN for filing with the New York Department of Public Service. It contains a new Exhibit G, with ownership information. Should there be any questions concerning this matter, please don't hesitate to contact me at (979) 855-5555 or [edamato@ricetelecom.net](mailto:edamato@ricetelecom.net).

Respectfully Submitted,  
/s/ Vincenzo Damato

Vincenzo Damato  
Regulatory Consultant for Your Local Phone Company LLC

**PETITION, PURSUANT TO NYS PUBLIC SERVICE LAW §99(1), FOR  
CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY (CPCN)**

Petition must be completed in full, signed and submitted to  
[Secretary@dps.ny.gov](mailto:Secretary@dps.ny.gov).

An incomplete petition may be returned to the applicant  
with any missing information noted.

A cover letter, on company letterhead, must accompany petition.

<input checked="" type="checkbox"/>	<b>Check box if applying for an original CPCN.</b>
<input type="checkbox"/>	<b>Check box if applying to amend an existing CPCN.</b>

<b>1. Identification of applicant and principal business office:</b>	
Company Name	Your Local Phone Company LLC
Street Address (P.O. Box is <i>not</i> acceptable)	5665 North Commerce Court Suite 2
City, State, Zip Code	Alpharetta, GA 30004
President and Telephone/Email	Patrick Hardy
	404-432-5794
	patrick@yourlocalphonecompany.com

<b>2. All applicants are required to submit a Telecommunications Carrier Critical Information (TCCI) form. Use this link to submit the form electronically: <a href="#">TCCI Form</a>.</b>	
<input checked="" type="checkbox"/>	<b>Check box confirming that a TCCI form was submitted electronically.</b>

<b>3. A copy of the Company's certificate of incorporation from the New York Department of State (DOS) or if not incorporated in New York State, a copy of the authority to transact business in New York State (foreign business authority) must be included.</b>	
<input type="checkbox"/>	<b>Check box if DOS certificate is included.</b>
<input checked="" type="checkbox"/>	<b>Check box if a copy of the authority to transact business in New York State (foreign business authority) is included EXHIBIT A.</b>
<input checked="" type="checkbox"/>	<b>Check box if not incorporated, and include a list of the names, address, and telephone numbers of the company's owners on EXHIBIT attachment – Attached, EXHIBIT G.</b>

<b>4. Provide a general description of the services to be offered and how it would enhance competition in the area to be served. <a href="#">Provide on EXHIBIT B attachment.</a></b>	
---	--

5a. A company providing [basic retail telecommunications services](#), switched access services, and/or wholesale services must file a tariff containing the rates, terms, and conditions of the services to be offered.

**Check all applicable boxes below if the Company intends to provide any of the following types of services:**

☒ **Basic Retail Services – Tariff Required**

☒ **Switched Access Services and/or Wholesale Services – Tariff Required**

5b. [Public Service Law §92-g](#) allows a company providing non-basic retail services (i.e., any retail service not considered [basic](#)) to elect to post a Customer Service Guide (CSG) on its website containing the rates, terms and conditions of their non-basic retail services, in lieu of filing a tariff for those services. If the Company intends to provide non-basic retail services, it must either file a tariff or post a CSG on its website.

**Check applicable box if the Company intends to provide non-basic retail services:**

☒ **Via Tariff**

**OR**

☐ **Via Customer Service Guide (CSG)**

**If via CSG, provide CSG Web address/URL:** [Click or tap here to enter text.](#)

5c. A tariff or CSG is not required if the Company will be providing non-intrastate services ONLY (e.g., broadband internet, dark fiber).

☐ **Check box if Company is requesting a CPCN to provide non-intrastate services ONLY– NO Tariff or CSG is required.**

6. If applying for authorization to provide local exchange service (residential and/or business dial tone), describe how the Company will provide access to public safety/emergency telephone services, and comply with the other local exchange carrier requirements enumerated on pages 30-31 of the Commission's May 22, 1996 Order in [Case 94-C-0095](#) (Proceeding on Motion of the Commission to Examine Issues Related to the Continuing Provision of Universal Service and to Develop a Regulatory Framework for the Transition to Competition in the Local Exchange Market). The Commission will entertain waivers of any of these specific requirements on a case-by-case basis.

