Re: Case 24-T-0446 — Propel NY Energy Project

Submission of Village Correspondence to NYSDEC Concerning Former Glenwood Landing Gas Plant Site (V00351)

Dear Secretary Phillips:

The Incorporated Village of Sea Cliff respectfully submits the enclosed correspondence to the New York State Department of Environmental Conservation for posting on the Commission's Document and Matter Management (DMM) system in Case 24-T-0446.

The correspondence requests expedited NYSDEC review of the Applicant's proposed construction activities at the former Glenwood Landing Gas Plant site, where documented residual contamination remains subject to permanent engineering and institutional controls, including restrictions on intrusive activities. The Village believes these issues are directly relevant to the Commission's pending consideration of the Applicant's Phase 1 Environmental Management and Construction Plan.

The Village respectfully requests that this correspondence be included in the official proceeding record and considered in connection with any determination concerning approval of the Phase 1 EM&CP or authorization of construction activities at the Shore Road site.

Respectfully submitted,

/s/ **Bruce Kennedy**

Bruce P. Kennedy

Village Administrator

Incorporated Village of Sea Cliff
