**Re: Service of Additional Propel NY Energy Project Article VII Permitting Materials**

Dear Propel NY Service List Member,

As you are aware, this summer, New York Transco LLC and the New York Power Authority (together, the Applicant) filed a Public Service Law Article VII application with the New York State Public Service Commission (NYSPSC) seeking a Certificate of Environmental Compatibility and Public Need (CECPN) to construct, operate, and maintain the Propel NY Energy project (the Project).

The Project includes approximately 90 miles of new underground and submarine electric transmission lines across portions of Nassau, Suffolk, Bronx, Queens and Westchester Counties, as well as four new electric stations, that will bolster grid reliability and resiliency while creating the pathways for clean energy delivery.

The permitting process for the Project includes public involvement and review and, to that end, you or your organization are included on the Project's permitting service list to receive certain updates as the NYSPSC's review progresses. Today, the Applicant made a multi-part filing with the NYSPSC that we want you to have a copy of. As a result, enclosed with this letter, please find a thumb drive that contains a copy of each component of today's filing, including:

- A copy of the Applicant's filing cover letter to provide more context to today's filing.
- The Applicant's "Part 1" response to the NYSPSC's notice of deficiency. The Applicant's "Part 2" response will be filed with the NYSPSC and served separately in early 2025.
- Revised Exhibit 2 Figures 2-3 and 2-6, and Exhibit 3 Figures 3-3 through 3-19
- An addendum to the Wetland Delineation Report
- The Project's redacted Rare Plants Report
- The Project's current Service List, of which you are a member.

If you have any questions about this or would like to receive a printed copy of this filing, please use the information below to contact the Propel NY Energy team directly.

Thank you for your attention to this matter.

Respectfully Submitted,  
Propel NY Team
