In accordance with Subdivision 3 of § 20 of the Municipal Home Rule Law, the local laws, ordinances and certain resolutions of the City of Saratoga Springs, as codified by General Code Publishers Corp., and consisting of the Charter and Chapters 1 through A247, together with an Appendix, shall be known collectively as the "Code of the City of Saratoga Springs," hereafter termed the "Code." Wherever reference is made in any of the local laws, ordinances and resolutions contained in the "Code of the City of Saratoga Springs" to any other local law, ordinance or resolution appearing in said Code, such reference shall be changed to the appropriate chapter title, chapter number, Article number or section number where such legislation appears in the Code, as if such local law, ordinance or resolution had been formally amended to so read.

§ 1-2. Continuation of existing provisions.

The provisions of the Code, insofar as they are substantively the same as those of local laws, ordinances and resolutions in force immediately prior to the enactment of the Code by this local law, are intended as a continuation of such local laws, ordinances and resolutions and not as new enactments, and the effectiveness of such provisions shall date from the date of adoption of the prior local law, ordinance or resolution. All such provisions are hereby continued in full force and effect and are hereby reaffirmed as to their adoption by the City Council of the City of Saratoga Springs, and it is the intention of said Council that each such provision contained within the Code is hereby reaffirmed as it appears in said Code. Only such provisions of former local laws and ordinances as are omitted from this Code shall be deemed repealed or abrogated by the provisions of § 1-3 below.

The repeal of local laws and ordinances provided for in § 1-3 of this local law shall not affect the following classes of local laws, ordinances, rights and obligations, which are hereby expressly saved from repeal:

§ 1-6. Copy of Code on file.

A copy of the Code, in loose-leaf form, has been filed in the office of the City Clerk of the City of Saratoga Springs and shall remain there for use and examination by the public until final action is taken on this local law; and, if this local law shall be adopted, such copy shall be certified to by the City Clerk of the City of Saratoga Springs by impressing thereon the Seal of the City of Saratoga Springs, and such certified copy shall remain on file in the office of said City Clerk to be made available to persons desiring to examine the same during all times while the said Code is in effect. § 1-7. Amendments to Code.

Any and all additions, deletions, amendments or supplements to any of the local laws, ordinances and resolutions known collectively as the "Code of the City of Saratoga Springs" or any new local laws, ordinances or resolutions, when enacted or adopted in such form as to indicate the intention of the City Council to be a part thereof, shall be deemed to be incorporated into such Code so that reference to the Code shall be understood and intended to include such additions, deletions, amendments or supplements. each City officer or employee who is affected by a professional Code of Ethics be bound, in addition to the within chapter, by his or her respective Codes of Ethics. Any conflict between the provisions of this chapter and a given professional code of conduct of a City officer or employee is to be resolved by the Ethics Board. (2) For the fifth and each additional false alarm transmitted: \$250.

B. If any alarm user shall transmit more than 10 false alarms within a twelve-month period, the Commissioner of Public Safety may, in his or her discretion, either revoke that alarm user's permit or require that the alarm, if it has been thereto maintained by a property owner or lessee, be thereafter maintained by personnel of an alarm supplier licensed by the City pursuant to § 58-3.

"Gross revenues," however, shall not include any bad debt (defined as unpaid subscriber or advertiser accounts) or any taxes on services imposed directly upon any subscriber (but not on a franchisee) or user by the state, City, or other governmental unit and collected by a franchisee on behalf of said governmental unit. The amount paid as a franchise fee shall not be deducted from gross revenues unless required to be deducted under federal law.

UPSTREAM CHANNEL

§ 94-4. Franchise required.

No person may construct or operate a cable communications system in the City without first obtaining a City franchise therefor.

§ 94-5. Form of franchise.

Any franchise shall be issued in the form of a contract and must be executed by both the City and the franchisee to become effective.

§ 94-6. Nature of franchise.

A. Scope. A franchise granted pursuant to this Code shall authorize and permit a franchisee to construct, operate and repair a cable system or an OVS (as applicable) to provide cable service in the City and for that purpose to erect, install, construct, repair, replace, reconstruct, maintain facilities appurtenant to such cable system in, on, over, under, upon, across, and along those public rights-of-way that the City may authorize a franchisee to use.

B. Nothing passes by implication. A franchise shall not convey rights other than as specified in this chapter or in a franchise agreement; no rights shall pass by implication.

C. Franchise not in lieu of other authorizations. A franchise shall not include, or be a substitute for:

(1) Complying with requirements for the privilege of transacting and carrying on a business within the City, including but not limited to complying with the conditions the City may establish before constructing facilities for, or providing, noncable services;

(2) Any permit, agreement or authorization required in connection with operations on or in public rights-of-way or public property, including, by way of example and not limitation, street cut permits; or

(3) Any permits or agreements for occupying any other property of the City or private entities to which access is not specifically granted by the franchise.

D. Franchisee must comply with other laws. A franchise does not relieve a franchisee of its duty to comply with all City ordinances and regulations, and every franchisee must comply with the same. Likewise, the rights granted under a franchise are subject to the exercise of police and other powers the City now has or may later obtain, including but not limited to the power of eminent domain. Every franchise shall be deemed to incorporate all the requirements of the City Code.

E. Franchise not a grant of property rights. A franchise does not convey title, equitable or legal, in the public rights-of-way. Rights granted may not be subdivided or subleased.

F. Franchise nonexclusive. No franchise shall be exclusive, prevent the City from issuing other franchises or authorizations, or prevent the City from itself constructing, operating, or repairing its own cable communications system, with or without a franchise.

G. Franchise term. Every franchise shall be for a term of years, which term shall be eight years, unless a franchise specifies otherwise.

H. Costs borne by franchisee. Unless otherwise specifically stated in a franchise or required by law, all acts which a franchisee is required to perform under the franchise or applicable law must be performed at the franchisee's expense.

I. Failures to perform. If a cable communications system operator fails to perform work that it is required to perform within the time provided for performance, the City may perform the work and bill the operator therefor. The operator shall pay the amounts billed within 30 days.

§ 94-7. Administration of chapter; adoption of regulations.

A. Adoption of regulations. The City may, from time-to-time, adopt regulations to implement the provisions of this chapter. This chapter, and any regulations adopted pursuant to this chapter, are not contracts with any franchisee and may be amended at any time.

B. Delegation. The Mayor or his/her designee (hereafter referred to as the "Cable Administrator") is hereby authorized to administer the provisions of this chapter and any franchise issued pursuant thereto and to provide any notices (including noncompliance notices) and to take any action on the City's behalf that may be required hereunder or under applicable law.

C. No waiver. The failure of the City, upon one or more occasions, to exercise a right or to require compliance or performance under a franchise or any other applicable law shall not be deemed to constitute a waiver of such right or a waiver of compliance or performance, unless such right has been specifically waived in writing.

D. Administration of public, educational and government access. The City may designate one or more entities, including itself, to control and manage the use of public, educational and governmental access channels, facilities and equipment.

§ 94-8. Transfers.

A. Prior approval required. Every franchise shall be deemed to be held in trust and to be personal to the franchisee. Any transfer that is made without the prior approval of the City shall be deemed to impair that trust. A transfer is any transaction pursuant to which:

(1) A cable communications system or the rights and/or obligations held by the franchisee under the franchise are transferred, sold, assigned, or leased, in whole or in part, directly or indirectly, to another person (except the term does not include sale of portions of the cable system that are removed); or

(2) There is any change, acquisition, or transfer of control of the franchisee or its direct or indirect parents, whether by merger, consolidation, sale of assets or ownership interests, or any other means. A transfer occurs whenever there is a change in actual working control, in whatever manner exercised, over the affairs of a franchisee or its direct or indirect parents. Without limiting the above, any change in the general partners of a franchisee will be presumed a change in control.

B. Exception for mortgages. Notwithstanding any other provision of this chapter, pledges in trust or mortgages of the assets of a cable communications system to secure the construction, operation, or repair of the cable system may be made without application and without the City's prior consent. However, no such arrangement may be made if it would in any respect under any condition 1) prevent the cable communications system operator or any successor from complying with the franchise or applicable law or 2) permit a third party to succeed to the interest of the franchisee, or to own or control the system, without the prior consent of the City. Any mortgage, pledge or lease shall be subject to and subordinate to the rights of the City under any franchise, this chapter, or other applicable law.

§ 94-9. General conditions upon construction, operation and repair.

A. Franchisee must follow local rules. The construction, operation, and repair of cable communications systems shall be performed in compliance with all laws, ordinances, departmental rules, regulations, and practices affecting such cable communications system. By way of example, and not limitation, this includes zoning and safety codes, construction standards, regulations for providing notice to persons that may be affected by system construction, and directives governing the time, place and manner in

which facilities may be installed in the rights-of-way. Persons engaged in the construction, operation, or repair of communications facilities shall exercise reasonable care in the performance of all their activities and shall use commonly accepted methods and devices for preventing failures and accidents that are likely to cause damage, injury, or nuisance to the public or to property.

B. No permit without franchise. A franchise is required before a permit may be issued for work associated with the construction of a cable communications system. Any permit issued for such work to a person that does not hold a franchise shall vest no rights in the permittee; the permit may be revoked at will, and the permittee shall remove all facilities installed under the permit upon the City's demand.

C. Permits must be obtained. Construction, operation, or repair of a cable communications system shall not commence until all required permits have been obtained from the proper City official and all required fees have been paid. All work performed will be performed in strict accordance with the conditions of the permit. Upon order of the City, any work and/or construction undertaken that is not completed in compliance with the City's requirements, or which is installed without obtaining necessary permits and approvals, shall be removed.

D. No interference. Interference with the use of the public rights-of-way by others, including others that may be installing cable communications systems, must be minimized. The City may require a person using the public rights-of-way to cooperate with others through joint trenching and other arrangements to minimize adverse impacts on the rights-of-way.

E. Existing poles to be used. To the extent possible, operators of cable communications systems shall use existing poles and conduits. Additional poles may not be installed in the public rights-of-way, nor may pole capacity be increased by vertical or horizontal extenders, without the permission of the City.

F. Undergrounding.

(1) Whenever all existing utilities are located underground in an area in the City, every cable communications system operator in the same area must locate its cable communications system underground.

(2) Whenever the owner of a pole locates or relocates underground within an area of the City, every cable communications system operator in the same area shall concurrently relocate its facilities underground.

(3) The City may, for good cause shown, exempt a particular system or facility or group of facilities from the obligation to locate or relocate facilities underground, where relocation is impractical or where the interest in protecting against visual blight can be protected in another manner. Nothing in this section prevents the City from ordering communications facilities to be located or relocated underground under other provisions of the general City law.

G. Prompt repairs. Any and all public rights-of-way, other public property, or private property that is disturbed or damaged during the construction, operation or repair of a cable communications system shall be promptly repaired by the operator. Public property and public rights-of-way must be restored to the satisfaction of the City or to a condition as good as or better than before the disturbance or damage occurred.

H. Movement of facilities for government.

(1) A cable communications system operator shall, by a time specified by the City, protect, support, temporarily disconnect, relocate, or remove any of its property when required by the City by reason of traffic conditions; public safety; public rights-of-way construction and repair (including regrading,

resurfacing or widening); public rights-of-way vacation; construction, installation or repair of sewers, drains, water pipes, power lines, signal lines, tracks, or any other type of government-owned system or utility, public work, public facility, or improvement; or for any other purpose where the work involved would be aided by the removal or relocation of the cable communications system. Collectively, such matters are referred to below as the "public work."

(2) The City shall provide written notice describing where the public work is to be performed at least one week prior to the deadline by which a cable communications system operator must protect, support, temporarily disconnect, relocate or remove its facilities. In an emergency, or where a cable communications system creates or is contributing to an imminent danger to health, safety, or property, the City may protect, support, temporarily disconnect, remove, or relocate any or all parts of the cable communications system without prior notice and charge the cable communications system operator for costs incurred.

I. Movement for others.

(1) To accommodate the construction, operation, or repair of the facilities of another person authorized to use the streets or public property, a franchisee shall, by a time specified by such person, protect, support, temporarily disconnect, relocate or remove its facilities. The franchisee must be given written notice describing where the construction, operation or repair is to be performed at least 15 days prior to the time by which its work must be completed. The City may resolve disputes as to responsibility for costs associated with removal, relaying, or relocation of facilities among entities authorized to install facilities in the streets or on public property if such entities are unable to do so themselves.

(2) A cable communications system operator shall, on the request of any person holding a valid permit issued by a governmental authority, temporarily raise or lower its wires by a time specified to permit the moving of buildings or other objects. A cable communications system operator shall be given not less than seven days' advance notice to arrange for such temporary wire changes. The expense of such temporary removal or raising or lowering of wires shall be paid by the person requesting the same.

J. Abandonment in place.

(1) A cable communications system operator may abandon any property in place in the public rights-of-way upon written notice to the City. However, if, within 90 days of the receipt of written notice of abandonment, the City determines that the safety, appearance, functioning or use of the public right-of-way and facilities in the public rights-of-way will be adversely affected, the property must be removed by a date specified by the City.

(2) A cable communications system operator that abandons its property must, upon request from the City Council, transfer ownership of the properties to the City at no cost and execute necessary quitclaim deeds and indemnify the City against future costs associated with mitigating or eliminating any environmental hazard associated with the abandoned property.

K. System subject to inspection. Every cable communications system facility shall be subject to inspection and testing by the City. Each operator must respond to requests for information regarding its system and plans for the system as the City may from time to time issue, including requests for information regarding its plans for construction, operation and repair and the purposes for which the plant is being constructed, operated, or repaired.

L. Underground services alert. Each operator of a cable communications system that places facilities underground shall be a member of the regional notification center for subsurface installations

(Underground Services Alert) and shall field mark the locations of its underground communications facilities upon request. The operator shall locate its facilities for the City at no charge.

M. Plan for construction. Each cable communications system operator shall provide the City a plan for any initial system construction, or for any substantial rebuild, upgrade or extension of its facility, which shall show its timetable for construction of each phase of the project and the areas of the City that will be affected.

N. Use of facilities by city. The City shall have the right to install and maintain, free of charge upon any poles or in any conduit owned by a franchisee, any wire and pole fixtures that do not unreasonably interfere with the cable service operations of the franchisee.

§ 94-10. Protection of City and residents.

A. Indemnity required. No franchise shall be valid or effective until and unless the City obtains an adequate indemnity from the franchisee and such indemnity is maintained in effect. The indemnity must:

(1) Release the City from and against any and all loss, damage, expense, cost (including, without limitation, the cost of litigation), liability and responsibility in or arising out of the construction, operation or maintenance of the cable communications system or the City's grant of a franchise to franchisee, or franchisee's enjoyment of the franchise. Each cable communications system operator must further agree not to sue or seek any money or damages from the City in connection with the above-mentioned matters.

(2) Indemnify and hold harmless the City, its elected and appointed officers, agents, and employees from and against any and all claims, demands, or causes of action of any kind or nature and the resulting losses, costs, expenses, reasonable attorneys' fees, liabilities, damages, orders, judgments, or decrees sustained by the City or any third party arising out of, or by reason of, or resulting from or of the acts, errors, or omissions of the cable communications system operator, or its agents, independent contractors or employees, related to or in any way arising out of the construction, operation, maintenance or repair of the system.

(3) Provide that the covenants and representations relating to the release, indemnification, and hold harmless provision shall survive the term of the franchise or other authorization and continue in full force and effect as to the franchisee's responsibility to indemnify.

B. Insurance required. A franchisee (and/or those acting on its behalf) shall not commence construction or operation of the cable system without obtaining insurance in amounts and of a type satisfactory to the City. The required insurance must be obtained and maintained for the entire period the franchisee has facilities in the public rights-of-way. If the franchisee, its contractors, or subcontractors do not maintain the required insurance, the City may order such entities to cease operations until such time as the insurance is obtained and approved by the City.

C. Proof. Certificates of insurance, reflecting evidence of the required insurance and naming the City as an additional insured, and other proofs as the City may find necessary, shall be filed with the City. For persons issued franchises after the effective date of this chapter, certificates and other required proofs shall be filed 30 days prior to the issuance of a franchise, once a year thereafter, and whenever there is any change in coverage. For entities that have facilities in the public rights-of-way as of the effective date of this chapter, the certificate shall be filed within 60 days of the effective date of this chapter, annually thereafter, and whenever there is any change in coverage, unless a preexisting franchise provides for the filing of certificates in a different manner.

D. Certificate contents. Certificates shall contain a provision that coverages afforded under these policies will not be canceled until at least 30 days' prior written notice has been given to the City. Policies shall be issued by companies authorized to do business under the laws of the State of New York. Financial ratings must be no less than "A" in the latest edition of "Bests Key Rating Guide," published by A.M. Best Guide.

E. Insurance amounts. A cable communications system operator and those acting on its behalf to construct or operate the cable system shall each maintain the following minimum insurance. The City shall be named as an additional insured on all such policies by endorsement on the general liability and excess policies; those insurance policies shall be primary and contain a cross-liability clause.

(1) Comprehensive general liability insurance to cover liability, bodily injury and property damage.

(a) Exposures to be covered are premises, operations, products/completed operations, and certain contracts. Coverage must be written on an occurrence basis, with the following limits of liability:

Coverage	Limits
Bodily injury	
Each occurrence	\$1,000,000
Annual aggregate	\$2,000,000
Property damage	
Each occurrence	\$1,000,000
Annual aggregate	\$2,000,000
Personal injury	
Annual aggregate	\$3,000,000

(b) Completed operations and products liability shall be maintained after the termination of the franchise or license (in the case of the cable communications system owner or operator) or completion of the work for the cable communications system owner or operator (in the case of a contractor or subcontractor) for the duration of the applicable statute of limitations.

(c) Property damage liability insurance shall include coverage for the following hazards: X - explosion, C - Collapse, U - underground.

(2) Workers' compensation insurance shall be maintained during the life of this contract to comply with statutory limits for all employees, and in the case any work is sublet, each cable communications system operator shall require the subcontractors similarly to provide workers' compensation insurance for all the latter's employees unless such employees are covered by the protection afforded by each cable communications system operator. Each cable communications system operator and its contractors and subcontractors shall maintain during the life of this policy employers' liability insurance. Workers' compensation insurance shall include a waiver of subrogation clause in favor of the City. The following minimum limits must be maintained:

(a) Workers' compensation: statutory.

(b) Employers' liability: \$500,000 per occurrence.

(3) Comprehensive auto liability. Coverage shall include owned, hired, and nonowned vehicles.

Coverage	Limits
Bodily injury	
Each occurrence	\$1,000,000
Annual aggregate	\$3,000,000
Property damage	
Each occurrence	\$1,000,000
Annual aggregate	\$3,000,000

(4) Excess insurance. Annual aggregate: \$5,000,000.

F. Performance bond. Every operator of a cable communications system shall obtain and maintain a performance bond to ensure the faithful performance of its responsibilities under this chapter and any franchise. The amount of the performance and payment bonds shall be set by the City Council and may be set in a franchise contract in light of the nature of the work to be performed but shall not be less than 10% of the estimated cost of constructing or (in the case of existing systems) upgrading the cable system. The bond is not in lieu of any additional bonds that may be required through the permitting process. The bond shall be in a form acceptable to the City Attorney. Bonds must be obtained prior to the effective date of any franchise, transfer or franchise renewal, unless a franchise specifically provides otherwise.

G. Security fund. Every cable communications system operator shall establish and maintain a cash security fund or provide the City an irrevocable letter of credit in the amount of \$100,000 to secure the payment of fees owed, to secure any other performance promised in a franchise, and to pay any taxes, fees or liens owed to the City. The letter of credit shall be in a form and with an institution acceptable to the City Director of Finance and in a form acceptable to the City Attorney. Should the City draw upon the cash security fund or letter of credit, the cable communications system operator shall, within 14 days, restore the fund or the letter of credit to the full required amount. This security fund/letter of credit may be waived or reduced by the City for a franchisee where the City determines in its discretion that a particular franchisee's operations are sufficiently limited that a security fund/letter of credit is not necessary to secure the required performance. The City may from time to time require a franchisee to change the amount of the required security fund/letter of credit to reflect changed risks to the City and to the public, including delinquencies in taxes or other payments to the City. The cash security fund or letter of credit must be obtained prior to the effective date of any franchise, transfer, or franchise renewal, unless a franchise specifically provides otherwise.

§ 94-11. Enforcement; remedies.

A. Revocation and termination. The City Council may revoke a franchise or reduce the term of a franchise if it finds, after public notice and opportunity for a hearing, that a cable communications system operator has violated this chapter or its franchise; has defrauded or attempted to defraud the City or subscribers; or has attempted to evade the requirements of this chapter or its franchise. The franchise may be revoked only if the franchisee was given notice of the default and 60 days to cure the

default and failed to cure the default or to propose a schedule for curing the default acceptable to the City where it is impossible to cure the default in 60 days.

B. Effect of termination or forfeiture. Upon termination or forfeiture of a franchise, whether by action of the City, as provided above, or by passage of time, the franchisee must stop using the cable communications system for the purposes authorized by the franchise. The City may take possession of some or all of franchisee's facilities or require the franchisee or its bonding company to remove some or all of the franchisee's facilities from the City and restore affected property to its same, or better, condition. This provision does not permit the City to remove facilities that are used to provide another service for which the franchisee holds a valid franchise issued by the City or is otherwise authorized to use the public rights-of-way to provide another service.

C. Remedies cumulative. Remedies provided for under this chapter or under a franchise shall be cumulative. Recovery by the City of any amounts under insurance, the performance bond, the security fund or the letter of credit does not limit a franchisee's duty to indemnify the City or relieve a franchisee of its franchise obligations or limit the amounts owed to the City.

§ 94-12. Books and records.

A. Generally. Each cable communications system operator shall provide the City access to books and records related in whole or in part to the construction, operation, or repair of the cable system, or a group of systems of which the cable system is a part, so that the City may inspect and copy these books and records. The records include, but are not limited to, revenue records and other records related to compliance with any provision of this chapter or a franchise. A franchisee is responsible for obtaining or maintaining the necessary possession or control of all such books and records, so that it can produce the documents upon request. Books and records must be maintained for a period of six years, except that a franchise may specify a shorter period for certain categories of voluminous books and records where the information contained therein can be derived simply from other materials. The phrase "books and records" shall be read expansively to include information in whatever format stored.

B. Production. Books and records requested shall be produced to the City by a time and at a location in the City designated by the City. However, if the requested books and records are too voluminous or for security reasons cannot be copied and moved, then the franchisee may request that the inspection take place at some other location mutually agreed to by the City and the franchisee, provided that:

(1) The franchisee must make necessary arrangements for copying documents selected by the City after its review; and

(2) The franchisee must pay all travel and additional copying expenses incurred by the City (above those that would have been incurred had the documents been produced in the City) in inspecting those documents or having those documents inspected by its designee.

§ 94-13. Reports.

