

STATE OF NEW YORK
PUBLIC SERVICE COMMISSION

CASE 25-E-0764 - Proceeding on Motion of the Commission to
Address New York City Reliability Needs.

NOTICE EXTENDING COMMENT PERIOD

(Issued October 8, 2026)

On September 21, 2026, a Notice Soliciting Comments (September Notice) was issued in this proceeding requesting comments from interested persons on Consolidated Edison Company of New York, Inc.'s (Con Edison) proposed Reliability Contingency Plan (the Plan). The Plan was filed on July 17, 2026, and comments were requested by October 13, 2026.

On October 7, 2026, the New York Battery and Energy Storage Technology Consortium, the New York Solar Energy Industries Association, the Solar Energy Industries Association, the Alliance for Clean Energy New York, and Advanced Energy United (together, the Clean Energy Parties) requested an extension of time, until November 12, 2026, to file comments in response to the September Notice. The Clean Energy Parties assert that the current comment due date does not leave sufficient time for them to process information they received during a September 28, 2026 technical conference, pursue follow-up questions, and develop robust comments. They opine that their requested 30-day extension would not materially affect the schedule for this proceeding.

The justification provided for requesting an additional 30 days to comment on the Plan is not persuasive. Instead, an extension, until October 28, 2026, will be granted with respect to providing comments on the Plan which has been publicly available for over three months now. This extension is available to all who are interested in submitting comments in

response to the September Notice. Please be advised that comments submitted after October 28, 2026, may not be considered.

PLEASE TAKE NOTICE that the date for submitting comments in response to the September Notice is hereby extended until **October 28, 2026**. Please refer to the September Notice for additional information, including how and where to file comments on the Plan.
