for a Certificate of Environmental

NOTICE OF AVAILABILITY OF INTERVENOR FUNDING
AND SCHEDULE FOR SUBMITTING FUNDING REQUESTS

(Issued March 3, 2023)

On September 8, 2022, Anbaric Development Partners, LLC (Anbaric) filed an application for a Certificate of Environmental Compatibility and Public Need pursuant to Article VII of the Public Service Law (PSL). If granted, the Certificate would authorize Anbaric to construct, own, and operate the New York State components of the Juno Power Express Electric Transmission Facility (the Project).

As proposed, the Project would import power produced by an offshore wind generator constructed in federal waters of the Atlantic Ocean into the New York transmission system at the Long Island Power Authority Ruland Road Substation in the Town of Huntington, Suffolk County. More specifically, the Project would consist of: (1) a high voltage direct current (HVDC) submarine cable and a submarine fiber optic cable extending approximately 7.7 miles in New York State waters with landfall at Jones Beach State Park; (2) approximately 17.9 miles of terrestrial HVDC underground cable and fiber optic cable; (3) underground transition vaults; (4) a temporary gravity cell at landfall to facilitate horizontal directional drilling installation; (5) a converter station that will convert power from HVDC to high voltage alternating current (HVAC); and (6) approximately 0.6 miles of HVAC underground land cable

connecting the converter station to the point of interconnection at the Ruland Road Substation.
