RE: Franchise Renewal Application Prior to
Expiration for the Town of Leicester

CERTIFIED MAIL

Dear Ms. Yasso:

The Franchise Agreement between the Town of Leicester and Time Warner Cable expires on March 8, 2006. Therefore, in accordance with Section 891.2 of the renewal provisions of the New York State Public Service Commission, which requires the Franchisee to file an application at least six months prior to the expiration, enclosed herewith, are the following:

- 1) Time Warner Cable's Renewal Application.
- 2) A copy of the Company's notice of its intent to renew its Franchise with the Municipality dated June 11, 2003.
- 3) The Company's most current technical performance test.

Considering Time Warner's past performance in the community, as well as the completion of our multi-million-dollar upgrade of the cable television system, we respectfully suggest that at a minimum, a fifteen-year (15) renewal term is warranted.

As always, should you have any questions with regard to the Company's application, or should you have any questions pertaining to the procedural requirements of the renewal, please feel free to call me at (585) 756-1325.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brian B. Wirth', written over a printed name and title.

Brian B. Wirth
Vice President, Government Affairs

APPLICATION FOR RENEWAL OF FRANCHISE
OR CERTIFICATE OF CONFIRMATION

1. The exact legal name of applicant is:
Time Warner Entertainment-Advance/Newhouse Partnership
d/b/a Time Warner Cable
2. Applicant does business under the following trade name or names:
Time Warner Cable – Rochester Division
3. Applicant's mailing address is:
71 Mt. Hope Avenue, Rochester, NY 14620
4. Applicant's telephone number is (585) 756-1000
5.
 - a. This application is for a renewal of operating rights in the Town of Leicester
 - b. Applicant serves the following additional municipalities from the same headend or from a different headend but in the same or an adjacent county:
See Exhibit A
6. The number of subscribers in each of the municipalities noted above is:

-	Primary residential connections:	See Exhibit A
	Secondary Residential connections:	
	Residential pay-cable subscriptions:	
	Commercial	
7. The following signals are regularly carried by the applicant's cable system (where signals are received other than by direct off-air-pickup, please so indicate): See Exhibit B
8. Applicant does X does not provide channel capacity and/or production facilities for local origination. If answer is affirmative, specify below the number of hours of locally originated programming carried by the system during the past twelve months and briefly describe the nature of the programming:

A full-time coordinator conducts video production workshops for members of the municipality and coordinates requests for airtime. This channel has become popular in the last few years with church groups, college telecourses, sporting events etc. We also cablecast public service announcements from area organizations.

An updated community bulletin board airs on the access channel. This outlet is for not-for-profit organizations only.
9. The current monthly rates for service in the municipality specified in Question 5 (a) are:

Basic Service	See Exhibit C
Standard Service:	
Residential pay-cable subscriptions	
10. How many miles of new cable television plant were placed in operation by applicant during the past twelve months in the municipality specified in Question 5 (a)
In the municipalities specified in Question 5 (b) See Exhibit A

11. State and describe below any significant achievements and /or improvements that took place with respect to system operation during the past twelve months:

During the past five years, the Company has spent over \$62 million expanding and upgrading its cable television system throughout the Company's regional service area. This project has resulted in enhancing system performance, increasing channel capacity and improving technical reliability.

In October of 1999, we launched Digital Cable Service that provides clearer pictures. In October 2002 with the addition of Video On Demand (VOD) customers have the ability to control the time they view programming. Digital Video Recorder equipment provides more convenience for our customers. Time Warner Cable has the capability of providing over 200 channels of programming to customers. The regional system employs a fiber-optic backbone and is designed to a capacity of 750 MHz. During 2003, Time Warner Cable has been preparing to offer our customers Digital phone service in the beginning of 2004. In 2003, seven High Definition channels were made available.

Our customers are able to fully utilize the exciting benefits of the most advanced in-home equipment available. Sophisticated home terminals allow for greater choice and flexibility in selecting programming services and provide access to interactive services. Time Warner Cable customers can order movies and events at the touch of a button. In addition to providing an interactive programming guide, the terminal provides customers with the option of blocking out programming, through the parental control feature, they do not want their children to view.

The superior technology throughout the system it affords us with the ability to increase programming choices and services including the addition of more pay-per-view channels, advanced home terminals, and high-speed access to the Internet using Time Warner's Road Runner service.

Time Warner Cable has continued in its commitment to provide free cable television service and Road Runner Internet service to area schools and libraries. Neighborhood Technology Centers have been established in order to provide opportunities for underprivileged community members to reap the benefits of High-Speed Internet service. Beyond educational initiatives, we have worked with a diverse set of local organizations and lent both significant direct cash and in kind support to charitable organizations. Our commitment includes supporting several local organizations to enhance life in our serviceable area.

12. Indicate whether applicant has previously filed with the NYS Public Service Commission its:
- a. Current Statement of Assessment pursuant to Section 217 of the Public Service Law?
Yes ☒ No ☐
 - b. Current Annual Financial Report?
Yes ☒ No ☐
- If answer to any of above is negative, explain.

