CASE 26-G-0293 - In the Matter of an Enforcement Proceeding
Against Town of New Windsor Highway Department
for Alleged Violations of 16 NYCRR Part 753 -
Protection of Underground Facilities, in the
Service Territory of Central Hudson Gas &
Electric Corporation.

ORDER ADOPTING TERMS OF CONSENT ORDER AGREEMENT

(Issued and Effective June 17, 2026)

BY THE COMMISSION:

INTRODUCTION

On September 17, 2025, Town of New Windsor Highway
Department¹ was excavating to install drainage pipe and a catch
basin and caused damage to a 2-inch high-pressure plastic gas
main.

On October 20, 2025, the Department of Public Service
staff (staff), after an investigation of the facts, issued a
Notice of Probable Violation (NOPV) to Town of New Windsor
Highway Department alleging a violation of 16 NYCRR §753-3.6(b),

¹ Town of New Windsor Highway Department, 555 Union Avenue, New
Windsor, New York 12553.

which provides that: "The verification of underground facilities furnishing gas or liquid petroleum products shall be accomplished by the excavator by exposing the underground facility or its encasement to view by means of hand dug test holes at one or more points where the work area and tolerance zone overlap, or more points as designated by the operators of such facilities."

Town of New Windsor Highway Department responded to the NOPV and provided additional information. Pursuant to 16 NYCRR §753-6.7 and, in the interest of furthering gas safety, staff offered to reduce its request for a penalty of \$4,375 (as authorized by Article 36 of the General Business Law) to \$1,250 if employees of Town of New Windsor Highway Department received training with the one-call notification system, which they have completed.

DISCUSSION

In reviewing the Consent Order Agreement, the Commission considered the following mitigating factors in support of a reduced penalty. Town of New Windsor Highway Department has no history of adjudicated prior violations within the preceding twelve months, Town of New Windsor Highway Department has committed to take remedial training actions to prevent re-occurrence and has fully complied with all the terms of the Consent Order Agreement, and Town of New Windsor Highway Department was cooperative and forthcoming throughout the investigation and enforcement proceeding.

To quantify the total amount of gas lost due to avoidable pipeline damage, starting in late 2023, staff began collecting and calculating gas emissions estimates from pipeline damage incidents. For this incident, staff estimated 1,761,180 cubic feet of gas lost to the atmosphere.

Taking these factors into account, along with the gravity of the incident and impact on public health, safety, and welfare, the Commission therefore approves the attached Consent Order Agreement.

The Commission orders:

1. The terms of the Consent Order Agreement with Town of New Windsor Highway Department, dated April 3, 2026, are adopted.
2. This proceeding is closed.