A. Obligation to submit. The City may from time-to-time direct a franchisee to prepare reports and to submit those reports by a date certain, in a format prescribed by the City, in addition to those required by this chapter for the purpose of ensuring compliance with the provisions of this chapter and the franchise.

B. Quarterly reports. Within 45 days of the end of each calendar quarter, a franchisee shall submit a report to the Commissioner of Finance for presentation to the City Council containing the following information:

(1) The number of service calls (calls requiring a truck roll) received during the prior quarter and the percentage of service calls compared to the subscriber base; and

(2) The total estimated hours of known outages as a percentage of total hours of operation. An "outage" is a loss of sound or video on any signal or a significant deterioration of any signal affecting two or more subscribers.

C. Annual reports. No later than 90 days after the end of its fiscal year, a franchisee shall submit to the Commissioner of Finance for presentation to the City Council the following information:

(1) An audited or certified revenue report from the previous calendar year for the cable communications system and a certified statement setting forth the computation of gross revenues used to calculate the franchise fee for the preceding year and a detailed explanation of the method of computation showing:

(a) Gross revenues by category (e.g., basic, pay, pay-per-view, advertising, installation, equipment, late charges, miscellaneous, other); and

(b) What, if any, deductions were made from gross revenues in calculating the franchise fee (e.g., bad debt, credits and refunds), and the amount of each deduction.

(2) A report showing, for each applicable customer service standard, the franchisee's performance with respect to that standard for each quarter of the preceding year. In each case where the franchisee concludes it did not comply fully, the franchisee will describe the corrective actions it is taking to assure future compliance. In addition, the report should identify the number and nature of the customer service complaints received and an explanation of their dispositions.

(3) An ownership report, indicating all persons who, at the time of filing, control or own an interest in the franchisee of 10% or more.

D. Contemporaneous reports. Within 10 days of their receipt or (in the case of documents created by the operator or its affiliate) filing, a franchisee shall provide the Commissioner of Finance for presentation to the City Council:

(1) Notices of deficiency or forfeiture related to the operation of the cable system; and

(2) Any request for protection under bankruptcy laws or any judgment related to a declaration of bankruptcy by the franchisee or by any partnership or corporation that owns or controls the franchisee directly or indirectly.

§ 94-14. Maps required.

Each franchisee shall maintain accurate maps and improvement plans which show the location, size, and a general description of all facilities installed in the public rights-of-way and any power supply sources (including voltages and connections). Maps shall be based upon postconstruction inspection to verify location. Each franchisee shall provide a map to the City showing the location of its facilities, in such detail and scale as may be directed by the City Engineer, and update the map at least annually and whenever the facility expands or is relocated. Copies of maps shall be provided on disk, in a commercially available electronic format specified by the City Commissioner of Public Works.

§ 94-15. Other records required.

Unless the City waives the requirement, a franchisee shall at all times maintain:

A. Complaint records. Records of all complaints received, their nature and resolution. The term "complaints" refers to complaints about any aspect of the franchisee's operations.

B. Outage records. Records of outages known to the franchisee and their cause and duration.

C. Complaint response. Records of service calls for repair and maintenance indicating the date and time service was requested, the date of acknowledgment and the date and time service was scheduled (if it was scheduled), and the date and time service was provided and (if different) the date and time the problem was solved.

D. Installation records. Records of installation/reconnection and requests for service extension, indicating the date of request, the date of acknowledgment, and the date and time service was extended.

E. Customer service. Records sufficient to show whether the franchisee has complied with each customer service standard that applies to it.

§ 94-16. Extensions.

The City may, in its discretion and for an interim period that it deems fit, extend the date for a franchisee to comply with the requirements of §§ 94-12 through 94-15. Notwithstanding the foregoing, any such extension of the obligations under §§ 94-12 through 94-15 shall not exempt that franchisee from complying with all relevant and applicable New York State requirements and rules or extend any New York State required compliance requirement dates.

§ 94-17. Privacy.

A franchisee shall take all reasonable steps required so that it is able to provide reports, books and records to the City, including by providing appropriate subscriber privacy notices. Each franchisee shall be responsible for redacting data that applicable law prevents it from providing to the City. Nothing in this section shall be read to require a franchisee to violate New York State or federal subscriber privacy laws.

§ 94-18. Procedure for paying franchise fees and fees in lieu of franchise fees.

A. Fees paid quarterly. The franchise fee paid pursuant to Article II, or the fee in lieu of the franchise fee paid pursuant to Article III, shall be paid quarterly unless otherwise specified in a franchise. Payment for each quarter shall be made to the City not later than 45 days after the end of each calendar quarter.

B. Quarterly statement. Unless a franchise provides otherwise, a franchisee or other entity subject to a fee under Article II or III shall file with the City within 45 days of the end of each calendar quarter a statement showing gross revenues during the preceding quarter and the number of subscribers served.

C. Acceptance of payment not a release. No acceptance by the City of any payment shall be construed as an accord that the amount paid is in fact the correct amount, nor shall such acceptance of such payment be construed as a release of any claim the City may have for additional sums payable.

D. Fee not in lieu of taxes. Neither the franchise fee under Article II nor the fee paid in lieu of the franchise fee under Article III is a payment in lieu of any tax, fee or other assessment of general applicability (including any such tax, fee or assessment imposed on both utilities and cable operators or their services, but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers).

E. Failure to pay franchise fee. In the event that a fee payment is not received by the City on or before the due date set forth in this section or in a franchise, or the fee owed is not fully paid, the person subject to the fee will be charged interest from the due date at an interest rate equal to 3% above the rate for three-month federal treasury bills at the most recent United States Treasury Department sale of such treasury bills occurring prior to the due date of the franchise fee payment.

F. Final statement of gross revenues. Within 90 days of the date a franchisee ceases operations under a franchise (whether because of franchise termination, transfer, or bankruptcy or for any other reason), the franchisee shall file a final statement of gross revenues covering the period from the beginning of the calendar year in which the operations ceased to the date operations ceased. The statement shall contain the information and be certified as required by § 94-13C(1).

ARTICLE II. Special Rules Applicable to Cable Systems

§ 94-19. Applications.

A. Application required.

(1) An application must be filed for an initial and renewal cable system franchise or for approval of a transfer. A request for renewal filed under 47 U.S.C. § 546(h) need not contain the information required by § 94-19B(2).

(2) To be accepted for filing, an original and six copies of a complete application must be submitted. All applications shall include the names and addresses of persons authorized to act on behalf of the applicant with respect to the application.

B. Application contents.

(1) The City may specify the information that must be provided in connection with an application and the form in which the information is to be provided.

(2) At a minimum, each application must identify the applicant; show that the applicant is financially, technically and legally qualified to construct, maintain and operate the cable system; contain a pro forma showing of capital expenditures and expected income and expenses for the first five years the applicant is to hold the franchise; and show that the applicant is willing to comply unconditionally with its franchise obligations and such other information required by 16 NYCRR 894.5. Any application for an initial or renewal franchise must describe in detail the cable system that the applicant proposes to build, show where it will be located, set out the system construction schedule, and show that the applicant will provide adequate channels, facilities and other support for PEG use (including institutional network use) of the cable system.

(3) An applicant (and the transferor and transferee, in the case of a transfer) shall respond to any request for information from the City, by the time specified by the City.

C. Incomplete applications. An application may be rejected if it is incomplete or if the response to requests for information is not timely and complete.

D. The application will be referred to a Cable Television Advisory Committee designated by the City pursuant to 16 NYCRR 894.1.

§ 94-20. Application for initial franchise or renewal franchise.

A. Scope. This section establishes additional provisions that apply to an application for an initial franchise or a renewal franchise application that is not governed by 47 U.S.C. § 546(a) through (g).

B. Process. Any person may apply for an initial or renewal franchise by submitting an application therefor on that person's own initiative or in response to a request for proposals issued by the City. If the City receives an unsolicited application, it may choose to issue a request for additional proposals and require the applicant to amend its proposal to respond thereto. The City shall promptly conduct such investigations as are necessary to act on an application.

C. Consideration of application. In determining whether to grant a franchise, the City will consider the final report submitted of the Cable Television Advisory Committee pursuant to 16 NYCRR 894.2 and may consider:

- (1) The extent to which an applicant for renewal has substantially complied with the applicable law and the material terms of any existing cable franchise;
- (2) Whether an applicant for renewal's quality of service under its existing franchise, including signal quality, response to customer complaints, billing practices, and the like, has been reasonable in light of the needs of the community;
- (3) Where the applicant has not previously held a cable system franchise in the City, whether the applicant's record in other communities indicates that it can be relied upon to provide high-quality service throughout any franchise term;
- (4) Whether the applicant has the financial, legal, and technical ability to provide the services, facilities, and equipment set forth in an application and to satisfy any minimum requirements established by the City;
- (5) Whether the applicant's application is reasonable to meet the future cable-related needs and interests of the City, taking into account the cost of meeting such needs and interests;
- (6) Whether issuance of a franchise is warranted in the public interest considering the immediate and future effect on streets, public property, and private property that will be used by the applicant's cable system;
- (7) Whether issuance of the franchise would reduce competition in the provision of cable service in the City; and
- (8) Such other matters as the City is authorized or required to consider.

D. Issuance of franchise. If the City determines that issuance of a franchise would be in the public interest considering the factors above, it may proffer a franchise agreement to the applicant. No franchise shall become effective until the franchise is unconditionally accepted by the applicant and the franchise agreement is signed.

§ 94-21. Application for renewal franchise filed pursuant to 47 U.S.C. § 546.

A. Scope. This section establishes additional provisions that apply to applications for renewal governed by 47 U.S.C. § 546(a) through (g).

B. Process. A franchisee which intends to exercise rights under 47 U.S.C. § 546(a) through (g) shall submit a notice in writing to the City in a timely manner clearly stating that it is activating the procedures set forth in those sections. The City shall thereafter commence any proceedings that may

be required under federal law, and upon completion of those proceedings, the City may issue a request for proposals and an application may be submitted for renewal. The City may preliminarily deny the application by resolution, and if the application is preliminarily denied, the City may conduct such proceedings and by resolution establish such procedures and appoint such individuals as may be necessary to conduct any proceedings to review the application.

§ 94-22. Application for transfer.

A. Scope. This section establishes additional provisions that apply to applications for transfer approval.

B. Information. An application for transfer must contain all the information required by the City by § 94-19 and all information required by any FCC transfer form.

C. Consideration of application. In determining whether a transfer application should be granted, denied, or granted subject to conditions, the City may consider the legal, financial, and technical qualifications of the transferee to operate the cable system; any potential impact of the transfer on subscriber rates or services; whether the incumbent cable operator is in compliance with its franchise; whether the transferee owns or controls any other cable system in the City, whether operation by the transferee may eliminate or reduce competition in the delivery of cable service in the City; and whether operation by the transferee or approval of the transfer would otherwise adversely affect subscribers, the public, or the City's interest under this chapter, the franchise, or other applicable law. The proposed transferee shall pay all reasonable costs incurred by the City in reviewing and evaluating the applications.

D. Minimum conditions. In order to obtain approval of a transfer, an applicant must show, at a minimum, that the transferee is qualified; the transfer will not adversely affect the interests of subscribers, the public, or the City; and that noncompliance issues have been resolved. No application shall be granted unless the transferee agrees in writing that it will abide by and accept all terms of this chapter and the franchise and that it will assume the obligations, liabilities, and responsibility for all acts and omissions, known and unknown, of the previous franchisee for all purposes.

§ 94-23. Legal qualifications.

A. Standards.

(1) The applicant must be willing to comply with the provisions of this chapter and applicable laws; and to comply with such requirements of a franchise as the City may lawfully require.

(2) The applicant must not have had any cable system or OVS franchise validly revoked (including any appeals) by the City within the three years preceding the submission of the application.

(3) The applicant may not have had an application to the City for an initial or renewal cable system franchise denied on the ground that the applicant failed to propose a cable system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved (including any appeals) adversely to the applicant, within three years preceding the submission of the application, and may not have had an application for an initial or renewal OVS franchise denied on any ground within three years of the application.

(4) The applicant shall not be issued a franchise if, at any time during the 10 years preceding the submission of the application, the applicant was convicted of fraud, racketeering, anticompetitive actions, unfair trade practices or other conduct of such character that the applicant cannot be relied upon to deal truthfully with the City and the subscribers or to substantially comply with its obligations.

(5) The applicant must have the necessary authority under New York State and federal law to operate a cable system or show that it is in a position to obtain that authority.

(6) The applicant shall not be issued a franchise if it files materially misleading information in its application or intentionally withholds information that the applicant lawfully is required to provide.

(7) For purposes of § 94-23A(2) through A(4), the term "applicant" includes any affiliate of the applicant.

B. Exception. Notwithstanding § 94-23A, an applicant shall be provided a reasonable opportunity to show that a franchise should issue even if the requirements of § 94-23A(3) through A(4) are not satisfied, by virtue of the circumstances surrounding the matter and the steps taken by the applicant to cure all harms flowing therefrom and prevent their recurrence, the lack of involvement of the applicant's principals, or the remoteness of the matter from the operation of a cable system.

§ 94-24. Franchise fee.

A. Amount of franchise fee. A cable operator shall pay to the City a franchise fee in an amount equal to 5% of gross revenues or such other amount as may be specified in the franchise; provided, however, that if the franchise specifies an amount, that amount shall be subject to increase should federal limits on fee payments be eliminated or changed and other cable operators in the City are subject to a higher fee.

B. Bundled services. In the event that the franchisee shall, during the term of the franchise, offer bundled, tied, or combined cable services (which are subject to the franchise fee) with non-cable services (which may not be subject to the franchise fee) to individual subscribers, the combined revenues from such bundled services shall be allocated consistent with standard rates or prices for each service in the bundle advertised by the franchisee through its marketing materials or on its published rate card. In the event the franchisee does not advertise or publish separate prices for the combined services, the percentage that the price for the combined services is discounted from the regular retail rates of the individual services shall be prorated across all the services; provided, however, that any mandatory tariff rates imposed by the New York Public Service Commission (or other governmental entity having such authority) shall be deducted from the combined revenue to determine the revenue subject to the franchise fee. As an example, the franchisee may offer a "bundle" of video, voice and data services for a flat fee of \$75, where the retail rate for services purchased on an individual basis would equal \$100. Assuming that there is no service subject to the mandated tariff rate, the franchisee would apply a discount of 25% to each service. Thus, if the retail rate for the cable service in the bundle were \$50, the franchisee would recognize cable service revenue in the amount of \$37.50 and pay a franchise fee on that revenue.

§ 94-25. No exclusivity.

A franchisee may not require a subscriber or a building owner or manager to enter into an exclusive contract as a condition of providing or continuing service, nor may a franchisee enter into any exclusive arrangement that would effectively preclude other persons from using the OVS to compete in the delivery of cable service with a franchisee or its affiliates. However, nothing herein prevents a franchisee from entering into an otherwise lawful, mutually desired exclusive arrangement with a building owner or manager of a multiple-dwelling unit or a commercial subscriber.

§ 94-26. Minimum franchise conditions.

In addition to satisfying such additional or stricter conditions as the City finds necessary based on its investigations, the following elements shall be required in every franchise.

A. System design. Each franchisee shall provide a cable system which uses at least 750 MHz equipment of high quality and reliability. Each franchisee shall install and activate the return portion of the cable system in the sub-low frequency spectrum of 5 MHz to 30 MHz.

B. Public, educational and government use of the system.

(1) A franchisee shall provide to each subscriber the minimum of PEG Access required by New York State law.

(2) Each franchisee shall install, maintain, and replace, as necessary, a dedicated, bidirectional fiber optic link between its headend and a location designated by the City as the primary access center.

(3) Each franchisee shall install, maintain, and replace activated two-way cable plant and all headend, cable plant, and node equipment required to make it operable so that the City, schools, and all designated PEG access centers and PEG access facilities located within the franchise area will be able to send and receive signals (video, audio, and data) using the activated two-way cable plant.

(4) Each franchisee shall ensure that technically adequate signal quality, routing systems, and switching and/or processing equipment are initially and continuously provided for all access interconnections both within the franchisee's cable system and with other cable systems throughout the duration of its franchise.

(5) In the event a franchisee makes any change in the cable system and related equipment and facilities or in the franchisee's signal delivery technology which directly or indirectly substantially affects the signal quality or transmission of access programming, the franchisee shall, at its expense, take necessary steps or provide necessary technical assistance, including the acquisition of all necessary equipment, to ensure that the capabilities of PEG access programmers are not diminished or adversely affected by such change.

(6) A franchisee shall maintain all PEG access channels (both upstream channels and downstream channels) and all interconnections of PEG access channels at the same level of technical quality and reliability as the best commercial channels carried on the system.

C. Service to franchise area. It is the policy of the City to ensure that every cable communications system provide service in its franchise area upon request to any person or any government building. Each franchisee shall extend service upon request within its franchise area, provided that a franchise may permit a franchisee to require a potential subscriber to contribute a fair share of the capital costs of installation or extension as a condition of extension or installation in cases where such extension or installation may be unduly expensive. Service must be provided within the time limits specified in Subsection D.

D. Time for extension.

(1) Except as a franchise otherwise provides, service must be extended upon request to any person or to any government building in a franchisee's franchise area:

(a) Within seven days of the request, where service can be provided by activating or installing a drop;

(b) Within 90 days of the request where an extension of 1/2 mile or less is required; or

(c) Within six months where an extension of 1/2 mile or more is required.

(2) Notwithstanding the foregoing, a franchisee shall not be deemed to be in violation of this section in the event the franchisee uses reasonable efforts to complete the extension in a timely manner but weather or other circumstances beyond the reasonable control of the franchisee prevent such timely completion.

E. Technical standards. A cable system within the City shall meet or exceed the technical standards set forth in 47 CFR 76.601 and any other applicable federal and/or New York State technical standards.

F. Testing. Each cable operator shall perform at its expense such tests as may be necessary to show whether or not the franchisee is in compliance with its obligations under applicable FCC standards, this chapter or a franchise.

G. Interconnection. Upon request of the City, every cable system shall be required to interconnect with every other cable system within the City, or adjacent to the City, on fair and reasonable terms for purposes of providing PEG access and I-Net services.

H. Continuity of service. Each franchisee shall, during the term of the franchise, ensure that subscribers are able to receive continuous service. In the event the franchise is revoked or terminated, the franchisee shall be required to continue to provide service for a reasonable period to assure an orderly transition of service from the franchisee to another entity. A franchise may establish more particular requirements under which these obligations will be satisfied.

§ 94-27. Rate regulation and consumer protection; penalties for offenses.

A. All rates subject to regulation. The City may regulate any of the cable communications system operator's rates and charges to the extent permitted by law. The City will regulate rates in accordance with FCC and New York Public Service Commission rules and regulations, where applicable. Except to the extent FCC or New York Public Service Commission rules and regulations provide otherwise, all rates and charges that are subject to regulation, and changes in those rates or charges, must be approved in advance. The City may take any required steps to file complaints, toll rates, issue accounting orders or take any other steps required to comply with FCC or New York Public Service Commission rules and regulations. The City Council shall be responsible for issuing rate orders that establish rates or order refunds.

B. No rate discrimination. Except to the extent the City is not permitted by New York State or federal law to enforce such a requirement, a cable operator is prohibited from discriminating in its rates or charges or from granting undue preferences to any subscriber, potential subscriber, or group of subscribers or potential subscribers; provided, however, that a franchisee may offer temporary, bona fide promotional discounts in order to attract or maintain subscribers, so long as such discounts are offered on a nondiscriminatory basis to similar classes of subscribers throughout the franchise area, and a franchisee may offer discounts for the elderly, the disabled, or the economically disadvantaged and such other discounts as it is expressly entitled to provide under federal law, if such discounts are applied in a uniform and consistent manner.

C. Redlining prohibited. A cable operator shall not deny access or charge different rates to any group of subscribers or potential subscribers because of the income of the residents of the local area in which such group resides.

D. Customer service.

(1) Each cable operator must satisfy FCC, New York State and City cable customer service standards or consumer protection standards. In the case of a conflict among standards, the stricter standard shall apply.

(2) For violation of cable customer service standards, penalties will be imposed as follows:

(a) For each day of each material breach: \$200, not to exceed \$600 for each occurrence of material breach.

(b) If there is a subsequent material breach of the same provision within 12 months: \$400 for each day of each material breach, not to exceed \$1,200 for each occurrence of the material breach.

(c) If there is a third or additional material breach of the same provision within 12 months of the first: \$1,000 for each day of each material breach, not to exceed \$3,000 for each occurrence of the material breach.

(3) Any penalty assessed under this section will be reduced dollar for dollar to the extent any liquidated damage provision of a franchise imposes a monetary obligation on a franchisee for the same customer service failures, and no other monetary damages may be assessed.

ARTICLE III. Open Video Systems

§ 94-28. Additional definitions.

OVS AGREEMENT — A contract entered into in accordance with the provisions of this chapter between the City and an OVS franchisee setting forth the terms and conditions under which the franchise will be exercised.

§ 94-29. Applications for grant or renewal of franchises.

A. Initial and renewal franchise; application.

(1) A written application shall be filed with the City for grant of an initial or renewal franchise.

(2) To be acceptable for filing, a signed original of the application shall be submitted together with six copies. The application must conform to any applicable request for proposals, and contain all information required under § 94-29B. All applications shall include the names and addresses of persons authorized to act on behalf of the applicant with respect to the application.

B. Contents of applications. The City may specify the information that must be provided in connection with a request for proposals or an application for an initial or renewal franchise. At a minimum, each application must identify the applicant, where it plans to construct its system, and the system construction schedule; show that the applicant will provide adequate channels, facilities and other support for PEG use (including institutional network use) of the OVS; and show that the applicant is financially, technically and legally qualified to construct and operate the OVS.

C. Procedure for applying for grant of franchise.

(1) A person may apply for an initial or renewal franchise on its own initiative or in response to a request for proposals. Upon receipt of an application, the City shall promptly proffer the applicant a proposed OVS agreement, which shall be mailed to the person requesting its issuance and made available to any other interested party. The City may request such additional information as it deems appropriate.

(2) An applicant shall respond to requests for information completely, and within the time directed by the City, and must strictly comply with procedures, instructions, and requirements the City may establish.

(3) An application may be rejected if it is incomplete or the applicant fails to follow procedures or respond fully to information requests.

D. Evaluation. In evaluating a franchise application, the City may consider the following:

(1) The extent to which the applicant has substantially complied with the applicable law and the material terms of any existing City OVS franchise;

(2) Whether the applicant has the financial, technical, and legal qualifications to hold an OVS franchise;

(3) Whether the application satisfies any minimum requirements established by the City for, or will otherwise provide, adequate PEG use capacity, facilities, or financial support (including with respect to institutional networks);

(4) Whether issuance of a franchise would require replacement of property or involve disruption of property, public services, or use of the public rights-of-way; and

(5) Whether the approval of the application may eliminate or reduce competition in the delivery of cable service in the City.

