Re: Case 20-M-0082: Proceeding on Motion of the Commission Regarding Strategic Use of Energy Related Data  
**Request for Extension - IEDR Phase 2 Status and Summary Report**

Dear Secretary Phillips:

The New York State Energy Research and Development Authority (NYSERDA) hereby requests an extension to file the Integrated Energy Data Resource (IEDR) Phase 2 Status and Summary Report as was directed by the New York State Public Service Commission (“Commission”) in its *Order Approving Integrated Energy Data Resource Phase 2 Budgets*, issued on January 19, 2024, in Case 20-M-0082. The Order directed NYSERDA to file a Phase 2 Status and Summary Report “...on or before April 1, 2026, which is approximately three months before the expected completion of Phase 2.”

Phase 2 of IEDR program operations began April 1, 2024. In early April 2025, NYSERDA, in consultation with the New York State Department of Public Service, shifted to prioritizing the acquisition of foundational data that will benefit long-term use case development, and the development of a query tool that is intended to allow users to create custom and use prefabricated queries across foundational data sets. As a result, NYSERDA hereby requests an extension, until July 1, 2026, to file the IEDR Phase 2 Status and Summary Report. This additional time will allow NYSERDA to better align the filing of the report with meaningful Phase 2 program milestones related to data acquisition and query tool development and to provide a more complete and comprehensive report to the Commission.

NYSERDA has presented this approach to the IEDR Steering Committee,<sup>1</sup> which is in agreement with the request for this extension. Your consideration of this request is greatly appreciated.

<sup>1</sup> The Commission tasked the IEDR Steering Committee to address policy, schedule, and budget issues based on NYSERDA’s recommendations developed in consultation with the Project Manager. The IEDR Steering Committee includes five members of DPS Staff and four members of NYSERDA Staff.
