CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Would the members of the Compensation/Benefits Panel  
2 ("Panel") please state your names and business addresses?

3 A. Karlene Green, and my business address is 4 Irving Place,  
4 New York, New York 10003. Steven Ruffini, and my  
5 business address is 4 Irving Place, New York, New York  
6 10003. Virginia Fischetti, and my business address is  
7 800 Connecticut Avenue, 3<sup>rd</sup> Floor, Norwalk, Connecticut  
8 06850. Joseph McDonald, and my business address is 200  
9 Cornell Drive, Berkeley Heights, New Jersey 07922.

10 Q. Ms. Green, by whom are you employed and in what capacity?

11 A. I am employed by Consolidated Edison Company of New York,  
12 Inc. ("Con Edison" or the "Company") as Director,  
13 Benefits, Human Resources.

14 Q. Please briefly outline your educational and business  
15 experience.

16 A. I graduated from Pennsylvania State University with a  
17 Bachelor of Science degree in Labor and Industrial  
18 Relations. I received a Master of Science degree in  
19 Human Resource Management from Baruch College in 2000.

20 Q. Please describe your work experience.

21 A. I have been employed by Con Edison for 21 years. I  
22 joined Con Edison in 2004 as a Human Resources Manager

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 with responsibilities for supporting all the Human  
2 Resources support for Electric Operations, including  
3 hiring, investigations, training, administering  
4 discipline, performance management, compensation. I have  
5 held positions of increasing responsibility including  
6 Section Manager of Testing and eLearning, Department of  
7 Manager of Labor and Wage, Assistant to the Office of the  
8 Chief Executive Officer, and Director of the Employee  
9 Wellness Center. Prior to joining Con Edison, I gained  
10 approximately ten years of experience with other  
11 companies such as the Dreyfus Corporation, Citibank, Long  
12 Island College Hospital, and the New York Presbyterian  
13 Hospital.

14 Q. Please generally describe your current responsibilities.

15 A. My current responsibilities as Director, Benefits, Human  
16 Resources, include overseeing all Company-sponsored  
17 benefit programs, such as medical, dental, prescription,  
18 and vision plans, pension, life insurance, disability,  
19 stock purchase, savings programs, 401(k), and retirement  
20 benefits.

21 Q. Have you previously submitted testimony in a rate case  
22 before the Public Service Commission ("Commission")?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. I was a member of the Compensation and Benefits  
2 Panel that submitted direct testimony in Orange and  
3 Rockland Utilities, Inc.'s ("Orange and Rockland") most  
4 recent base rate cases (*i.e.*, Cases 24-E-0060 and 24-G-  
5 0061) ("2024 Orange and Rockland Rate Cases").

6 Q. Mr. Ruffini, by whom are you employed and in what  
7 capacity?

8 A. I am employed by Con Edison as Director, Compensation,  
9 Human Resources.

10 Q. Please briefly outline your educational and business  
11 experience.

12 A. I graduated from State University of New York, at Old  
13 Westbury in 1999. I joined Con Edison in 2009, as a  
14 Senior Analyst in Pension Management with  
15 responsibilities including the management of pension plan  
16 assets. I have held positions of increasing  
17 responsibility including Senior Financial Analyst in  
18 Pension Management, Senior Financial in Treasury  
19 Operations, and Section and Department Manager within  
20 Human Resources Compensation. Prior to my employment at  
21 Con Edison, I worked for approximately ten years in the  
22 Financial Services industry.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Ms. Fischetti, by whom are you employed and in what  
2 capacity?

3 A. I am a Partner and National Practice Leader for Executive  
4 Compensation for Aon. I have worked with energy  
5 companies such as Avangrid, Dominion, PSE&G, NRG Energy  
6 Services, and Southern Company, in addition to Con Edison  
7 and Orange and Rockland.

8 Q. What is Aon?

9 A. Aon provides risk management services, insurance and  
10 reinsurance brokerage, and human resource consulting  
11 services worldwide. More information on Aon is available  
12 at aon.com.

13 Q. Please summarize your educational and professional  
14 background.

15 A. I am a graduate of Amherst College with a Bachelor of  
16 Arts degree in Economics. I also have an MBA, Finance  
17 and International Business, from the New York University  
18 Stern School of Business. Prior to joining Hewitt  
19 Associates (now, Aon) in 1997, I worked as a benefit and  
20 compensation consultant for Watson Wyatt (now Willis  
21 Towers Watson) in New York. At Aon, my work includes the  
22 benchmarking of total compensation, the design and

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 implementation of compensation strategies and  
2 philosophies, pay structures, short-, mid-, and long-term  
3 variable pay programs, and severance and change-in-  
4 control benefits.

5 Q. Are you affiliated with any professional societies or  
6 organizations?

7 A. Yes. I have spoken to audiences of the Society for Human  
8 Resource Management on the topic of compensation and  
9 published the cover article in the World of Work Journal  
10 (4<sup>th</sup> quarter, 2005).

11 Q. Have you previously testified and submitted testimony on  
12 behalf of the Company before the Commission?

13 A. Yes. I have testified and submitted testimony in  
14 previous Con Edison electric, gas, and steam rate cases  
15 and filed testimony in Con Edison's current electric and  
16 gas rate cases (Case 22-E-0064 and Case 22-G-0065) ("2022  
17 Con Edison Rate Cases") and the 2024 Orange and Rockland  
18 Rate Cases.

19 Q. Mr. McDonald, by whom are you employed and in what  
20 capacity?

21 A. I am a Senior Partner and Utility Industry Leader for  
22 Aon's Wealth Practice. I have worked with utilities such

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 as PSE&G, New Jersey Natural Gas, Southern Company,  
2 Entergy, National Grid, and NiSource, in addition to Con  
3 Edison and Orange and Rockland.

4 Q. Please summarize your educational and professional  
5 background.

6 A. I am a graduate of Washington College with a degree in  
7 Mathematics. At Aon, I am a market leader in the  
8 Retirement practice and a consultant to clients on  
9 benefits and retirement issues. I specialize in the  
10 design and financing of retirement programs, pension  
11 investments, and asset-liability management, and all  
12 aspects of retirement valuation and administration  
13 consulting. I have over 25 years of experience in  
14 consulting, having spent 12 years with Hewitt Associates  
15 prior to its acquisition by Aon.

16 Q. Do you belong to any professional societies or  
17 organizations?

18 A. I am a Fellow of the Society of Actuaries, an Enrolled  
19 Actuary of the Joint Board, and am also a Chartered  
20 Financial Analyst. I have spoken at numerous industry  
21 conferences sponsored by organizations such as Pensions &  
22 Investments, National Association of Corporate

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Treasurers, The Conference Board, Utility Pension Fund  
2 Study Group, Financial Executives International, and the  
3 MegaCap Treasurer's Alliance, as well as a number of Aon-  
4 sponsored conferences and webcasts on retirement topics.

5 Q. Have you previously testified and submitted testimony on  
6 behalf of the Company before the Commission?

7 A. Yes. I submitted testimony in the 2022 Con Edison Rate  
8 Cases and the 2024 Orange and Rockland Rate Cases.

9 **PURPOSE OF TESTIMONY**

10 Q. What is the purpose of the Panel's testimony in these  
11 proceedings?

12 A. The purpose of our testimony is to demonstrate that the  
13 costs of the Company's benefits and compensation plans  
14 are reasonable business expenses that should be recovered  
15 in rates. The Panel's testimony demonstrates that the  
16 Company provides market-competitive benefits and  
17 compensation designed to attract and retain those  
18 employees the Company requires to provide customers with  
19 safe and reliable service, respond to extreme weather,  
20 and implement the State's clean energy agenda. The  
21 Company continues to manage proactively long-term

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 liabilities such as those related to pensions and retiree  
2 health care.

3 This testimony examines the overall level of employee  
4 "Benefits" and "Compensation" and demonstrates that the  
5 Company's level of benefits and compensation reflected in  
6 the revenue requirements of this filing in aggregate is  
7 market-competitive and meets the Commission's standards  
8 for assessing the overall competitiveness and  
9 reasonableness of such expenditures. The costs of the  
10 Company's benefits and compensation plans constitute  
11 reasonable business expenses that should be recoverable  
12 in rates for the reasons discussed below.

13 Q. What elements of the Benefits package are reflected in  
14 the revenue requirements of this filing?

15 A. Benefits are Active Health Benefits, vacation, life  
16 insurance, disability; Retirement Benefits including the  
17 Thrift Savings Plan ("TSP") and the Defined Contribution  
18 Pension Formula ("DCPF"); and legacy pension and Other  
19 Post-Employment Benefits ("OPEBs").

20 Q. What elements of Compensation are reflected in the  
21 revenue requirements of this filing?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Compensation includes base salary, the variable component  
2 of management pay, and long-term equity grants.

3 Q. Has the Commission articulated criteria to determine  
4 whether the costs associated with a utility's benefits  
5 and compensation plans should be recoverable in rates?

6 A. Yes. In the Commission's February 21, 2014 rate order in  
7 Con Edison's 2013 rate cases (Cases 13-E-0030, 13-G-0031,  
8 and 13-S-0032 ("2013 Con Edison Rate Cases")), the  
9 Commission indicated that a utility should demonstrate  
10 the overall competitiveness and reasonableness of its  
11 total benefits and compensation package by including a  
12 comparison with a peer group comprised of similarly  
13 situated companies, including both utilities and general  
14 industry. In its rate order issued June 26, 2014, in a  
15 United Water New York, Inc. rate case (Case 13-W-0295),  
16 the Commission reaffirmed that to obtain recovery of  
17 variable pay, a utility must demonstrate that the overall  
18 compensation, including the variable pay component, is  
19 reasonable relative to similarly situated companies.

20 Q. Has the Commission addressed other criteria with respect  
21 to evaluating recovery of costs associated with a  
22 utility's benefits and compensation package?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. In its rate order in the 2013 Con Edison Rate Cases,  
2 the Commission noted with approval Con Edison's  
3 willingness to conduct its comparative  
4 compensation/benefits study to achieve at least a 50  
5 percent matching of positions to a blended peer group of  
6 utilities and New York metropolitan employers.