☐ **Check box if not applying for authorization to provide local exchange service.**

☒ **Check box if applying for authorization to provide local exchange service. Describe how the Company will comply with Commission requirements on EXHIBIT C attachment.**

7. If applying for authorization to provide local exchange service (residential and/or business dial tone), include an intraLATA presubscription implementation plan.	
<input type="checkbox"/>	<b>Check box if not applying for authorization to provide local exchange service.</b>
<input checked="" type="checkbox"/>	<b>Check box if applying for authorization to provide local exchange service. Include plan on EXHIBIT D attachment.</b>

8. A company intending to provide local exchange service with authorization to provide direct routing of operator assisted calls, including emergency calls, initiated by dialing solely "0" (also known as "0-" calls) needs to provide additional information to demonstrate that it is qualified to handle emergency calls promptly and reliably, in accordance with the requirements of <a href="#">16NYCRR Section 649.6</a> .	
<input type="checkbox"/>	<b>Check box if not applying for authorization to provide local exchange service.</b>
<input checked="" type="checkbox"/>	<b>Check box if the Company will process "0-" emergency calls via the ILEC or other "0-" certified operator services provider.</b>
<input type="checkbox"/>	<b>Check box if the Company intends to process "0-" calls itself and will file a subsequent petition for "0-" certification with required documentation.</b>

9. If applying for authorization as a facilities-based provider (i.e., facilities that have been purchased, leased or will be provided via new construction), describe how the Company will comply with the Commission's Network Reliability Orders issued in <a href="#">Case 03-C-0922</a> (Proceeding on Motion of the Commission to Examine Telephone Network Reliability). The first Order, issued July 28, 2004, addressed such items as Telecommunications Service Priority (TSP) rates and procedures, dual cable entrance facilities and a show cause requirement concerning route diversity and Critical Facilities Administration Service. The second Order, issued on June 15, 2005, required TSP tariffs and uniform intercarrier methods and procedures, among other things.	
<input type="checkbox"/>	<b>Check box if not applying for authorization as a facilities-based provider.</b>
<input checked="" type="checkbox"/>	<b>Check box if applying for authorization as a facilities-based provider and describe how the Company will comply with Commission requirements on EXHIBIT E attachment.</b>

10. If applying for authorization as a facilities-based provider (i.e., facilities that have been purchased, leased or will be provided via new construction) and are intending to provide new construction, include a description of the plant to be constructed (including physical location) and the anticipated construction schedule time frame. If using existing facilities, provide detail on the location of such facilities.	
<input type="checkbox"/>	<b>Check box if not applying for authorization as a facilities-based provider.</b>
<input checked="" type="checkbox"/>	<b>Check box if not providing new construction, but using existing facilities that have been purchased or leased. Provide details on EXHIBIT F attachment.</b>
<input type="checkbox"/>	<b>Check box if providing new construction and provide details on EXHIBIT attachment.</b>

11. Indicate whether the Company has ever acquired customers via unauthorized switching from another company, or if it has been the subject of a complaint and/or investigation for unauthorized switching of customers from another company.	
<input checked="" type="checkbox"/>	<b>Check box if the company has never acquired customers via unauthorized switching from another company, nor has it been the subject of a complaint and/or investigation for unauthorized switching of customers from another company.</b>
<input type="checkbox"/>	<b>Check box if the company has ever acquired customers via unauthorized switching from another company, and/or has been the subject of a complaint and/or investigation for unauthorized switching of customers from another company. Provide an explanation on EXHIBIT attachment.</b>

12. I, Patrick Hardy, do hereby affirm that the contents of this document are true to the best of my knowledge.

Secretary of State

## **Exhibit B: Description of Service**

Your Local Phone Company LLC (“YLPC”) will provide all forms of resold and facilities-based local exchange and interexchange telecommunications services and access services throughout the State of New York. Such services may include all forms of local exchange and interexchange telecommunications services to business customers and residential customers, including, but not limited to, basic exchange services, private branch exchange services, high-speed data, frame relay, interconnection, non-jurisdictional information services, directory assistance, custom calling features, blocking/unblocking services, directory listings, and emergency calling services. YLPC will operate a combination of its facilities and those leased from third parties. These services will increase competition as they will offer businesses and consumers a competitive alternative to the existing providers in the state that provide advanced data and voice services. Granting YLPC a CPCN to offer all forms of service, including but not limited to local exchange and interexchange telecommunications services and access services, will promote the public interest by increasing telecommunications service competition in New York.

