Appendix A  
State Environmental Quality Review  
FULL ENVIRONMENTAL ASSESSMENT FORM

**Purpose:** The full EAF is designed to help applicants and agencies determine, in an orderly manner, whether a project or action may be significant. The question of whether an action may be significant is not always easy to answer. Frequently, there are aspects of a project that are subjective or un-measurable. It is also understood that those who determine significance may have little or no formal knowledge of the environment or may not be technically expert in environmental analysis. In addition, many who have knowledge in one particular area may not be aware of the broader concerns affecting the question of significance.

The full EAF is intended to provide a method whereby applicants and agencies can be assured that the determination process has been orderly, comprehensive in nature, yet flexible enough to allow introduction of information to fit a project or action.

**Full EAF Components:** The full EAF is comprised of three parts:

- Part 1:** Provides objective data and information about a given project and its site. By identifying basic project data, it assists a reviewer in the analysis that takes place in Parts 2 and 3.
- Part 2:** Focuses on identifying the range of possible impacts that may occur from a project or action. It provides guidance as to whether an impact is likely to be considered small to moderate or whether it is a potentially-large impact. The form also identifies whether an impact can be mitigated or reduced.
- Part 3:** If any impact in Part 2 is identified as potentially-large, then Part 3 is used to evaluate whether or not the impact is actually important.

**DETERMINATION OF SIGNIFICANCE -- Type 1 and Unlisted Actions**

Identify the Portions of EAF completed for this project: Part 1 ☒ Part 2 ☒ Part 3 ☐

Upon review of the information recorded on this EAF (Parts 1 and 2 and 3 if appropriate), and any other supporting information, and considering both the magnitude and importance of each impact, it is reasonably determined by the lead agency that:

- ☒ A. The project will not result in any large and important impact(s) and, therefore, is one which **will not** have a significant impact on the environment; therefore **a negative declaration will be prepared.**
- ☐ B. Although the project could have a significant effect on the environment, there will not be a significant effect for this Unlisted Action because the mitigation measures described in PART 3 have been required, therefore **a CONDITIONED negative declaration will be prepared.\***
- ☐ C. The project may result in one or more large and important impacts that may have a significant impact on the environment, therefore **a positive declaration will be prepared.**

\*A Conditioned Negative Declaration is only valid for Unlisted Actions

## PART 2 - PROJECT IMPACTS AND THEIR MAGNITUDE

### Responsibility of Lead Agency

#### General Information (Read Carefully)

- In completing the form the reviewer should be guided by the question: Have my responses and determinations been **reasonable**? The reviewer is not expected to be an expert environmental analyst.
- The **Examples** provided are to assist the reviewer by showing types of impacts and wherever possible the threshold of magnitude that would trigger a response in column 2. The examples are generally applicable throughout the State and for most situations. But, for any specific project or site other examples and/or lower thresholds may be appropriate for a Potential Large Impact response, thus requiring evaluation in Part 3.
- The impacts of each project, on each site, in each locality, will vary. Therefore, the examples are illustrative and have been offered as guidance. They do not constitute an exhaustive list of impacts and thresholds to answer each question.
- The number of examples per question does not indicate the importance of each question.
- In identifying impacts, consider long term, short term and cumulative effects.

#### Instructions (Read carefully)

- a. Answer each of the 20 questions in PART 2. Answer **Yes** if there will be **any** impact.
- b. **Maybe** answers should be considered as **Yes** answers.
- c. If answering **Yes** to a question then check the appropriate box(column 1 or 2)to indicate the potential size of the impact. If impact threshold equals or exceeds any example provided, check column 2. If impact will occur but threshold is lower than example, check column 1.
- d. Identifying that an Impact will be potentially large (column 2) does not mean that it is also necessarily **significant**. Any large impact must be evaluated in PART 3 to determine significance. Identifying an impact in column 2 simply asks that it be looked at further.
- e. If reviewer has doubt about size of the impact then consider the impact as potentially large and proceed to PART 3.
- f. If a potentially large impact checked in column 2 can be mitigated by change(s) in the project to a small to moderate impact, also check the **Yes** box in column 3. A **No** response indicates that such a reduction is not possible. This must be explained in Part 3.

**Attachment to Part 1 – Project Information**

**Page 3 of 21:**

1. Time Warner Cable's facilities are installed on existing utility poles within the Town of Duaneburg within the right of ways totaling approximately 8.45 miles.

**Page 6 of 21:**

6. Time Warner Cable will build out as required by the Franchise Agreement.

**EXPLANATORY NOTES TO EAF  
TWC/TOWN OF DUANESBURG FRANCHISE AGREEMENT**

1. This Attachment is to the: (a) a Department of Environmental Conservation "Full Environmental Assessment Form ("EAF") for TWC's offering of cable service in the Town of Duaneburg, Schenectady County, New York, with Part 1 filled in; (b) an EAF Addendum providing certain additional background information; and (c) exhibits to the Addendum, including maps showing the franchise area and a list of sites included in the SPHINX database of historic sites, as described below.
2. The Attachment is submitted without prejudice to TWC's positions that: (a) the activities for which it seeks approval in this proceeding are not "actions" under the State Environmental Quality Review Act ("SEQRA"), and that therefore no EAF is required; and (b) if an EAF is required in this case, a short-form will suffice.
3. The EAF and the EAF Addendum are based on information in TWC's possession or available to us through research in readily available resources. Beyond such sources, we have not undertaken any "new studies, research or investigation."
4. Historic site information was derived from the SPHINX database of the New York State Historic Preservation Office (*see* <http://www.oprhp.state.ny.us/SPHINX/>). The Time Warner Cable facilities will not pass through any wetlands, flood plan, critical Environmental Areas or National Natural Landmarks.
5. In Response to several questions in Part 1, TWC has indicated that the question is "Not Applicable" ("N/A") to the confirmation that is the subject of the Petition. The activities to be undertaken pursuant to the franchise for which confirmation is sought involve the delivery of cable programming, high speed internet and digital phone, and thus do not have a definite location or "area". To the extent any construction, including line extensions, placement of drop wires, extensions, and repairs take place after the franchise becomes effective, all of the locations within the franchise area at which such activity will occur will not be known in advance.