7 Q. What does the Panel address?

8 A. The Panel addresses: (1) a review that the Company  
9 conducted, with the assistance of Aon, of Con Edison's  
10 total benefits and compensation package ("Review") in  
11 2024 for non-officer management employees; (2) the  
12 Company's compensation and benefit plans for non-officer  
13 management employees; (3) officer and Board of Directors  
14 ("Board") compensation and benefit plans; (4) the  
15 Company's current Labor Contracts with International  
16 Brotherhood of Electrical Workers, AFL-CIO Local 1-2  
17 ("Local 1-2") and Local 3 ("Local 3"); and (5) employee  
18 benefits costs.

19 Q. What is the purpose of the Review?

20 A. The purpose of the Review is to assess the market  
21 competitiveness of the Company's Total Benefits and  
22 Compensation package for its management employees. The

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Company selected Aon to assist with the Review because  
2 Aon is an industry leader in this type of review and has  
3 the experience, survey data, and tools needed to analyze  
4 the competitiveness of various benefit and compensation  
5 plans. The Panel describes below the Review process,  
6 methodology, and results.

7 Q. In conducting the Review, did the Company evaluate its  
8 benefits and compensation package compared to those  
9 offered by similarly situated companies?

10 A. Yes. Consistent with Commission direction and typical  
11 market practice, in assessing the overall competitiveness  
12 and reasonableness of the Company's benefits and  
13 compensation package, the Review compared the Company's  
14 package to those offered by a peer group of similarly  
15 situated companies.

16 Q. Were the peer companies limited to other utility  
17 companies?

18 A. No. Consistent with the Commission's direction, the  
19 Company evaluated Total Benefits and Compensation  
20 relative to a blended peer group of utility companies and  
21 non-utility New York metropolitan general industry  
22 companies.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What were the Review's overall findings with respect to  
2 the blended peer group analysis?

3 A. As explained below, the Review found that the Company's  
4 benefit programs and compensation for its management  
5 employees, as well as the combined benefits and  
6 compensation package value, are within the +/- ten  
7 percent range that is considered "competitive" with  
8 respect to the blended peer group.

9 Q. Do the rate requests in these proceedings include  
10 compensation for officers of the Company?

11 A. Yes. However, the rate requests reflect only certain  
12 elements of compensation for officers. The Company's  
13 compensation program for officers includes base salary,  
14 annual variable pay awards, long-term equity grants, and  
15 benefits. This compensation constitutes a reasonable and  
16 necessary business expense the Company must incur to  
17 attract and retain qualified leaders to direct and  
18 oversee the safe and reliable operations of the Company.  
19 In order to limit the contested issues in this filing,  
20 the Company is electing not to seek recovery of the long-  
21 term equity grants and annual variable pay awards  
22 provided to the Company's officers. The Company may seek

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 to recover all or part of these elements of compensation  
2 in future proceedings.

3 Q. Do the rate requests in these proceedings include  
4 compensation for members of the Board who are not  
5 employees of the Company?

6 A. Yes. For members of the Board who are not employees of  
7 the Company, the Company is seeking to recover in rates  
8 their Board compensation, which includes an annual  
9 retainer (that varies depending on committee  
10 assignments). These retainers are a reasonable and  
11 necessary business expense the Company must incur to  
12 attract and retain qualified, non-employee directors to  
13 oversee the Company.

14 Q. Please briefly address the Company's Labor Contracts with  
15 Local 1-2 and Local 3.

16 A. These Labor Contracts constitute fair and equitable  
17 contracts that include benefits and compensation programs  
18 that will allow the Company to continue to attract and  
19 retain qualified employees and that will reflect the  
20 needs of all stakeholders - employees, customers, and  
21 regulators - and support the long-term sustainability of  
22 the Company.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Does the Panel address employee benefit expenses?

2 A. Yes. This direct testimony explains the forecast of  
3 employee benefit expenses for management employees and  
4 members of Local 1-2 and Local 3.

5 Q. Does the Panel address the impact of the COVID-19  
6 pandemic on benefit costs?

7 A. Yes, and we summarize the impact here. At the onset of  
8 the COVID-19 pandemic, the self-insured medical program  
9 administered by Cigna (which represents approximately 75  
10 percent of the Company's eligible employees), experienced  
11 lower claim levels. Claims continue to remain volatile as  
12 the direct and indirect impacts of COVID-19 mandates,  
13 medical practices, and longer-term implications on  
14 survivors are ongoing.

15 Q. Does the Panel expect the residual impact of the COVID-19  
16 pandemic to result in lower claim costs for the Rate Year  
17 (*i.e.*, twelve months ending December 31, 2026) than have  
18 occurred historically?

19 A. No. The Company will continue to monitor this issue and  
20 address it as necessary in the update testimony.

21

22

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 **REVIEW METHODOLOGY**

2 Q. Please provide an overview of the general approach of the  
3 Review.

4 A. The Review compared Con Edison's management employee  
5 benefits and compensation package values to external  
6 benchmark data for the following components:

- 7 • Employee benefits (including active healthcare,  
8 insurance coverages, and retirement contributions);
- 9 • Base salary;
- 10 • Variable pay; and
- 11 • Long-term equity grants.

12 Q. Please describe the peer companies that were used in the  
13 Review to analyze the competitiveness and reasonableness  
14 of the Company's management benefit plan designs and  
15 annual benefit and compensation package values.

16 A. A peer group of 40 companies (the "Blended Peer Group")  
17 was used for comparison purposes, including 20 utility  
18 peers and 20 New York metropolitan general industry  
19 peers.

20 Q. Is the Panel sponsoring an exhibit in connection with the  
21 Blended Peer Group used in this analysis?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. Please see EXHIBIT \_\_\_\_ (CBP-01) entitled "Blended  
2 Peer Group and Geographic Differentials."

3 Q. Was this exhibit prepared by you or under your direct  
4 supervision?

5 A. Yes.

6 Q. Please describe the Blended Peer Group.

7 A. The 20 utility peer companies have similar operations to  
8 Con Edison and have employees with similar experience and  
9 skills in the utility industry as Con Edison. The 20 New  
10 York metropolitan general industry peers include general  
11 industry companies with headquarters located in the New  
12 York metropolitan area (*i.e.*, New York, New Jersey, and  
13 Connecticut), and have a significant number of salaried  
14 and hourly employees located in the New York metropolitan  
15 area. These companies have similar operations to Con  
16 Edison in its non-utility-specific areas such as finance,  
17 information technology, human resources, and legal.  
18 Together this group of 40 companies is representative of  
19 the labor market for management employees at Con Edison.  
20 The Blended Peer Group also reflects a sample that has  
21 available data for both compensation and benefit  
22 benchmarking based on survey participation.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Did Aon conduct this Review using the same methodology it  
2 used in previous Company rate case filings with the  
3 Commission?

4 A. Yes, it did.

5 Q. Did Aon use the same blended peer group that it used to  
6 review compensation and benefits in previous Con Edison  
7 rate case filings?

8 A. No. The companies in the Blended Peer Group are not  
9 identical to those used in previous Con Edison rate case  
10 filings. The need to substitute new companies into a  
11 peer group often occurs because not every company  
12 continues to participate in the information surveys that  
13 provide the data necessary for a benefit-compensation  
14 comparison. When that occurs, we substitute, as we did  
15 here, new peer companies that are similarly situated to  
16 Con Edison.

17 Q. Is the number of participants in the Blended Peer Group  
18 used in the Review identical to the number of  
19 participants that Con Edison used in its most recent  
20 electric and gas base rate cases (*i.e.*, 22-E-0064, 22-G-  
21 0065)?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. No. The number of participants in the Blended Peer Group  
2 is smaller (40, down from 50) than the Blended Peer Group  
3 used in previous rate filings.

4 Q. Does either the change in certain of the participants  
5 included in the Blended Peer Group, or the reduction in  
6 the overall number of participants in the Blended Peer  
7 Group, impact the overall findings of the analysis?

8 A. No. We continue to have a sufficiently robust sample size  
9 such that the selected companies continue to be similarly  
10 situated to the Company and maintain a balance between  
11 New York Metropolitan general industry and utility  
12 companies. The companies used for benchmarking depends on  
13 their annual survey participation and whether they meet  
14 specific criteria (e.g., being a utility or located in  
15 the New York Metropolitan area).

16 Q. Did the Company use the Blended Peer Group for both the  
17 benefits design benchmarking and the Total Benefits and  
18 Compensation positional analysis?

19 A. Yes.

20 Q. Was the peer group data adjusted in any other way?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. No. There was no need to adjust the peer group data  
2 because this data, as well as the Company's census  
3 data, were both effective as of 2024.

4 Q. What is included in the employee benefits value analysis?

5 A. There are two components to the benefits value analysis.  
6 The first component is the employee benefits design  
7 analysis, which compared the design features of the  
8 benefits programs at Con Edison (e.g., health plan co-  
9 payments, deductibles, and co-insurance, net of employee  
10 premium contributions) to the design features of the  
11 benefits programs at the members of the Blended Peer  
12 Group.

13 The second component is the benefit design value  
14 analysis. The benefit design value analysis includes a  
15 pay-weighted assessment of the program features that are  
16 based on salary (e.g., life insurance formulas, thrift  
17 savings plan company match percentages, and the  
18 definition of covered pay).

19 Q. Please continue.

20 A. The annual benefit design value at Con Edison was  
21 measured against the annual benefit design value at the  
22 members of the Blended Peer Group to compare how

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 compensation-based benefit programs affect the total  
2 value of the benefits packages. If, for example, an  
3 employee at Company A earns more pay than an employee at  
4 Company B in the same position, then the value of the  
5 Thrift Savings Plan Company match (e.g., six percent of  
6 pay) to the employee at Company A will be higher. The  
7 employee benefit analysis performed in this manner allows  
8 for a more accurate comparison of the value of a benefits  
9 package than an analysis that is performed on a pay-  
10 neutral basis.

11 Q. Please describe the process used to assess the benefit  
12 designs of Con Edison's benefits programs and the  
13 benefits programs of its peer companies.

14 A. The benchmarking of employee benefits design was done  
15 using Aon's Benefit Index® ("Benefit Index"). The  
16 Benefit Index is a premier tool for comparing the  
17 relative worth of one company's benefits programs to  
18 those offered by a group of other companies. Companies  
19 have used the Benefit Index since the 1970's to make such  
20 assessments.

