

Consolidated Edison Make-Ready Program Customer Guide

Version 1

December 18, 2025

About this document:

This document serves as a guide to participants and installers in the EV Make-Ready Program. It documents process sets and requirements to successfully navigate the Make-Ready Program (MRP) process. Additionally, it contains helpful information about advisory services, self-serve tools, and dispute resolution.

Table of Contents

About this document:.....	2
Step 1 – Register for a PowerReady Account	3

Dispute Resolution	13

Step 1 – Register for a PowerReady Account

Follow the registration instructions [here](#) and/or view an [instructional video](#).

Please see this [link](#) and the screenshot below on where to access these resources on Con Edison's website:

Step 1.1 (Optional) – Advisory Services

Con Edison offers free E-Mobility Advisory Services to all prospective applicants to help understand the grid capacity at your site. Submit a request [here](#) if interested.

Step 1.2 (Optional) – Utilize Self-Service Tools

In addition to Advisory Services, there are additional tools a prospective applicant can use to develop a more complete application. Access them [here](#).

Step 1.3 (Optional) – View Remaining Incentive Funds

In addition to the Joint Utilities' [website](#) showing plug and budget progress, Con Edison also has its own incentive dashboard, located [here](#).

The screenshot shows the Con Edison website's incentive dashboard. The browser address bar displays the URL: <https://www.coned.com/en/our-energy-future/electric-vehicles/power-ready-program/contractor-resources/powerready-incentive-dashboard>. The page features a navigation bar with the Con Edison logo and links for Account & Billing, Services & Outages, Save Energy & Money, Clean Energy, Search, and Log In or Register. A vertical 'Feedback' button is on the left. The main content is a table with the following data:

Budget Pipeline (\$M)	INSTALLED COMPLETE	INSTALLED VALIDATION	COMMITTED*IN PIPELINE**	ESTIMATED	NOT YET APPLIED***	2025 BUDGET
L2 FUNDS	\$136.90	\$6.70	\$49.20	\$101.80	\$0.00	\$237.80
UP TO 50%	\$54.60	\$3.60	\$18.50	\$47.20		
UP TO 90%	\$44.30	\$1.10	\$25.10	\$54.50		
UP TO 100%	\$37.80	\$1.90	\$3.60	\$0.00		
MIXED TIER	\$0.30	\$0.00	\$2.10	\$0.00		

Step 2 – Application

After you are ready to apply, please follow the instructions [here](#) and/or view an instructional [video](#).

Please see [here](#) and the screenshot below on where to access resources pertaining to the pre-requisites of the application.

Con Edison recommends starting with the “Developer Resources” [link](#) to access example documents and other resources.

Once project eligibility is determined, and if eligible, then upload the project documents to the PowerReady Portal: Site Plan, Single Line Diagram, Cut Sheets, Load Letter, and Letter of Authorization. Please use this [link](#) to access additional information on the application and example documents.

Application Form: Acknowledgements & Submittal

Acknowledgements

☒ I acknowledge that I have read and understood the Urgent Notification of Worker Safety Working Near Overhead Lines **

This document can be found below:
[Urgent Notification of Worker Safety](#)

☒ I acknowledge that I have read and understood Con Edison's "No Gifts" Policy **

This document can be found below:
[No Gifts Policy](#)

☒ I acknowledge that I have read and understood the Call Before You Dig Requirement **

This document can be found below:
[Call Before You Dig](#)

Please enter the name of the Business Development Representative from ConEd who you have been communicating with (if applicable)

N/A

Please select "Next" to either save or submit your application, depending on how much information you completed.

Make sure you click each of the hyperlinks and then check the box

Select the Business Development Rep you work with

Click on "Next" button to submit the initial application

Next

IMPORTANT NOTE: For an application to be considered completed, you must also upload project documents (Site Plan, Single Line Diagram, Cut Sheets, Load Letter, and Letter of Authorization) on the project page in the PowerReady portal.

Step 3 – Post-Application

After you apply, please work with your assigned utility partner through the following project stages: service determination, engineering review, construction, work verification, final incentive payment, and project closeout. To learn more about the estimated timeline for these steps, please [reach out](#) to Advisory Services as directed in Step 1.1.

For additional questions or comments please reach out to your associated project manager or contact EVMRP@coned.com.

Please see the following pages for additional resources to leverage throughout the project.

Track Status in PowerReady Participant Portal

The screenshot displays the PowerReady Participant Portal interface. At the top, the conEdison logo is on the left, and a search bar with a 'Search' button and user icons is on the right. Below this is a navigation bar with links for Home, Projects, Inquiries, Site Assessment, and Guidelines. The main content area is titled 'Recently Viewed' and shows a progress bar with five stages: Not Submitted (0), Eligibility (1), Engineering (0), Program Agree... (0), and Construction (0). The 'Eligibility' stage is currently active, showing a dropdown menu with a list icon. To the right of the progress bar, there is a 'Show more details' button and a list of application types: Apply for Micromobility, Apply for EV PowerReady, Apply for Medium Heavy Duty, Request a Site Assessment, EV PowerReady Batch Upload, and Micromobility Batch Upload. At the bottom right, there is a link for 'Step-by-step EV PowerReady Application Process Overview'.

Provide Participants with Education Opportunities for Program Updates

In addition to the PowerReady [resources page](#) referenced in Step 1, Con Edison hosts Trade Ally calls that provide additional program updates. To join the invite list for these calls, please email russoc1@coned.com.

Please continue to monitor your email for communications from program Staff regarding invitations to in-person forums, waitlist updates if incentives are oversubscribed, changes to eligibility criteria, and additional incentive information.

Flow Diagram Indicating Steps Owned by Participant vs Utility

The diagram below depicts the Make-Ready Program flow for Participants active in the Downstate Utilities' service territories. For V1G projects that do not apply for the Make-Ready Program, several steps would no longer be relevant. The program application stages 1 and 2 would not occur, and the project would start with stage 3. For stage 4, the Participant-side dependencies would still apply, but the Utility would not provide an incentive estimate. Finally, Stages 7 and 8 (incentive payment and closeout) would also be removed from the process.

Dispute Resolution

If you have any disputes regarding your project, please use this [link](#) and contact the relevant individual below.
