GENERAL INFORMATION

For questions or concerns relating to this bill, please call Direct Energy Business's Customer Relations Department at:

8 AM - 6 PM EST, Monday through Friday
CustomerRelations@directenergy.com
Phone: 888.925.9115
Fax: 866.421.0257

If mailing correspondence, please forward to:

Direct Energy Business
Attn: Customer Relations
Two Gateway Center
Pittsburgh, PA 15222

Delivery problems such as power outages are typically due to problems with local distribution facilities. For service problems call the utility's 24-hour service center at: Consolidated Edison (800) 752-6633. According to the terms contained in your energy service agreement with Direct Energy, if you end your service prior to the end of your agreement term, you may be charged an early termination fee. Please refer to your energy service agreement for details.

In the event that the Term of your Agreement has expired, your account will be invoiced at a Market Variable Rate. This rate is subject to change monthly. Please refer to your agreement for additional information. have chosen.

RIGHT TO FILE A PUC COMPLAINT: If you believe this bill contains any unauthorized charges, please contact Direct Energy Business Customer Relations at the information above. If after contacting Customer Relations, you are not satisfied with the resolution, you have the right to file a complaint with New York Public Service Commission toll free at 1-800-342-3377 or by fax at 518-486-7686. Persons who are hearing or speech impaired can reach the hotlines through a TDD by calling toll free at 1-800-662-1220.

Consolidated Edison customers please note: Con Ed provides total kWh and ICAP totals. Current and previous meter read information may also be provided. If not provided, please refer to your ConEd bill for distribution Services for this information.

Installed Capacity Charges: A Generator or Load facility that complies with the requirements in the Reliability Rule and is capable of supplying and/or reducing the demand for Energy in the NYCA (New York Control Area) for the purpose of ensuring that sufficient Energy and Capacity are available to meet the Reliability Rule. The Installed Capacity requirement, established by the NYSRC (New York State Reliability Council), includes a margin of reserve in accordance with the Reliability Rules.

If Installed Capacity (ICAP) charges are reflected on your bill, these charges are based on your capacity obligation, which is designated by the New York Independent System Operator (NYISO). ICAP charges are prorated based on the number of calendar days in the month resulting in multiple ICAP line items. For more information regarding Installed Capacity, including a background, an explanation and sample cost calculations, please visit Direct Energy Business's website at www.DirectEnergy.com and select the state of New York.

For more information on terms and definitions found within this invoice, please visit us online at <https://business.directenergy.com/> or through MyAccount. If you would prefer to have a copy of invoice terms and definitions sent to you, please submit your request to CustomerRelations@DirectEnergy.com or via phone at 1-888-925-9115.

COMMONLY ASKED QUESTIONS

Q: Who will read my meter and when will it be read?

A: The utility company is still responsible for reading your meter. The timing is based on the specific utility company's procedures.

Q: Why is the usage amount on my bill different than the usage amount on the utility company bill?

A: DEB bills on city gate volume. The utility bill is based on meter readings (burner tip) at your location. The difference, utility line loss, is set by and varies by utility. Line loss ~~was~~ previously included by the utility in your local pricing. Line loss is a regulated charge based on percentages determined by each utility to compensate for the utility's pipeline system loss.

Q: Now that I have chosen DEB as my natural gas/electricity marketer how will my service change?

A: The only difference you should see is in billing. DEB will charge you for the commodity, while the utility (LDC/EDC) will charge you for distribution/transportation. There should be no other changes in your gas/electric service. The utility will still read your meter and you should still call the utility in the event of an emergency.

Q: Do I have to sign an agreement?

A: Yes. DEB will not sell natural gas/electricity to anyone without a signed agreement. This is to protect you as well as us. Customers should not purchase any commodity from a marketer without an agreement because they will be at risk for penalties should the supplier fail to live up to obligations.

Q: When and how often will I be billed?

A: Initially, there may be up to a two month delay from the time you enroll or start to receive service to the time you receive your first bill. This is due to timing with the utility company enrollment requirements. You can expect a monthly invoice thereafter.

Q: Can I be changed to another marketer without my consent?

A: No. Deregulation laws contain strong consumer protection features that prohibit "slamming". There are severe penalties for marketers who engage in this practice. Slamming is the involuntary switching of a customer from one supplier to another.

Q: What are GSA charges/credits?

A: Gas Settlement Adjustment (GSA) either credits or debits your account for the value of natural gas usage that differs from your contracted quantity.

DEFINITIONS

Board of Public Utilities State agency responsible for regulating local utility companies (may also be called Public Service Commission).

Burner Tip Point where natural gas is ultimately used by the customer (the meter).

CCF 100 cubic feet of gas. This is a measure of gas usage.

City Gate Physical connection of an interstate pipeline and the pipeline of the local natural gas utility.

Commodity Charge The cost of natural gas/electricity provided to you during the billing period.

Distribution Utility (LDC/EDC) A retail natural gas/electricity distribution company that delivers natural gas/electricity to end-users.

Kilowatt (kW) One thousand (1,000) watts. A unit of measure of the amount of electricity needed to operate given equipment.

Kilowatt-hour (kWh) The most commonly used unit measure telling the amount of electricity consumed over time. It means one kilowatt of electricity supplied for one hour.

Line Loss The difference between the amount of commodity (natural gas) brought to the city gate, versus the amount of commodity usage reported at the meter (burner tip). Line loss was previously included by the utility in your total pricing. Line loss is a regulated charge based on percentages determined by each utility to compensate for the utility's pipeline system loss.

Local Distribution Company (LDC/EDC) charges The fee assessed by the local utility for delivery of natural gas/electricity to the customer's home or business through utility's distribution lines. In most cases this charge is billed separately by the utility.

Meter A device for measuring levels and volumes of a customer's natural gas and electricity usage. The local utility retains responsibility for reading and maintaining these meters.

MMBTU Million British thermal units, which is a heating equivalent measure for natural gas and is an alternative measure of natural gas reserves.

No Utility Data Available If this appears on your bill, we were unable to obtain usage data for your meter from the local utility company. Your next bill will show usage data for this unread period and the next reading period.

Therm One hundred thousand (100,000) British thermal units (1 Therm = 100,00 Btu).

IF YOU SUSPECT A NATURAL GAS LEAK OR SMELL GAS DIAL 911 OR CONTACT YOUR LOCAL UTILITY DISTRIBUTION COMPANY

Business.directenergy.com has a multitude of features and tools for you, making account management easier than ever before. The online Customer Center never closes, giving you the chance to manage your account and obtain energy information and insight at your own convenience.