21 Q. How were benefit design competitiveness assessments made?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Benefit Index results are reached using a very specific  
2 process. Actuarial techniques measure the total value a  
3 representative population of employees would derive from  
4 Con Edison's benefits program and the benefits programs  
5 of each of the members of the Blended Peer Group. All  
6 retirement income, death, disability, health, and paid  
7 time-off benefits (such as vacation and paid holidays)  
8 offered to newly hired employees are included. This  
9 actuarial analysis reflects the benefits that each  
10 program would be expected to pay during a year or the  
11 present value of the benefits employees would be expected  
12 to earn during a year but receive in the future. The  
13 same employee population and assumptions are used when  
14 measuring the values for each of the programs. This  
15 standardization verifies that the differences are  
16 attributable to plan designs, not pay levels. The impact  
17 of pay level difference is assessed in the benefit design  
18 value analysis of the Review. Finally, the benefit  
19 design features of Con Edison's benefits program were  
20 compared to the average for the peer companies' programs  
21 to arrive at a relative benefit design result reported by  
22 the Benefit Index.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What is a Benefit Index benefit design result?

2 A. A Benefit Index benefit design result of 100.0 would be  
3 assigned if Con Edison's benefits exactly equaled the  
4 average of the benefits package value offered by the peer  
5 companies. Generally, differences in the overall benefit  
6 package value are not considered significant or material  
7 until they exceed ten percent (*i.e.*, less than 90.0 or  
8 greater than 110.0 as compared to Con Edison). A Benefit  
9 Index benefit design result within this range would be  
10 viewed as "competitive."

11 Q. Which benefits programs are included?

12 A. The benefits analyzed included the following programs to  
13 which an annualized value was attributed:

- 14 • **All Pre-Retirement Benefits:** Pre-retirement benefits  
15 reviewed included hospital, medical, prescription drug,  
16 dental, and vision, and sick, short- and long-term  
17 disability, and paid vacation and holidays; and
- 18 • **All Post-Employment Benefits:** Post-employment benefits  
19 reviewed included pension, and Thrift Savings 401(k)  
20 Plan, and healthcare and life insurance benefits  
21 provided in retirement.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Is the Panel sponsoring an exhibit in connection with the  
2 Benefit Index results used in this analysis?

3 A. Yes. Please see EXHIBIT \_\_\_\_ (CBP-02) entitled "BENEFIT  
4 INDEX RESULTS."

5 Q. Was this exhibit prepared by you or under your direct  
6 supervision?

7 A. Yes.

8 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
9 (CBP-02).

10 A. This exhibit summarizes the details of the results of the  
11 Benefit Index analysis of the current Con Edison benefit  
12 plan designs, including a comparison to the Blended Peer  
13 Group.

14 In aggregate, the Con Edison benefit plan is within a +/-  
15 ten percent range (*i.e.*, between 90 and 110) that is  
16 considered "competitive" with respect to the Blended Peer  
17 Group with a Benefit Index design score of 102.4.

18 Q. Did the Panel also analyze the competitiveness and  
19 reasonableness of the Company's management compensation  
20 components?

21 A. Yes.

22 Q. How was the compensation competitiveness assessment made?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. The compensation competitiveness assessment included a  
2 comparison of base salary, annual variable pay (at  
3 target), and long-term equity grants for Con Edison  
4 management positions and for the Blended Peer Group  
5 positions. The annualized value of each pay component  
6 (e.g., annual base salary) is included in the analysis.

7 Q. What data sources were used for the Review?

8 A. Two data sources were used, both of which were applied to  
9 the Blended Peer Group: (1) the 2024 Aon Benefit Index  
10 Database; and (2) the 2024 Willis Towers Watson  
11 Compensation Survey.

12 Q. Was the compensation survey data adjusted for geography?

13 A. Yes. It is a common industry practice to use national  
14 compensation data for analyzing non-officer management  
15 level roles. However, given Con Edison's metropolitan  
16 New York location, a location with a significantly higher  
17 than national cost of labor, a geographic adjustment was  
18 applied to the national data (i.e., those utility and  
19 general industry members of the Blended Peer Group  
20 located outside of New York City) to account for this  
21 cost of labor difference relative to the Blended Peer  
22 Group data used in the Review.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. How many non-officer management positions and employees  
2 were included in the Review?

3 A. To provide a robust representation of the Company's non-  
4 officer management employee base Aon compared a cross-  
5 section of approximately 53 percent of the Con Edison  
6 non-officer management employees (*i.e.*, over 3,000  
7 employees) across the Company's pay structure to the  
8 Blended Peer Group companies.

9 Q. Is 53 percent coverage sufficient to draw valid  
10 conclusions from the Review?

11 A. Yes. The positions in the analysis covered various  
12 functional areas including Central Operations,  
13 Operations, Electric Operations, Gas Operations, Finance,  
14 Accounting, Customer Operations, Human Resources,  
15 Engineering, Information Resources, and Law, among  
16 others, and all of the non-officer management salary  
17 bands at Con Edison: 1L/1H, 2L/2H, 3L/3H, and 4L/4H. The  
18 results of the analysis, therefore, are representative of  
19 Con Edison's pay positioning across the entire non-  
20 officer management employee population.

21 Q. Why were some Con Edison non-officer management positions  
22 excluded from the Review?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. In performing the positional analysis, benchmark jobs  
2 were identified for all of Con Edison's non-officer  
3 management employees. Of the "benchmark" jobs, there was  
4 sufficient Blended Peer Group data to provide analysis  
5 for 53 percent of Con Edison's non-officer management  
6 employees.

7 Q. Why were some "benchmark" jobs not included in the  
8 Review?

9 A. For some benchmark jobs, there was insufficient data to  
10 include the positions in the Review. In performing the  
11 positional analysis Aon adhered to the United States  
12 Department of Justice safe harbor guidelines, which  
13 indicate the need for a minimum of five data points with  
14 no more than 20 percent of the sample from any single  
15 peer company. If fewer data points were available for a  
16 benchmark position, Aon excluded that position from the  
17 Review.

18 Q. Is the Panel sponsoring an exhibit in connection with the  
19 positions included in the Review?

20 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-03) entitled  
21 "EMPLOYEE CENSUS/POSITION MATCHING."

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Was this exhibit prepared by you or under your direct  
2 supervision?

3 A. Yes.

4 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
5 (CBP-03).

6 A. This exhibit lists all non-officer management positions  
7 at Con Edison, and whether the position was included in  
8 the Review. Positions were excluded for one of the  
9 following reasons:

10 "Insufficient Benchmark Data (less than five  
11 comparator matches)" indicates the Con Edison  
12 position is a benchmark position but there is  
13 insufficient Blended Peer Group data to include the  
14 position; or

15 "Non-Benchmark Job" indicates the Con Edison  
16 position is not similar to any survey benchmark  
17 positions in terms of functional responsibilities,  
18 job duties, and/or organizational level.

19 Q. Is the Panel sponsoring an exhibit in connection with the  
20 competitive positioning of Total Benefits and  
21 Compensation of Con Edison non-officer management  
22 positions benchmarked as part of the Review?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-04) entitled "TOTAL  
2 BENEFITS AND COMPENSATION RESULTS."

3 Q. Was this exhibit prepared by you or under your direct  
4 supervision?

5 A. Yes.

6 Q. Please explain the information in EXHIBIT \_\_\_\_ (CBP-04).

7 A. This exhibit identifies the Con Edison employee positions  
8 included in the comprehensive review as compared to the  
9 Blended Peer Group. This exhibit includes the following  
10 information:

- 11 • Job Grade;
- 12 • Con Edison job title and organizational  
13 unit/department;
- 14 • Benchmark code, functional area, and title;
- 15 • Con Edison Total Benefits and Compensation;
- 16 • Market Total Benefits and Compensation at the 50<sup>th</sup>  
17 percentile (median) and average; and
- 18 • Variance for each Con Edison position to market  
19 using the median and the average.

20 Q. What did Aon's analysis indicate when comparing Con  
21 Edison to the Blended Peer Group?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. In the aggregate, Aon found Con Edison' non-officer  
2 management Total Benefits and Compensation package value  
3 to be "market competitive." Con Edison's Total Benefits  
4 and Compensation was 5.1 percent below the Blended Peer  
5 Group median (or 94.9 percent of the median). Using the  
6 average, Con Edison's total Benefits and Compensation was  
7 6.0 percent below the Blended Peer Group average (or 94.0  
8 percent of the average). While below the market median  
9 and average, Con Edison's total Benefits and Compensation  
10 package is considered to be within a market competitive  
11 range of plus or minus ten percent in aggregate.

12 Q. Why did Aon compare Con Edison Total Benefits and  
13 Compensation to the median, but compared the Con Edison  
14 benefit designs to the average for the Benefit Index?

15 A. Median and average are both reasonable methods to make  
16 observations in a data analysis, and either may be used  
17 when performing a Total Benefits and Compensation  
18 analysis. However, the use of median is an industry  
19 practice in Total Benefits and Compensation studies  
20 because the median normalizes a data sample by placing  
21 equal emphasis on each observation, thereby mitigating  
22 the influence of extreme outlier values, if any. In

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 benefit design review, program design elements exhibit  
2 much less variation than pay levels. Therefore, it is a  
3 standard industry practice to use market average or  
4 market typical design when analyzing program design  
5 features.

6 Q. How did Aon combine the Benefit Index results with the  
7 compensation benchmarking to develop the Total Benefits  
8 and Compensation package value?

9 A. Aon followed a standard methodology consistent with  
10 industry practice and that Aon used in prior Con Edison  
11 rate cases. First, Aon determined which positions at Con  
12 Edison matched positions among the Blended Peer Group,  
13 based on a comparison of functional responsibilities, job  
14 duties, and organizational levels for which data is  
15 available from the survey sources. Next, Aon compared  
16 the benefit and compensation data for each of these  
17 positions at Con Edison to the benefit and compensation  
18 data for the same positions among the Blended Peer Group  
19 companies. Finally, Aon aggregated these results to  
20 evaluate Con Edison's overall competitive position  
21 relative to the Blended Peer Group median and average.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Is the Panel sponsoring an exhibit in connection with the  
2 results of the Aon analysis?