13. Has any event or change occurred during the past twelve months which has had, or could have, a significant impact upon applicant's ability to provide cable television service? Is so, describe below:

6/23/05 No
Date

Brian B. Wirth
Vice President of Government and Public Affairs

Attached is a copy of applicant's current annual performance test results per NYSCRR § 896.5.

Gary Moore, Supervisor
Town of Leicester
132 Main St, PO Box 197
Leicester 14481

VIA Certified Mail

Dear Supervisor Moore:

By virtue of the Cable Communications Policy Act of 1984 (the "Act"), The Cable Television Consumer Protection and Competition Act of 1992 as well as Part 591 of the rules of the State of New York Public Service Commission (PSC), an orderly process has been established for the renewal of cable television franchises. In that regard, Time Warner Entertainment-Advance/Newhouse Partnership, hereinafter referred to as Time Warner Cable, hereby requests that the Town of Leicester commence proceedings in order to afford its residents such appropriate notice and participation for the purpose of identifying the future cable-related needs of your community and to review the past performance of Time Warner Cable under the existing Franchise granted.

Time Warner Cable's current Certificate of Confirmation issued by the NYS Public Service Commission on behalf of the Town expires on March 8, 2006. In order to comply with both Federal and State requirements, Time Warner Cable hereby gives notice that it seeks renewal of its cable television franchise pursuant to the provisions of 47 U.S.C. 546 and requests commencement of renewal proceedings pursuant to 47 U.S.C. 546 (a).

At the same time, we respectfully call your attention to Section 626 (h) of the Act, which permits the municipality to adopt a less formal renewal procedure wherein we would submit a proposal for renewal of the franchise without the necessity of the proceedings described in Section 626 (a). For your review, a copy of Section 626 of the Act is enclosed. We will be happy to comply with whichever procedure the municipality elects to follow, and would gladly discuss the above options with you at your convenience.

We look forward to working with you during the renewal process and continuing to provide your residents and our customers with quality cable television service at reasonable rates.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Brian B. Wirth'.

Brian B. Wirth
Vice President, Government and Public Affairs

Pass/Fail Section

System: Batavia (West) System
Site Name: PC12WC704.Covington.TPA
Location: 6494 Creek Road
Mount Morris, New York

RF Signal Test	Results	FCC Specification
Headend visual - aural frequency separation within limits	PASS	4.50 MHz +/- 5.00 KHz
Minimum visual levels after subscriber input	PASS	0.0 dBmV
OR after 100 foot drop	PASS	3.0 dBmV
Visual level stability over six months	PASS	8.0 dB maximum variation
Adjacent channel visual levels	PASS	+/- 3.0 dB
Visual level peak-to-valley over 24 hours	PASS	10.0 dB first 300 MHz, add 1.0 dB for each additional 100 MHz
Minimum level input to converter	PASS	-3.0 dB (See Mfg. Specifications)
Maximum level input to converter	PASS	20.0 dB (See Mfg. Specifications)
Visual-aural frequency separation	PASS	10.0 dB Min 18.0 dB Max
In-channel frequency response	PASS	2.0 dB Maximum
Carrier-to-noise ratio (C/N)	PASS	43.0 dB Minimum
Composite Second Order (CSO)	PASS	51.0 dB Minimum
Composite Triple Beat (CTB)	PASS	51.0 dB Minimum
Visual Level Hum (HUM)	PASS	3.00 % Maximum

Test Date: 02/11/2005

Drop-Loss Device Section

System: Batavia (West) System
Test Report: FCC-W.Proofs_1.05
Description: FCC Proof-of-Performance Tests_1.05

Description: 8/2 Multi-port Tap
Manufacturer: Maspro
Model Number: TLA2-8

Attenuation Characteristics:

Flat Tap Loss (dB): 8.00

FCC Compliance Report

Test Date: 02/11/2005

Drop-Loss Device Section

System: Batavia (West) System
Test Report: FCC-W.Proofs_1.05
Description: FCC Proof-of-Performance Tests_1.05

Description: RG6 Messenger - Bonded Foil 60% Braid

Manufacturer: Comm/Scope
Model Number: F660BVV

Attenuation Characteristics:

Normal Temperature (deg F):	80.00
Temperature Change (deg F):	0.10
Flat Thru Loss (dB):	5.00
Cable Length (feet):	200.00
Normal Length (feet):	100.00

FCC Compliance Report

Test Date: 02/11/2005

Converter Device Section

System: Batavia (West) System
Test Report: FCC-W.Proofs 1.05
Description: FCC Proof-of-Performance Tests_1.05

Description: Addressable Converter Box

Manufacturer: Scientific Atlanta
Model Number: Explorer 2100
Device Type:

Attenuation Characteristics:

Gain/Flat Loss (dB):	3.00
Hum (%):	0.00
Input signal range, Low limit (dB):	-7.00
Input signal range, High limit (dB):	20.00

Correction Factors:

Noise Figure
10.00

CSO Contribution
57.00

CTB Contribution
63.00