E. Issuance. If the City finds that it is in the public interest to issue a franchise, considering the factors above and such other matters as it is required or entitled to consider, and subject to the applicant's entry into an appropriate OVS agreement, it shall issue a franchise. Prior to deciding whether or not to issue a franchise, the City may hold one or more public hearings or implement other procedures under which comments from the public on an application may be received. No franchise shall become effective until the franchise is unconditionally accepted by the applicant and the franchise agreement is signed.

F. Legal qualifications. In order to be legally qualified:

(1) The applicant must be willing to comply with the provisions of this chapter and applicable laws and to comply with such requirements of an OVS agreement as the City may lawfully require.

(2) The applicant must not hold a cable system franchise or have pending an application for a cable system franchise.

(3) The applicant must not have had any cable system or OVS franchise validly revoked (including any appeals) by the City within three years preceding the submission of the application.

(4) The applicant may not have had an application for an initial or renewal cable system franchise to the City denied on the ground that the applicant failed to propose a cable system meeting the cable-related needs and interests of the community, or as to which any challenges to such franchising decision were finally resolved (including any appeals) adversely to the applicant, within three years preceding the submission of the application.

(5) The applicant may not have had an application for an initial or renewal OVS franchise denied on any grounds within three years of the application.

(6) The applicant shall not be issued a franchise if, at any time during the 10 years preceding the submission of the application, the applicant was convicted of fraud, racketeering, anticompetitive actions, unfair trade practices or other conduct of such character that the applicant cannot be relied upon to deal truthfully with the City and the subscribers or to substantially comply with its obligations.

(7) The applicant must have the necessary authority under New York State and federal law to operate an OVS and must be certified by the FCC under Section 653 of the Cable Act.

(8) The applicant shall not be issued a franchise if it files materially misleading information in its application or intentionally withholds information that the applicant lawfully is required to provide.

(9) For purposes of § 94-29F(2) through (5) the term "applicant" includes any affiliate of the applicant.

G. Exception. Notwithstanding § 94-29F, an applicant shall be provided a reasonable opportunity to show that a franchise should issue even if the requirements of § 94-29F(3) through (5) are not satisfied, by virtue of the circumstances surrounding the matter and the steps taken by the applicant to cure all harms flowing therefrom and prevent their recurrence, the lack of involvement of the applicant's principals, or the remoteness of the matter from the operation of a cable system.

§ 94-30. Transfers.

A. City approval required. No transfer shall occur without prior written notice to and approval of the City Council.

B. Application.

(1) A franchisee shall promptly notify the City of any proposed transfer and submit an application for its approval.

(2) The City may specify information that must be provided in connection with a transfer application. At a minimum, an application must describe the entities involved in the transaction and the entity that will hold the franchise; describe the chain of ownership before and after the proposed transaction; show that the entity that will hold the franchise will be legally, financially, and technically qualified to do so; attach complete information on the proposed transaction, including the contracts or other documents that relate to the proposed transaction, and all documents, schedules, exhibits, or the like referred to therein; and attach any shareholder reports or filings with the Securities and Exchange Commission that discuss the transaction.

(3) For the purposes of determining whether it shall consent to a transfer, the City may inquire into all qualifications of the prospective transferee and such other matters as the City may deem necessary to determine whether the transfer is in the public interest and should be approved, denied, or conditioned. If the transferee or franchisee refuse to provide information, or provide incomplete information, the request for transfer may be denied.

C. Consideration of application. In deciding whether a transfer application should be granted, denied or granted subject to conditions, the City may consider the legal, financial, and technical qualifications of the transferee to operate the OVS; whether the incumbent OVS operator is in compliance with its OVS agreement and this chapter and, if not, the proposed transferee's commitment to cure such noncompliance; whether the transferee owns or controls any other OVS or cable system in the City and whether operation by the transferee may eliminate or reduce competition in the delivery of cable service in the City; and whether operation by the transferee or approval of the transfer would adversely

affect subscribers, the public, or the City's interest under this chapter, the OVS agreement, or other applicable law. The proposed transferee shall pay all reasonable costs incurred by the City in reviewing and evaluating the applications.

D. Minimum conditions. In order to obtain approval of a transfer, an applicant must show, at a minimum, that the transferee is qualified; the transfer will not adversely affect the interests of subscribers, the public, or the City; and that noncompliance issues have been resolved. No application shall be granted unless the transferee agrees in writing that it will abide by and accept all terms of this chapter and the franchise and that it will assume the obligations, liabilities, and responsibility for all acts and omissions, known and unknown, of the previous franchisee for all purposes.

§ 94-31. Minimum requirements.

A. PEG access. No OVS operator shall be issued a franchise, or may commence construction of an OVS system, until it:

(1) Agrees to match in all respects the highest PEG obligations borne by any cable operator in the City; or

(2) Agrees to PEG obligations acceptable to the City.

B. Institutional network. Any OVS operator that constructs an I-Net must match in all respects the highest I-Net obligations borne by any cable operator in the City, unless it agrees to alternative I-Net obligations acceptable to the City.

C. Construction provisions. Every OVS agreement shall specify the construction schedule that will apply to any required construction, upgrade, or rebuild of the OVS. The schedule shall provide for prompt completion of the project, considering the amount and type of construction required.

D. Testing. Each OVS operator shall perform, at its expense, such tests as may be necessary to show whether or not the franchisee is in compliance with its obligations under this chapter or a franchise.

E. Consumer protection provisions. Every franchisee must satisfy customer service consumer protection requirements established from time-to-time under state or local law and applicable to OVS operators.

§ 94-32. Special termination rules.

If a franchisee's FCC certification is revoked or otherwise terminates as a result of the passage of time or as a matter of law, the City may revoke the OVS franchise after a hearing. The OVS franchise may also be revoked if federal regulations or statutory provisions governing OVS are declared invalid or unenforceable, or are repealed.

§ 94-33. Rate regulation.

The City may regulate a franchisee's rates and charges to the extent permitted by law and may do so by amendment to this chapter, by separate ordinance, by amendment to an OVS Agreement, or in any other lawful manner.

§ 94-34. Fee in lieu of franchise fee.

A. OVS operators. In lieu of the franchise fee required by Article II, an OVS franchisee shall pay a fee of 5% of the gross revenues of the franchisee, its affiliates or any OVS operator of an OVS in the City.

B. Persons leasing OVS capacity.

(1) A person leasing capacity from an OVS operator, other than a person whose revenues are included in the payment made under Subsection A, shall pay the City a fee in lieu of the franchise fee required by Article II of 5% of the gross revenues of such person.

(2) Notwithstanding the foregoing, where an OVS operator charges a person, other than an affiliate, to use its OVS (the "use payments") and that person recovers those use payments through charges to its subscribers that are included in that person's gross revenues and that person fully recovers the use payments through the charges to its subscribers and pays a fee on those charges pursuant to Subsection B(1), then the franchisee may deduct from its gross revenues the use payments it receives from that person.

§ 94-35. Exclusive contracts.

A franchisee may not require a subscriber or a building owner or manager to enter into an exclusive contract as a condition of providing or continuing service, nor may a franchisee enter into any arrangement that would effectively prevent other persons from using the OVS to compete in the delivery of cable services with a franchisee or its affiliates. However, nothing herein prevents a franchisee from entering into an otherwise lawful, mutually desired exclusive arrangement with a building owner or manager of a multiple-dwelling unit or a commercial subscriber.

ARTICLE IV. Section titles; time calculation; severability; peripheral equipment; antennas; discrimination; transitions.

§ 94-36. Captions.

The captions to sections throughout this chapter are intended solely to facilitate reading and reference to the sections and provisions of this chapter. Such captions shall not affect the meaning or interpretation of this chapter.

§ 94-37. Calculation of time.

Unless otherwise indicated, when the performance or doing of any act, duty, matter, or payment is required under this chapter or any franchise and a period of time or duration for the fulfillment of doing thereof is prescribed and is fixed herein, the time shall be computed so as to exclude the first and include the last day of the prescribed or fixed period of time.

§ 94-38. Severability.

If any term, condition, or provision of this chapter shall, to any extent, be held to be invalid or unenforceable by a valid order of any court or regulatory agency, the remainder hereof shall be valid in all other respects and continue to be effective. In the event of a subsequent change in applicable law so that the provision which had been held invalid is no longer invalid, said provision shall thereupon return to full force and effect without further action by the City and shall thereafter be binding on the franchisee and the City.

§ 94-39. Connections to cable system; use of antennas.

A. Subscriber right to attach. To the extent consistent with federal law, subscribers shall have the right to attach VCRs, receivers, remote control devices, converters, and other terminal equipment to a franchisee's cable system.

B. Removal of existing antennas. A franchisee shall not, as a condition of providing service, require a subscriber or potential subscriber to remove any existing antenna or disconnect an antenna, except at the express direction of the subscriber or potential subscriber, or prohibit installation of a new antenna, provided that such antenna is connected with an appropriate device and complies with applicable law.

§ 94-40. Discrimination prohibited.

A. No retaliatory actions. A cable communications system operator shall not discriminate among persons or the City or take any retaliatory action against a person or the City because of that entity's exercise of any right it may have under federal, state, or local law, nor may the operator require a person or the City to waive such rights as a condition of taking service.

B. Employment and hiring practices. A cable communications system operator shall not refuse to employ, discharge from employment, or discriminate against any person in compensation or in terms, conditions, or privileges of employment because of race, color, creed, national origin, sex, age, disability, religion, ethnic background, or marital status. A cable communications system operator shall comply with all federal, state, and local laws and regulations governing equal employment opportunities and hiring practices, as the same may be amended from time-to-time.

§ 94-41. Transition provisions.

A. Persons holding franchises. Any person holding an existing franchise for a cable communications system may continue to operate under the existing franchise to the conclusion of its present term (but not any renewal or extension thereof) with respect to those activities expressly authorized by that existing franchise, provided, further, that such person shall be subject to the other provisions of this chapter to the extent permitted by law.

B. Persons with pending applications. Pending applications shall be subject to this chapter. A person with a pending application shall have 30 days from the effective date of this chapter to submit additional information to comply with the requirements of this chapter governing applications.

§ 118-4. Building permits.

A. Building permits required. Except as otherwise provided in Subsection B of this section, a building permit shall be required for any work which must conform to the Uniform Code and/or the Energy Code, including, but not limited to, the construction, enlargement, alteration, improvement, removal, relocation or demolition of any building or structure or any portion thereof, and the installation of a solid-fuel-burning heating appliance, chimney or flue in any dwelling unit. No person shall commence any work for which a building permit is required without first having obtained a building permit from the Building Inspector.

(c) The enlargement, alteration, replacement or relocation of any building system; or

(d) The removal from service of all or part of a fire protection system for any period of time.

C. Exemption not deemed authorization to perform noncompliant work. The exemption from the requirement to obtain a building permit for work in any category set forth in Subsection B of this section shall not be deemed an authorization for work to be performed in violation of the Uniform Code or the Energy Code.

D. Applications for building permits. Applications for a building permit shall be made in writing on a form provided by or otherwise acceptable to the Building Inspector. The application shall be signed by the owner of the property where the work is to be performed or by an authorized agent of the owner. The application shall include such information as the Building Inspector deems sufficient to permit a determination by the Building Inspector that the intended work complies with all applicable

requirements of the Uniform Code and the Energy Code. The application shall include or be accompanied by the following information and documentation:

- (1) A description of the proposed work;
- (2) The Tax Map number and the street address of the premises where the work is to be performed;
- (3) The occupancy classification of any affected building or structure;
- (4) Where applicable, a statement of special inspections prepared in accordance with the provisions of the Uniform Code;

E. Construction documents. Construction documents will not be accepted as part of an application for a building permit unless they satisfy the requirements set forth in Subsection D(5) of this section. Construction documents which are accepted as part of the application for a building permit shall be marked as accepted by the Building Inspector in writing or by stamp. One set of the accepted construction documents shall be retained by the Building Inspector, and one set of the accepted construction documents shall be returned to the applicant to be kept at the work site so as to be available for use by the code enforcement personnel. However, the return of a set of accepted construction documents to the applicant shall not be construed as authorization to commence work, nor as an indication that a building permit will be issued. Work shall not be commenced until and unless a building permit is issued.

F. Issuance of building permits. An application for a building permit shall be examined to ascertain whether the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code. The Building Inspector shall issue a building permit if the proposed work is in compliance with the applicable requirements of the Uniform Code and Energy Code.

G. Building permits to be displayed. Building permits shall be visibly displayed at the work site and shall remain visible until the authorized work has been completed.

H. Work to be performed in accordance with construction documents. All work shall be performed in accordance with the construction documents which were submitted with and accepted as part of the application for the building permit. The building permit shall contain such a directive. The permit holder

shall immediately notify the Building Inspector of any change occurring during the course of the work. The building permit shall contain such a directive. If the Building Inspector determines that such change warrants a new or amended building permit, such change shall not be made until and unless a new or amended building permit reflecting such change is issued.

I. Time limits. Building permits shall become invalid unless the authorized work is commenced within 24 months following the date of issuance. Building permits shall expire 24 months after the date of issuance. A building permit which has become invalid or which has expired pursuant to this subsection may be renewed upon application by the permit holder, payment of the applicable fee, and approval of the application by the Building Inspector.

J. Revocation or suspension of building permits. If the Building Inspector determines that a building permit was issued in error because of incorrect, inaccurate or incomplete information, or that the work for which a building permit was issued violates the Uniform Code or the Energy Code, the Building Inspector shall revoke the building permit or suspend the building permit until such time as the permit holder demonstrates that all work then completed is in compliance with all applicable provisions of the Uniform Code and the Energy Code and all work then proposed to be performed shall be in compliance with all applicable provisions of the Uniform Code and the Energy Code.

K. Fee. The fee specified in or determined in accordance with the provisions set forth § 240-13.6 of the City's Zoning Ordinance must be paid at the time of submission of an application for a building permit, for an amended building permit, or for renewal of a building permit.

§ 118-5. Construction inspections.

The permit holder shall notify the Building Inspector when any element of work described in Subsection B of this section is ready for inspection.

B. Elements of work to be inspected. All elements of the construction process that the Building Inspector deems appropriate shall be inspected where applicable, including but not limited to footings before concrete, foundation rebar before concrete, foundation before backfill, floor slab before concrete, roof deck before cover, rough frame before insulation, rough plumbing before insulation, HVAC before insulation, insulation before cover, and septic before backfill. A final inspection is required after all work authorized by the building permit has been completed.

C. Inspection results. After inspection, the work or a portion thereof shall be noted as satisfactory as completed, or the permit holder shall be notified as to where the work fails to comply with the Uniform Code or Energy Code. Work not in compliance with any applicable provision of the Uniform Code or Energy Code shall remain exposed until such work shall have been brought into compliance with all applicable provisions of the Uniform Code and the Energy Code, reinspected, and found satisfactory as completed.

D. Fee. The fee specified in or determined in accordance with the provisions set forth in § 240-13.6 of the City's Zoning Ordinance must be paid prior to or at the time of each inspection performed pursuant to this section.

§ 118-6. Stop-work orders.

A. Authority to issue. The Code Enforcement Officer is authorized to issue stop-work orders pursuant to this section. The Code Enforcement Officer shall issue a stop-work order to halt:

(1) Any work that is determined by the Code Enforcement Officer to be contrary to any applicable provision of the Uniform Code or Energy Code, without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or

(2) Any work that is being conducted in a dangerous or unsafe manner in the opinion of the Code Enforcement Officer, without regard to whether such work is or is not work for which a building permit is required, and without regard to whether a building permit has or has not been issued for such work; or

(3) Any work for which a building permit is required which is being performed without the required building permit, or under a building permit that has become invalid, has expired, or has been suspended or revoked.

B. Content of stop-work orders. Stop-work orders shall be in writing, be dated and signed by the Code Enforcement Officer, state the reason or reasons for issuance, and, if applicable, state the conditions which must be satisfied before work will be permitted to resume.

C. Service of stop-work orders. The Code Enforcement Officer shall cause the stop-work order, or a copy thereof, to be served on the owner of the affected property (and, if the owner is not the permit holder, on the permit holder) personally or by registered mail/certified mail. The Code Enforcement Officer shall be permitted, but not required, to cause the stop-work order, or a copy thereof, to be served on any builder, architect, tenant, contractor, subcontractor, construction superintendent, or their agents, or any other person taking part or assisting in work affected by the stop-work order, personally or by registered mail/certified mail; provided, however, that failure to serve any person mentioned in this sentence shall not affect the efficacy of the stop-work order.

D. Effect of stop-work order. Upon the issuance of a stop-work order, the owner of the affected property, the permit holder and any other person performing, taking part in or assisting in the work shall immediately cease all work which is the subject of the stop-work order.

E. Remedy not exclusive. The issuance of a stop-work order shall not be the exclusive remedy available to address any event described in Subsection A of this section, and the authority to issue a stop-work order shall be in addition to, and not in substitution for or limitation of, the right and authority to pursue any other remedy or impose any other penalty under § 118-15, Enforcement; penalties for offenses, of this chapter or under any other applicable local law or state law. Any such other remedy or penalty may be pursued at any time, whether prior to, at the time of, or after the issuance of a stop-work order.

§ 118-7. Certificates of occupancy.

A. Certificates of occupancy required. A certificate of occupancy shall be required for any work which is the subject of a building permit and for all structures, buildings, or portions thereof which are converted from one use or occupancy classification or subclassification to another. Permission to use or occupy a building or structure, or portion thereof, for which a building permit was previously issued shall be granted only by issuance of a certificate of occupancy.

B. Issuance of certificates of occupancy. The Building Inspector shall issue a certificate of occupancy if the work which was the subject of the building permit was completed in accordance with all applicable provisions of the Uniform Code and Energy Code and, if applicable, the structure, building or portion thereof that was converted from one use or occupancy classification or subclassification to another complies with all applicable provisions of the Uniform Code and Energy Code. The Building Inspector shall inspect the building, structure or work prior to the issuance of a certificate of occupancy. In addition, where applicable, the following documents, prepared in accordance with the provisions of the

Uniform Code by such person or persons as may be designated by or otherwise acceptable to the Building Inspector, at the expense of the applicant for the certificate of occupancy, shall be provided to the Building Inspector prior to the issuance of the certificate of occupancy:

- (1) A written statement of structural observations and/or a final report of special inspections; and

C. Contents of certificates of occupancy. A certificate of occupancy shall contain the following information:

- (1) The building permit number, if any;
- (2) The date of issuance of the building permit, if any;
- (3) The name, address and Tax Map number of the property;
- (4) If the certificate of occupancy is not applicable to an entire structure, a description of that portion of the structure for which the certificate of occupancy is issued;
- (5) The use and occupancy classification of the structure;
- (6) The type of construction of the structure;
- (7) The assembly occupant load of the structure, if any;
- (8) If an automatic sprinkler system is provided, a notation as to whether the sprinkler system is required;

- (11) Any other additional information as may be requested by Article XIII of the City's Zoning Ordinance. Editor's Note: See Ch. 240, Zoning.

D. Temporary certificate. The Building Inspector shall be permitted to issue a temporary certificate allowing the temporary occupancy of a building or structure, or a portion thereof, prior to completion of the work which is the subject of a building permit. However, in no event shall the Building Inspector issue a temporary certificate unless the Building Inspector determines that the building or structure, or the portion thereof covered by the temporary certificate, may be occupied safely, that any fire- and smoke-detecting or fire protection equipment which has been installed is operational, and that all required means of egress from the building or structure have been provided. The Building Inspector may include in a temporary certificate such terms and conditions as he or she deems necessary or appropriate to ensure safety or to further the purposes and intent of the Uniform Code. A temporary certificate shall be effective for a period of time, not to exceed six months, which shall be determined by the Building Inspector and specified in the temporary certificate. During the specified period of effectiveness of the temporary certificate, the permit holder shall undertake to bring the building or structure into full compliance with all applicable provisions of the Uniform Code and the Energy Code.

E. Revocation or suspension of certificates. If the Building Inspector determines that a certificate of occupancy or a temporary certificate was issued in error because of incorrect, inaccurate or incomplete information, and if the relevant deficiencies are not corrected to the satisfaction of the Building Inspector within such period of time as shall be specified by the Code Enforcement Officer, the Building Inspector shall revoke or suspend such certificate.

F. Fee. The fee specified in or determined in accordance with the provisions set forth in § 240-13.6 of the City's Zoning Ordinance must be paid at the time of submission of an application for a certificate of occupancy or for a temporary certificate.

B. Applications for operating permits. An application for an operating permit shall be in writing on a form provided by or otherwise acceptable to the Fire Inspector. Such application shall include such information as the Fire Inspector deems sufficient to permit a determination by the Fire Inspector that quantities, materials, and activities conform to the requirements of the Uniform Code. If the Fire Inspector determines that tests or reports are necessary to verify conformance, such tests or reports

shall be performed or provided by such person or persons as may be designated by or otherwise acceptable to the Fire Inspector, at the expense of the applicant.

C. Inspections. The Fire Inspector or an authorized inspector shall inspect the subject premises prior to the issuance of an operating permit.

D. Multiple activities. In any circumstance in which more than one activity listed in Subsection A of this section is to be conducted at a location, the Fire Inspector may require a separate operating permit for each such activity, or the Fire Inspector may, in his or her discretion, issue a single operating permit to apply to all such activities.

E. Duration of operating permits. Operating permits shall remain in effect until reissued, renewed, revoked, or suspended.

F. Revocation or suspension of operating permits. If the Fire Inspector determines that any activity or building for which an operating permit was issued does not comply with any applicable provision of the Uniform Code, such operating permit shall be revoked or suspended.

G. Fee. A fee of \$30.00 must be paid at the time of submission of an application for an operating permit, for an amended operating permit, or for reissue or renewal of an operating permit.

C. Office of Fire Prevention and Control inspections. Nothing in this section or in any other provision of this chapter shall supersede, limit or impair the powers, duties and responsibilities of the New York State Office of Fire Prevention and Control ("OFPC") and the New York State Fire Administrator under Executive Law § 156-e and Education Law § 807-b.

D. Fees. A fee of \$30 must be paid at the time of submission of an application for a firesafety and property maintenance inspection.

- A. Performing an inspection of the conditions and/or activities alleged to be in violation, and documenting the results of such inspection;
- B. If a violation is found to exist, providing the owner of the affected property and any other person who may be responsible for the violation with notice of the violation and opportunity to abate, correct or cure the violation, or otherwise proceeding in the manner described in § 118-15, Enforcement; penalties for offenses, of this chapter;
- C. If appropriate, issuing a stop-work order;

§ 118-14. Program review and reporting.

A. Code Enforcement Officers shall annually prepare for submittal to the City Council a written report and summary of all business conducted by them, including a report and summary of all transactions and activities described in § 118-13, Recordkeeping, of this chapter and a report and summary of all appeals or litigation pending or concluded.