3 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-05) entitled  
4 "SUMMARY OF RESULTS."

5 Q. Was this exhibit prepared by you or under your direct  
6 supervision?

7 A. Yes.

8 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
9 (CBP-05).

10 A. This exhibit identifies the aggregate results of the  
11 Review Aon performed, relative to both the median and  
12 average of the Blended Peer Group by each component of  
13 Total Benefits and Compensation discussed above:

- 14 • Base Salary;
- 15 • Target Cash Compensation (sum of Base Salary and the  
16 variable component of management pay);
- 17 • Total Direct Compensation (sum of Target Cash  
18 Compensation and long-term equity grants);
- 19 • Total Benefit Value (estimated annual value of  
20 employee benefits); and

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1           • Total Benefits and Compensation (sum of Total Direct  
2           Compensation and Total Benefit Value).

3 Q. Please summarize the Blended Peer Group analysis findings  
4 with respect to Base Salary.

5 A. The base salary benchmarking result of 95.9 percent  
6 indicates that the salaries of the Con Edison positions  
7 included in the benchmarking are 4.1 percent below the  
8 median of the Blended Peer Group.

9 Q. Please provide a summary of the Blended Peer Group  
10 analysis findings with respect to annual variable pay.

11 A. The Con Edison variable component of management pay lags  
12 the market. As a percentage of total cash compensation  
13 Con Edison's variable pay represents 8.5 percent. The  
14 median for the Blended Peer Group is 13.7 percent and the  
15 average is 13.3 percent.

16 Q. Is the Panel sponsoring an exhibit in connection with the  
17 findings regarding the variable pay component of  
18 management pay?

19 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-06), entitled  
20 "ANNUAL VARIABLE PERFORMANCE-BASED PAY COMPARISONS."

21 Q. Was this exhibit prepared by you or under your direct  
22 supervision?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes.

2 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
3 (CBP-06).

4 A. This exhibit identifies the annual variable pay component  
5 of management pay opportunity for non-officer management  
6 employees in each Con Edison Band, as compared to the  
7 market range or target variable pay among the Blended  
8 Peer Group companies at equivalent Band levels.

9 Q. Please summarize your findings.

10 A. In summary, the compensation elements - base salary and  
11 variable pay - both lag peer groups with an overall Total  
12 Cash Compensation value of 91.4 percent as compared to  
13 the Blended Peer Group median or 50<sup>th</sup> Percentile - just  
14 within the +/- 10 percent that is considered competitive.  
15 Once the value of long-term equity and benefits are  
16 added, the Company Total Benefits and Compensation  
17 declines slightly but stays within the +/- 10 percent  
18 with an overall combined value of 90.6 percent of the  
19 benchmark companies' median. The results of the Review  
20 demonstrate that the cost of the total benefits program  
21 and compensation, including the variable and long-term  
22 equity component of non-officer management base

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 compensation, are appropriately incurred business  
2 expenses.

3 **COMPENSATION PROGRAM FOR NON-OFFICERS**

4 Q. Please describe the Company's overall compensation  
5 philosophy.

6 A. The Company's philosophy is to provide compensation that  
7 is competitive with the median levels of compensation  
8 provided by a peer group of similarly situated companies.  
9 This approach to setting compensation levels permits the  
10 Company to be reasonably competitive in the labor market  
11 and to be able to attract, and fairly compensate,  
12 employees important to the success of the Company. In  
13 targeting the median levels for compensation measured  
14 against a market competitive norm, the Company has taken  
15 a conservative cost approach, which benefits its  
16 customers.

17 Q. Does the base compensation for Con Edison's non-officer  
18 management employees include both base salary and a  
19 variable pay component?

20 A. Yes.

21 Q. Has the Commission addressed standards for recovery of  
22 the variable component of management pay?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes, the Commission has addressed this topic. For  
2 example, in its *Order Denying Petitions for Rehearing*  
3 *and/or Clarification*, issued on November 21, 2011, in  
4 Case 10-E-0362 (pp. 5-6), the Commission clarified what  
5 it expects a utility to show to support customer funding  
6 of total compensation for its employees. First, the  
7 Commission rejected the "artificial distinction" between  
8 traditional compensation and incentive-based compensation  
9 and expressly recognized that "variable compensation and  
10 incentive plans are common management tools" to encourage  
11 improved performance and overall operations. Thus, the  
12 Commission stated that it is reasonable for a utility to  
13 present "a comparable total compensation study of  
14 similarly situated companies" that shows "total  
15 compensation including incentive compensation for a class  
16 of employees," and described any concern about the  
17 relationship of incentive plan goals to customer  
18 interests as "substantially diminished." Indeed, the  
19 Commission stated that if the plan "does not promote  
20 employee behavior" contrary to customer interests or  
21 Commission policies, then the plan "may contain  
22 financial, budgetary or other goals" that benefit both

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1           shareholders and customers "even if the relative benefits  
2           are unquantified." In other words, it would not be a  
3           sufficient ground to disallow funding in rates if, in  
4           addition to benefiting customers, the incentive plan  
5           benefits shareholders.

6   Q.    Is Con Edison unusual in its inclusion of a variable pay  
7           component as part of base compensation?

8   A.    No.  As the Commission has recognized, tying a portion of  
9           employees' base compensation to performance is  
10          commonplace both in American business generally and for  
11          public utilities as well.

12  Q.    Please continue.

13  A.    The variable pay component of base compensation in the  
14          Company's Management Variable Pay ("MVP") program is  
15          earned only if the Company reaches pre-set financial and  
16          operating performance goals.  These goals are directly  
17          linked to specific measurable standards consistent with  
18          the Company's goal of providing safe and reliable service  
19          to customers, resilience in response to extreme weather,  
20          and implementing the State's clean energy agenda.

21  Q.    How do the measures in the Company's variable pay program  
22          align with other companies?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1 A. The use of financial measures in annual incentive  
2 programs is very common. In the *2024 Annual Incentive*  
3 *Plan Design Survey - U.S. Highlights*, Willis Towers  
4 Watson ("WTW") surveyed over 380 organizations in the  
5 United States and found that the most common measures  
6 were those related to profitability (90 percent) and  
7 strategic business non-financial (e.g., operating metrics,  
8 customer satisfaction, customer acquisition costs) (58  
9 percent).
- 10 Q. Please describe the MVP component of base compensation as  
11 it applies to the Company's non-officer management  
12 population.
- 13 A. The MVP component of base compensation is earned only if,  
14 and to the extent that, the Company achieves pre-set  
15 performance goals that are directly linked to specific  
16 measurable standards consistent with the Company's  
17 achievement of its goals cost-effectively. These  
18 performance goals encompass employee and public safety,  
19 operational excellence, customer experience,  
20 environmental and sustainability objectives; timely  
21 completion of high priority capital projects and  
22 programs; operating budgets; and adjusted net income.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1 Q. Are there any management employees who do not participate  
2 in the MVP program?
- 3 A. Yes. As discussed by the Customer Energy Solutions Panel,  
4 eight employees in the Energy Efficiency Department  
5 participate in a commission-based program in lieu of the  
6 MVP program. These employees were excluded from the  
7 Company's calculation of MVP for the Rate Year.
- 8 Q. What is the eligibility requirement for all other  
9 management employees?
- 10 A. All other Con Edison management employees who demonstrate  
11 satisfactory performance are eligible for an MVP award.
- 12 Q. Please describe how the MVP component of the Company's  
13 non-officer management compensation works.
- 14 A. The "Target Fund" for the MVP component is first  
15 determined by multiplying the base salary of all eligible  
16 employees as of December 31 by their respective target  
17 percentage.
- 18 Q. Can the Target Fund be adjusted?
- 19 A. Yes, the Target Fund can be increased or decreased based  
20 on the actual performance results compared with the pre-  
21 set performance goals for that year.
- 22 Q. Please continue.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. The Target Fund available for distribution is established  
2 based on three weighted components: performance goals (50  
3 percent), operating budget (25 percent), and net income  
4 (25 percent). A sliding scale of 0 percent to 150  
5 percent is applied to each component based on actual  
6 outcomes. The actual amount to be distributed each year  
7 is determined by multiplying the Target Fund by the  
8 actual performance results for the three performance  
9 criteria components. Variable pay amounts awarded will  
10 vary among employees based on the target percentage for  
11 the position, and an assessment of their individual  
12 performance. An eligible employee with unsatisfactory  
13 performance will not qualify for variable pay.

14 Q. How was the amount of variable pay included in the  
15 revenue requirement calculated?

16 A. The amount of variable pay included is set by the Target  
17 Fund level, *i.e.*, the assumption is that there is no  
18 adjustment. This amount expressed as a percentage of  
19 total cash compensation equals 8.5 percent. As indicated  
20 above, the median for the Blended Peer Group is 13.7  
21 percent and the average is 13.3 percent.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What happens if the amount of the variable component of  
2 management pay allowed in rates is not achieved?

3 A. If the goals are not fully achieved, the Target Fund  
4 amount of variable pay recoverable from customers is not  
5 paid out. Consistent with the Company's current electric  
6 and gas rate plans, the Company proposes to continue to  
7 credit customers with the difference.

8 Q. What happens if the results for the MVP exceed the target  
9 levels?

10 A. Only the target levels are included in the current rate  
11 request. Customers will not pay for any MVP performance  
12 above the target level.

13 Q. Does the Company have a plan document that describes its  
14 variable pay plan?

15 A. Yes.

16 Q. Is the Panel sponsoring an exhibit describing the  
17 Company's variable pay plan?

18 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-7) entitled  
19 "Management Variable Pay Program."

20 Q. Was this exhibit prepared by you or under your direct  
21 supervision?

22 A. Yes.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. How do the three components of the MVP - performance  
2 goals, operating budget, and net income-- measure results  
3 that benefit customers?

4 A. The performance indicator goals address Employee and  
5 Public Safety with measures such as gas-made-safe time;  
6 Environment and Sustainability measures include measuring  
7 success of energy efficiency programs; Operational  
8 Excellence includes electric, gas and steam reliability  
9 measures; and Customer Experience measures includes call  
10 answer rates and customer satisfaction surveys. The  
11 selection of the ten measures reflects the Company's  
12 focus on delivering to its customers safe and reliable  
13 utility service in a cost-effective manner.

