***RE: Case 23-E-0421: Petition of Hecate Grid Swiftsure LLC for Certificate of Public Convenience and Necessity Pursuant to Section 68 of the Public Service Law and Order Granting a Lightened Regulatory Regime.***

Dear Secretary Phillips:

On July 31, 2023, Hecate Grid Swiftsure LLC (“Hecate” or “Petitioner”) filed a petition, supplemented on December 11, 2023, requesting a Certificate of Public Convenience and Necessity (“CPCN”), pursuant to Public Service Law (“PSL”) §68, authorizing the construction and operation of a battery energy storage system sized up to 650 megawatts (“MW”) located in Staten Island, New York (the “BESS”), along with an electric transmission interconnection (the “Transmission Interconnection,” and together with the “BESS,” the “Project”). The Petition also requested lightened regulation with respect to Petitioner’s ownership and operation of the Project as a wholesale electric market participant.

On June 21, 2024, the Public Service Commission (“Commission”) issued an order finding that the Petitioner satisfied the statutory requirements of PSL §68 and granted a CPCN for the Project, subject to conditions (“CPCN Order”). The Commission also authorized a lightened ratemaking regulatory regime because Petitioner was to own and operate the Project on a merchant basis and participate in the competitive markets administered by the New York Independent System Operator, Inc.

By this letter, we, on behalf of Petitioner, hereby notify the Commission that plans to construct the BESS have been terminated. As of the date of this letter, no part of the BESS has been constructed.

Please contact our office with any questions.

Very truly yours,

*/s/ Steven D. Wilson*