§ 118-15. Enforcement; penalties for offenses.

A. Compliance orders. Code Enforcement Officers are authorized to order, in writing, the remedying of any condition or activity found to exist in, on or about any building, structure, or premises in violation of the Uniform Code, the Energy Code, or this chapter. Upon finding that any such condition or activity exists, the Code Enforcement Officer shall have authority to issue a compliance order. B. Appearance tickets. Code Enforcement Officers and each inspector are authorized to issue appearance tickets for any violation of the Uniform Code.

C. Civil penalties. In addition to those penalties prescribed by state law, any person who violates any provision of the Uniform Code, the Energy Code or this chapter, or any term or condition of any building permit, certificate of occupancy, temporary certificate, stop-work order, operating permit or other notice or order issued by the Code Enforcement Officer pursuant to any provision of this chapter, shall be liable to a civil penalty of not more than \$200 for each day or part thereof during which such violation continues. The civil penalties provided by this subsection shall be recoverable in an action instituted in the name of this City.

B. Applicability to other laws. This article is supplementary to applicable provisions of Article I of this chapter.

C. Purpose and scope. The purpose of this article is to establish uniform administration and compliance with the requirements of this chapter applicable to residential occupancy permits and to

establish the responsibilities of parties concerned therewith. This article shall apply to all multifamily dwellings in the City but shall not apply to:

D. Inspection and certification of premises; residential occupancy permit.

(1) General.

(a) All rental dwelling units and rooming houses shall be inspected and certified by the Department, which shall determine compliance with, administer and enforce all applicable provisions of this Code and the NYS Fire Prevention and Property Maintenance Code. If the Department has determined that a property is in compliance with said codes and that all requirements under this article have been met, the Department shall issue a residential occupancy permit for that property. On and after January 1, 2009, residential occupancy permits shall be valid for 36 months from the date of issuance.

(b) Except as otherwise provided herein, it shall be unlawful and a violation of this article to rent, lease or otherwise allow the occupancy of any residential rental dwelling unit or rooming house within a multifamily dwelling without inspection, certification, and issuance of a residential occupancy permit as required herein.

(3) The officials charged with conducting the inspection shall schedule such inspection, access and circumstances permitting, within five business days of receipt of a request from the owner, agent or occupant.

(4) An owner, agent or occupant may file a request for such inspection and the issuance of a residential occupancy permit with the Department of Public Safety.

(5) Nothing in this article shall be construed to limit the right of the Department to inspect any property at any time. If, after issuing a residential occupancy permit, the Department receives a complaint alleging a violation of this chapter, other than a violation that creates an imminent hazard to the public health or to the physical or mental health of the occupants of the rental property, the Department shall make a good faith effort to notify the owner or agent of the complaint by either

telephone or regular mail, before conducting an inspection under this article, and shall provide to the owner or agent one working day to explain what steps the owner or agent is taking to correct the violation. The Department may take steps necessary, by inspection or other means, to assure that the violation is corrected.

(6) No residential occupancy permit shall be issued under this article unless and until the fee(s) required under Subsection G of this section is paid in full to the Department of Public Safety.

(7) No residential occupancy permit shall be issued under this article unless the rental dwelling unit or rooming house is an authorized use pursuant to the City Zoning Ordinance, Editor's Note: See Ch. 240, Zoning. and until all other applicable provisions and requirements of the Code of the City of Saratoga Springs are complied with and met.

E. Temporary residential occupancy permit. The Department may cause to be issued at its discretion a temporary occupancy permit following an initial inspection, which temporary occupancy permit shall be subject to review and revocable at the discretion of the Department. No temporary occupancy permit may be issued in cases where firesafety is involved, such as defective electrical wiring, the absence of either an operating smoke detector or, after October 1, 1996, a carbon monoxide detector where required, or improper or inadequate means of egress and other conditions of like nature.

F. Penalties for offenses. Any person who shall knowingly and willfully violate or assist in the violation of this article or who fails to comply with a notice and order issued by the Department of Public Safety under this article shall, upon conviction, be punished as set forth in Chapter 1, Article III, of the City Code.

(a) There shall be no charge for an initial inspection to determine compliance with the applicable provisions of this Code or for a first reinspection.

(b) Any and all subsequent reinspections necessary to determine compliance with required corrective action or repairs shall be subject to a charge of \$30 per unit inspected.

(c) Failure to appear within 15 minutes of a scheduled inspection ("no show") shall result in a fee of \$20 per unit.

(d) Cancellation of a scheduled inspection less than 24 hours before that scheduled inspection ("late cancellation") shall result in a fee of \$20 per unit to be inspected.

(e) Cancellation of a scheduled inspection for the unit more than once or after a "no show" ("second cancellation") shall result in a fee of \$20 per unit to be inspected.

(2) Fees prescribed under this section for failure to appear at, and cancellation of, a scheduled inspection may be waived at the discretion of the Commissioner of Public Safety or his or her designee for good cause shown.

(3) Unpaid fees shall be subject to the placement and recording of a lien by the City of Saratoga Springs against the inspected property.

CHAPTER 120. FLOOD DAMAGE PREVENTION

[HISTORY: Adopted by the City Council of the City of Saratoga Springs 7-5-1995 by L.L. No. 1-1995. Editor's Note: This local law also provided for the repeal of former Ch. 120, Flood Damage Prevention, adopted 5-21-1984 by L.L. No. 1-1984 as Title IXA of the City Charter, as amended. This local law was also enacted simultaneously 7-5-1995 by ordinance. Amendments noted where applicable.]

ARTICLE I. Statutory Authorization and Purpose

§ 120-1. Findings.

The City Council of the City of Saratoga Springs finds that the potential and/or actual damages from flooding and erosion may be a problem to the residents of the City of Saratoga Springs and that such damages may include destruction or loss of private and public housing, damage to public facilities, both publicly and privately owned, and injury to and loss of human life. In order to minimize the threat of such damages and to achieve the purposes and objectives hereinafter set forth, this chapter is adopted.

§ 120-2. Purpose.

It is the purpose of this chapter to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- A. Regulate uses which are dangerous to health, safety and property due to water or erosion hazards or which result in damaging increases in erosion or in flood heights or velocities.
- B. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction.
- C. Control the alteration of natural floodplains, stream channels and natural protective barriers which are involved in the accommodation of floodwaters.
- D. Control filling, grading, dredging and other development which may increase erosion or flood damages.
- E. Regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.
- F. Qualify and maintain for participation in the National Flood Insurance Program.

§ 120-3. Objectives.

The objectives of this chapter are to:

- A. Protect human life and health.
- B. Minimize expenditure of public money for costly flood control projects.
- C. Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public.
- D. Minimize prolonged business interruptions.
- E. Minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, sewer lines, streets and bridges located in areas of special flood hazard.
- F. Help maintain a stable tax base by providing for the sound use and development of areas of special flood hazard so as to minimize future flood blight areas.
- G. Provide that developers are notified that property is in an area of special flood hazard.
- H. Ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

ARTICLE II. Definitions

§ 120-4. Word usage; definitions.

- A. Unless specifically defined below, words or phrases used in this chapter shall be interpreted so as to give them the meaning they have in common usage and to give this chapter its most reasonable application.

Such flooding is characterized by ponding or sheet flow.

AREA OF SPECIAL FLOOD HAZARD

The land in the floodplain within a community subject to a one-percent or greater chance of flooding in any given year. This area may be designated as Zone A, AE, AH, AO, A1-A30, A99, V, VO, VE or V1-V30. It is also commonly referred to as the "base floodplain" or "one-hundred-year floodplain."

In the case of Zone A1-A30, AE, A, A99, AO, AH, B, C, X or D, "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwaters. In the case of Zone V1-V30, VE or V, "elevated building" also includes a building otherwise meeting the definition of "elevated building," even though the lower area is enclosed by means of breakaway walls that meet the federal standards.

EXISTING MANUFACTURED HOME PARK OR SUBDIVISION

A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets and either final site grading or the pouring of concrete pads) is complete before the effective date of the floodplain management regulations adopted by the community.

ARTICLE III. General Provisions

§ 120-5. Applicability.

This chapter shall apply to all areas of special flood hazard within the jurisdiction of the City of Saratoga Springs, Saratoga County, New York.

§ 120-6. Basis for establishing areas of special flood hazard.

A. The areas of special flood hazard for the City of Saratoga Springs, Community No. 36072S, are identified and defined on the following documents prepared by the Federal Emergency Management Agency:

(1) A scientific and engineering report entitled "Flood Insurance Study, Saratoga County, New York (all jurisdictions)," dated August 16, 1995.

(2) Flood Insurance Rate Map for Saratoga County, New York (all jurisdictions), as shown on Index No. 36191C0000 and Panel Nos. 0428, 0429, 0433, 0434, 0436, 0437, 0439, 0441, 0442, 0443, 0451, 0453, 0454, 0461 and 0465, whose effective date is August 16, 1995.

B. The above documents are hereby adopted and declared to be a part of this chapter. The Flood Insurance Study and/or maps are on file at the office of the City Clerk.

§ 120-7. Interpretation; conflict with other provisions.

A. This chapter includes all revisions to the National Flood Insurance Program through November 1, 1989, and shall supersede all previous laws adopted for the purpose of flood damage prevention.

B. In their interpretation and application, the provisions of this chapter shall be held to be minimum requirements, adopted for the promotion of the public health, safety and welfare. Whenever the requirements of this chapter are at variance with the requirements of any other lawfully adopted rules, regulations or ordinances, the most restrictive, or that imposing the higher standards, shall govern.

§ 120-8. Severability.

The invalidity of any section or provision of this chapter shall not invalidate any other section or provision thereof.

§ 120-9. Penalties for offenses.

No structure in an area of special flood hazard shall hereafter be constructed, located, extended, converted or altered and no land shall be excavated or filled without full compliance with the terms of this chapter and any other applicable regulations. Any infraction of the provisions of this chapter by failure to comply with any of its requirements, including infractions of conditions and safeguards established in connection with conditions of the permit, shall constitute a violation. Any person who violates this chapter or fails to comply with any of its requirements shall, upon conviction thereof, be fined no more than \$250 or imprisoned for not more than 15 days, or both. Each day of noncompliance shall be considered a separate offense. Nothing herein contained shall prevent the City of Saratoga Springs from taking such other lawful action as necessary to prevent or remedy an infraction. Any structure found not compliant with the requirements of this chapter for which the developer and/or owner has not applied for and received an approved variance under Article VI will be declared noncompliant and notification sent to the Federal Emergency Management Agency.

§ 120-10. Warning and disclosure of liability.

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This chapter does not imply that land outside the area of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This chapter shall not create liability on the part of the City of Saratoga Springs, any officer or employee thereof or the Federal Emergency Management Agency for any flood

damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

ARTICLE IV. Administration

§ 120-11. Designation of local administrator.

The Building Inspector of the City of Saratoga Springs is hereby appointed local administrator to administer and implement this chapter by granting or denying floodplain development permits in accordance with its provisions.

§ 120-12. Development permit required; fees.

A. Purpose. A floodplain development permit is hereby established for all construction and other development to be undertaken in areas of special flood hazard in this community for the purpose of protecting its citizens from increased flood hazards and ensuring that new development is constructed in a manner that minimizes its exposure to flooding. It shall be unlawful to undertake any development in an area of special flood hazard, as shown on the Flood Insurance Rate Map enumerated in § 120-6, without a valid floodplain development permit. Application for a permit shall be made on forms furnished by the local administrator and may include, but not be limited to, plans, in duplicate, drawn to scale and showing the nature, location, dimensions and elevations of the area in question; and existing or proposed structures, fill, storage of materials, drainage facilities and the location of the foregoing.

B. Fees. All applications for a floodplain development permit shall be accompanied by an application fee of \$50. In addition, the applicant shall be responsible for reimbursing the City of Saratoga Springs for any additional costs necessary for review, inspection and approval of this project. The local administrator may require a deposit of no more than \$500 to cover these additional costs.

§ 120-13. Application for permit.

The applicant shall provide the following information as appropriate. Additional information may be required on the permit application form.

A. The proposed elevation, in relation to mean sea level, of the lowest floor (including basement or cellar) of any new or substantially improved structure to be located in Zone A1-A30, AE or all, or Zone A if base flood elevation data are available. Upon completion of the lowest floor, the permittee shall submit to the local administrator the as-built elevation, certified by a licensed professional engineer or surveyor.

B. The proposed elevation, in relation to mean sea level, to which any new or substantially improved nonresidential structure will be floodproofed. Upon completion of the floodproofed portion of the structure, the permittee shall submit to the local administrator the as-built floodproofed elevation, certified by a professional engineer or surveyor.

C. A certificate from a licensed professional engineer or architect that any utility floodproofing will meet the criteria in § 120-16C, Utilities.

D. A certificate from a licensed professional engineer or architect that any nonresidential floodproofed structure will meet the floodproofing criteria in § 120-18, Nonresidential structures.

E. A description of the extent to which any watercourse will be altered or relocated as a result of proposed development. Computations by a licensed professional engineer must be submitted that demonstrate that the altered or relocated segment will provide equal or greater conveyance than the

original stream segment. The applicant must submit any maps, computations or other material required by the Federal Emergency Management Agency (FEMA) to revise the documents enumerated in § 120-6, when notified by the local administrator, and must pay any fees or other costs assessed by FEMA for this purpose. The applicant must also provide assurances that the conveyance capacity of the altered or relocated stream segment will be maintained.

F. A technical analysis, by a licensed professional engineer, if required by the local administrator, which shows whether proposed development to be located in an area of special flood hazard may result in physical damage to any other property.

G. In Zone A, when no base flood elevation data is available from other sources, base flood elevation data shall be provided by the permit applicant for subdivision proposals and other proposed developments (including proposals for manufactured home and recreational vehicle parks and subdivisions) that are greater than either 50 lots or five acres.

§ 120-14. Duties and responsibilities of local administrator.

The duties of the local administrator shall include, but not be limited to, the following:

A. Permit application review. The local administrator shall conduct the following permit application review before issuing a floodplain development permit:

(1) Review all applications for completeness, particularly with the requirements of § 120-13, Application for permit, and for compliance with the provisions and standards of this chapter.

(2) Review subdivision and other proposed new development, including manufactured home parks to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is located in an area of special flood hazard, all new construction and substantial improvements shall meet the applicable standards of Article V, Construction Standards, and, in particular, § 120-15A, Subdivision proposals.

(3) Physical damage.

(a) Determine whether any proposed development in an area of special flood hazard may result in physical damage to any other property (e.g., stream bank erosion and increased flood velocities). The local administrator may require the applicant to submit additional technical analyses and data necessary to complete the determination.

(b) If the proposed development may result in physical damage to any other property or fails to meet the requirements of Article V, Construction Standards, no permit shall be issued. The applicant may revise the application to include measures that mitigate or eliminate the adverse effects and resubmit the application.

(4) Determine that all necessary permits have been received from those governmental agencies from which approval is required by state or federal law.

B. Use of other flood data.

(1) When the Federal Emergency Management Agency has designated areas of special flood hazard on the community's Flood Insurance Rate Map (FIRM) but has neither produced water surface elevation data (these areas are designated Zone A or V on the FIRM) nor identified a floodway, the local administrator shall obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source, including data developed pursuant

to § 120-13G, as criteria for requiring that new construction, substantial improvements or other proposed development meet the requirements of this chapter.

(2) When base flood elevation data is not available, the local administrator may use flood information from any other authoritative source, such as historical data, to establish flood elevations within the areas of special flood hazard, for the purposes of this law.

C. Alteration of watercourses.

(1) Notification to adjacent communities and the New York State Department of Environmental Conservation prior to permitting any alteration or relocation of a watercourse and submittal of evidence of such notification to the Regional Director, Region II, Federal Emergency Management Agency is required.

(2) It shall be determined that the permit holder has provided for maintenance within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished.

D. Construction stage.

(1) In Zones A1-A30, AE and AH, and also Zone A if base flood elevation data is available, upon placement of the lowest floor or completion of floodproofing of a new or substantially improved structure, obtain from the permit holder a certification of the as-built elevation of the lowest floor or floodproofed elevation, in relation to mean sea level. The certificate shall be prepared by or under the direct supervision of a licensed land surveyor or professional engineer and certified by same. For manufactured homes, the permit holder shall submit the certificate of elevation upon placement of the structure on the site. A certificate of elevation must also be submitted for a recreational vehicle if it remains on a site for 180 consecutive days or longer (unless it is fully licensed and ready for highway use).

(2) Any further work undertaken prior to submission and approval of the certification shall be at the permit holder's risk. The local administrator shall review all data submitted. Deficiencies detected shall be cause to issue a stop-work order for the project unless immediately corrected.

E. Inspections. The local administrator and/or the developer's engineer or architect shall make periodic inspections at appropriate times throughout the period of construction in order to monitor compliance with permit conditions and enable said inspector to certify, if requested, that the development is in compliance with the requirements of the floodplain development permit and/or any variance provisions.

F. Stop-work orders.

(1) The local administrator shall issue, or cause to be issued, a stop-work order for any floodplain development found ongoing without a development permit. Disregard of a stop-work order shall subject the violator to the penalties described in § 120-9 of this chapter.

(2) The local administrator shall issue, or cause to be issued, a stop-work order for any floodplain development found noncompliant with the provisions of this chapter and/or the conditions of the development permit. Disregard of a stop-work order shall subject the violator to the penalties described in § 120-9 of this chapter.

G. Certificate of compliance.

(1) In areas of special flood hazard, as determined by documents enumerated in § 120-6, it shall be unlawful to occupy or to permit the use or occupancy of any building or premises, or both, or part

thereof hereafter created, erected, changed, converted or wholly or partly altered or enlarged in its use or structure until a certificate of compliance has been issued by the local administrator stating that the building or land conforms to the requirements of this chapter.

(2) A certificate of compliance shall be issued by the local administrator upon satisfactory completion of all development in areas of special flood hazard.

(3) Issuance of the certificate shall be based upon the inspections conducted as prescribed in Subsection E, Inspections, and/or any certified elevations, hydraulic data, floodproofing, anchoring requirements or encroachment analyses which may have been required as a condition of the approved permit.

H. Information to be retained. The local administrator shall retain and make available for inspection copies of the following:

(1) Floodplain development permits and certificates of compliance.

(2) Certifications of as-built lowest floor elevations of structures, required pursuant to Subsection D(1) and (2), and whether or not the structures contain a basement.

(3) Floodproofing certificates required pursuant to Subsection D(1) and whether or not the structures contain a basement.

(4) Variances issued pursuant to Article VI, Variance Procedure.

(5) Notices required under Subsection C, Alteration of watercourses.

ARTICLE V. Construction Standards

§ 120-15. General standards.

The following standards apply to new development, including new and substantially improved structures, in the areas of special flood hazard shown on the Flood Insurance Rate Map designated in § 120-6.

A. Subdivision proposals. The following standards apply to all new subdivision proposals and other proposed development in areas of special flood hazard (including proposals for manufactured home and recreational vehicle parks and subdivisions):

(1) Proposals shall be consistent with the need to minimize flood damage.

(2) Public utilities and facilities such as sewer, gas, electrical and water systems shall be located and constructed so as to minimize flood damage.

(3) Adequate drainage shall be provided to reduce exposure to flood damage.

B. Encroachments.

(1) Within Zones A1-A30 and AE, on streams without a regulatory floodway, no new construction, substantial improvements or other development (including fill) shall be permitted unless:

(a) The applicant demonstrates that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any location; or

(b) The City of Saratoga Springs agrees to apply to the Federal Emergency Management Agency (FEMA) for a conditional FIRM revision, FEMA approval is received and the applicant provides all necessary data, analyses and mapping and reimburses the City of Saratoga Springs for all fees and other costs in relation to the application. The applicant must also provide all data, analyses and mapping and reimburse the City of Saratoga Springs for all costs related to the final map revision.

(2) On streams with a regulatory floodway, as shown on the Flood Boundary and Floodway Map or the Flood Insurance Rate Map adopted in § 120-6, no new construction, substantial improvements or other development in the floodway (including fill) shall be permitted unless:

(a) A technical evaluation by a licensed professional engineer shows that such an encroachment shall not result in any increase in flood levels during occurrence of the base flood; or

(b) The City of Saratoga Springs agrees to apply to the Federal Emergency Management Agency (FEMA) for a conditional FIRM and floodway revision, FEMA approval is received and the applicant provides all necessary data, analyses and mapping and reimburses the City of Saratoga Springs for all fees and costs in relation to the application. The applicant must also provide all data, analyses and mapping and reimburse the City of Saratoga Springs for all costs related to the final map revisions.

§ 120-16. Standards for all structures.

A. Anchoring. New structures and substantial improvement to structures in areas of special flood hazard shall be anchored to prevent flotation, collapse or lateral movement during the base flood. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

B. Construction materials and methods.

(1) New construction and substantial improvements to structures shall be constructed with materials and utility equipment resistant to flood damage.

(2) New construction and substantial improvements to structures shall be constructed using methods and practices that minimize flood damage.

(3) Enclosed subgrade areas.

(a) For enclosed areas below the lowest floor of a structure within Zone A1-A30, AE or AH, and Zone A if base flood elevation data is available, new and substantially improved structures shall have fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access or storage in an area other than a basement and which are subject to flooding, designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a licensed professional engineer or architect or meet or exceed the following minimum criteria:

[1] A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding; and

[2] The bottom of all such openings no higher than one foot above the lowest adjacent finished grade.

(b) Openings may be equipped with louvers, valves, screens or other coverings or devices, provided that they permit the automatic entry and exit of floodwaters. Enclosed areas subgrade on all sides are considered basements and are not permitted.

C. Utilities.

(1) Machinery and equipment servicing a building must either be elevated to or above the base flood level or designed to prevent water from entering or accumulating within the components during a flood. This includes heating, ventilating and air-conditioning equipment, hot-water heaters, appliances, elevator lift machinery and electrical junction and circuit breaker boxes. When located below the base flood elevation, a professional engineer's or architect's certification of the design is required.

(2) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system.

(3) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters. Sanitary sewer and storm drainage systems for buildings that have openings below the base flood elevation shall be provided with automatic backflow valves or other automatic backflow devices that are installed in each discharge line passing through a building's exterior wall.

(4) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

§ 120-17. Residential structures.

A. Elevation. The following standards, in addition to the standards in §§ 120-15A, Subdivision proposals, and 120-15B, Encroachments, and 120-16, Standards for all structures, apply to structures located in areas of special flood hazard as indicated:

(1) Within Zones A1-A30, AE and AH, and also Zone A if base flood elevation data is available, new construction and substantial improvements shall have the lowest floor (including basement) elevated to or above the base flood level.

(2) Within Zone A, when no base flood elevation data is available, new and substantially improved structures shall have the lowest floor (including basement) elevated at least three feet above the highest adjacent grade.