14 Q. Is the Panel sponsoring an exhibit listing the Company's  
15 performance indicators?

16 A. Yes. Please see the EXHIBIT \_\_\_\_ (CBP-8) entitled "2023,  
17 2024, and 2025 Performance Goals."

18 Q. Was this exhibit prepared by you or under your direct  
19 supervision?

20 A. Yes.

21 Q. How do customers benefit from the attainment of these  
22 performance goals?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. To the extent that such goals are achieved, customers  
2 benefit directly. The Company's concerns for customer  
3 satisfaction, providing a high level of service, and  
4 overall safety are demonstrated by the way the variable  
5 component of management compensation is linked to  
6 particular goals.

7 Q. How do customers benefit from the Company attaining the  
8 Operating Budgets and Net Income goals?

9 A. Because Con Edison competes for capital in a capital-  
10 intensive industry, achieving net income and operating  
11 budget levels that attest to the Company's financial  
12 strength and stability benefits customers by giving the  
13 Company access to capital at a reasonable cost. If the  
14 Company did not achieve these goals, it could be more  
15 expensive for the Company to access the financial  
16 markets, and thus more expensive for customers.

17 Q. How does the Company measure its operating budget  
18 performance?

19 A. The Company measures its operating budget performance  
20 based upon total dollars spent relative to target.

21 Q. Do you have any other general comments on the Company's  
22 performance indicator goals?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. When it comes to the variable component of  
2 management pay, it is sound policy to use an approach  
3 that relies on a combination of targets that encourage  
4 employees to meet customer and State policy goals in a  
5 cost-effective manner. For example, focusing on  
6 operational excellence while considering budgetary  
7 concerns inevitably results in lower costs to customers.  
8 Conversely, a single-minded focus on meeting budgets  
9 without a focus on prudent business management can result  
10 in unsatisfactory customer service and unnecessary costs  
11 over time. This is why the Company balances its financial  
12 and performance goals.

13 Q. Please summarize your testimony regarding non-officer  
14 variable pay.

15 A. As we have explained, the Commission has expressly  
16 recognized that employee compensation plans may include  
17 "financial, budgetary or other goals" unless the plan  
18 promotes employee behavior contrary to customers'  
19 interests or Commission policies, and that such a plan  
20 may benefit both customers and shareholders even if the  
21 relative benefits are not quantified. Con Edison's non-  
22 officer variable pay's financial goals are not contrary

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 to customers' interests. Indeed, as discussed above, the  
2 goals, which include the operating and capital budget, if  
3 achieved, will benefit customers over the long-run and  
4 meet the Commission's test for a recoverable cost.  
5 Nevertheless, the Company has proposed to keep variable  
6 pay subject to an asymmetrical reconciliation mechanism,  
7 *i.e.*, customers are reimbursed if Con Edison  
8 underachieves but do not have to pay more if the Company  
9 overachieves.

10 Q. Turning to another aspect of compensation, please  
11 describe equity grants for non-officer management  
12 employees.

13 A. Equity grants are awarded to management employees who  
14 contribute to the future success and growth of the  
15 Company. The Management Development and Compensation  
16 Committee of the Company's Board ("MDC Committee"), the  
17 administrator of the equity grant program, authorizes  
18 granting equity awards in the form of performance based  
19 restricted stock ("PBRs") to non-officer management  
20 employees in bands 3 and 4, and time-based restricted  
21 stock ("TBRs") to management employees in bands 1 and 2.  
22 The equity grants provide the right to receive one share

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 of Con Edison common stock (or a cash payment equal to  
2 the fair market value of one share of Con Edison common  
3 stock) for each stock unit granted, subject to the  
4 satisfaction of certain pre-established long-term  
5 performance objectives.

6 Q. How are equity grants determined for non-officer  
7 management employees?

8 A. Non-officer management employees are eligible to receive  
9 PBRs and TBRs equity grants. However, it has been the  
10 Company's practice to limit equity grants to  
11 approximately 10 to 20 percent of the total number of  
12 non-officer management employees based on recommendations  
13 from their Senior Officers and an assessment of each  
14 recommended employee's past performance and potential to  
15 contribute to the Company's future success.

16 Q. Why should the Company be permitted to recover the cost  
17 of equity grants?

18 A. Equity grants are part of an overall total benefits and  
19 compensation package for non-officer management employees  
20 that is below the median compared to the Blended Peer  
21 Group. The form of compensation, in this case equity  
22 grants as opposed to cash, should not

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 influence the recoverability of compensation cost. The  
2 Company provides equity grants to non-officer management  
3 employees to retain quality employees critical to the  
4 Company's success. Payouts for Band 3 and 4 employees  
5 are made only after the consistent demonstration of  
6 achieving performance indicators over a three-year  
7 period. Equity grants are a component of the overall  
8 benefits and compensation package for non-officer  
9 management employees and are a necessary and reasonable  
10 business expense incurred by the Company in order to  
11 attract and retain talented employees necessary to  
12 provide safe and reliable service, respond to extreme  
13 weather events, and implement the State's clean energy  
14 agenda.

15 Q. How much is reflected in the revenue requirement for  
16 equity grants?

17 A. As reflected in the Other Compensation element of expense  
18 shown in Accounting Panel Exhibit \_\_\_ (AP-3), the revenue  
19 requirements reflect the following amounts for equity  
20 grants: \$16 million for electric and \$6 million for  
21 gas.

22

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 **COMPENSATION PROGRAM FOR OFFICERS**

2 Q. Please describe the Company's officer compensation  
3 package.

4 A. The Company's compensation package for its officers  
5 includes market-competitive benefits and compensation  
6 designed to attract and retain qualified officers.

7 Q. What are the elements of the Company's compensation  
8 program for its officers?

9 A. The elements of the Company's compensation program are  
10 the same for officers as they are for non-officer  
11 management employees – base salary, a variable pay  
12 component, and long-term equity grants that are  
13 competitive with the median levels of officer  
14 compensation provided by a peer group of similarly  
15 situated companies.

16 Q. How do the benefits and compensation of the officers  
17 compare to the median?

18 A. Based on the Review conducted by Aon, Company officers'  
19 Total Benefits and Compensation is 3.7 percent above the  
20 Blended Peer Group median and 11.7 percent below the  
21 Blended Peer Group average.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Please describe how the Company established compensation  
2 levels for officers.

3 A. The MDC Committee of the Board establishes, reviews, and  
4 administers the Company's officer compensation program.  
5 The MDC Committee retains Mercer, a wholly-owned  
6 subsidiary of Marsh & McLennan Companies, Inc., as an  
7 independent consultant to provide it with information,  
8 analyses, and recommendations regarding officer  
9 compensation.

10 Q. How does Mercer benchmark officer compensation?

11 A. Mercer uses an industry peer group of publicly-traded  
12 utility companies and general industry companies to  
13 benchmark the compensation paid to all officers.

14 Q. Were Company officers included in the Review conducted by  
15 Aon?

16 A. Yes. While the MDC Committee as described above  
17 establishes and approves officers' compensation, the  
18 Company instructed Aon to include officers as part of the  
19 external benchmarking of Total Benefits and Compensation  
20 of the Review.

21 Q. How do the benefits and compensation of the officers  
22 compare to the median?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Aon found that officers' Total Benefits and Compensation  
2 is 3.7 percent above the Blended Peer Group median and  
3 11.7 percent below the Blended Peer Group average.

4 Q. Are Aon's benchmark findings consistent with the  
5 information prepared by Mercer for the MDC Committee?

6 A. Yes. Mercer's analysis focuses on officers' base salary,  
7 variable pay, and long-term equity grants commonly  
8 referred to as "Total Direct Compensation." Mercer's  
9 benchmarking also includes utility and general industry  
10 companies. Aon was able to compare the Company's  
11 officers' Total Direct Compensation with the Total Direct  
12 Compensation of the Blended Peer Group. The Aon findings  
13 indicate the Company officers' Total Direct Compensation  
14 is in line with the median of the Blended Peer Group or  
15 100.2 percent of the Blended Peer Group but trails the  
16 average of the Blended Peer Group by 15.6 percent.

17 Q. Did Aon use the same blended peer group to conduct the  
18 Review of officers' benefits and compensation and the  
19 non-officer Review?

20 A. Yes. Aon used the Blended Peer Group for both.

21 Q. How many officer management positions were included in  
22 the Review of Total Benefits and Compensation?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1 A. Thirty-seven of the Company's forty-seven officers were  
2 included in the Review or approximately 79 percent of the  
3 Con Edison officer management employees.
- 4 Q. Is 79 percent coverage sufficient to draw valid  
5 conclusions from the Review?
- 6 A. Yes. The officers in the analysis included the President  
7 and Chief Executive Officer, President, Chief Financial  
8 Officer, General Counsel, and senior officers (Senior  
9 Vice Presidents) and officers (Vice Presidents) covering  
10 the following functional areas: Operations, Finance,  
11 Accounting, Customer Operations, Human Resources,  
12 Engineering, Information Resources, and Law. The results  
13 of the analysis, therefore, are representative of Con  
14 Edison's pay positioning across the entire officer  
15 management employee population.
- 16 Q. Why were some Con Edison officer management positions  
17 excluded from the Review?
- 18 A. As with some non-officer benchmark positions, the Blended  
19 Peer Group companies reported insufficient data to the  
20 compensation survey sources. In addition, one officer  
21 role is a non-benchmark job.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Is the Panel sponsoring an exhibit in connection with the  
2 positions included in the Review?

3 A. Yes. Please see EXHIBIT \_\_\_\_ (CBP-9) entitled "OFFICER  
4 CENSUS/POSITION MATCHING."

5 Q. Was this exhibit prepared by you or under your direct  
6 supervision?

7 A. Yes.

8 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
9 (CBP-9).

