FEATURES AND MISCELLANEOUS SERVICES

J) **BLOCKING SERVICE**

1. **General**

Blocking Service is a feature that permits end users to restrict access from their telephone line to various discretionary services. The following blocking options are available to residential and business end users:

- a) 900, 700 Service Access Code Blocking - Allows an end user to block all calls beginning with the 900 and 700 NPA (i.e. 900-XXX-XXXX) and 333 NXX from being placed. (C)
(C)
- b) Central Office Code Blocking - Allows an end user to block placement of all calls to a particular central office code. (C)
(C)
- c) Third Number Billed and Collect Call Restriction - Provides an end user with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- d) Toll Restriction and Blocking - Provides an end user with local dialing capabilities but blocks any end user-dialed call that has a long distance charge associated with it.

Toll Restriction will not block the following types of calls: 911 (Emergency), 1+800 (Toll Free), and operator assisted toll calls.
- e) Toll Restriction Plus - Provides an end user with Toll Restriction, as described in paragraph H.1.d. of this Section, and blocking of 411 calls.
- f) Toll, Operator, Other – Provides an end user with the ability to block all calls beginning with 0+, 1+, 800, 877, 866, 888, 500, 700, 900, 971, 411 and 333.
- g) Direct Inward Dialing Blocking (Third Party and Collect Call) - permits business end users who subscribe to DID Service as described in Section 13 of this tariff to have Third Party and Collect Call Blocking on their number ranges.
- h) Customized Blocking Services - Provides subscribers with the ability to customized their blocking feature by allowing them to specify individual numbers in their blocking schemes. Blocking schemes can either block all calls except to the specified numbers or call allow all calls except to the specified number. The charges are based on the number of lines that are allowed or blocked.
- i) Limited Local Service Blocking Option-Providers subscribers with toll restriction on their line where they will be limited to having the ability to make: 0-, 911, 311, 8YY or 611 outgoing calls only and have unlimited incoming calls.