The information provided for contiguity to historic sites, etc., has been provided with respect to TWC's facilities in the franchise area, even though it is TWC's position that such facilities have been constructed pursuant to independent permission and authorities.

**ADDENDUM TO ENVIRONMENTAL ASSESSMENT FORM  
RELATING TO CONFIRMATION OF A CABLE TELEVISION FRANCHISE  
FOR THE TOWN OF DUANESBURG (SCHENECTADY COUNTY), NEW YORK**

**Location:**

The Town of Duanesburg is located in Schenectady County.

The Town is not in or substantially contiguous to a Critical Environmental Area. A list of sites included in the SPHINX database of historic sites is attached hereto.

Part of the Town is a Certified Agricultural District by the New York State Department of Agriculture and Markets. A copy of the County Agricultural District Map is attached hereto.

It is TWC's policy to conform to all applicable laws and regulations in placing its facilities, including any special requirements that may be applicable to historic sites, districts, or landmarks.

**Description of Activities:**

TWC's plant runs approximately 8.45 miles of cable for approximately 380 passings utilizing overhead lines with pole attachments to within the right of ways within the Town of Duanesburg, on the following roads: Batter, Lake, Lake Shore, Mariaville, Overlook, Scotch Church, Shore, South Shore, Spring, Suits, and Weast. See map of area showing the buildout which is attached hereto. The Town of Duanesburg will receive its cable signal from the TWC headend located in the City of Albany. TWC will offer to provide cable TV, Roadrunner High Speed Internet access and Digital phone to its customers.

TWC's subscribers will receive service by way of connection from over head poles via coax service wire to the subscriber's building or home.

STATE ENVIRONMENTAL QUALITY REVIEW ACT (SEQRA)

Under SEQRA (Article 8 of the Environmental Conservation Law) and its implementing regulations (6 NYCRR Part 617 and 16 NYCRR Part 897), all state agencies must determine whether the actions they are requested to approve may have a significant impact on the environment. SEQRA (6 NYCRR §617.6(a)(3)) requires applicants to submit a completed environmental assessment form (EAF) describing and disclosing the likely impacts of the proposed actions. Time Warner Cable Northeast LLC (Time Warner) submitted a full EAF for our review.

We have reviewed Time Warner's EAF for its impact on the environment. We find that the proposed action does not meet the definitions of either a Type I or Type II action contained in 6 NYCRR §'s 617.4, 617.5 and 16 NYCRR §7.2, and, therefore, is an "unlisted" action. We assume "Lead Agency" status and pursuant to an "uncoordinated" review determine that our approval and construction of the proposed cable system will not have a significant impact on the environment.

We have assessed the environmental impact of our action on the entire franchise area. The proposed action is the confirmation of a cable franchise which authorizes the construction of facilities used for cable television service and the provision of broadcast programming. The offering of broadcast programming may result in an increase in requests for extensions of Time Warner's cable system. This installation activity will be associated with customers that presumably already have service from Time Warner. Time Warner's SEQRA Long-form attachments show portions of Schenectady County Agricultural District #1 and buildings, sites or districts listed on the State or National Registers of Historic Places within the Town.

In the event that future extensions of the system

entail construction in sensitive environmental areas such as wetlands, or affect buildings, structures or districts on the National Historic Landmarks and State and National Registers of Historic Places, Time Warner shall seek, if necessary, consultation and/or permitting from the appropriate local, state, and federal agencies, including but not limited to the New York State Department of Environmental Conservation, and the Office of Parks, Recreation and Historic Preservation.

A Notice of Determination of Significance, Negative Declaration, for this unlisted action is approved in conjunction with this Order. The Notice and EAF will be retained in our files. A copy of the Notice is appended to this Order.

STATE OF NEW YORK  
PUBLIC SERVICE COMMISSION

CASE 12-V-0583 - Petition of Time Warner Cable Northeast LLC for a Certificate of Confirmation for its Franchise with the Town of Duanesburg, Schenectady County.

NOTICE OF DETERMINATION  
OF SIGNIFICANCE

NEGATIVE DECLARATION

NOTICE is hereby given that an Environmental Impact Statement will not be prepared in connection with the confirmation of the cable television franchise granted by the Town of Duanesburg, Schenectady County to Time Warner Cable Northeast LLC (Time Warner).

This is based upon our determination, in accordance with Environmental Conservation Law Article 8, that such action will not have a significant adverse effect on the environment. Dear Secretary Brillling:

On behalf of Time Warner Cable Northeast LLC ("TWCNE"), enclosed please find an application for a certificate of confirmation regarding a franchise issued by the Town of Duanesburg, New York (Schenectady County).

In accordance with the New York State Public Service Commission Cable TV Regulations contained in 16 NYCRR Part 8, TWCNE's enclosed application for a certificate of confirmation includes the following documents:

1. The Franchise Agreement between the Town of Duanesburg and Princetown Cable dated July 11, 2002 is attached as Exhibit 1.
2. The application for a Certificate of Confirmation Form R-2 is attached as Exhibit 2.
3. The most recent Signed Leakage Test Results for the Princetown Cable System are attached as Exhibit 3.
4. A letter from the Town Clerk of Duanesburg regarding a public hearing and the Town's Resolution #111-12 are attached as Exhibit 4.
