NOTICE SOLICITING COMMENTS

(Issued May 5, 2025)

On November 23, 2005, the Public Service Commission granted a Certificate of Environmental Compatibility and Public Need (Certificate) to the Long Island Power Authority (LIPA) (the Certificate Holder), authorizing, subject to conditions, the construction and operation of two underground transmission lines pursuant to Public Service Law (PSL) Article VII: Line 138-467, extending approximately four miles from the Newbridge Substation to the Stewart Avenue Substation, in the Town of Hempstead, Nassau County; and Line 138-567, extending approximately nine miles from the Newbridge Substation to the Ruland Road Substation in the Town of Huntington, Suffolk County. The Certificate authorized LIPA to operate both lines at 138 kilovolts (kV) until substation improvements would enable them to operate at 345 kV.

In a petition filed on April 16, 2025, pursuant to PSL Section 122(4) (Amendment Petition), the Certificate Holder requests a Certificate amendment that would authorize the following changes to the transmission facilities: (1) extending Line 138-467 from the Stewart Avenue Substation to the west by approximately 650 feet to a new termination point at the proposed Uniondale Hub; (2) disconnecting Lines 138-467 and 138-567 from the Newbridge Substation and connecting them to each other north of the station; (3) extending Line 138-567 from the

Ruland Road Substation to the east by approximately 1,200 feet to a new termination point at the proposed New Ruland Road Substation to be located east of Ruland Road Substation; and (4) increasing the operating voltage of both lines to 345 kV.
