Re: Notice of Comcast of New York, LLC Programming Change

Dear Secretary Phillips:

We are committed to keeping you and our customers informed about changes to Xfinity TV services in the Towns of Beekman, Carmel, Kent, Patterson, Pawling, Putnam Valley, Somers, and Southeast and the Villages of Brewster and Pawling. As part of that commitment and in accordance with Public Service Law § 224-a and 16 NYCRR 890.80, Comcast of New York, LLC hereby notifies the Commission of a change to the Xfinity channel lineup in these communities.

Effective December 1, 2023, WPIX Grit TV will no longer be provided by WPIX and thus will no longer be available to Xfinity TV customers. The programmer is unilaterally initiating this change, which is beyond Comcast's control, and provided insufficient notice to Comcast.

Pursuant to 16 NYCRR 890.80(c)(3)(4)(5) and (6), WPIX Grit TV is not being promoted repeatedly and in a significant manner by Comcast. Additionally, pursuant to 16 NYCRR 890.80(e), customers are being notified of this change by means of a bill statement message. This notice specifies the network impacted by this change and the effective date of the change. If technically and legally possible, Comcast will provide and on-screen, on-channel visual notice at least once each hour beginning December 1, 2023. However, Comcast is not allowed to place anything over a channel actively airing content.

As always, if you should have any questions or concerns regarding this matter, or any other cable-related matter, please feel free to contact me at 860-414-5066.

Sincerely,

Matt Skane
Manager, Government & Regulatory Affairs
