Re: Case 18-E-0130 – In the Matter of Energy Storage Deployment Program.

Dear Aaron Rudyan:

I received your August 26, 2025 letter, filed on behalf of the New York State Energy Research and Development Authority (NYSERDA), requesting an extension of time to file a proposal describing a methodology for estimating the expected market revenue for 12+ hour energy storage resources. The Commission's *Order Approving Bulk Implementation Program with Modifications* (Order), issued on March 21, 2025, in the above-referenced proceeding, required NYSERDA to file the proposal by September 1, 2025.

You state that you are requesting additional time to incorporate stakeholder comments received on draft documents regarding the program's first solicitation issued on July 28, while still allowing NYSERDA adequate time to prepare a proposal for inclusion of an approved methodology in the program's second solicitation.

Based upon the information provided, an extension, until October 1, 2025, is granted to the New York State Energy Research and Development Authority to file its proposal describing a methodology for estimating the expected market revenue for 12+ hour energy storage resources. This extension is granted to promote the fair, orderly, and efficient conduct of this proceeding, and this ruling will be posted on the Department's website.

Very truly yours,

A handwritten signature in black ink that reads "Michelle L. Phillips".