10 A. This exhibit lists all officer management positions at  
11 Con Edison, and whether the position was included in the  
12 Review. Positions were excluded for one of the following  
13 reasons:

- 14 • "Insufficient Benchmark Data (less than five  
15 comparator matches)" indicates the Con Edison  
16 position is a benchmark position but there was  
17 insufficient Blended Peer Group data to include the  
18 position; or
- 19 • "Non-Benchmark Job" indicates the Con Edison  
20 position is not similar to any survey benchmark  
21 positions in terms of functional responsibilities,  
22 job duties, and/or organizational level.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Is the Panel sponsoring an exhibit in connection with the  
2 competitive positioning of Total Benefits and  
3 Compensation of Con Edison officer positions benchmarked  
4 as part of the Review?

5 A. Yes. Please see EXHIBIT \_\_\_\_ (CBP-10) entitled "TOTAL  
6 BENEFITS AND COMPENSATION RESULTS - OFFICERS."

7 Q. Was this exhibit prepared by you or under your direct  
8 supervision?

9 A. Yes.

10 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
11 (CBP-10).

12 A. This exhibit identifies the Con Edison officer positions  
13 included in the Review as compared to the Blended Peer  
14 Group. This exhibit includes the following information:

- 15 • Con Edison title;
- 16 • Benchmark title;
- 17 • Con Edison Total Benefits and Compensation;
- 18 • Market Total Benefits and Compensation at the 50<sup>th</sup>  
19 percentile (median) and average; and
- 20 • Variance for each Con Edison position to market  
21 using the median and the average.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What did Aon's analysis indicate when comparing Con  
2 Edison to the Blended Peer Group?

3 A. In the aggregate, Aon found Con Edison's officer  
4 management Total Benefits and Compensation package value  
5 to be "market competitive." Con Edison's officer  
6 management Total Benefits and Compensation was 3.7  
7 percent above the Blended Peer Group median. The result  
8 is considered to be within a market competitive range of  
9 plus or minus ten percent in aggregate. When compared to  
10 the average, the result of 11.7 percent is slightly below  
11 a market competitive range of plus or minus ten percent  
12 in aggregate because several of the comparison companies  
13 had significantly higher short-term and long-term  
14 incentives than the median, thereby skewing the average.

15 Q. Is the Panel sponsoring an exhibit in connection with the  
16 results of the Aon analysis?

17 A. Yes. Please see EXHIBIT \_\_\_\_ (CBP-11) entitled "SUMMARY  
18 OF RESULTS - OFFICERS."

19 Q. Was this exhibit prepared by you or under your direct  
20 supervision?

21 A. Yes.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Please explain the information set forth in EXHIBIT \_\_\_\_  
2 (CBP-11).

3 A. This exhibit identifies the aggregate results, relative  
4 to both the average and the median of the Review Aon  
5 performed using the Blended Peer Group by each component  
6 of Total Benefits and Compensation discussed above:

- 7 • Base Salary;
- 8 • Target Cash Compensation (sum of Base Salary and the  
9 variable component of officer pay);
- 10 • Total Direct Compensation (sum of Target Cash  
11 Compensation and long-term equity grants);
- 12 • Total Benefit Value (estimated annual value of  
13 employee benefits including non-qualified benefits  
14 earned under supplemental retirement plans); and
- 15 • Total Benefits and Compensation (sum of total Direct  
16 Compensation and Total Benefit Value).

17 The Review demonstrates that all overall benefits  
18 and compensation are competitive with the median levels  
19 of officer compensation provided by the Blended Peer  
20 Group, that is, less than ten percent below median as  
21 determined by the Review. Therefore, officer benefits

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 and compensation costs, including variable pay and long-  
2 term equity grants, represent a reasonable business  
3 expense that should be fully recoverable.

4 Q. Is the Company seeking to recover all elements of officer  
5 benefits and compensation, *i.e.*, base salary, the  
6 variable pay component, and long-term equity grants, in  
7 this rate filing?

8 A. No. As noted above, in order to limit the contested  
9 issues in this filing, the Company is electing not to  
10 seek recovery of the long-term equity grants and annual  
11 variable pay awards provided to the Company's officers.

12 **DIRECTORS' COMPENSATION**

13 Q. Please explain the compensation package for members of  
14 the Company's Board.

15 A. Compensation for members of the Board who are not  
16 employees of the Company, includes annual board and  
17 committee chair retainers and annual long-term equity  
18 grants.

19 Q. Please describe how the Company establishes compensation  
20 levels for Board members.

21 A. The Corporate Governance and Nominating Committee (the  
22 "Committee") of the Board establishes and approves the

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Board's compensation program. The Committee retains  
2 Mercer to provide information, analyses, and  
3 recommendations regarding director compensation. The  
4 Committee directs Mercer to (1) assist the Committee by  
5 providing competitive market information on the design of  
6 the director compensation program; (2) advise the  
7 Committee on the design and administration of the  
8 director compensation program, and (3) inform the  
9 Committee on director compensation trends among the  
10 Company's compensation peer group and broader industry.

11 Q. Please describe the current level of annual retainers and  
12 equity grants.

13 A. Each non-employee member of the Board receives an annual  
14 retainer of \$125,000, and the Lead Director (*i.e.*, the  
15 liaison between the Company's Chief Executive Officer and  
16 the independent, non-executive directors) receives an  
17 additional annual retainer of \$35,000. The Chair of the  
18 Management Development and Compensation Committee  
19 receives an additional annual retainer of \$20,000. The  
20 Chair of the Safety, Environment, Operations and  
21 Sustainability Committee receives an additional annual  
22 retainer of \$20,000. The Chair of the Corporate

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Governance and Nominating Committee receives an  
2 additional annual retainer of \$20,000. The Audit  
3 Committee Chair receives an additional annual retainer of  
4 \$30,000 and each Audit Committee member receives an  
5 additional annual retainer of \$15,000. Each director is  
6 also allocated an annual equity grant of \$170,000 of  
7 deferred stock units following their election at the  
8 annual stockholders meeting. The annual long-term equity  
9 grants are automatically deferred until the director's  
10 termination of service from the Board.

11 Q. How often is the compensation for non-employee Board  
12 members evaluated?

13 A. Mercer conducts the assessment of non-employee Board of  
14 Director compensation every two years with the Committee  
15 to align Directors' compensation with market levels.

16 Q. When was the most recent assessment completed?

17 A. Mercer conducted the most recent assessment in 2024.  
18 Mercer found that the Company's total Directors'  
19 compensation is aligned with the median levels of both  
20 the Company compensation peer group and a general  
21 industry (*i.e.*, \$10-\$15 billion total market  
22 capitalization) group. Accordingly, the Company's

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 elements of Directors' compensation, including long-term  
2 equity grants, are (1) a reasonable cost of attracting  
3 and retaining qualified non-employee directors, (2)  
4 commonly included in board of directors' compensation  
5 plans, and (3) a market-based compensation package.  
6 These elements are therefore a legitimate cost of doing  
7 business that should be recovered in rates.

8 Q. Is the Company proposing in this filing to recover long-  
9 term equity grants provided to non-employee Board members  
10 in the Rate Year?

11 A. No. In order to limit the contested issues in this  
12 filing, the Company is electing not to seek recovery of  
13 the long-term equity grants provided to non-employee  
14 Board members in the Rate Year. The Company may seek to  
15 recover such grants in future proceedings.

16 **UNION CONTRACTS**

17 Q. What portion of the Company's work force is unionized?

18 A. As noted above, two unions support employees of Con  
19 Edison, Local 1-2 and Local 3. Combined, these unions  
20 represent approximately 7,800 employees or approximately  
21 51 percent of the Company's total workforce.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What is the effective date and term of the current  
2 collective bargaining agreements with the two unions?

3 A. Effective June 23, 2024, the Company and Local 1-2  
4 entered into a four-year contract that will expire on  
5 June 24, 2028. On June 16, 2021, the Company and Local 3  
6 entered into a four-year contract that will expire on  
7 June 21, 2025.

8 Q. Please describe the wage increases included in each of  
9 these contracts.

10 A. The Local 1-2 Contract provide for a 4.5% increase in  
11 year 1, 4% increases in years 2 and 3, and a 4.25%  
12 increase in year 4. In addition, both contracts provide  
13 for escalation to the maximum pay rate for top titles  
14 following specific service and performance criteria.

15 Q. Did the contracts provide for any other changes in health  
16 benefits?

17 A. Yes. Both contracts provided for changes in employee  
18 contributions, deductibles, and co-pays for medical and  
19 prescription services over the length of the contracts.

20 Q. Are the health care benefits of union employees provided  
21 in the same manner as management employees?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes. The medical benefits are provided through a self-  
2 insured arrangement with Cigna acting as the claim  
3 administrator. There are also Health Management  
4 Organization ("HMO") plans available to all Con Edison  
5 employees. Prescription, vision, and dental coverage is  
6 also available.

7 Q. Do the unions negotiate with the Company as to their  
8 members health care plan contributions?

9 A. Yes. A critical part of the negotiation with the union  
10 leadership is the cost of health benefits. The unions  
11 represent the interests of their members and while the  
12 unions are keenly aware of constantly rising healthcare  
13 costs, they are clear in their intention to keep cost  
14 increases to a minimum for their members.

15 A. What role do plan design changes play in controlling  
16 costs for the Company's union population?

17 A. There are differences in the co-pay, deductibles, and  
18 other limits that develop over the process of negotiating  
19 the entire contract. While not significant, these  
20 differences do reflect the priorities of each union for  
21 their members. Plan design changes in co-pay,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 deductibles, and other limits are negotiated with annual  
2 increases to maintain cost sharing.

3 Q. Describe the retirement benefits offered to new hires of  
4 Local 1-2.

5 Q. New hires represented by Local 1-2 may choose which  
6 pension plan/formula they want to receive. New hires  
7 make this election within 60 days of hire and that  
8 decision is irrevocable. In addition, new hires are  
9 eligible to participate in the Thrift Savings Plan  
10 (401(k)), whereby they will receive Company-matching  
11 contributions based on their contributions and the limits  
12 outlined in the collective bargaining agreement.

13 Q. Can you describe the retirement choices for Local 1-2 new  
14 hires?

15 A. Local 1-2 employees may choose receiving their retirement  
16 benefits under the Cash Balance formula contained within  
17 the Company's defined benefit retirement plan or through  
18 the Defined Contribution Pension formula ("DCPF")  
19 contained within the Company's defined contribution  
20 Thrift Savings Plan ("TSP").