YLPC will provide customers with high-quality, cost-effective telecommunications services. In addition to driving prices closer to costs, thereby ensuring just and reasonable rates, enhanced competition also promotes efficiency in the delivery of services and spurs the development of new services. These benefits work to maximize the public interest by providing continuing incentives for carriers to reduce costs while simultaneously promoting the availability of potentially desirable services.

### **Exhibit C: 911 Compliance Statement**

Your Local Phone Company (“YLPC”) will offer local exchange services, and will:

- i. Provide, without undue discrimination or preference, service to any customer requesting service within its service territory;
- ii. Provide access to public safety/emergency telephone services (911, E-911, 0), support the statewide relay system, and offer, or otherwise support, Lifeline services via interconnection with the ILEC;
- iii. Comply with the Telephone Fair Practices rules;
- iv. Comply with the Common Carrier rules (16 NYCRR Part 605);
- v. Comply with the Statement of Policy on Privacy in Telecommunications (Case 90-C-0075, issued March 22, 1991);
- vi. Comply with the Open Network Architecture (ONA) principles (Case 88-C-004, Opinion No. 89-28, issued September 11, 1989);
- vii. Provide reasonable interconnections for the joint provision of service to any certified carrier requesting such interconnection;
- viii. Comply with the service quality standards and infrastructure monitoring requirements (16 NYCRR, Parts 603 and 644.3).

## **Exhibit D: IntraLATA Presubscription Implementation Plan**

### **1. INTRODUCTION**

Pursuant to Federal Communications Commission (“FCC”) Orders, Your Local Phone Company (“YLPC”) will permit customers to route intraLATA calls automatically, without the use of access codes, to an interexchange carrier (“IXC”) of the customer’s choice. The IXC chosen by customers must establish itself as an access customer under an applicable tariff that YLPC will file prior to launching service in New York. This IntraLATA Presubscription Implementation Plan (“Plan”) applies to services that may be made available at a future date using the YLPC’s access facilities. If the YLPC provides local dial tone service(s) by reselling facilities obtained from Incumbent Local Exchange Carriers (“ILECs”), (a) YLPC will implement dialing parity wherever it is made available by the ILEC from whom YLPC purchases local dial tone service for resale, and (b) elements of this Plan pertaining to exchange access service orders will not apply.

### **2. IMPLEMENTATION**

YLPC will notify affected intraLATA IXCs approximately sixty to ninety days prior to the date that YLPC expects to begin providing local service in New York and advise that a Presubscription Information Package will be provided upon request. The Presubscription Information Package will detail how exchange access service(s) can be obtained, and will include central office names, Common Language Location Identification (“CLLI”) codes, equipment types, NPA-NNX codes, LATA, and implementation dates.

Carriers will have the options of offering intraLATA service only, or intra- and interLATA service and participating in all market areas or in a specific market area in New York.

### **3. CARRIER SELECTION**

When YLPC offers facilities-based local dial tone service(s), it will implement a full 2-PIC carrier selection methodology. As stated in Paragraph 1 above, if YLPC provides local dial tone services by reselling facilities obtained from ILECs, it will rely on the ILECs facilities to provide the full 2-PIC capability. With the full 2-PIC methodology, customers will be able to presubscribe to the same or different participating telecommunications carrier(s) for intra and interLATA toll calls. IntraLATA presubscription will be provided on all eligible residence and business lines.

Prior to offering local dial tone services, YLPC will establish processes to provide customers with an opportunity to choose their intra and interLATA toll carrier(s). YLPC contact representatives who communicate with the public, accept orders, and serve in customer service capacities will be trained to explain to customers the availability of 2-PIC equal access, and assist in implementing their initial PIC choice or in changing their PIC for intraLATA and interLATA toll calls. YLPC will process intraLATA PIC selections in the same manner and in the same time intervals that apply to interLATA PICs.

### **4. CUSTOMER SELECTION OF A PIC**

When local dial tone services are offered by YLPC, customers contacting YLPC and requesting local dial tone service will be informed of the opportunity to choose both an intraLATA and interLATA PIC. If requested by customers, YLPC will provide a list of IXCs, including YLPC, that are access customers and are maintaining a relationship with YLPC pursuant to the provisions of YLPC access service(s) tariff. The list of participating IXCs will be presented to customers in a competitively neutral manner, and IXCs will be identified to customers in random order. YLPC contact representatives will not comment on customers' choices of their intraLATA toll carrier.