(3) Within Zone AO, new and substantially improved structures shall have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's Flood Insurance Rate Map enumerated in § 120-6 (at least two feet if no depth number is specified).

(4) Within Zones AH and AO, adequate drainage paths are required to guide floodwaters around and away from proposed structures on slopes.

§ 120-18. Nonresidential structures.

The following standards apply to new and substantially improved commercial, industrial and other nonresidential structures, in addition to the requirements in §§ 120-15A, Subdivision proposals, and 120-15B, Encroachments, and 120-16, Standards for all structures.

A. Within Zones A1-A30, AE and AH, and also Zone A if base flood elevation data is available, new construction and substantial improvements of any nonresidential structure, together with attendant utility and sanitary facilities, shall either:

(1) Have the lowest floor, including basement or cellar, elevated to or above the base flood elevation; or

(2) Be floodproofed so that the structure is watertight below the base flood level with walls substantially impermeable to the passage of water. All structural components located below the base flood level must be capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy.

B. Within Zone AO, new construction and substantial improvements of nonresidential structures shall:

(1) Have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least two feet if no depth number is specified); or

(2) Together with attendant utility and sanitary facilities, be completely floodproofed to that level to meet the floodproofing standard specified in Subsection A(2).

C. If the structure is to be floodproofed, a licensed professional engineer or architect shall develop and/or review structural design, specifications and plans for construction. A floodproofing certificate or other certification shall be provided to the local administrator that certifies the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of Subsection A(2), including the specific elevation (in relation to mean sea level) to which the structure is to be floodproofed.

D. Within Zones AH and AO, adequate drainage paths are required to guide floodwaters around and away from proposed structures on slopes.

E. Within Zone A, when no base flood elevation data is available, the lowest floor (including basement) shall be elevated at least three feet above the highest adjacent grade.

§ 120-19. Manufactured homes and recreational vehicles.

The following standards in addition to the standards in §§ 120-15, General standards, and 120-16, Standards for all structures, apply, as indicated, in areas of special flood hazard to manufactured homes and to recreational vehicles which are located in areas of special flood hazard.

A. Recreational vehicles.

(1) Recreational vehicles placed on sites within Zones A1-A30, AF and AH shall either:

(a) Be on site fewer than 180 consecutive days;

(b) Be fully licensed and ready for highway use; or

(c) Meet the requirements for manufactured homes in Subsections B, D and E.

(2) A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect-type utilities and security devices and has no permanently attached additions.

B. A manufactured home that is placed or substantially improved in Zones A1-A30, AE and AH that is on a site either outside of an existing manufactured home park or subdivision as herein defined; in a new manufactured home park or subdivision as herein defined; in an expansion to an existing manufactured home park or subdivision as herein defined; or in an existing manufactured home park or subdivision as herein defined on which a manufactured home has incurred substantial damage as the result of a flood shall be elevated on a permanent foundation such that the lowest floor is elevated to or above the base flood elevation and is securely anchored to an adequately anchored foundation system to resist flotation, collapse and lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

C. A manufactured home to be placed or substantially improved in Zones A1-A30, AE and AH in an existing manufactured home park or subdivision that is not to be placed on a site on which a manufactured home has incurred substantial damage shall be:

(1) Elevated in a manner such as required in Subsection B; or

(2) Elevated such that the manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above the lowest adjacent grade and are securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited.

D. Within Zone A, when no base flood elevation data is available, new and substantially improved manufactured homes shall be elevated such that the manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above the lowest adjacent grade and are securely anchored to an adequately anchored foundation system to resist flotation, collapse or lateral movement. Elevation on piers consisting of dry stacked blocks is prohibited.

E. Within Zone AO, the floor shall be elevated above the highest adjacent grade at least as high as the depth number specified on the Flood Insurance Rate Map enumerated in § 120-6 (at least two feet if no depth number is specified). Elevation on piers consisting of dry stacked blocks is prohibited.

ARTICLE VI. Variance Procedure

§ 120-20. Appeals board.

A. The Planning Board of the City of Saratoga Springs, New York, as established by the City Council, shall hear and decide appeals and requests for variances from the requirements of this chapter.

B. The Planning Board shall hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the local administrator in the enforcement or administration of this chapter.

C. Those aggrieved by the decision of the Building Inspector may appeal such decision to the Supreme Court pursuant to Article 78 of the Civil Practice Law and Rules.

D. In passing upon such applications, the Planning Board shall consider all technical evaluations, all relevant factors, standards specified in other sections of this chapter and:

- (1) The danger that materials may be swept onto other lands to the injury of others.
- (2) The danger to life and property due to flooding or erosion damage.
- (3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
- (4) The importance of the services provided by the proposed facility to the community.
- (5) The necessity to the facility of a waterfront location, where applicable.
- (6) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage.
- (7) The compatibility of the proposed use with existing and anticipated development.
- (8) The relationship of the proposed use to the Comprehensive Plan and floodplain management program of that area.
- (9) The safety of access to the property in times of flood for ordinary and emergency vehicles.
- (10) The costs to local governments and the dangers associated with conducting search and rescue operations during periods of flooding.
- (11) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site.
- (12) The costs of providing governmental services during and after flood conditions, including search and rescue operations, maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems and streets and bridges.

E. Upon consideration of the factors of Subsection D and the purposes of this chapter, the Planning Board may attach such conditions to granting of variances as it deems necessary to further the purpose of this chapter.

F. The local administrator shall maintain the records of all appeal actions, including technical information, and report any variances to the Federal Emergency Management Agency upon request.

§ 120-21. Conditions for variances.

A. Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of 1/2 acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, provided that the provisions in § 120-20D(1) through (12) have been fully considered. As the lot size increases beyond the 1/2 acre, the technical justification required for issuing the variance increases.

B. Variances may be issued for the repair or rehabilitation of historic structures upon determination that:

(1) The proposed repair or rehabilitation will not preclude the structure's continued designation as an historic structure.

(2) The variance is the minimum necessary to preserve the historic character and design of the structure.

C. Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use, provided that:

(1) The criteria of Subsections A, D, E and F of this section are met.

(2) The structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threat to public safety.

D. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

E. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

F. Variances shall only be issued upon receiving written justification of:

(1) A showing of good and sufficient cause.

(2) A determination that failure to grant the variance would result in exceptional hardship to the applicant.

(3) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety or extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local laws or ordinances.

G. Any applicant to whom a variance is granted for a building with the lowest floor below the base flood elevation shall be given written notice over the signature of a community official that the cost of flood insurance will be commensurate with the increased risk resulting from lowest floor elevation.

Any such debris shall be placed in suitable containers and shall not be loosely piled. Tree limbs and branches shall not exceed four (4) feet in length.

C. The Commissioner of Public Works, in his discretion, may from time to time establish schedules during which the Department of Public Works shall pick up refuse placed for collection at or near a road, curb, sidewalk, alley or street. The Commissioner shall have the authority to specify the types of refuse that shall be so collected, as well as types of receptacles or containers to be used, and the number of hours prior to scheduled pickup that said refuse may be placed for collection.

D. Any deposit of refuse not in accordance with Subsection B above shall be a violation of this chapter, and the Commissioner of Public Works is hereby authorized and empowered to pay for the correction of said violation, subject to the approval of the City Council of the City of Saratoga Springs.

§ 138-1. Purpose; intent.

The purpose of this chapter is to provide for the health, safety, and general welfare of the citizens of the City of Saratoga Springs through the regulation of nonstormwater discharges to the municipal separate storm sewer system (MS4) to the maximum extent practicable as required by federal and state law. This chapter establishes methods for controlling the introduction of pollutants into the MS4 in order to comply with requirements of the SPDES General Permit for Municipal Separate Storm Sewer Systems. The objectives of this chapter are:

A. To meet the requirements of the SPDES General Permit for Stormwater Discharges from MS4s, Permit No. GP-02-02, or as amended or revised;

B. To regulate the contribution of pollutants to the MS4 since such systems are not designed to accept, process or discharge nonstormwater wastes;

C. To prohibit illicit connections, activities and discharges to the MS4;

D. To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this chapter; and

E. To promote public awareness of the hazards involved in the improper discharge of trash, yard waste, lawn chemicals, pet waste, wastewater, grease, oil, petroleum products, cleaning products, paint products, hazardous waste, sediment and other pollutants into the MS4.

§ 138-2. Definitions.

Whenever used in this chapter, unless a different meaning is stated in a definition applicable to only a portion of this chapter, the following terms will have meanings set forth below:

BEST MANAGEMENT PRACTICES (BMPs)

Schedules of activities, prohibitions of practices, general good housekeeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater, receiving waters, or stormwater conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.

CLEAN WATER ACT

The Federal Water Pollution Control Act (33 U.S.C. § 1251 et seq.), and any subsequent amendments thereto.

CONSTRUCTION ACTIVITY

Activities requiring authorization under the SPDES Permit for Stormwater Discharges From Construction Activity, GP-02-01, as amended or revised. These activities include construction projects resulting in land disturbance of one or more acres. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.

DEPARTMENT

The New York State Department of Environmental Conservation.

HAZARDOUS MATERIALS

Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

ILLICIT CONNECTIONS

Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the MS4, including but not limited to:

A. Any conveyances which allow any nonstormwater discharge including treated or untreated sewage, process wastewater, and wash water to enter the MS4 and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency; or

B. Any drain or conveyance connected from a commercial or industrial land use to the MS4 which has not been documented in plans, maps, or equivalent records and approved by an authorized enforcement agency.

ILLICIT DISCHARGE

Any direct or indirect nonstormwater discharge to the MS4, except as exempted in § 138-6 of this chapter.

INDUSTRIAL ACTIVITY

MS4

Municipal separate storm sewer system.

MUNICIPALITY

The City of Saratoga Springs.

MUNICIPAL SEPARATE STORM SEWER SYSTEM

A conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains):

- A. Owned or operated by the City of Saratoga Springs
- B. Designed or used for collecting or conveying stormwater;

Any discharge to the MS4 that is not composed entirely of stormwater.

PERSON

Any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

Dredged spoil, filter backwash, solid waste, incinerator residue, treated or untreated sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand and industrial, municipal, agricultural waste and ballast discharged into water; which may cause or might reasonably be expected to cause pollution of the waters of the state in contravention of the standards.

PREMISES

Any building, lot, parcel of land, or portion of land, whether improved or unimproved, including adjacent sidewalks and parking strips.

SPECIAL CONDITIONS

- A. Discharge compliance with water quality standards: the condition that applies where a municipality has been notified that the discharge of stormwater authorized under their MS4 permit may have caused or has the reasonable potential to cause or contribute to the violation of an applicable water quality standard. Under this condition, the municipality must take all necessary actions to ensure future discharges do not cause or contribute to a violation of water quality standards.
- B. 303(d) listed waters: the condition in the municipality's MS4 permit that applies where the MS4 discharges to a 303(d) listed water. Under this condition, the stormwater management program must ensure no increase of the listed pollutant of concern to the 303(d) listed water.
- C. Total maximum daily load (TMDL) strategy: the condition in the municipality's MS4 permit where a TMDL including requirements for control of stormwater discharges has been approved by EPA for a water body or watershed into which the MS4 discharges. If the discharge from the MS4 did not meet the TMDL stormwater allocations prior to September 10, 2003, the municipality was required to modify its stormwater management program to ensure that reduction of the pollutant of concern specified in the TMDL is achieved.
- D. The condition in the municipality's MS4 permit that applies if a TMDL is approved in the future by EPA for any water body or watershed into which an MS4 discharges: Under this condition, the

municipality must review the applicable TMDL to see if it includes requirements for control of stormwater discharges. If an MS4 is not meeting the TMDL stormwater allocations, the municipality must, within six months of the TMDL's approval, modify its stormwater management program to ensure that reduction of the pollutant of concern specified in the TMDL is achieved.

STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM (SPDES) STORMWATER DISCHARGE PERMIT

A permit issued by the Department that authorizes the discharge of pollutants to waters of the state.

STORMWATER

Rainwater, surface runoff, snowmelt and drainage.

STORMWATER MANAGEMENT OFFICER (SMO)

An employee, the municipal engineer or other public official(s) designated by the City of Saratoga Springs to enforce this chapter. The SMO may also be designated by the municipality to accept and review stormwater pollution prevention plans, forward the plans to the applicable municipal board and inspect stormwater management practices.

303(d) LIST

A list of all surface waters in the state for which beneficial uses of the water (drinking, recreation, aquatic habitat, and industrial use) are impaired by pollutants, prepared periodically by the Department as required by Section 303(d) of the Clean Water Act. 303(d) listed waters are estuaries, lakes and streams that fall short of state surface water quality standards and are not expected to improve within the next two years.

TMDL

Total maximum daily load.

TOTAL MAXIMUM DAILY LOAD

The maximum amount of a pollutant to be allowed to be released into a water body so as not to impair uses of the water allocated among the sources of that pollutant.

WASTEWATER

Water that is not stormwater, is contaminated with pollutants and is or will be discarded.

§ 138-3. Applicability.

This chapter shall apply to all water entering the MS4 generated on any developed and undeveloped lands unless explicitly exempted by an authorized enforcement agency.

§ 138-4. Responsibility for administration.

The Stormwater Management Officer(s) [SMO(s)] shall administer, implement, and enforce the provisions of this chapter. Such powers granted or duties imposed upon the authorized enforcement official may be delegated in writing by the SMO as may be authorized by the municipality.

§ 138-5. Severability.

The provisions of this chapter are hereby declared to be severable. If any provision, clause, sentence, or paragraph of this chapter or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this chapter.

§ 138-6. Discharge prohibitions; exceptions.

A. Prohibition of illegal discharges. No person shall discharge or cause to be discharged into the MS4 any materials other than stormwater except as provided in Subsection A(1). The commencement, conduct or continuance of any illegal discharge to the MS4 is prohibited except as described as follows:

(1) The following discharges are exempt from discharge prohibitions established by this chapter, unless the Department or the municipality has determined them to be substantial contributors of pollutants: water line flushing or other potable water sources, landscape irrigation or lawn watering, existing diverted stream flows, rising groundwater, uncontaminated groundwater infiltration to storm drains, uncontaminated pumped groundwater, foundation or footing drains, crawl space or basement sump pumps, air-conditioning condensate, irrigation water, springs, water from individual residential car washing, natural riparian habitat or wetland flows, dechlorinated swimming pool discharges, residential street wash water, water from fire-fighting activities, and any other water source not containing pollutants. Such exempt discharges shall be made in accordance with an appropriate plan for reducing pollutants.

(2) Discharges approved in writing by the SMO to protect life or property from imminent harm or damage, provided that such approval shall not be construed to constitute compliance with other applicable laws and requirements, and further provided that such discharges may be permitted for a specified time period and under such conditions as the SMO may deem appropriate to protect such life and property while reasonably maintaining the purpose and intent of this chapter.

(3) Dye testing in compliance with applicable state and local laws is an allowable discharge, but requires a verbal notification to the SMO prior to the time of the test.

(4) The prohibition shall not apply to any discharge permitted under an SPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the Department, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the MS4.

B. Prohibition of illicit connections.

(1) The construction, use, maintenance or continued existence of illicit connections to the MS4 is prohibited.

(2) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

(3) A person is considered to be in violation of this chapter if the person connects a line conveying sewage to the municipality's MS4 or allows such a connection to continue.

§ 138-7. Activities contaminating stormwater prohibited.

A. Activities that are subject to the requirements of this section are those types of activities that:

(1) Cause or contribute to a violation of the municipality's MS4 SPDES permit.

(2) Cause or contribute to the municipality being subject to the special conditions as defined in § 138-2, Definitions, of this chapter.

B. Upon notification to a person that he or she is engaged in activities that cause or contribute to violations of the municipality's MS4 SPDES permit authorization, that person shall take all reasonable actions to correct such activities such that he or she no longer causes or contributes to violations of the municipality's MS4 SPDES permit authorization.

§ 138-8. Prevention, control, and reduction of stormwater pollutants by use of best management practices.

A. Best management practices. Where the SMO has identified illicit discharges as defined in § 138-2 or activities contaminating stormwater as defined in § 138-8, the municipality may require implementation of best management practices (BMPs) to control those illicit discharges and activities.

(1) The owner or operator of a commercial or industrial establishment shall provide, at his or her own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the MS4 through the use of structural and nonstructural BMPs.

(2) Any person responsible for a property or premise, which is, or may be, the source of an illicit discharge as defined in § 138-2 or an activity contaminating stormwater as defined in § 138-8, may be required to implement, at said person's expense, additional structural and nonstructural BMPs to reduce or eliminate the source of pollutant(s) to the MS4.

(3) Compliance with all terms and conditions of a valid SPDES permit authorizing the discharge of stormwater associated with industrial activity, to the extent practicable, shall be deemed in compliance with the provisions of this section.

§ 138-9. Suspension of access to MS4.

A. Illicit discharges in emergency situations. The SMO may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, to the health or welfare of persons, or to the MS4. The SMO shall notify the person of such suspension within a reasonable time thereafter in writing of the reasons for the suspension. If the violator fails to comply with a suspension order issued in an emergency, the SMO may take such steps as deemed necessary to prevent or minimize damage to the MS4 or to minimize danger to persons.

B. Suspension due to the detection of illicit discharge. Any person discharging to the municipality's MS4 in violation of this chapter may have his or her MS4 access terminated if such termination would abate or reduce an illicit discharge. The SMO will notify a violator in writing of the proposed termination of its MS4 access and the reasons therefor. The violator may petition the SMO for a reconsideration and hearing. Access may be granted by the SMO if he/she finds that the illicit discharge has ceased and the discharger has taken steps to prevent its recurrence. Access may be denied if the SMO determines in writing that the illicit discharge has not ceased or is likely to recur. A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this section without the prior approval of the SMO.

§ 138-10. Industrial or construction activity discharges.

Any person subject to an industrial or construction activity SPDES stormwater discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the municipality prior to the allowing of discharges to the MS4.

§ 138-11. Applicability; access to facilities; monitoring of discharges.

A. Applicability. This section applies to all facilities that the SMO must inspect to enforce any provision of this chapter, or whenever the authorized enforcement agency has cause to believe that there exists, or potentially exists, in or upon any premises any condition which constitutes a violation of this chapter.

B. Access to facilities.

(1) The SMO shall be permitted to enter and inspect facilities subject to regulation under this chapter as often as may be necessary to determine compliance with this chapter. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to the SMO.

(2) Facility operators shall allow the SMO ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records as may be required to implement this chapter.

(3) The municipality shall have the right to set up on any facility subject to this chapter such devices as are necessary in the opinion of the SMO to conduct monitoring and/or sampling of the facility's stormwater discharge.

(4) The municipality has the right to require the facilities subject to this chapter to install monitoring equipment as is reasonably necessary to determine compliance with this chapter. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at his or her own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure their accuracy.

(5) Unreasonable delays in allowing the municipality access to a facility subject to this chapter is a violation of this chapter. A person who is the operator of a facility subject to this chapter commits an offense if the person denies the municipality reasonable access to the facility for the purpose of conducting any activity authorized or required by this chapter.

(6) If the SMO has been refused access to any part of the premises from which stormwater is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this chapter or any order issued hereunder, then the SMO may seek issuance of a search warrant from any court of competent jurisdiction.

§ 138-12. Notification of spills.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into the MS4, said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials, said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of nonhazardous materials, said person shall notify the municipality in person or by telephone or facsimile no later than the next business day. Notifications in person or by telephone shall be confirmed by written notice addressed and mailed to the municipality within three business days of the telephone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.

§ 138-13. Enforcement; penalties for offenses.

A. Notice of violation.

(1) When the municipality's SMO finds that a person has violated a prohibition or failed to meet a requirement of this chapter, he/she may order compliance by written notice of violation to the responsible person. Such notice may require, without limitation:

- (a) The elimination of illicit connections or discharges;
- (b) That violating discharges, practices, or operations shall cease and desist;
- (c) The abatement or remediation of stormwater pollution or contamination hazards and the restoration of any affected property;
- (d) The performance of monitoring, analyses, and reporting;
- (e) Payment of a fine; and
- (f) The implementation of source control or treatment BMPs.

(2) If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency or a contractor and the expense thereof shall be charged to the violator.

B. Penalties. In addition to or as an alternative to any penalty provided herein or by law, any person who violates the provisions of this chapter shall be guilty of a violation punishable by a fine not exceeding \$350 or imprisonment for a period not to exceed six months, or both for conviction of a first offense; for conviction of a second offense, both of which were committed within a period of five years, punishable by a fine not less than \$350 nor more than \$700 or imprisonment for a period not to exceed six months, or both; and upon conviction for a third or subsequent offense, all of which were committed within a period of five years, punishable by a fine not less than \$700 nor more than \$1,000 or imprisonment for a period not to exceed six months, or both. However, for the purposes of conferring jurisdiction upon courts and judicial officers generally, violations of this chapter shall be deemed misdemeanors and for such purpose only all provisions of law relating to misdemeanors shall apply to such violations. Each week's continued violation shall constitute a separate additional violation.

§ 138-14. Appeal of notice of violation.

Any person receiving a notice of violation may appeal the determination of the SMO to the City of Saratoga Springs within 15 days of its issuance, which shall hear the appeal within 30 days after the filing of the appeal, and within five days of making its decision, file its decision in the office of the municipal clerk and mail a copy of its decision by certified mail to the discharger.

§ 138-15. Corrective measures after appeal.

A. If the violation has not been corrected pursuant to the requirements set forth in the notice of violation, or, in the event of an appeal, within five business days of the decision of the municipal authority upholding the decision of the SMO, then the SMO shall request the owner's permission for access to the subject private property to take any and all measures reasonably necessary to abate the violation and/or restore the property.

B. If refused access to the subject private property, the SMO may seek a warrant in a court of competent jurisdiction to be authorized to enter upon the property to determine whether a violation has occurred. Upon determination that a violation has occurred, the SMO may seek a court order to take any and all measures reasonably necessary to abate the violation and/or restore the property. The cost of implementing and maintaining such measures shall be the sole responsibility of the discharger.

§ 138-16. Injunctive relief.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this chapter. If a person has violated or continues to violate the provisions of this chapter, the SMO may petition for a preliminary or permanent injunction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

§ 138-17. Alternative remedies.

A. Where a person has violated a provision of this chapter, he/she may be eligible for alternative remedies in lieu of a civil penalty, upon recommendation of the Municipal Attorney and concurrence of the Municipal Code Enforcement Officer, where:

- (1) The violation was unintentional.
- (2) The violator has no history of previous violations of this chapter.
- (3) Environmental damage was minimal.
- (4) The violator acted quickly to remedy violation.
- (5) The violator cooperated in investigation and resolution.

B. Alternative remedies may consist of one or more of the following:

- (1) Attendance at compliance workshops.
- (2) Storm drain stenciling or storm drain marking.
- (3) River, stream or creek cleanup activities.

§ 138-18. Violations deemed a public nuisance.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken.