21 Q. Is there any difference in the benefits provided by the  
22 Company to the employee under these two retirement plans?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1 A. No. The formula for both plans is the same - a  
2 percentage of compensation based on each employees' age  
3 plus service ("points").
- 4 Q. Is the cost of the Cash Balance and DCPF to the Company  
5 determined in the same manner?
- 6 A. No. The accounting for the Cash Balance formula follows  
7 the accounting standard for Defined Benefit pension  
8 plans, including forecasted interest rates, demographic  
9 assumptions, asset returns, and expected retirements.  
10 For the DCPF, the cost is "pay-as-you-go," where the  
11 Company makes quarterly cash contributions to the  
12 participants' DCPF account.
- 13 Q. What retirement benefits are offered to new hires of  
14 Local 3?
- 15 A. As of June 25, 2017, new hires represented by Local 3  
16 participate in the DCPF plan. They do not have the  
17 option of receiving their retirement benefits under the  
18 Cash Balance formula contained within the Company's  
19 defined benefit retirement plan, as described above for  
20 Local 1-2.
- 21 Q. Do both unions participate in the Thrift Savings Plan?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Yes, members of both unions are eligible to participate  
2 in the Thrift Savings Plan and receive a Company match  
3 for any contributions they make. The specific amounts  
4 eligible for matching and the limit for the Company  
5 contribution are part of the negotiations, with increases  
6 provided annually to encourage employee participation in  
7 the plan. Note provisional employees (currently under  
8 100) do not receive company match.

9 **EMPLOYEE BENEFIT EXPENSES**

10 Q. Is the Panel sponsoring EXHIBIT \_\_\_\_ (CBP-12) entitled  
11 "CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.,  
12 ADMINISTRATIVE AND GENERAL EXPENSES-EMPLOYEE WELFARE  
13 EXPENSES" (electric) and EXHIBIT \_\_\_\_ (CBP-13) entitled  
14 "CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.,  
15 ADMINISTRATIVE AND GENERAL EXPENSES-EMPLOYEE WELFARE  
16 EXPENSES" (gas)?

17 A. Yes.

18 Q. Were these exhibits prepared by you or under your direct  
19 supervision?

20 A. Yes.

21 Q. Please describe these exhibits.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

- 1 A. Page 1 of each exhibit is a summary of the Company's  
2 forecast of employee benefit expenses for the Rate Year,  
3 based on costs incurred in the Historic Year (*i.e.*,  
4 October 1, 2023 - September 30, 2024). Lines 1 through  
5 16 show costs for the Company's employee benefit  
6 programs, and lines 18 through 22 show health care costs  
7 net of employee payroll contributions for health care  
8 benefits. Total employee welfare expenses are shown on  
9 line 24. Total employee benefit expenses, net of  
10 capitalized amount, is a summary of projected health care  
11 costs and employee deductions for the Rate Year.
- 12 Q. Please describe the change in the Total Employee Welfare  
13 Expense from the Historic Year to the end of the Rate  
14 Year (*i.e.*, December 31, 2026).
- 15 A. Over the 15-month period between the end of the Historic  
16 Year and the end of the Rate Year, total costs for  
17 Employee Welfare Expenses are projected to increase by  
18 15.2 percent overall or 12 percent per year, primarily  
19 due to rapidly rising costs and utilization of GLP-1  
20 prescription drugs (a class of medications used to treat  
21 Type 2 diabetes and obesity) and an increasingly greater

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 percentage of active employees relying on the Company's  
2 401(k) plan and company match for retirement savings.

3 Q. Please describe the methods used for escalating employee  
4 benefit costs.

5 A. Three different methods are used to escalate Historic  
6 Year costs to the Rate Year costs. First, a labor  
7 escalation factor of 8.0 percent is used to escalate  
8 employee benefit costs that are a function of salaries  
9 and wages (4% per year). For example, the Thrift Savings  
10 401(k) Plan provides a Company match to employees for a  
11 portion of their plan contributions; this is escalated  
12 using the labor escalation factor. Second, a non-labor  
13 escalation factor of 9.41 percent is used to escalate  
14 specific employee benefit costs that are unrelated to  
15 salaries and wages, such as stock purchase plan matching  
16 contributions and employee wellness programs. The third  
17 factor, health care costs, was derived using medical  
18 inflation rates as discussed below related to historical  
19 claims experience.

20 Q. Please describe the level of health care costs reported  
21 for the Historic Year.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. For the 12 months ended September 30, 2024, Hospital &  
2 Medical Insurance costs (line 20, Exhibits CBP-12 and  
3 CPB-13) were \$236,301,000.

4 Q. How did you project Hospital & Medical Insurance Costs  
5 for the Rate Year?

6 A. The Company developed the projection for the Rate Year  
7 costs using two elements: (1) the impact of continued  
8 employee migration to lower-cost plans (High Deductible  
9 and Essential Health Plans), and (2) medical inflation of  
10 six percent for the self-insured program and eight  
11 percent for the HMO plans.

12 Q. Did the Company make any other normalization adjustments?

13 A. No.

14 Q. Does the projection of health care costs include any  
15 program changes?

16 A. Yes. The projection for health care costs includes the  
17 impact of plan design changes implemented for 2025, such  
18 as increases in the amount of employee payroll  
19 contributions.

20 Q. Are any other impacts on health care costs anticipated in  
21 the revenue requirement?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. With a new Presidential Administration taking office in  
2 January 2025, there is currently uncertainty as to what  
3 impact, if any, legislation enacted in the Rate Year and  
4 thereafter will have on health care costs. That said,  
5 there is an expectation that factors such as the  
6 introduction of new expensive medical technologies and  
7 drugs, as well as provider consolidation, will continue  
8 to cause health care costs to increase at a rate greater  
9 than inflation.

10 **HEALTH CARE PROGRAMS**

11 Q. Has the Company made any changes in its health care  
12 plans?

13 A. The Company made changes to health plan deductibles, co-  
14 payments, and employee payroll contributions made during  
15 the Historic Year and expected to be made for the Rate  
16 Year.

17 Q. Does the Company self-insure its health care benefits  
18 programs?

19 A. Yes, the Company self-insures its primary health care  
20 plans and fully insures its HMO plans. For the self-  
21 insured programs, the Company contracts with Cigna, CVS

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Health, and MetLife to process claims and provide other  
2 administrative services.

3 Q. Is self-insuring the most cost-efficient way for the  
4 Company to administer its health care benefits programs?

5 A. Yes. So long as the aggregate claim costs are somewhat  
6 predictable and measurable, self-insurance is less costly  
7 than purchasing insurance that provides similar coverage  
8 from a commercial insurance company. The Company is in  
9 the position to self-insure its health care benefit  
10 programs because claims costs in the aggregate are  
11 generally predictable and measurable. The Company has a  
12 large enough employee and dependent population to be able  
13 to estimate the amount that needs to be set aside to pay  
14 for future claims. In return for assuming the risk of  
15 setting aside sufficient funds to pay the actual claims  
16 costs, the Company achieves cost savings through the  
17 elimination of the carrying costs that commercial  
18 insurers pass on to their insurance consumers, such as  
19 premium taxes, risk charges, state mandates as well as  
20 the additional administrative costs associated with  
21 fiduciary responsibility.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. What is the Company's approach to controlling rising  
2 health care costs?

3 A. Con Edison is continuing to evaluate ways to control  
4 rising health care costs. In particular, Con Edison is  
5 currently evaluating the health insurance carrier  
6 marketplace so that the Company can partner with a  
7 carrier(s) (and PBM) who can deliver high quality care at  
8 the lowest possible cost and offer the most robust  
9 network to facilitate higher quality and lower cost care.  
10 In addition, Con Edison continues to evaluate the top  
11 clinical conditions that their members are facing in  
12 order to consider ways to support and provide the most  
13 cost-effective care to members.

14 Q. How have employees accepted the High Deductible and  
15 Essential Health Plans?

16 A. The introduction of these plans, especially for the  
17 management population, generated a strong response with  
18 enrollment in these plans now representing 52 percent of  
19 the management population, based on 2024 enrollment. The  
20 High Deductible Plan, and to a greater extent the  
21 Essential Health Plan, have not been as widely accepted  
22 by the union employees, mainly because the contributions

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 for the traditional co-pay plan have been managed through  
2 the negotiation process and do not necessarily reflect  
3 the true cost of the benefit. Only 19 percent of the  
4 Local 1-2 and 17 percent of the Local 3 population  
5 participated in the High Deductible and Essential Health  
6 Plans for 2024.

7 Q. What drives the cost of health care?

8 A. Increases in health care costs are driven by many factors,  
9 including, but not limited to, the increased use of medical  
10 procedures and prescription drugs, medical provider  
11 consolidation, labor shortages, as well as the  
12 availability and projected utilization of new high-cost  
13 medical procedures, treatments, and devices and new high-  
14 cost prescription drugs.

15 Q. Please provide an example.

16 A. Similar to many other organizations, the Company has seen  
17 a significant increase in the utilization by its  
18 employees and their dependents of GLP-1s. The high cost  
19 of GLP-1 drugs are straining employer healthcare budgets  
20 as they are increasingly used for treating Type 2  
21 diabetes and obesity. With several more GLP-1 drugs  
22 expected to enter the market by 2026, and anticipation of

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 additional approved indications beyond diabetes and  
2 obesity for use, costs for employer health plans are  
3 likely to continue to rise.

4 Q. Please discuss the role of advanced medical technologies  
5 in health care costs.

6 A. New medical technologies raise the cost of medical  
7 services because they are not designed to compete with  
8 existing or more traditional technologies. Rather, they  
9 are designed and introduced into the market to enhance  
10 the ability of medical professionals to treat the medical  
11 conditions and save the lives of patients. For example,  
12 there are recently approved gene therapies, and more on  
13 the way. While some of these treatments can provide  
14 life-saving treatment, some of these treatments can cost  
15 millions of dollars to administer.

16 Cell and Gene Therapy ("CGTs") continue to emerge in the  
17 market. The currently approved CGTs are limited-  
18 distribution drugs available only through select  
19 specialty pharmacies or certified health care facilities.  
20 When considering Advance Technology treatment or the  
21 application of cell/gene therapy, genetic testing, it  
22 should be noted that when in a benefit design it may be

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1           considered experimental/not tested and pose payment,  
2           regulatory and compliance implications.

