

TERMS OF SERVICE FOR RESIDENTIAL ELECTRICITY SUPPLY – VARIABLE PRICE RENEWABLE PRODUCT

We appreciate your business. This document is a contract between us, Green Mountain Energy Company, and you that allows us to switch your electricity account to our service. It describes the nature of our service with you and provides important information for you to be aware of. We will begin supplying your electricity under this contract, but your utility will continue to be responsible for delivering your electricity and sending you a bill for both of our services.

Customer Disclosure Statement	
Price for Your Electricity	You'll receive an introductory electric supply price of \$X.XXXXX per kWh for your first {three} bill{s}, and your price will be variable after that.
Price Changes	You have selected a renewably sourced electricity product <u>with a variable price structure</u> . This product contains at least 50% renewable energy from sources eligible under New York law – specifically in-state wind and/or in-state hydropower (unless specified differently in your Welcome Confirmation and subject to market availability). See "Renewably Sourced Product Information" below for more details. We will determine the variable supply price at our discretion based on many different factors, which may include prices charged by competitors, industry charges we are responsible for, our costs to procure and sell energy, customer retention rates, applicable state and local taxes, changes in weather, legal and regulatory issues, profit margins, and other relevant business conditions. The variable supply price can change each month. No matter what, we will not increase your variable price in any given month by more than 5% from the prior month's supply price, Your price also reflects the costs to obtain the renewable energy content specified under this contract, which contributes to the premium we may charge over the local utility supply rate.
Length of Your Commitment	Month-to-Month. We will begin providing service to you after your utility processes our request to switch your service. The switch will not occur before the expiration of your "Right to Rescind" period. Our service will continue until either of us cancels the contract.
Your Right to Rescind	You have 3 business days to rescind this contract. This is called your "Right to Rescind" period, which means you will not start service with us until after this period. You can call us toll-free to cancel at 1-800-274-5289.
Your Right to Cancel	Once service has started, you may cancel by contacting us. It may take one or two billing cycles before the cancellation is finalized, depending on your utility's timeframes.
Applicable Fees	None. No early termination fees or other fees.
Renewal	Our service will continue until either of us cancels the contract.
Savings Details	Savings are not guaranteed nor implied with this contract and our price may be higher than the supply rate charged by the utility or other suppliers.

Note on Dispute Resolution: This contract limits the circumstances under which you can bring a dispute to court, and does not permit class actions or a jury trial. Review the section "Customer Complaints and Dispute Resolution" below for details.

A. Important Information

We will begin providing service to you after your utility processes our request to switch your service. The switch will not occur before the expiration of your "Right to Rescind" period. Our service will continue until either of us cancels the contract.

Price:

The introductory electric supply price you will receive during your first {three} billing cycle{s} with us will be \$X.XXXXX per kWh.

For your reference, our prices include generation charges, but they do not include any utility distribution charges or other utility fee or charge.

After the introductory period, your prices with us will be variable.

We will determine the variable supply price at our discretion based on many different factors, which may include prices charged by competitors, industry charges we are responsible for, our costs to procure and sell energy, customer retention rates, applicable state and local taxes, changes in weather, legal and regulatory issues, profit margins, and other relevant business conditions. The variable supply price can change each month. Our current and historical prices are not an indicator of our future prices and we do not guarantee any savings. Our prices may be higher than your utility's supply rate. **No matter what, we will not increase your variable price in any given month by more than 5% from the prior month's supply price.**

Applicable Fees: *None.* We will not charge you an early termination fee or other fees. If you are currently in a contract with another supplier, the request to switch you to our service will automatically cancel your service with the other supplier. You are responsible for any penalties the other supplier may charge.

Right to Rescind: You have the "Right to Rescind" this contract for three business days, which means you can cancel your request to switch your service and never start service with us. You will receive a Welcome Confirmation from us, which will include this contract, and you will have until midnight of the third business day after receipt of the Welcome Confirmation to rescind this contract by contacting us at the telephone number or email address listed below. This contract is not binding until your "Right to Rescind" period has ended with no action on your part to rescind the contract.

Your Right to Cancel: You may cancel this contract without having to pay any cancellation fee by calling us at our contact information listed below. We will request that the utility cancel your service with us, but the utility controls the effective date of your cancellation. The effective date is usually the next date that your meter is read after the utility has processed our request to cancel your service with us.

Our Right to Cancel: We have the right to cancel this contract for any reason as long as we give you fifteen days' written notice, but if we are canceling the contract due to your conduct or your breach of this contract, you will have an opportunity to fix this condition within the fifteen days. Your utility will control the effective date of our cancellation request, but this is usually the next date that your meter is read. If your utility terminates your service, this contract will be automatically cancelled.

Assignment: We may sell, transfer, pledge or assign the accounts, revenues or proceeds associated with this contract in connection with any financial contract, and we may assign the rights and obligations under this contract to another energy supplier consistent with applicable law. You may not assign this contract.

No Reliance: You acknowledge that (1) you are not relying on any advice, statements, recommendations or representations of ours other than the written representations in this contract; (2) that you consulted with your own advisors to the extent you deemed necessary; and (3) that you understand the risks of entering into this contract, including the risk that our prices may be higher than your utility's rates. You acknowledge that you are capable and willing to assume those risks (whether financial, economic or otherwise) and that you have made your own decision to enter into this contract.

