

STATE OF NEW YORK  
PUBLIC SERVICE COMMISSION

CASE 22-T-0558 - Application of New York Power Authority and Clean Path New York LLC for a Certificate of Environmental Compatibility and Public Need for the Construction of Approximately 178 miles of Transmission Lines and Associated Facilities From Delhi, New York, to Queens, New York.

NOTICE OF PUBLIC INFORMATION FORUM,  
PUBLIC STATEMENT HEARING, AND SOLICITING COMMENTS

(Issued September 19, 2023)

On October 11, 2022, New York Power Authority and Clean Path New York LLC (Applicants) filed an application (Application) for a Certificate of Environmental Compatibility and Public Need (Certificate) pursuant to Article VII of the Public Service Law. If granted, the Certificate would authorize the Applicants to construct, operate, and maintain a High Voltage Direct Current (HVDC) transmission line and associated facilities (the Project).

The Project, as proposed, would run from an interconnection point located at the Fraser Substation in Delaware County to one located at the Rainey Substation in Queens. The Project includes an approximately 178-mile-long underground and submarine  $\pm 400$ -kilovolt (kV), 1,300-megawatt (MW) HVDC transmission line consisting of the following: (i) an underground transmission line beginning at a converter station in Delaware County and following the existing right-of-way (ROW) owned or controlled by New York Power Authority (NYPA), New York State Electric and Gas Corporation (NYSEG), Metropolitan Transportation Authority Metro-North Railroad, New York State Department of Transportation, and New York City Department of Transportation (NYCDOT) for 131 miles, terminating at a

converter station in Queens; (ii) a submarine transmission line in the Hudson, Harlem, and East Rivers for 47 miles; (iii) six landfalls where the transmission line either enters or exits the rivers; (iv) a converter station in Delaware County, with an approximately 1-mile-long underground 345-kV High Voltage Alternating Current (HVAC) transmission line following the existing NYPA and NYSEG ROW to the interconnection point at Fraser; and (v) a converter station at the Astoria energy complex in Queens, with an approximately 3-mile-long underground 345-kV HVAC transmission line following the existing NYCDOT ROW to the interconnection point at Rainey.

In considering this Application, the Commission may adopt or reject the Applicants' proposal, in whole or part, or modify it. In doing so, the Commission will consider input from the participating parties and the public.

An information forum and public statement hearing will be held in this case. At the information forum, trial staff of the Department of Public Service will provide an overview of the Commission's certification process, the Applicants' will present a brief summary of the proposed Project, and then members of the public will then have an opportunity to ask questions about the process and the Application. Those wishing to comment on any aspect of this proceeding will have the opportunity to comment on the record at the public statement hearing.