YLPC customer contact representatives will process customer-initiated request(s) to have YLPC established as their intraLATA PIC selection. Customers selecting an intraLATA toll carrier other than YLPC will be provided with the selected carriers toll-free number (if provided to YLPC by the carrier).

If new line customers, including customers adding lines (with a separate number), do not select a participating carrier, they will be assigned a "No PIC" designation. Customers who cannot decide upon an intraLATA carrier at the time of order, will have 30 days following placement of their service order to select an intraLATA carrier without charge. In the interim, they will be assigned a No PIC designation. After the 30-day period, YLPC will assess a PIC change charge. Customers assigned a NO PIC designation will be required to dial an access code to reach an intraLATA toll carrier's network.

YLPC contact representatives will not discuss alternative carrier rates or services and will not provide customers with Carrier Identification Codes or access code dialing instructions.

## 5. CUSTOMERS CHANGING AN INTRALATA PIC

When local dial tone line services are offered by YLPC, customers may contact YLPC to change either their inter or intraLATA IXC. YLPC customer contact representatives will process customer-initiated request(s) to have YLPC established as their intraLATA PIC selection. Customers selecting intraLATA toll carriers other than YLPC will be provided with the selected carriers toll-free number (if provided to YLPC by the carrier).

A PIC change charge will be incurred and billed to a YLPC customer for each eligible line where an intraLATA PIC change is made. YLPC will offer IXCs the option of having the intraLATA PIC charge billed to the IXC or the customer.

YLPC contact representatives will not attempt to dissuade customers from changing their intraLATA PIC and will not discuss alternative carrier rates or services. YLPC will not provide customers with Carrier Identification Codes or access code dialing instructions.

## 6. PIC FREEZES

PIC freezes may be provided at any time upon customers' requests. YLPC will accept the use of three-way calls among the customer, YLPC and an IXC to remove intraLATA PIC freezes. YLPC will still follow the verification procedures for PIC changes (e.g., independent third party verification, written letter of agency, electronic authorization) as provided for by the Federal Communications Commission and New York Commission rules. YLPC understands that carrier-to-carrier penalties for unauthorized intraLATA toll charges may not be imposed.

## 7. CARRIER OBLIGATIONS

IntraLATA carriers that desire to become YLPC access customers shall notify YLPC via letter or telephone call of their desire to obtain exchange access service information or shall obtain and complete an Access Service Request(s) ("ASRs") form and provide the completed form to YLPC and to the owner of the Access Tandem. YLPC will send each requesting carrier an information package describing YLPC's service, processes and applicable tariffs. Once YLPC receives and processes a carrier's ASR, the carrier will be added to the list of participating carriers and, as stated above in Part IV of this Plan, will be identified at random to customers who desire to establish intra and/or interLATA PIC(s). YLPC will provide notice of the list of available switches by identifying them in its information package.

To be a presubscribed intraLATA toll carrier, a carrier must have a Feature Group B (FGD) or Feature Group D-like trunk. The FGD or FGD-like trunk(s) must be in place or ordered between the carrier's point-of-presence and the incumbent Local Exchange Company Access Tandem(s). Carriers must determine what facilities they need to handle the intraLATA toll traffic and order the necessary facilities.

All originating intraLATA traffic will initially be routed via the incumbent Local Exchange Company ("LEC") Access Tandem(s). Direct trunks between YLPC switches and carrier location(s) may be provisioned where traffic volumes warrant.

YLPC will route all originating intraLATA traffic to the designated carriers and will only block traffic at the request of the end user customer and/or in compliance with regulatory requirements. Requests from carriers to block traffic or remove customers from their network will not be honored. Calls that cannot be completed to a carrier will be routed to an announcement.

Carriers will be required to submit PIC changes using the Customer Account Record Exchange ("CARE") format via paper medium. YLPC will provide carriers with PIC order confirmation and reject information not using the CARE format. Upon request, specific details regarding CARE will be provided to participating carriers.