Title: All electricity sold under this Agreement shall be delivered to a location considered the "Point of Delivery", which shall be at the NY ISO load bus (located outside of the municipality where you reside), and shall constitute the point at which title transfers and the sale occurs. We will indemnify and hold harmless you from all taxes, royalties, fees or other charges incurred before title passes with respect to the electricity provided hereunder.

Force Majeure: We will use commercially reasonable efforts to provide energy supply to you pursuant to this contract, but we do not guarantee a continuous supply of energy commodity. Certain Force Majeure events outside of our control may cause interruptions in service. If a Force Majeure event prevents us from performing any of our obligations in any way, our performance shall be excused for the duration of such event, and we will not be liable for damages associated with any delay or failure to perform as a result. "Force Majeure" includes, without limitation, acts outside of our control, sabotage,

riots or civil disturbances, acts of God, acts of the public enemy, acts of vandalism, cyberattack on us or any portion of the utility system we rely on to provide you service, terrorist acts, pandemics, full or partial governmental shutdown or issuance of stay-at-home order, natural disasters, explosions, fires, or similarly cataclysmic occurrence, failure, shortage or unavailability of generating units, storage or transmission facilities or nonperformance by your local utility that materially impairs our ability to perform our obligations under this contract. We will give you reasonably prompt notice of any Force Majeure occurrence.

Severability: In the event that any of the terms or provisions of this Agreement are declared invalid or unenforceable by any Court of competent jurisdiction or any Federal or State Government Agency having jurisdiction over the subject matter of this Agreement, the remaining terms and provisions that are not affected shall remain in full force and effect.

LIMITATIONS ON WARRANTY AND

DAMAGES: THE ENERGY SUPPLY PROVIDED UNDER THIS CONTRACT WILL MEET THE QUALITY STANDARDS OF YOUR UTILITY. YOU UNDERSTAND AND AGREE THAT THERE ARE NO OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, ASSOCIATED WITH THE SERVICE PROVIDED BY US. WE HAVE NO LIABILITY FOR SERVICE INTERRUPTIONS NOR ANY ASSOCIATED LOSS OR DAMAGE RESULTING FROM SUCH INTERRUPTIONS. TO THE MAXIMUM EXTENT PERMITTED BY LAW, LIABILITIES NOT EXCUSED BY REASON OF FORCE MAJEURE OR OTHERWISE SHALL BE LIMITED TO DIRECT ACTUAL DAMAGES. WE WILL BEAR NO LIABILITY TO YOU OR ANY THIRD PARTY FOR CONSEQUENTIAL, PUNITIVE, INCIDENTAL, SPECIAL, EXEMPLARY OR OTHER INDIRECT DAMAGES OR LOST PROFITS. THE LIMITATIONS IMPOSED ON REMEDIES AND THE MEASURE OF DAMAGES ARE WITHOUT REGARD TO THE CAUSE OR CAUSES OF THE HARM OR LOSS, INCLUDING THE NEGLIGENCE OF ANY PARTY, WHETHER SUCH NEGLIGENCE BE SOLE, JOINT OR CONCURRENT, OR ACTIVE OR PASSIVE.

Regulatory Changes: This contract is subject to present and future legislation, orders, rules, regulations or decisions of a duly constituted governmental authority or independent system operator having jurisdiction over this contract or the services to be provided hereunder. If at some future date there is a change in any law, rule, regulation, tariff, or regulatory structure ("Regulatory Change") which impacts any term, condition or provision of this contract including, but not limited to price, we shall have the right to modify this contract to reflect such Regulatory Change (including by adjusting the price to reflect any increase in our costs as result of such Regulatory Change) by providing 30 days' written notice of such modification to you. If you have a fixed-price contract and we are proposing to modify the price as a result of a Regulatory Change, the change will only be effective once we provide the above notice and also receive your affirmative consent.

Other Provisions: This contract is made and shall be construed in accordance with the laws of New York. There are no third party beneficiaries to this contract. This contract is binding upon us and you, as well as any successors or legal assigns. Failure to exercise any right we have under this contract should not be considered as a waiver of the right to exercise any such right at a later date. The headings and Summary of Important Information chart in this contract are for reference only and do not affect the interpretation of this contract.

Renewably Sourced Product Information:

Electricity is the product of a mix of generation energy sources that is delivered over a system of wires. You will not have electricity from a specific generation facility delivered directly to your service address, but we ensure that the applicable percentage of your electricity usage is matched by the generation of energy from renewable resources on an annual basis.

Your product is a renewably sourced electricity product with a variable price structure. This product contains at least 50% renewable energy from sources eligible under New York law – **specifically in-state wind and/or in-state**

hydropower (unless specified differently in your Welcome Confirmation and subject to market availability).

We will meet our obligation to provide renewably sourced energy under this contract pursuant to applicable New York law and the directives of the New York Public Service Commission (NYPSC). Specifically, our product (i) has a renewable mix that is at least 50% greater than our current Renewable Energy Standard (RES) obligation, and (ii) we comply with the RES locational and delivery requirements.

We may meet our requirements under this contract (1) by purchasing RECs from eligible renewable generators through the New York Generation Attribute Tracking System (NYGATS); (2) by purchasing Tier 1 RECs from the New York State Energy Research and Development Authority (NYSERDA); (3) by procuring RECs from eligible renewable generators through bilateral contracts; (4) by making Alternative Compliance Payments (ACP) to NYSERDA; (5) by entering into bundled energy and REC purchase agreements with eligible renewable generators; or (6) by any other method later authorized under New York law or NYPSC order.
