Albany, New York 12223

RE: Town of Haverstraw Water Supply Project

Dear Ms. Burgers:

I write to you in support of the proposed Haverstraw Water Supply Project.

I have attended numerous hearings, seen reports, listened to several resident concerns, reviewed scientific studies and attended open house presentations. Based on information disseminated, I feel the need for such a project to be necessary and beneficial for Rockland County.

It is more critical in the Town of Haverstraw as it will create jobs for our residents stimulate the economy and bring millions of dollars in much needed relief in taxes to benefit my town, the North Rockland School District and the County of Rockland.

Although, I do not wish to see an additional cost to our resident's water bill, I trust that the New York State Department of Conservation and the New York State Public Service Commission will make a fair and intelligent decision based on the facts presented that will positively benefit the Town of Haverstraw and the County of Rockland as a whole.

Thank you for your time and consideration in the aforementioned matter.

Respectfully,

Hector L. Soto
