**Honorable Andrew M Coumo**  
**Governor of New York State**  
**Executive Chamber**  
**New York State Capital**  
**Albany, N. Y. 12224**

**Dear Governor Coumo,**

It has come to the attention of this body that the ten year renewable energy credit for Noble Wind Park in our Town of Clinton, New York is reaching expiration.

A new wind parks are granted this for twenty years instead of ten afforded Nobel Environmental Power. This unequal treatment of wind power producers is detrimental to the progression to renewable energy by New York State.

Our Town is dependent on the funds to help our budget and also our landowners benefit from the income received.

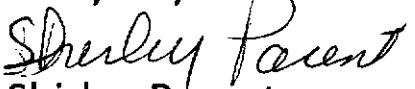

Nobel has been a great neighbor to our Town and as asset to our states pursuit of green energy.

We therefore request that the Nobel Environmental Power be granted the full 20 year REC.

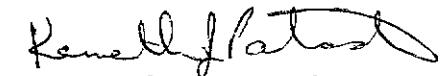

Sincerely,

Terry Cayea

Shirley Parent

Kenneth Patnode

William Soucia