3    Q.    Are costs for pharmaceutical solutions also increasing?

4    A.    Yes.  A large portion of the increased spending for  
5           prescription drugs is attributed to an increase in  
6           utilization for high-cost specialty drugs used for the  
7           treatment of complex, chronic, or rare conditions such as  
8           various forms of cancer, rheumatoid arthritis, immune  
9           disorders, and endocrine-related diseases.  There are also  
10          new, and often expensive, drugs that are being introduced  
11          to the market, as well as increases in costs and  
12          utilization of many other drugs.

13   Q.    What actions has the Company taken to mitigate rising  
14          prescription costs?

15   A.    Con Edison has various programs in place with CVS in  
16          order to mitigate prescription drug costs.  For example,  
17          Con Edison has implemented a pre-authorization for GLP-  
18          1s.  Con Edison also has various other programs in place  
19          such as specialty strategies like the CVS' Enhanced  
20          Specialty Guideline Management as specialty pharmacy is a  
21          key driver of costs.  Con Edison continues to work with

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 CVS to identify programs and services that can influence  
2 the overall cost of prescription drugs for employees.

3 Q. Can you describe how these cost savings were achieved?

4 A. Yes. One of the largest components of prescription costs  
5 is specialty drugs. They represent about 50.5 percent of  
6 the annual gross cost of prescription drugs to the  
7 Company. Specialty Guideline Management was introduced  
8 to provide prior authorization (doctor's need to receive  
9 approval to prescribe), step therapy (start with non-  
10 specialty drugs), and day-1 utilization management  
11 control (to keep close tabs on the prescribing doctor and  
12 the results achieved from the recommended treatment) to  
13 promote safe and appropriate utilization of specialty  
14 drugs both before and throughout the course of therapy.

15 Q. Are there other CVS programs in place that address  
16 specialty drugs?

17 A. Yes. The Advanced Control Specialty Formulary utilizes  
18 exclusions, new-to-market drug management, tiering  
19 strategy combined with the Specialty Guideline Management  
20 noted above to support the clinically appropriate  
21 utilization and cost-effectiveness of specialty drug  
22 therapy. Limits have also been applied to the quantity

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 of specialty medications so their efficacy can be  
2 evaluated so that dosages do not exceed the upper limit  
3 of safe and appropriate thresholds.

4 Q. Has the Company introduced changes for non-specialty  
5 drugs in order to reduce prescription costs for the  
6 Company?

7 A. Yes. The Company has implemented prior authorization  
8 requirement for non-specialty drugs. This process  
9 defines a set of criteria by which a drug may be covered,  
10 and are in place to support the safe, effective, and  
11 appropriate utilization of medication.

12 Q. Have there been changes to reduce the cost of  
13 prescriptions for employees?

14 A. Certain preventative drugs do not require a co-pay for  
15 participants covered under the High Deductible and  
16 Essential Health Plans. This continues to help people  
17 maintain medication compliance for chronic conditions and  
18 to better control those conditions with the expectation  
19 that it will minimize health care intervention costs over  
20 the long-term, especially given increased participation  
21 by employees in high deductible health plans.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Are there any other steps that the Company is taking to  
2 mitigate health care costs?

3 A. Yes. The Company conducts periodic audits of the health  
4 and welfare plan vendors to confirm the correct  
5 processing of claims, in accordance with the plan  
6 specifications for each of the health care options. Upon  
7 completion of the audits, if there are any overpayments  
8 to health care providers, the Company will recover those  
9 overpayments. In addition, the Company continues to  
10 review annually its cost-sharing arrangement with the  
11 employees to maintain a reasonable and competitive cost-  
12 sharing level with employees.

13 Q. Has the Company taken steps to encourage employees to  
14 adopt healthy habits?

15 A. Yes. The Company continues to promote healthy behaviors  
16 using a variety of financial incentives, employee  
17 sponsored programs and educating them on the additional  
18 benefits and services available to them from Cigna and  
19 CVS. In addition, employees may receive financial  
20 incentive through the annual wellness credits if they  
21 participate in a medical screening each year.

1

**OTHER BENEFITS**

2 Q. Does the employee benefit expenses projection include any  
3 program changes?

4 A. There are no significant program changes to note that  
5 were included in expense projections.

6 Q. Is the Company making any changes to the Group Life  
7 Insurance program since the last rate case?

8 A. There are no changes to note for the Group Life Insurance  
9 program since the last Con Edison rate case.

10

11

**LEGACY PENSION AND POST EMPLOYMENT BENEFITS OTHER THAN  
12 PENSIONS**

13

14

14 Q. What is the status of the Company's legacy defined  
15 benefit retirement plan ("Legacy Retirement Plan")?

16 A. With the exception of new Local 1-2 employees who have a  
17 choice, the Legacy Retirement Plan is closed to all new  
18 employees. Local 1-2 employees that do not pro-actively  
19 elect to participate in the cash balance formula of the  
20 defined benefit retirement plan are enrolled in the  
21 defined contribution pension formula within the Thrift  
22 Savings Plan.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. How many active employees are still covered by the Legacy  
2 Retirement Plan and accrue benefits under that plan?

3 A. As of January 1, 2024, there were 9,961 active employees  
4 in the Legacy Retirement Plan, including 3,783 (or 38  
5 percent) covered under the Cash Balance formula.

6 Q. What is the demographic profile of the employees covered  
7 under the Legacy Retirement Plan?

8 A. The average age of the current active participants is  
9 46.6 years with an average service of 17.3 years. For the  
10 13,686 retirees, surviving spouses, beneficiaries, and  
11 disabled participants receiving benefits under the Legacy  
12 Retirement Plan, the average age is approximately 76 and  
13 the average annual benefit is approximately \$46,800/year.  
14 There are also 1,545 former employees who are entitled to  
15 future benefits of whom 491 are entitled to traditional  
16 plan benefits with an average value of \$18,000/year and  
17 1,054 are entitled to cash balance accounts having an  
18 average value of \$51,300.

19 Q. What is the current status of the supplemental retirement  
20 income plan ("SRIP")?

21 A. Because the SRIP provides management employees upon  
22 retirement with the portion of their earned retirement

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 benefit that could not be paid under the tax-qualified  
2 plans due to federal tax law limitations, the closure of  
3 the qualified Retirement Plan to new management employees  
4 in 2017 resulted in the closure of the SRIP.

5 Q. Are there ongoing costs associated with the Retirement  
6 Plan and SRIP?

7 A. While the Retirement Plan is closed to virtually all new  
8 participants and the SRIP is completely closed, those in  
9 the plans prior to their respective closure date continue  
10 to accrue benefits under the plans. Defined benefit  
11 plans are subject to accounting treatment under ASC 715  
12 Compensation - Retirement Benefits where the accumulated  
13 and projected cost of providing the benefits under the  
14 plans are spread out over the life of the participants -  
15 active and retired.

16 Q. Please describe the Company's OPEB programs.

17 A. The Company's OPEB programs are comprised of the Retiree  
18 Health Program, which includes major medical,  
19 hospitalization, vision, and pharmaceutical benefits.  
20 The Company also offers a limited retiree term life  
21 insurance program.

22 Q. What is the status of the Company's OPEB plans?

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 A. Under the Retiree Health Program, the Company offers  
2 employees who retire with at least 75 points (calculated  
3 by adding age and years of service, with each year  
4 equaling one point), and their eligible dependents, a  
5 voluntary contributory Retiree Health Program.

6 Q. What is included in the Retiree Health Program?

7 A. The Retiree Health Program offers enrolled retirees  
8 different coverage options including several HMOs, a  
9 prescription drug plan, and comprehensive hospital,  
10 medical, and vision care plans with a network of  
11 participating providers. Once a retiree or covered  
12 dependent becomes eligible for Medicare, the Retiree  
13 Health Program coordinates his or her health care  
14 expenses with Medicare. For Medicare-eligible retirees,  
15 Medicare is the primary payer of hospital and medical  
16 claims, and the Retiree Health Program is the secondary  
17 payer. Under the prescription drug plan, once a retiree  
18 and covered dependent become eligible for Medicare Part  
19 D, retirees may continue their coverage under the Retiree  
20 Health Program or enroll in the Medicare program for  
21 their prescription drug coverage.

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 Q. Does the Company provide any life insurance benefits for  
2 retirees?

3 A. The Company provides certain retired management employees  
4 retiree term life insurance benefits of \$25,000 at no  
5 cost to the retiree, as well as a contributory  
6 supplemental group term life insurance benefit. Upon  
7 retirement, retired union employees may also purchase  
8 supplemental group term life insurance benefits.  
9 Currently, retiring union employees may purchase up to  
10 \$30,000 of coverage in units of \$10,000. The cost of the  
11 contributory portion of the supplemental retiree life  
12 insurance program is partially paid for by the Company.

13 Q. Are all employees eligible for retiree health care?

14 A. Yes, but only those who retire under the final-average or  
15 career average pension formula will be entitled to a  
16 contribution from the Company.

17 Q. Describe the population of employees who are not eligible  
18 for subsidized retiree medical coverage?

19 A. All employees retiring under the DCPF or the Cash Balance  
20 formula are not eligible for any retiree health benefits  
21 contributions. If they meet the eligibility requirements  
22 and enroll in the Retiree Health Program, they will be

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.  
COMPENSATION/BENEFITS PANEL

1 responsible for paying the full cost of Retiree Health  
2 coverage offered through the Company.

3 Q. What portion of the current active population is not  
4 eligible for retiree medical benefits in retirement?

5 A. There were 7,822 active employees covered under the Cash  
6 Balance and DCPF formula as of November 21, 2024, which  
7 represents about 55 percent of the current active  
8 employee population.

9 Q. What has been the increase in retiree contributions for  
10 health care benefits?

11 A. Retirees eligible for retiree health coverage have seen  
12 premium increases of 10 percent per year for the last  
13 several years.

14 Q. Were there any initiatives with respect to the Company's  
15 OPEB programs that were considered and rejected?

16 A. No.

17 Q. Does that conclude your testimony?

18 A. Yes, it does.