§ 138-19. Remedies not exclusive.

The remedies listed in this chapter are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative remedies.

§ 171-13. Lost certificates.

In case a certificate of competency is lost by the holder thereof, the Board may issue a duplicate where such original certificate was issued during the term of office of all the members of the Board in office when such duplicate certificate is requested. In other cases, the Board shall issue a certificate of record stating that the records of the office show that a certificate was issued to a specific person.

§ 171-14. Metal plates or signs.

A. The Board may refuse to issue a metal sign to any person who does not have an established place in the City of Saratoga Springs from where he conducts and operates his business; and such sign, when issued, together with the name of the holder, must be conspicuously displayed at said place of business so as to be easily read by the public, or the license may be revoked and the metal sign taken away from the holder thereof.

B. The Board may refuse to issue a metal sign for a branch shop until it is satisfied that such branch shop is absolutely necessary.

C. The metal sign issued by the Board shall not be transferred to another location without first notifying the Board.

B. The owner or agent shall file a plan with the Plumbing Inspector, to scale, showing the system of plumbing to be installed, which drawings and descriptions must be approved by the Plumbing Inspector before work is begun. No modification of the approved drawings and descriptions shall be permitted unless amended or supplemental drawings and descriptions covering the proposed change or changes are filed and approved. All such plans and descriptions shall be submitted in duplicate and one (1) copy, stamped with the approval of the Plumbing Inspector, kept on the premises where the installation is carried on.

C. No work shall be started until the master plumber has filed a notification card prescribed and furnished by the Examining Board of Plumbers with said Board and obtained a permit.

D. Repairs, replacements and alterations of plumbing and drainage may be made without the filing of drawings and descriptions with the Examining Board of Plumbers, but said exemption from filing of drawings and descriptions for repairs, replacements and alterations shall not be construed to include any case where new or replacements and alterations of vertical and/or horizontal lines of soil, waste or vent pipes are proposed. In any event, however, notification cards shall be filed and a permit obtained before the starting of work. Said repairs and alterations shall comply in all respects with the weight, quality, arrangements and venting as provided in this chapter.

E. The provisions of this chapter shall apply to all extensions, alterations and other work to be done in connection with plumbing or house drains in old buildings the same as in new buildings, except minor repairs, which shall be construed as meaning repairs to the existing plumbing system, known to the trade as "jobbing."

F. No plumbing work in connection with the installation or operation of oil burners or incidental thereto shall be performed by other than a plumber duly licensed by the City of Saratoga Springs.

§ 171-21. Work done outside city.

All plumbing work outside of the city which is connected with or which is intended to be connected with the city water supply and/or sewage system shall come under the provisions of plumbing rules and regulations of the City of Saratoga Springs, except a water district having a plumbing inspector and a code of rules regulating the work of plumbing, drainage and ventilation within such water district.

ARTICLE IV. Administration and Enforcement

§ 171-22. Powers and duties of Examining Board of Plumbers.

The Examining Board of Plumbers of the City of Saratoga Springs shall exercise the powers and duties vested in and exercised by the Health Officer of the City of Saratoga Springs under and pursuant to the provisions of Article 4 of Chapter 26 of the Laws of 1909, as amended, known as the "General City Law," except Subdivision 3 of § 44 thereof.

§ 171-23. Powers and duties of Plumbing Inspector.

A. The Plumbing Inspector shall receive and carry with him at all times a suitable badge or other official means of identification for the purpose of inspection and examination of all premises where plumbing is being installed or repairs made. The Inspector of Plumbing shall examine applications for permits and, if the same are found to comply with the provisions of the Plumbing Chapter, shall issue permits for the work specified in such applications. If he finds work that does not conform to the chapter, he shall

endeavor to compel an immediate correction of the condition; failing in this, he shall report the facts and circumstances to the City Attorney for appropriate action. In the discharge of his duties, the Inspector of Plumbing shall have the authority at any reasonable hour to enter any premises or building to inspect the plumbing work. The Inspector of Plumbing shall keep a record of applications filed, permits issued, certificates of approval of completed work and reports of notices and orders issued. The Inspector of Plumbing shall make a monthly report to the Examining Board of Plumbers of permits granted, certificates of approval granted and all other business transactions of his office, including the number of inspections made. The Inspector of Plumbing shall make all inspections and tests as provided for in this chapter, and, upon the satisfactory completion and final test of the plumbing system, a certificate of approval shall be issued by the Inspector to the plumber. The Inspector of Plumbing shall cause the arrest and prosecution of all persons unlicensed to do plumbing work who violate the provisions of this Plumbing Chapter.

B. Where, in the repair, maintenance or alteration of existing plumbing in any structure in the City of Saratoga Springs, practical difficulties would intervene or undue hardship would ensue against the owner or occupant of the structure being repaired, maintained or altered or against the master plumber performing such work by a strict or literal adherence to these rules and regulations, the Plumbing Inspector may, in his discretion, grant a reasonable exception thereto.

(1) In the event that the Plumbing Inspector refuses to grant such exception, the party feeling aggrieved by such refusal may appeal from such refusal to the Examining Board of Plumbers, and such Board shall have the power to overrule the Plumbing Inspector and grant such exceptions as it deems proper.

(2) The appeal provided for in this Subsection B shall be made in writing. The Examining Board of Plumbers shall set a time and place for an open hearing upon such appeal and, upon or after such hearing, shall make its decision thereon in writing. Such decision shall be filed with the records of the Board, and copies thereof shall be delivered to the Plumbing Inspector and to the appellant.

C. The Plumbing Inspector may order the removal of any plumbing work installed contrary to these rules and regulations.

§ 171-24. Investigation; report.

The Plumbing Inspector shall investigate the registration and license of every master plumber and shall promptly report to the Examining Board of Plumbers any violation of the provisions of law relating to the loaning, renting, selling or transferring of certificates or license plates; and the Plumbing Inspector shall immediately apply to the Examining Board of Plumbers for the forfeiture of the license and certificate of registration of any master plumber who shall have loaned, rented, sold or transferred such certificate, plate or sign in violation of law; and the Plumbing Inspector shall summon and have prosecuted such offender for a misdemeanor as provided by law.

§ 171-25. Notice of violation.

A. Whenever any inspector or other person reports a violation of any of such rules and regulations for plumbing and drainage or a deviation from any officially approved plan or specification for plumbing and drainage filed with any board or department, the Plumbing Inspector shall first serve a notice of the violation thereof upon the master plumber doing the work, if a registered plumber, and shall advise the Examining Board of Plumbers of such action.

B. Such notice may be served personally or by mail, and, if by mail, it may be addressed to such master plumber at the address registered by him with the Examining Board of Plumbers, but the failure of a master plumber to register will relieve the Examining Board of Plumbers from the requirement of giving notice of violation. Unless the violation is removed within three (3) days after the day of serving

or mailing such notice, exclusive of the day of serving or mailing, the Examining Board of Plumbers may proceed according to law.

§ 171-26. Cancellation of registration.

Such registration may be canceled by the Examining Board of Plumbers for violation of any of the rules and regulations adopted herein upon conviction thereof after a hearing thereon before the Examining Board of Plumbers. The alleged violator shall be given at least ten (10) days' notice, in writing, of such hearing, which notice shall also state the time, place and grounds of the complaint in sufficient detail to inform the alleged violator of the charge or charges he may be called upon to meet at such hearing.

§ 171-27. Penalties for offenses.

Editor's Note: Amended at time of adoption of Code; see Ch. 1, General Provisions, Art. I. Any person who omits or refuses to comply with, resists or willfully violates any of the provisions of this chapter or who obstructs or hinders any inspector or officer in the due performance of his duty herein provided shall, upon conviction thereof, be subject to the penalties set forth in Chapter 1, General Provisions, Article III, of this Code. Each day such rules are disregarded or broken after due notice has been served upon the offender, in writing, shall constitute a separate offense and subject the offender to a like penalty, and, if a master plumber, he shall forfeit any certificate or registration which he may hold from the Examining Board of Plumbers.

ARTICLE I. Downtown Special Assessment District

[Adopted 12-4-1978 as Ch. 112A of the 1970 Code]

§ 199-1. Creation; legislative findings and purpose.

[Amended 5-5-1998 by L.L. No. 4-1998]

A. Under the authority granted to the City of Saratoga Springs by Chapter 666 of the Laws of 1978 of the State of New York, a special assessment district is created to be known as the "Downtown Special Assessment District."

B. On December 4, 1978, the Saratoga Springs City Council created a special assessment district to preserve and enhance the vitality and integrity of downtown Saratoga Springs and to provide this City's government and downtown property owners with the means to work together to promote safe, efficient and progressive development. The City Council finds that a flourishing downtown business district is an indispensable part of our past, present and future. It is of paramount importance to maintain a framework for the Downtown Special Assessment District that does not seek from downtown property owners additional compensation for routine government services but which still allows for flexibility and common sense in dealing with new challenges and opportunities.

§ 199-2. Definitions.

[Added 5-5-1998 by L.L. No. 4-1998 Editor's Note: This local law also provided for the renumbering of former §§ 199-2, 199-3 and 199-4 as §§ 199-3, 199-4 and 199-5, respectively; and former §§ 199-5 and 199-6 were combined as § 199-6.]

As used in this article, the following terms shall have the meanings indicated:

The assessment of all properties in the city, as charged against those properties by the City of Saratoga Springs, based upon the value of the properties and without regard to any benefits that the properties may receive.

SPECIAL ASSESSMENT

The assessment levied, by reason of the provisions of this article, upon properties included in the Special Assessment District created by this article.

§ 199-3. Description of properties; exclusions; changes in boundaries.

A. The Special Assessment District will be comprised of all properties which front or abut on Broadway from the arterial to Circular Street, all properties which front or abut on Lake Avenue from Broadway to Maple Avenue, all properties which front or abut on Church Street from Broadway to Woodlawn Avenue, all properties which front or abut on Caroline Street from Broadway to Putnam Street and Maple Avenue and all properties which front or abut on Division Street from Broadway to Railroad Place. In addition to and not in limitation of the foregoing, any property that maintains an apparent and reasonable physical connection with any of the aforementioned streets shall be included in the district.

[Amended 5-5-1998 by L.L. No. 4-1998]

B. There shall be specifically excluded from the district all properties with buildings used as single-family residences and all properties owned by eleemosynary institutions or governmental units.

C. Should the City wish to change the boundaries of the district, it must first receive the consent of the Board of Directors of the Special Assessment District.

§ 199-4. Enumeration of purposes for special assessments.

The City of Saratoga Springs may levy special assessments on properties within the district for the following purposes: construction and installation of landscaping, planting and park areas; construction of lighting and heating facilities; construction and operation of facilities such as places of amusement and entertainment, bus-stop shelters, decorative lighting, benches and street furniture, sculptures, paintings, murals and other works of art, booths, signs, news and music facilities, fire hydrants, kiosks, receptacles, canopies, pedestrian shelters, display cases, fountains, public rest rooms, booths for retail stores, information booths, exhibits and such other fixtures, equipment, facilities and appurtenances which might enhance the movement, safety, convenience and enjoyment of the public and be of economic benefit to surrounding properties; construction of pedestrian overpasses and underpasses and connections between buildings; closing or opening and widening or narrowing of existing streets; condemnation of existing structures, where necessary, in order to carry out special district purposes; construction of ramps, sidewalks, curbs, plazas and pedestrian malls; rehabilitation or removal of existing structures, as required, and improvement to facades; removal and relocation of utilities and vaults as required; provision for additional maintenance and/or police personnel, as required, for the enjoyment and protection of the public; granting of permits to newsstands, restaurants, entertainment facilities and other desirable private uses and making appropriate charges for such private uses; providing and coordinating parking lot and parking garage facilities within the special district in order to secure maximum availability of public parking; and such other purposes as may be necessary to carry out the improvement, promotion, maintenance and operation of the special district. The City of Saratoga Springs shall have the power to

carry out the foregoing purposes with respect to any properties located within the Special Assessment District.

§ 199-5. Assessment procedure.

[Amended 5-5-1998 by L.L. No. 4-1998]

A. A special assessment for properties in the district shall be computed in each year according to the following formula:

Amount of approved annual district budget

= X

Total property assessments for all properties in the district

X times (property assessment of an individual property)
= that property's special assessment for that year.

B. In no event shall the total of special assessments for all properties in the Special Assessment District exceed the sum of \$100,000 in any year. This limit shall not be subject to amendment by the City unless consent to such amendment has been received from 2/3 or more of the members of the district's Board of Directors.

A list describing all such properties constituting the District is filed in the office of the City Clerk.

PROJECT

The acquisition, construction and installation of the project facility.

PROJECT FACILITY

The water transmission line and related infrastructure to be acquired, constructed and installed in the District. A more detailed description of the project facility is filed in the office of the Department of Public Works.

§ 199-16. Background; findings of fact.

A. Background.

(1) The City Council of the City of Saratoga Springs (the "city") is concerned about the quality and safety of drinking water available to the residents of the Knoll Spring Park and Wood Ridge at Knoll Spring Park (collectively, the "parks"). Many residents within the parks have well water that is turbid and discolored. The poor quality of the drinking water in the parks has caused many difficulties to the residents. Attempts by the residents to treat their water with filtration and other treatment systems have not been successful.

(2) A mail survey conducted by the city's Department of Public Works of the residents in the parks indicated that a substantial percentage of the residents want the City to extend the city's water system to the parks. Furthermore, the residents have indicated a willingness to pay the cost of the improvements required to extend the city's water system by assessing such costs on those residents of the District benefiting from the improvements.

(3) The City has provided written notice to the residents of the District of the boundaries of the District, a description of the project and a summary of the costs of the project.

B. Findings of fact.

(1) The City Council of the City does hereby find that appropriate measures must be taken to protect the health, safety, comfort and general welfare of the residents in the parks. Accordingly, the City Council of the City recognizes the necessity for the undertaking by the City of the project. In order to finance the cost of the project, the City Council will create the District. The District is created pursuant to this Article for purposes of assessing the cost of the project to the residents located within the District.

(2) The adjacent properties and the properties within the District will be benefitted by the project facility as the project facility will add to the value of the property within the District and the adjacent properties and will improve water supply and quality and fire protection within the District.

§ 199-17. Purpose.

The purpose of creating the District is to preserve and protect the health, safety, comfort and general welfare of the residents in the District. The project will be undertaken to provide properties within the District with City water. The cost of the project shall be assessed upon those properties benefitted within the District.

§ 199-18. Creation.

The city, as authorized under the provisions of the General City Law, the Municipal Home Rule Law and this Article, hereby creates the District.

§ 199-19. Boundaries.

The properties to be included in the District must be accurately described by boundary description or otherwise.

§ 199-20. Powers.

The City may exercise the following powers with respect to the District in connection with the project:

- A. Acquisition, construction and installation of water transmission lines and related infrastructure, including the project facility;
- B. Construction of facilities such as: signs; fire hydrants; and such other fixtures, equipment facilities and appurtenances in connection with the project facility;
- C. Closing or opening or widening or narrowing of existing streets;
- D. Rehabilitation or removal of existing structures as required;
- E. Removal and relocation of utilities as required;
- F. Such other powers as may be necessary to carry out the acquisition, construction and improvement of the project facility.

§ 199-21. Assessment formula.

- A. Properties in the District shall be subject to assessment for the costs of the project facility to be acquired, constructed and installed within the District. The City will establish, from time to time, the manner in which the cost of the project facility will be assessed against properties within the District. Properties included within the District will be assessed, according to formulas established from time to time by the City Council in its sole judgment, to reflect the benefits accruing to such properties within the District by reason of the project facility.
- B. Notwithstanding anything else to the contrary contained in this Article or in any other law, resolution, regulation or rule of the City and in addition to all other costs or fees provided for by law, resolution, regulation and rule of the city, a tapping fee of no less than \$3,000 each shall be paid by all adjacent properties and all undeveloped properties existing within the District on the date of the enactment hereof.
- C. The City shall establish a reserve fund in connection with the financing of the project. All tapping fees, described in Subsection B above, shall be forthwith deposited in such reserve fund and shall be used by the City to pay principal and/or interest on any bonds or notes issued to finance the project.
- D. Any operation and maintenance expenses of the District will be treated as expenses of the city-wide water system and paid out of the city's water fund.

§ 199-22. Financing.

The city, for the purpose of providing funds for the cost of the project facility, may from time to time issue and sell bonds or other municipal obligations as provided in the New York Local Finance Law and other applicable state statutes. Principal and interest payments on such bonds or other municipal obligations may be made in whole or in part from the proceeds of assessments within the District, but in no event may installment payments for such assessments for the project facility be collected over a period of years longer than the period of probable usefulness of the project facility as set forth in the Local Finance Law.

§ 199-23. Rights.

The City retains all rights and powers which it now has or may have in the future. The creation of the District is not to be interpreted to be an abrogation or diminution of any rights and powers of the city. This Article in no way prevents the City at any time subsequent to the creation of the District from changing the description of the District or the assessment formulas for properties to be assessed within the District or from exercising the other powers granted by this Article or other applicable statutes of the State of New York.

§ 199-24. Budget and assessment rolls.

A. The City shall prepare a budget describing revenues and expenses relating to the project in connection with the preparation of the city's budget.

B. The City shall also establish procedures to be used by the City Assessor in preparing assessment rolls of benefitted, assessable properties within the District. Such procedures shall include the provision of notice of the completion of the assessment roll and the scheduling of a public hearing to consider the assessment roll. The procedures must be consistent with the powers granted by this Article and in all other respects with the Charter and other ordinances of the City and other applicable statutes of the State of New York.

A. A proposed annual budget for the special district shall be submitted by the Board of Directors to the property owners within the district and to the Commissioner of Finance of the City of Saratoga Springs no later than 60 days prior to the beginning of the district's calendar year. Such proposed annual budget shall include recommendations of municipal-type services to be performed during the coming year and estimates of the costs of these services for the ensuing year. Any surplus of funds at fiscal year end is to be applied to offset costs in the next fiscal year.

B. Such annual proposed special district budgets shall also include recommendations as to the funds and other sources of revenue against which the costs set forth in Subsection A of this section should be charged, including but not limited to the following:

(1) Funds to be received from assessments levied against properties within the district by the Board of Directors according to the annual budget.

(2) Funds to be received from special district revenues such as earned interest.

(3) Funds to be utilized from capital reserves or operating reserve funds previously allocated to meet unanticipated emergency repairs or replacement of district equipment or facilities.

C. With the approval of the district's Board of Directors, the special district shall deliver an annual budget and a check payable to the Commissioner of Finance of the City of Saratoga Springs and drawn on assessment funds in the district's operating account, in full payment for the maintenance and repair services to be performed by the district for the coming 12 months as specified in the budget. The Commissioner of Finance will then reimburse the special district to carry out the municipal-type services specified, said City check to be deposited to the district's account and utilized for the performance of those services as specified in the district budget. This transaction will enable the district to proceed with the necessary maintenance and repairs to preserve the described facilities, to protect the health, safety and general welfare of the residents and to preserve the value of properties within the district.

§ 199-43. Receipt of additional funds for replacement or repair of capital equipment and facilities.

For the purpose of obtaining funds in the event of an unforeseen emergency or natural disaster which requires extensive, nonbudgeted repairs to municipal-type facilities within the district, the special district shall have the power to levy additional one-time assessments on the property owners in the district applicable to that year only. The Board of Directors shall have the power to levy such additional assessment up to \$500 per homeowner in the district. Should a larger assessment be required to defray, in whole or in part, the cost of any construction, reconstruction, repair or replacement of a municipal-type facility within the district, such an assessment shall require the assent of the majority of the owners of the 36 residential properties, consistent with this article.

§ 199-44. Construal of powers and obligations.

The powers and obligations herein granted and imposed are in addition to and not in diminution of all powers and obligations existing under applicable laws of the State of New York and the Charter of the City of Saratoga Springs.

PROPERTY ASSESSMENT

The assessment of all properties in the city, as charged against those properties by the City of Saratoga Springs, based upon the value of the properties and without regard to any benefits that the properties may receive. The assessment levied, by reason, of the provisions of this article, upon properties included in the special assessment district created by this article.

§ 199-47. Background; findings of fact.

West Avenue and its surrounding areas have long been a tremendously important part of the city. While its primary importance is founded in commerce, transportation and public services, West Avenue remains a key element in every plan and vision for the city's overall improvement and development. The City Council recognizes the necessity of a project to improve the West Avenue area. The Council further finds that it is just and proper to assess portions of the costs of such improvements to owners of properties located within the district herein described, and that the properties so assessed will be appropriately benefited and increased in value by those improvements.

§ 199-48. Description of district boundaries.

The district shall consist of certain properties located within the City of Saratoga Springs and described by their section, block and lot numbers as shown on the Assessor's Maps of the Inside and Outside Tax Districts of the City of Saratoga Springs. A list of all the described properties, together with a map showing the district boundaries and a summary of costs estimated for the improvements, is filed in the office of the City Clerk.

§ 199-49. Purposes.

A. The City of Saratoga Springs may levy special assessments on properties within the district for such purposes as may be necessary to carry out the improvement, promotion, maintenance and operation of the special assessment district. Such purposes shall include, but shall not be limited to: construction and installation of landscaping, physical facilities, utilities, site amenities, signage, etc.; promotional activities, such as events, advertising; maintenance and operational activities to protect investments; and management activities to promote district programs.

B. The City shall have the power to carry out such purposes with respect to any properties located within the special assessment.

§ 199-50. Assessment procedure; annual budget formula.

In each year for which an annual budget is submitted pursuant to § 199-55 and approved by the city, a special assessment for properties in the district shall be computed as follows:

Amount of Approved Annual District Budget

Total Property Assessments for all Properties in the District = X

X times (property assessment of an individual property)

= that property's special assessment under this section

§ 199-51. Assessment procedure; issuance and sale of bonds for improvements.

A. For the purpose of obtaining funds necessary to make improvements within the special assessment district, the City of Saratoga Springs may from time to time issue and sell bonds or other municipal obligations as provided by the Local Finance Law of the State of New York and other applicable statutes. Principal and interest payments on such bonds or other municipal obligations may be made from the proceeds of assessments within the special assessment district as hereinbefore provided.

B. The City of Saratoga Springs shall determine the amount necessary to make principal and interest payments on the bonds or other municipal obligations issued in accordance with this section and shall collect said amount from the property owners within the special assessment district in equal installments over the period of the bond.

C. Each parcel within the special assessment district shall be assessed to repay bonding, in accordance with this section, in an amount to be determined as follows:

Total Annual Bonding Cost

Total Property Assessments for All Properties in the District = X

X times (property assessment for an individual property)

= that property's special assessment under this section for each year necessary to repay the bond.

§ 199-52. Adjusted special assessment; existing improvement credit.