For customers who change their local service provider from the incumbent LEC to YLPC and retain their incumbent LEC telephone number(s), YLPC, as part of the CARE PIC

process, will provide the selected intraLATA carriers with both the retained (incumbent ILEC) telephone number and YLPC telephone number.

#### 8. CALL ELIGIBILITY AND DIALING PLAN

YLPC will offer intraLATA presubscription on all calls that are designated as intraLATA toll calls and that originate from YLPC provided local dial tone lines in New York.

Local dial tone line customers of YLPC will have calls routed according to the following plan.

If a customer dials:	The call will be handled by/routed to:
411/552-1212	ILEC Directory Assistance Operator
0	ILEC Operator
0+7 or 10 digit intraLATA number	IntraLATA Toll Provider's Operator
1+7 or 10 digit intraLATA number	IntraLATA Toll Provider
0+10 digit interLATA number	InterLATA Toll Provider's Operator
00	InterLATA Toll Provider's Operator
1+10 digit interLATA number	InterLATA Toll Provider
10XXXX or 101XXX + (0 or 0 + 7 or 10 digits)	XXX/XXXX Carrier's Operator
10XXXX or 101XXX + 7 or 10 digits	XXX/XXXX Carrier

#### 9. ADDITIONAL ELEMENTS OF THE PLAN

Under the Plan, if a YLPC customer denies requesting a change in intraLATA toll providers as submitted by an intraLATA IXC, and the intraLATA IXC is unable to produce a Letter of Agency signed by the customer, the PIC will be changed as per the customer's request and appropriate penalties will be imposed as authorized by law.

Commission authorization as a certificated intraLATA toll provider is required for a carrier to be placed on an alphabetical list of carriers that are willing to accept intraLATA toll traffic within a particular geographical area in New York.

### **Exhibit E: Compliance with Commission's Network Reliability Orders**

Your Local Phone Company's procedures for Telecommunications Service Priority will be included in its Local Exchange Service tariff (New York PSC No.1), a draft of which will be submitted with this Application. As described more fully in that tariff, TSP restoration and/or provisioning will be provided by YLPC in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. The specific processes for requesting a TSP restoration priority assignment and the processes for requesting a TSP provisioning priority assignment are both set forth in the tariff as well. The tariff additionally describes the specific activities and processes that the Company will perform and follow with respect to TSP services.

YLPC's service description and rates for Critical Facilities Administration Service (CFAS) provided to customers with TSP qualified circuits, will be included in its Local Exchange Service tariff (New York PSC No.1), a draft of which will be submitted with this Application. Section 6.1.3 describes the specific obligations that YLPC will undertake with respect to circuits provided pursuant to the CFAS. Minimum and maximum rates for an enhanced design circuit layout record are contained in the tariff.

## **Exhibit F: Description of Construction**

As stated herein, Your Local Phone Company LLC will provide all forms of resold and facilities-based local exchange, inter exchange telecommunications services, throughout the State of New York.

YLPC does not have any plans to construct new facilities, but will instead rely on utilizing collocation services provided by both New York ILECs, including Verizon and Frontier Communications, where facilities are available. In addition to these ILEC providers, YLPC also plans on collocating equipment with several dedicated New York collocation service providers, which are listed below. Beyond the installation of YLPC equipment in collocated facilities, no other construction will be undertaken.

- CoreSite NY1 at 32 Avenue of the Americas, New York, 10013
- Equinix NY9 at 111 8th Ave New York, 10011

At each site, a Metaswitch CFS will act as the primary switching element, along with a cluster of Metaswitch Perimeta SBC systems, which will enable IP interconnection and routing. Additionally, TelcoBridges TMG and TSG signaling gateways will be deployed to allow for interconnection with the SS7 and TDM PSTN network. Finally, Dell R670 servers will be deployed to provide peripheral services and network interconnection.

YLPC plans to rely on underlying carriers and UNEs to provide transport services, local loop services, and unbundled network elements. Additionally, YLPC plans to rely on ILEC carriers for operator services.

YLPC plans to begin providing service on October 1<sup>st</sup>, 2025 based on current projections, and subject to commission approval.

### **Exhibit G: Statement of Ownership**

Your Local Phone Company LLC currently has only one member and owner: Patrick Hardy, located at 5665 North Commerce Court Suite 2, Alpharetta, GA 30004. His current phone number is 404-432-5794.
