Hi Will,

See attached for the requested project shapefiles. The Applicant is requesting any water supply data that your office can provide within the attached 1-mile Study Area for the Agricola Wind Project.

Thanks,

Daniel Zvirzdin

EDR Senior Project Manager

[EXTERNAL SENDER]

Good Afternoon Jessica,

The executed confidentiality agreement is attached. Please forward the project shapefiles at your convenience.

Thanks,
Will

Thanks Will,

Does the attached work? We changed it to Article VIII of the Public Service Law.

Sincerely,

Jessica Ansert Klami, Esq.

Subject: Re: 21029 Agricola Wind FOIL Request

Good Morning Jessica,

I consulted with a colleague at DPS counsel's office and, instead of "former 94-c," we need to go with "Article 8 of the Public Service Law."

If you could please edit the pdf accordingly, we'll move forward.

Also, thanks for letting me know about the FOIL, I'm going to let our Records Access director know that the PWS intake data needs to be handled outside FOIL to comply with homeland security regs.

Regards,

Will

Subject: Fw: 21029 Agricola Wind FOIL Request

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders or unexpected emails.

Good Afternoon Will,

I am reaching out on a new project, Liberty Renewables, Inc. is proposing to construct and operate the Agricola Wind Project, an approximately 100-megawatt wind powered electric generating facility in the Towns of Venice and Scipio, Cayuga County, New York. In preparation for preparing the Article VIII Application we are requesting data on public water supplies. I have attached a draft NDA agreement for the request. Note in addition to the project details we added "former" to the Section 94-c reference to reflect the recent changes with the RAPID Act.

Can you please confirm the attached is acceptable to DOH? If so, we will execute and send back for DOH signature.

I have also attached the request and a map of the area of interest.

Sincerely,

Jessica Ansert Klami, Esq.