A. A property's special assessment shall be adjusted downward by the application of existing improvement credits. An adjusted special assessment shall be computed for each property in the district according to the following formula:

Adjusted Special Assessment = Special Assessment x (1.0-Existing Improvement Credit)

B. The amount of a property's existing improvement credit shall be computed as follows, and a property may qualify for any or all of the following credits simultaneously:

(1) Properties with existing connections to the City sewer system as of the effective date of this article shall be allowed a credit of 15%.

(2) Properties with existing connections to the city's water system as of the effective date of this article shall be allowed a credit of 50%.

C. The City of Saratoga Springs reserves the absolute authority to determine whether any property shall qualify for any existing improvement credit under this section. The City shall also have the authority to accept funds from any district property owners for the purpose of making any of the improvements described in Subsections (1) through (2) of Subsection B above, to deposit and hold such funds in escrow accounts as permitted by law and to apply such funds toward that property's existing improvement credit, provided that such funds have been accepted by the City prior to the effective date of this article.

D. Nothing in this article shall prevent the City of Saratoga Springs from giving an improvement credit to a property for improvements other than those specified in Subsection B above. Such other improvement credits may be allowed following a review of the particular improvements made by the property owner and the extent to which such improvements are found to benefit the public.

§ 199-53. Limitations on assessments.

A. Background.

(1) The City Council of the City of Saratoga Springs (the "City") is concerned about the quality of drinking water available to persons who reside near a portion of Gilbert Road at its intersection with Meadowbrook Road. These residents have complained about difficulties in obtaining drinking water of consistent quality. They indicate that they have received letters from the New York State Department of Health cautioning them to treat or boil their existing water supply before drinking it.

Furthermore, the residents have indicated a willingness to pay the cost of the improvements required to extend the City's water system by assessing such costs on those residents of the District benefiting from the improvements.

B. Findings of fact.

(1) The City Council of the City does hereby find that appropriate measures must be taken to protect the health, safety, comfort and general welfare of the residents in the Gilbert Road-Meadowbrook Road area. Accordingly, the City Council of the City recognizes the necessity for the undertaking by the City of the project. In order to finance the cost of the project, the City Council will create the District. The District is created pursuant to this article for purposes of assessing the cost of the project to the residents located within the District.

(2) The adjacent properties and the properties within the District will be benefited by the project facility as the project facility will add to the value of the property within the District and the adjacent properties and will improve water supply and quality and fire protection within the District.

The City will establish, from time to time, the manner in which the cost of the project facility will be assessed against the properties within the District. All tapping fees described in Subsection B above shall be forthwith deposited in such reserve fund and shall be used by the City to pay principal and/or interest on any bonds or notes issued to finance the project.
- D. Any operation and maintenance expenses of the District will be treated as expenses of the City-wide water system and paid out of the City's water fund.

§ 199-69. Financing.

The City, for the purpose of providing funds for the cost of the project facility, may from time to time issue and sell bonds or other municipal obligations as provided in the New York Local Finance Law and other applicable state statutes. Principal and interest payments on such bonds or other municipal obligations may be made in whole or in part from the proceeds of assessments within the District, but in no event may installment payments for such assessments for the project facility be collected over a period of years longer than the period of probable usefulness of the project facility as set forth in the Local Finance Law.

§ 199-70. Retention of rights and powers.

The City retains all rights and powers which it now has or may have in the future. The creation of the District is not to be interpreted to be an abrogation or diminution of any rights and powers of the City. C. No municipal personnel or equipment shall be used for the ordinary maintenance or repair of the district's property, and no special assessments shall be levied by the district for any employment of municipal personnel or equipment for such purpose. Should any emergency cause the City of Saratoga Springs to operate, maintain or repair such facilities within the district in order to protect the health, safety and welfare of the residents, the City Council shall be empowered to levy special assessments against the real property owners within said district in an amount to be determined by the Commissioner of Public Works so as to reimburse the Department of Public Works for all expense incurred for such purpose. (2) The Commissioner of Finance will then simultaneously reimburse the special district to carry out the municipal-type services specified, said City check to be of a sum equal to the sum paid by the special district as per the preceding subsection. Said check shall be immediately deposited to the district's operating account and utilized for the performance of those services as specified in the district budget. This transaction will enable the district to proceed with the necessary maintenance and repairs to preserve the described facilities, to protect the health, safety and general welfare of the residents and to preserve the value of properties within the district.

§ 199-80. Receipt of additional funds for replacement or repair of capital equipment and facilities.

CHAPTER 200A. STORMWATER MANAGEMENT

[HISTORY: Adopted by the City Council of the City of Saratoga Springs 1-2-2008 by L.L. No. 1-2008. Amendments noted where applicable.]

GENERAL REFERENCES

Flood damage prevention — See Ch. 120.

Illicit discharges to storm sewer system — See Ch. 138.

Subdivision regulations — See Ch. A247.

Zoning — See Ch. 240.

§ 200A-1. Findings of fact.

It is hereby determined that:

A. Land development activities and associated increases in site impervious cover often alter the hydrologic response of local watersheds and increase stormwater runoff rates and volumes, flooding, stream channel erosion, or sediment transport and deposition;

B. This stormwater runoff contributes to increased quantities of waterborne pollutants, including siltation of aquatic habitat for fish and other desirable species;

C. Clearing and grading during construction tends to increase soil erosion and add to the loss of native vegetation necessary for terrestrial and aquatic habitats;

D. Improper design and construction of stormwater management practices can increase the velocity of stormwater runoff, thereby increasing stream bank erosion and sedimentation;

E. Impervious surfaces allow less water to percolate into the soil, thereby decreasing groundwater recharge and stream base flow;

F. Substantial economic losses can result from these adverse impacts on the waters of the municipality;

G. Stormwater runoff, soil erosion and nonpoint source pollution can be controlled and minimized through the regulation of stormwater runoff from land development activities;

H. The regulation of stormwater runoff discharges from land development activities in order to control and minimize increases in stormwater runoff rates and volumes, soil erosion, stream channel erosion, and nonpoint source pollution associated with stormwater runoff is in the public interest and will minimize threats to public health and safety;

I. Regulation of land development activities by means of performance standards governing stormwater management and site design will produce development compatible with the natural functions of a particular site or an entire watershed and thereby mitigate the adverse effects of erosion and sedimentation from development.

§ 200A-2. Purpose.

The purpose of this chapter and Article VIIIA of the Zoning Ordinance Editor's Note: See Ch. 240, Zoning, is to establish minimum stormwater management requirements and controls to protect and safeguard the general health, safety, and welfare of the public residing within this jurisdiction and to address the findings of fact in § 200A-1 hereof. This chapter and Article VIIIA of the Zoning Ordinance seeks to meet those purposes by achieving the following objectives:

A. Meet the requirements of minimum measures 4 and 5 of the SPDES General Permit for Stormwater Discharges from Municipal Separate Stormwater Sewer Systems (MS4s), Permit No. GP-02-02, as amended or revised;

B. Require land development activities to conform to the substantive requirements of the NYS Department of Environmental Conservation State Pollutant Discharge Elimination System (SPDES) General Permit for Construction Activities, GP-02-01, as amended or revised;

C. Minimize increases in stormwater runoff from land development activities in order to reduce flooding, siltation, increases in stream temperature, and stream bank erosion and maintain the integrity of stream channels;

D. Minimize increases in pollution caused by stormwater runoff from land development activities which would otherwise degrade local water quality;

E. Minimize the total annual volume of stormwater runoff which flows from any specific site during and following development to the maximum extent practicable;

F. Reduce stormwater runoff rates and volumes, soil erosion and nonpoint source pollution, wherever possible, through stormwater management practices and to ensure that these management practices are properly maintained and eliminate threats to public safety; and

G. Define the boundaries of the City's municipal separate sewer system (MS4) as the entire City of Saratoga Springs, and all lands within its corporate limits.

§ 200A-3. Statutory authority.

In accordance with § 10 of the Municipal Home Rule Law of the State of New York, the City Council of Saratoga Springs has the authority to enact local laws and amend local laws and for the purpose of promoting the health, safety or general welfare of the City of Saratoga Springs and for the protection and enhancement of its physical environment. [b] Bricks shall be laid as provided for under Subsection A(4)(c)[5], Brick paving (mortar setting bed), provided that the finished surface shall conform to the lines and grades shown on the plans.

(d) Grouted stone block paving.

[1] All grouted stone block pavers shall be laid in the pattern shown on the plans or as directed by the Engineer to provide a uniformly even surface. Joints between blocks shall be a maximum of one and one-fourth (1 1/4) inches or as specified. No blocks shall be laid or grouted in freezing weather.

[2] Unless otherwise approved by the Engineer, a dry mixture of mortar as specified for brick paving, Section 608-2.03, shall be swept over the stone blocks until the joints are completely filled and the joints lightly fogged with water prior to the mortar setting up. All grouted stone block paving shall be kept moist for four days after filling the joints with mortar. After the four-day curing period, removal of the remaining mortar film may be accomplished by the use of a light acid wash (10% plus or minus solution of hydrochloric acid) followed by flushing clean with water, or as approved by the Engineer. Care shall be taken to avoid the use of acid in areas where runoff could damage trees or other vegetation. All blocks used over tree pits shall be laid as shown on the current tree planting standard sheet or as shown on the plans.

[3] Grouted stone block paving (sand setting bed). Blocks shall be laid in a three-inch bed of cushion sand over the specified subgrade.

[4] Grouted stone block paving (mortar setting bed). Blocks shall be laid in a bed of mortar with a minimum thickness of one inch over the specified concrete or bituminous subgrade.

[5] Grouted stone block paving (sand-cement setting bed). Blocks shall be laid on a two-inch setting bed of sand-cement over the specified subgrade. The sand-cement setting bed shall not be placed more than four hours prior to installing the block paving.

[6] Grouted stone block paving (optional concrete setting bed). The contractor shall have the option of installing grouted stone block paving by one of the following methods:

[a] Blocks shall be laid on a bed of cement concrete as specified on the plans. The blocks shall be laid in the cement concrete while it is still fresh, as approved by the Engineer, and they shall be rammed into position to provide a uniformly even surface and a solid bedding under each stone block.

[b] Blocks shall be laid as provided for under Subsection A(4)(d)[4], Grouted stone block paving (mortar setting bed), provided that the finished surface shall conform to the lines and grades shown on the plans.

B. Curbing, gutters and concrete mall.

(1) Description. This work shall consist of the construction of the curb, gutter, concrete mall or combination curb and gutter and resetting of the old curb in accordance with these specifications and the lines and grades shown on the plans or established by the Engineer.

(2) The types of curbing and work covered by these specifications are as follows:

(a) Stone curb (Types A, B, C, D, E, sloped and economy).

(b) Stone curb, granite (Types A, B, C, D and as indicated).

(c) Stone curb, bridge (Types A, F1, G1, M, R1, R2, S, T1 and T2).

(d) Conventionally formed or machine-formed concrete curb (Types AB, AC, BB, BC and as indicated).

(e) Conventionally formed or machine-formed concrete curb and gutter (Types BB, BC, C and as indicated).

(f) Concrete curb, integral (Type A1).

C. Pedestrian ramps. All sidewalks and curbing hereafter constructed or reconstructed shall be designed and constructed to allow reasonable access to pedestrian crosswalks for physically handicapped persons. The design and construction of pedestrian ramps shall conform to the standards of the City Engineer.

§ 203-24. Penalties for offenses.

The penalty for offenses against this article shall be as set forth in Chapter 1, General Provisions, Article III, of this Code.

ARTICLE XI. Care of Sidewalks

[Adopted 3-21-1983 as Ch. 97C of the 1970 Code]

§ 203-25. Repair; liability; permit required.

[Amended 4-7-1998 by L.L. No. 2-1998]

A. All owners or agents of owners with property abutting or fronting upon any plaza, street or alley within the corporate limits of the city are required to and shall have the duty to keep sidewalks, curbs and gutters abutting their property in good order and repair.

B. The owner or the agents of owners with property so abutting shall be liable for any injury or any damage caused to any person or property caused wholly or in part by the failure of said owner or agent to so maintain and repair said sidewalks, curbs and gutters. Each such owner shall be liable to the city for all losses to the city or recoveries from the city for damages to person or property of others caused by his failure or that of his agents to repair and keep in good order and reasonably safe condition all such sidewalks, curbs and gutters abutting or fronting his property.

C. The city may, at its discretion, through the Commissioner of Public Works, notify such owner that repairs are necessary to put such sidewalk, curb or gutter in good order, and such owner shall, within 10 days after such notification, under the supervision of the Commissioner of Public Works, complete such repairs as specified in such notice. If the person fails to make the required repairs, the city may repair the same and the owner shall be liable to the city for the cost of the repairs, and said liability shall be incurred immediately upon completion of the repairs by the city. Where the full amount due the city is not paid by such owner within 90 days after the correction of such violation as provided in Subsections A and B above, the city shall cause to be filed in the office of the City Clerk a sworn statement showing the cost and expense incurred for the work, the date the work was completed and the location of the property by section, lot and block on which said work was done and the name of the reputed owner thereof. The filing of such sworn statement shall constitute a lien and privilege on the property and shall remain in full force and effect for the amount due in principal and interest, plus the cost of court, if any, for collection, until final payment has been made. Said costs and expenses shall be collected in the manner fixed by law for the collection of taxes and, further, shall be subject to a delinquent penalty at the legal rate of interest in the event that the same is not paid in full on or before the date the tax bill upon which such charge appears becomes delinquent. Sworn statements filed in accordance with the provisions hereof shall be prima facie evidence that all legal formalities have been complied with and that the work has been properly and successfully done and shall be full notice to every person concerned that the amount of the statement, plus interest, constitutes a charge against the property designated and described in the statement and that the same is due and collectible as provided by law.

D. A permit shall be required to make repairs pursuant to this section. However, there will be no charge for such a permit unless it is proposed to make a change in the grade, location or dimensions of the sidewalk, curb or gutter.

§ 203-26. Snow and ice removal.

The owner, occupant or person in charge of an improved or unimproved lot adjoining a city street shall remove the snow from the sidewalks in front of such lot within 12 hours after each snowstorm and shall keep the sidewalks clear of snow and ice and, when slippery, keep the same safe by sanding. The portion of the sidewalk required to be kept free from snow and ice is the portion thereof which is paved, if any, and if no portion thereof is paved, a space at least four feet in width shall be kept free and clear as above stated. A storm ceasing after 7:00 p.m. shall be considered as ceasing at 7:00 a.m. the following morning.

§ 203-27. Placement of snow and ice in streets.

No person shall, in removing snow or ice from the sidewalk or property adjoining a public street, cause the same to be placed in or upon such public street.

§ 203-28. Penalties for offenses.

[Amended 4-4-1994 by L.L. No. 1-1994]

Any person, firm or corporation convicted of violating the provisions of this article shall be subject to the penalties as set forth in Chapter 1, General Provisions, Article III, of this Code.

[Adopted as Ch. 113 of the 1970 Code]

§ 212-1. Imposition of tax.

[Amended 4-4-1994 by L.L. No. 1-1994]

Pursuant to the authority granted by § 20-b of the General City Law of the State of New York, a tax equal to 1% of its gross income from and after July 1, 1937, is hereby imposed upon every utility doing business in the City of Saratoga Springs which is subject to the supervision of the State Department of Public Service, which has a gross income for the 12 months ending May 31 in excess of \$500, except omnibus corporations subject to such supervision under Article 6 of the Transportation Law, and a tax equal to 1% of its gross operating income is hereby imposed after July 1, 1937, upon every other utility doing business in the City of Saratoga Springs which has a gross operating income for the 12 months ending May 31 in excess of \$500, which taxes shall have application only within the territorial limits of the City of Saratoga Springs and shall be in addition to any and all other taxes and fees imposed by any other provision of law for the same period. Such taxes shall not be imposed on any transaction originating or consummated

outside of the territorial limits of the City of Saratoga Springs, notwithstanding that some act be necessarily performed with respect to such transaction within such limits.

§ 212-2. Definitions.

As used in this Article, the following terms shall have the meanings indicated:

GROSS INCOME

Includes receipts received in or by reason of any sale, except sales hereinafter referred to with respect to which it is provided that profits from the sale shall be included in "gross income," made or service rendered to persons for ultimate consumption or use by them in the City of Saratoga Springs, including cash, credits and property of any kind or nature, whether or not such sale is made or such service is rendered for profit, without any deduction therefrom on account of the cost of the property sold, the cost of the materials used, labor or services or other costs, interest or discount paid or any other expense whatsoever; also profits from the sale of securities; also profits from the sale of real property growing out of the ownership or use of or interest in such property; also profit from the sale of personal property, other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the period for which a return is made; also receipts from interest, dividends and royalties derived from sources within the City of Saratoga Springs other than such as are received from a corporation, a majority of whose voting stock is owned by the taxpaying utility, without any deduction therefrom for any expenses whatsoever incurred in connection with the receipt thereof; and also profits from any transaction within the City of Saratoga Springs whatsoever.

GROSS OPERATING INCOME

Includes receipts received in or by reason of any sale made to persons for ultimate consumption or use by them of gas, electricity, steam, water, refrigeration, telephony or telegraphy or in or by reason of the furnishing to persons for such consumption or use of gas, electric, steam, water, refrigerator, telephone or telegraph service in the City of Saratoga Springs, including cash, credits and property of any kind or nature, without any deduction therefrom on account of the cost of the property sold, the cost of materials used, labor or services or other costs, interest or discount paid or any other expenses whatsoever.

PERSON

Includes persons, corporations, companies, associations, joint-stock associations, copartnerships, estates, assignees of rents, any person acting in a fiduciary capacity or any other entity and persons, their assignees, lessees, trustees or receivers, appointed by any court whatsoever or by any other means, except the state, municipalities, political and civil subdivisions of the state or municipality and public districts.

UTILITY

Includes every person subject to the supervision of either division of the State Department of Public Service, except persons engaged in the business of operating or leasing sleeping and parlor railroad cars or of operating railroads other than street-surface, rapid-transit, subway and elevated railroads, and also includes every person, whether or not such person is subject to such supervision, who shall engage in the business of selling gas, electricity, steam, water, refrigeration, telephony or telegraphy delivered through mains, pipes or wires or of furnishing gas, electric, steam, water, refrigerator, telephone or telegraph service by means of mains, pipes or wires.

§ 212-3. Retention of records.

Every utility subject to tax under this Article shall keep such records of its business and in such form as the Commissioner of Finance may require, and such records shall be preserved for a period of three years, except that the Commissioner of Finance may consent to their destruction within that period or may require that they be kept longer.

§ 212-4. Filing of returns.

On or before the 25th day of August 1937, and on or before the 25th day of every month thereafter until the 25th day of July 1938, every utility subject to tax hereunder shall file a return with the Commissioner of Finance on a form to be furnished by her for such purpose. Such return shall state the gross income or gross operating income in the City of Saratoga Springs, as the case may be, of such utility for the preceding calendar month and shall contain any other data, information or matter which the Commissioner of Finance may require to be included therein. The Commissioner of Finance may require at any time a further or supplemental return which shall contain any data that may be specified by the Commissioner of Finance. Every return shall have annexed thereto an affidavit of the head of the utility making the same or of the owner or of a copartner thereof or of a principal officer of the corporation, if such business is conducted by a corporation, to the effect that the statements contained therein are true.

§ 212-5. Tax payable with return.

At the time of filing a return as required by this Article, each utility shall pay to the Commissioner of Finance the tax imposed by this Article for the period covered by such return. Such tax shall be due and payable at the time of filing the return or, if a return is not filed when due, on the last day on which the return is required to be filed.

§ 212-6. Insufficient returns.

In case any return filed pursuant to this Article shall be insufficient or unsatisfactory to the Commissioner of Finance and if a corrected or sufficient return is not filed within 20 days after the same is required by notice from the Commissioner of Finance or if no return is made for any period, the Commissioner of Finance shall determine the amount of tax due from such information as she is able to obtain and, if necessary, may estimate the tax on the basis of external indexes or otherwise. The Commissioner of Finance shall give notice of such determination to the person liable for such tax. Such determination shall finally and irrevocably fix such tax, unless the person against whom it is assessed shall, within 30 days after the giving of notice of such determination, apply to the Commissioner of Finance for a hearing or unless the Commissioner of Finance, of her own motion, shall reduce the same. After such hearing, the Commissioner of Finance shall give notice of her decision to the person liable for the tax. The decision of the Commissioner of Finance may be reviewed by certiorari if application therefor is made within 30 days after the giving of notice of such decision. An order of certiorari shall not be granted unless the amount of any tax sought to be reviewed, with the penalties thereon, if any, shall be first deposited with the Commissioner of Finance and an undertaking filed with her, in such amount and with such sureties as a Justice of the Supreme Court shall approve, to the effect that, if such order is dismissed or the tax confirmed, the applicant for the order will pay all costs and charges which may accrue in the prosecution of the certiorari proceeding or, at the option of the applicant, such undertaking may be in a sum sufficient to cover the tax, penalties, costs and charges aforesaid, in which event the applicant shall not be required to pay such tax and penalties as a condition precedent to the granting of such order.

§ 212-7. Notice.

Any notice authorized or required under the provisions of this Article may be given by mailing the same to the person for whom it is intended, in a postpaid envelope, addressed to such person at the address given by him in the last return filed by him under this Article or, if no return has been filed, then to such address as may be obtainable. The mailing of such notice shall be presumptive evidence of the receipt of the same by the person to whom addressed. Any period of time which is determined according to the provisions of this Article by the giving of notice shall commence to run from the date of mailing of such notice.

§ 212-8. Penalties for offenses.

Any person failing to file a return or corrected return or to pay any tax or any portion thereof within the time required by this Article shall be subject to a penalty of 5% of the amount of tax due, plus 1% of such

tax for each month of delay or fraction thereof, excepting the first month, after such return was required to be filed or such tax became due; but the Commissioner of Finance, if satisfied that the delay was excusable, may remit all or any portion of such penalty.

§ 212-9. Refunds.

If, within one year from the payment of any tax or penalty, the payer thereof shall make application for a refund thereof and the Commissioner of Finance or the Court shall determine that such tax or penalty or any portion thereof was erroneously or illegally collected, the Commissioner of Finance shall refund the amount so determined. For like cause and within the same period, a refund may be so made on the initiative of the Commissioner of Finance. However, no refund shall be made of a tax or penalty paid pursuant to a determination of the Commissioner of Finance as hereinbefore provided unless the Commissioner of Finance, after a hearing as hereinbefore provided or of her own motion, shall have reduced the tax or penalty or it shall have been established as a certiorari proceeding that such determination was erroneous or illegal. All refunds shall be made out of moneys collected under this Article. An application for a refund, made as hereinbefore provided, shall be deemed an application for the revision of any tax or penalty complained of, and the Commissioner of Finance may receive additional evidence with respect thereto. After making her determination, the Commissioner of Finance shall give notice thereof to the person interested, and he shall be entitled to a certiorari order to review such determination, subject to the provisions hereinbefore contained relating to the granting of such an order.

