[a] Total Annual Revenues for all customers include: T&D delivery charge, market supply charge, monthly adjustment clause, system benefits charge, dynamic load management charge, EV make-ready surcharge, VDER cost recovery charge, arrears management program charge, and the associated gross receipts taxes. The market supply charge revenues for retail access customers are equivalent to what these customers would have paid as full service customers.

[b] Total Annual Revenues in Service Classification No. 1 include customers currently served under Rider D and Rider Z.

[c] The change in Con Edison P.S.C. No. 10 revenues for the rate year, i.e., the twelve months ending December 31, 2026, equates to $1,426.5 million, or an overall increase of 11.5%.

[d] Reflects the overall impacts by class, including the net effect of the increase in low income funding and low income discounts.

[e] These bills reflect a Rider S low-income discount of $36.77 effective 12/1/2024 in the current bill. The proposed bill reflects an estimated low-income discount of $53.19 based on the Company's requested revenue increase in this proceeding. This estimated low-income discount is provided for informational purposes and is subject to change. A final low-income discount will be established at the conclusion of this proceeding.

[f] Number of customer bills unchanged have bill impacts ranging from -0.01% to 0.01%.