§ 212-10. Tax as part of operating costs.

The tax imposed by this Article shall be charged against and be paid by the utility and shall not be added as a separate item to bills rendered by the utility to customers or others but shall constitute a part of the operating costs of such utility.

§ 212-11. Enforcement.

Whenever any person shall fail to pay any tax or penalty imposed by this Article, the City Attorney shall, upon the request of the Commissioner of Finance, bring an action to enforce payment of the same. § 212-46. Payment of tax.

At the time of filing a return of occupancy and of rents, each operator shall pay to the County Treasurer the taxes imposed by this article upon the rents required to be included in such return, as well as all other moneys collected by the operator acting or purporting to act under the provisions of this article, even though it be judicially determined that the tax collected is invalidly required to be filed, that shall be due from the operator and payable to the County Treasurer on the date limited for the filing of the return for such period, without regard to whether a return is filed or whether the return which is filed correctly shows the amount of rents and taxes due thereon. Where the County Treasurer, in his discretion, deems it necessary to protect revenues to be obtained by this article, he may require any operator required to collect the tax imposed by this article to file with him a bond, issued by a surety company authorized to transact business in this state and approved by the Superintendent of Insurance of this state as to solvency and responsibility, in such amount as the County Treasurer may fix to secure the payment of any tax and/or penalties and interest due or which may become due from such operator. In the event that the County Treasurer determines that an operator is to file such bond, he shall give notice to such operator to that effect, specifying the amount of the bond required. The operator shall file such bond within five days after the giving of such notice unless, within such five days, the operator shall request, in writing, a hearing before the County Treasurer at which the necessity, propriety and amount of the bond shall be determined by the County Treasurer. Such determination shall be final and shall be complied with within 15 days after the giving of notices thereof. In lieu of such bond, securities approved by the County Treasurer or cash in such amount as he may prescribe may be deposited, which shall be kept in the custody of the County Treasurer, who may at any time, without notice of the depositor, apply them to any tax and/or interest or penalties due, and for that purpose, the securities may be sold by him at public or private sale without notice to the depositors thereof.

§ 212-47. Determination of tax.

If a return required by this article is not filed or if a return, when filed, is incorrect or insufficient, the amount of tax due shall be determined by the County Treasurer from such information as may be obtainable, and, if necessary, the tax may be estimated on the basis of external indexes such as the number of rooms, location, scale of rents, comparable rents, type of accommodations and service, number of employees and/or other factors. Notice of such determination shall be given to the person liable for the collection and/or payment of the tax. Such determination shall finally and irrevocably fix the tax unless the person against whom it is assessed, within 30 days after giving notice of such determination, shall apply to the County Treasurer for a hearing or unless the County Treasurer, of his own motion, shall redetermine the same. After such hearing, the County Treasurer shall give notice of his determination to the person against whom the tax is assessed. The determination of the County Treasurer shall be reviewable for error, illegality or unconstitutionality or any other reason whatsoever by proceeding under Article 78 of the Civil Practice Law and Rules if application therefor is made to the Supreme Court within 30 days after the giving of the notice of such determination. A proceeding under Article 78 of the Civil Practice Law and Rules shall not be instituted unless the amount of any tax sought to be reviewed, with penalties and interest thereon, if any, shall be first deposited with the County Treasurer and there shall be filed with the County Treasurer an undertaking issued by a surety company authorized to transact business in this state and approved by the Superintendent of Insurance of this state as to solvency and responsibility, in such amount as a Justice of the Supreme Court shall approve, to the effect that if such proceedings are dismissed or the tax confirmed, the petitioner will pay all costs and charges which may accrue in the prosecution of the proceeding or, at the option of the applicant, such undertaking filed with the County Treasurer may be in a sum sufficient to cover the taxes, penalties

and interest thereon stated in such determination, plus the costs and charges which may accrue against it in the prosecution of the proceedings, in which event the applicant shall not be required to deposit such taxes, penalties and interest as a condition precedent to the application.

§ 212-48. Disposition of revenues.

All revenues resulting from the imposition of the tax under this article shall be paid into the Treasury of the county and shall be credited to and deposited in the general fund of the county. The net collections derived from the tax shall be allocated by the Board of Supervisors of Saratoga County only for the promotion of tourism and conventions; provided, however, that the net collections pursuant to § 212-38A above shall be paid to the general fund of the City of Saratoga Springs, the net collections pursuant to § 212-38B above shall be paid to the Saratoga Convention and Tourism Bureau for use in marketing the City of Saratoga Springs as a destination for conventions and group tours, and the net collections pursuant to § 212-38C above shall be placed in an interest-bearing capital reserve account to fund the expansion and renovation of the City Center until such time as the expansion and renovation has been completed, and thereafter shall be placed in a special account which may be drawn upon to offset any operating deficit maintained by the City Center. The Board of Supervisors of Saratoga County shall appoint an advisory committee of nine persons, four of whom shall be members of the Board of Supervisors and five of whom shall be owners, managers or, if such facility is owned by a corporation or partnership, partners or officers of facilities paying such tax. The advisory committee shall advise and recommend to said Board of Supervisors relative to the purpose of this section.

§ 212-49. Refunds.

A. In the manner provided in this article, the County Treasurer shall refund or credit, without interest, any tax, penalty or interest erroneously, illegally or unconstitutionally collected or paid if application to the County Treasurer for such refund shall be made within one year from the payment thereof. Whenever a refund is made by the County Treasurer, he shall state his reason therefor in writing. Such application may be made by the occupant, operator or other person who has actually paid the tax. Such application may also be made by an operator who has collected and paid over such tax to the County Treasurer, provided that the application is made within one year of the payment by the occupant to the operator, but no actual refund of moneys shall be made to such operator until he shall first establish to the satisfaction of the County Treasurer, under such regulations as the County Treasurer may prescribe, that he has repaid to the occupant the amount for which the application for refund is made. The County Treasurer may, in lieu of any refund required to be made, allow credit therefor on payments due from the applicant.

B. An application for a refund or credit made as herein provided shall be deemed an application for a revision of any tax, penalty or interest complained of, and the County Treasurer may receive evidence with respect thereto. After making his determination, the County Treasurer shall give notice thereof to the applicant who shall be entitled to review such determination by a proceeding pursuant to Article 78 of the Civil Practice Law and Rules, provided that such proceeding is instituted within 30 days after the giving of the notice of such determination, and provided that a final determination of tax due was not previously made. Such a proceeding shall not be instituted unless an undertaking is filed with the County Treasurer in such amount and with such sureties as a Justice of the Supreme Court shall approve, to the effect that if such proceedings be dismissed or the tax confirmed, the petitioner will pay all costs and charges which may accrue in the prosecution of such proceeding.

C. A person shall not be entitled to a revision, refund or credit under this article of a tax, interest or penalty which had been determined to be due pursuant to the provisions of this section where he has a hearing or an opportunity for a hearing, as provided in said section, or has failed to avail himself of the remedies therein provided. No refund or credit shall be made of a tax, interest or penalty paid after a determination by the County Treasurer made pursuant to § 212-47 of this article unless it is found that such determination was erroneous, illegal or unconstitutional or otherwise improper by the County Treasurer after a hearing or of his own motion or in a proceeding under Article 78 of the Civil Practice

Law and Rules, pursuant to the provisions of said section, in which event a refund or credit without interest shall be made of the tax, interest or penalty found to have been overpaid.

§ 212-50. Reserves.

In cases where the occupant or operator has applied for a refund and has instituted a proceeding under Article 78 of the Civil Practice Law and Rules to review a determination adverse to him on his application for refund, the County Treasurer shall set up appropriate reserves to meet any decision adverse to the county.

§ 212-51. Remedies exclusive.

The remedies provided by §§ 212-47 and 212-49 shall be exclusive remedies available to any person for the review of tax liability imposed by this article, and no determination or proposed determination of tax or determination on any application for refund shall be enjoined or reviewed by an action for declaratory judgment, an action for money had and received or by an action or proceeding other than a proceeding in a nature of a certiorari proceeding under Article 78 of the Civil Practice Law and Rules; provided, however, that a taxpayer may proceed by declaratory judgment if he institutes suit within 30 days after a deficiency assessment is made and pays the amount of the deficiency assessment to the County Treasurer prior to the institution of such suit and posts a bond for costs as provided in § 212-47.

§ 212-52. Proceedings for recovery of tax.

A. Whenever any operator or any officer of a corporate operator or any occupant or other person shall fail to collect and pay over any tax and/or to pay any tax penalty or interest imposed by this article as therein provided, the County Attorney shall, upon the request of the County Treasurer, bring or cause to be brought an action to enforce the payment of the same on behalf of the County of Saratoga and/or City of Saratoga Springs in any court of the State of New York or of any other state or of the United States. If, however, the County Treasurer, in his discretion, believes that any such operator, officer, occupant or other person is about to cease business, leave the state or remove or dissipate the assets out of which the tax or penalties might be satisfied and that any such tax or penalty will not be paid when due, he may declare such tax or penalty to be immediately due and payable and may issue a warrant immediately.

B. As an additional or alternate remedy, the County Treasurer may issue a warrant directed to the Sheriff commanding him to levy upon and sell the real and personal property of the operator or officer of a corporate operator or other person liable for the tax, which may be found within the county for the payment of the amount thereof; with any penalties and interest and the cost of executing the warrant, and to return such warrant to the County Treasurer and to pay to him the money collected by virtue thereof within 60 days after the receipt of such warrant. The Sheriff shall, within five days after the receipt of the warrant, file with the County Clerk a copy thereof; and thereupon such Clerk shall enter in the judgment docket the name of the person mentioned in the warrant and the amount of the tax, penalties and interest for which the warrant is issued and the date when such copy is filed. Thereupon, the amount of such warrant so docketed shall become a lien upon the real and personal property of the person against whom the warrant is issued. The Sheriff shall then proceed upon the warrant in the same manner and with like effect as that provided by law in respect to executions issued against property and upon judgments of a court of record, and, for services in executing the warrant, he shall be entitled to the same fees, which he may collect in the same manner. In the discretion of the County Treasurer, a warrant of like terms, force and effect may be issued and directed to any officer or employee of the County Treasurer, and in the execution thereof; such officer or employee shall have all the powers conferred by law upon Sheriffs but shall be entitled to no fee or compensation in excess of the actual expenses paid in the performance of such duty. If a warrant is returned not satisfied in full, the County Treasurer may from time to time issue new warrants and shall also have the same

remedies to enforce the amount due thereunder as if the county had recovered judgment therefor and execution thereon has been returned unsatisfied.

C. Whenever an operator shall make a sale, transfer or assignment in bulk of any part or the whole of his tourist home, inn, hotel or motel or his lease, license or other agreement or right to possess or operate such facility or of the equipment, furnishings, fixtures, supplies or stock of merchandise of said premises or lease, license or other agreement or right to possess or operate such tourist home, inn, hotel or motel and the equipment, furnishings, fixtures, supplies and stock or merchandise pertaining to the conduct or operation of said tourist home, inn, hotel or motel otherwise than in the ordinary and regular prosecution of business, the purchaser, transferee or assignee shall, at least 10 days before taking possession of the subject of said sale, transfer or assignment or paying therefor, notify the County Treasurer by registered mail of the proposed sale and of the price, terms and conditions thereof, whether or not the seller, transferor or assignor has represented to or informed the purchaser, transferee or assignee that it owes any tax pursuant to this article and whether or not the purchaser, transferee or assignee has knowledge that such taxes are owing and whether any such taxes are in fact owing. Whenever the purchaser, transferee or assignee shall fail to give notice to the County Treasurer as required by Subsection B or whenever the County Treasurer shall inform the purchaser, transferee or assignee that a possible claim for such tax or taxes exists, any sums of money, property or choses in action or other consideration which the purchaser, transferee or assignee is required to transfer over to the seller, transferor or assignor shall be subject to a first priority right and lien for any such taxes theretofore or thereafter determined to be due from the seller, transferor or assignor to the county, and the purchaser, transferee or assignee is forbidden to transfer to the seller, transferor or assignor any such sums of money, property or choses in action to the extent of the amount of the county's claim. For failure to comply with the provisions of this subsection, the purchaser, transferee or assignee, in addition to being subject to the liabilities and remedies imposed under the provisions of the Uniform Commercial Code, shall be personally liable for the payment to the county of any such taxes theretofore or thereafter determined to be due to the county from the seller, transferor or assignor, and such liability may be assessed and enforced in the same manner as the liability for tax under this article.

D. The officers who serve the summons or subpoena of the County Treasurer and witnesses attending in response thereto shall be entitled to the same fees as are allowed to officers and witnesses in civil cases in courts of record, except as herein otherwise provided. Such officers shall be the County Sheriff and his duly appointed deputies or any officers or employees of the County Treasurer designated to serve such process.

§ 212-55. Reference to tax.

Wherever reference is made in placards or advertisements or in any other publications to this tax, such reference shall be substantially in the following form: "Tax on occupancy of tourist home, inn, hotel or motel rooms," except that in any bill, receipt, statement or other evidence or memorandum of occupancy or rent charge issued or employed by the operator, the word "tax" will suffice.

§ 212-56. Penalties and interest.

A. Any person failing to file a return or to pay or pay over any tax to the County Treasurer within the time required by this article shall be subject to a penalty of 5% of the amount of tax due, plus interest at the rate of 1% of such tax for each month of delay, excepting the first month, after such return was required to be filed or such tax became due, but the County Treasurer, if satisfied that the delay was excusable, may remit all or any part of such penalty, but not interest, at the rate of 6% per year. Such penalties and interest shall be paid and disposed of in the same manner as other revenues from this article. Unpaid penalties and interest may be enforced in the same manner as the tax imposed by this article.

B. Any operator or occupant and any officer of a corporate operator or occupant failing to file a return required by this article, or filing or causing to be filed or making or causing to be made or giving or

A second suspension for the same reason or, in any case, a third suspension shall revoke the license. No owner whose license has been revoked shall be again licensed as a taxicab owner in the City unless upon the presentation of reasons satisfactory to the Commissioner of Accounts.

§ 215-7. Examination of drivers.

Each applicant for a driver's license shall be examined by the Commissioner of Accounts or some person designated by the Commissioner as to the applicant's knowledge of the provisions of this article, the traffic regulations of the City, the motor vehicle and general highway traffic laws of the state and the geography of the City, and, if the results of the examination are unsatisfactory, the applicant shall be refused a license. Each such applicant must, if required by the Commissioner of Accounts, demonstrate his or her skill and ability to safely handle his or her vehicle by driving it through a crowded section of the City, accompanied by the Commissioner of Accounts or some person designated by the Commissioner.

All applicants for licenses shall, upon application, be provided with a copy of this chapter.

§ 215-9. Temporary permits.

No temporary permit shall be issued except when an extraordinary public emergency arises affecting transportation of the public upon the streets within the City. Such temporary permits, when issued, shall be upon such terms and conditions as the Commissioner of Accounts, the Mayor of the City and the City Council shall provide, but such temporary permits shall in no event be granted for a longer period than 20 days and may be renewable for similar periods, from time to time as may be necessary, only upon the written recommendation of the Commissioner of Accounts made to the City Council and approved by the Council.

C. Gasoline surcharge.

(1) In addition to the fares established in Subsection A above, it shall be lawful for any taxicab owner who purchases gasoline for use in taxicabs under his or her control to charge a surcharge not in excess of 10% of the lawful fare for every increase of \$0.25 in the average price per gallon of regular unleaded gasoline in the City of Saratoga Springs in excess of \$1.75, provided that such price increase has continued for a minimum of 30 days, and further provided that such surcharge has been approved by the City Council. Any surcharge established pursuant to this subsection shall

Said review and recommendation shall be completed by June 1 in each reviewing year. Nothing in this subsection shall be constructed so as to prohibit the Commissioner of Accounts from reviewing and reconsidering said fares more frequently, in the Commissioner's discretion.

§ 215-13. Operation of taxicabs; regulations.

Every taxicab operated under this chapter shall comply with the following regulations:

A. Every taxicab shall have installed between its front and rear seats a protective shield or screen of a type approved by the Commissioner of Accounts, and secured in such a manner as to reasonably prevent persons in the rear seat area from interfering with the taxicab driver by physical contact. This regulation shall take effect immediately for all taxicabs placed in service on or after the effective date of this subsection. For taxicabs placed in service prior to the effective date of this subsection, this regulation shall take effect 24 months after said effective date. The Commissioner of Accounts shall have authority to grant exemptions from this regulation to licensed drivers who demonstrate satisfactory proof of a medical condition, disability or physical limitation that would make compliance with this regulation unduly harsh. The Commissioner may impose appropriate conditions upon any such exemption.

B. No person shall smoke in a taxicab, and every taxicab shall contain a sign reading "NO SMOKING" in letters not less than one inch high, and posted in a location where it shall be plainly seen by all persons in the taxicab.

D. No person under 12 years of age shall ride as a passenger in the front seat of any taxicab.

E. Every person who owns and operates three or more taxicabs shall dispatch his or her taxicabs through a central dispatcher or similar system in which passengers make calls for taxicabs to a centralized office and not directly to the taxicabs.

F. Every taxicab driver shall, when so requested by a passenger, provide a written receipt showing the date, driver's name, the taxicab owner's name, the number of the taxicab, the places and times where the fare began and ended and the amount of the fare collected.

H. No taxicab owner or driver shall refuse to carry, within the City of Saratoga Springs, any orderly person as a passenger unless:

- (1) The owner or driver reasonably determines that such person has no intention or ability to pay; or
- (2) Such person cannot be transported safely under the circumstances.

I. Every owner shall, at least once every six months, cause every taxicab which is owned by him or her or which is under his or her control to be inspected pursuant to Article 5 of the New York State Vehicle and Traffic Law.

D. A money order for payment to the Division of Criminal Justice Services must be submitted with the application for taxi owner and/or taxi driver. This is a nonrefundable fee for fingerprint background searches which is mandated by the Division of Criminal Justice Services for which the applicant is responsible. (The fee is \$75 but may change without prior notice.)

§ 215-15. Marking taxicabs.

A. No taxicab shall be operated within the City of Saratoga Springs unless there shall be displayed by letters and figures not less than three inches high and in distinct contrast with the color of the body on both sides of the cowl of the taxicab or on both front doors thereof or by a sign attached to the top thereof, which sign shall be at least eight inches high and illuminated so as to be visible at all times, the owner's name and telephone number and the word "taxi," except that taxicabs which are permanently marked with waterproof paint, giving the owner's name and telephone number and the word "taxi," may be so marked in figures and letters not less than one inch high.

B. Taxicabs shall display distinctive numbers, emblems and other devices in such a manner as to reasonably provide prospective passengers with a means to differentiate between taxicabs owned by different persons or entities as well as between individual taxicabs owned by the same person or entity.

C. The Commissioner of Accounts shall have the authority to require any taxicab to display a particular number, emblem or other device when the Commissioner determines, in the Commissioner's discretion, that such requirement is reasonably necessary in the public interest to avoid confusion in differentiating between taxicabs.

§ 215-16. Penalties for offenses.

Any owner or driver who fails to obtain a license as required by this chapter, or who continues any of the activities described in this chapter, while his or her license is suspended or revoked, or who violates any provision of this chapter or any rule or regulation of the Commissioner of Accounts made pursuant to this chapter shall, upon conviction, be subject to the penalties set forth in Chapter 1, General Provisions, Article III, of this Code.

§ 215-17. Designation.

The Commissioner of Public Safety is hereby authorized to establish taxicab stands as deemed necessary. The Commissioner shall further designate the number of such taxicabs that shall be allowed to stand at any taxicab stand. Owners of any property may apply to the Commissioner of Public Safety for the establishment of taxicab stands adjacent to their premises, stating in such application the number of taxicabs they desire to occupy such stand. Such application shall be granted solely in the discretion of the Commissioner of Public Safety and may be revoked by the Commissioner at any time.

§ 215-18. Regulations.

A. Only taxicabs in such numbers as are designated by the Commissioner of Public Safety may remain at the stand while waiting for employment and only in single file, pointed in accordance with the traffic regulations.

B. No taxicab standing at the head of any such line shall refuse to carry any orderly person applying for a taxicab who agrees to pay the proper rate of fare; but this shall not prevent any person from selecting any taxicab he may desire on the stand, whether it be at the head of the line or not.

C. As the taxicabs leave the line with passengers, those behind shall move up, and any taxicab seeking a space on the stand shall approach the same only from the rear of the stand and shall stop as near as possible to the last taxicab on the stand.

D. No taxicab shall stand within five feet of any crosswalk.

E. No taxicab shall occupy a stand unless a license for the taxicab has been issued by the Commissioner of Accounts.

The owners of all houses, buildings or properties used for human occupancy, employment, recreation or other purpose situated within the city and abutting any street, alley or right-of-way in which there is now located or may in the future be located a public sanitary sewer of the city are hereby required, at their expense, to install suitable toilet facilities therein and to connect such facilities directly to the proper public sewer, in accordance with the provisions of this Article, within ninety (90) days after the date of notice to do so, provided that said public sewer is within one hundred (100) feet of the property line.

§ 231-9. (Reserved)

Editor's Note: Former § 231-9, Septic tank waste permits, added 11-18-1985, was deleted 4-4-1994 by L.L. No. 1-1994.

§ 231-10. Private disposal systems regulated.

[Amended 4-4-1994 by L.L. No. 1-1994]

Where a public sanitary sewer is not available under the provisions of § 231-8, the building sewer shall be connected to a private sewage disposal system complying with the provisions of this Article.

§ 231-11. Permit for private system required.

[Amended 4-4-1994 by L.L. No. 1-1994]

Before commencement of construction of a private sewage disposal system, the owner shall first obtain a written permit signed by the Building Inspector. The application for such permit shall be made on a form furnished by the city, accompanied by a fee as hereinafter provided for in § 231-18, which the applicant shall supplement by any plans, specifications and other information as are deemed necessary by the Building Inspector.

§ 231-12. Inspection required.

A permit for a private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the Building Inspector. He shall be allowed to inspect the work at any stage of construction, and, in any event, the applicant for the permit shall notify the Building Inspector when the work is ready for final inspection and before any underground portions are covered. The inspection shall be made within forty-eight (48) hours of the receipt of notice by the Building Inspector.

§ 231-13. Compliance with public health recommendations.

The type, capacities, location and layout of a private sewage disposal system shall comply with all recommendations of the Department of Public Health of the State of New York. No permit shall be issued for any private sewage disposal system employing subsurface soil-absorption facilities where the area of the lot is less than adequate to support the proposed installation. No septic tank or cesspool shall be permitted to discharge to any public sewer or natural outlet.

§ 231-14. Connection to public sanitary sewer required when available.

[Amended 4-4-1994 by L.L. No. 1-1994]

At such time as a public sanitary sewer becomes available to a property served by a private sewage disposal system, as provided in § 231-8, a direct connection shall be made to the public sewer in compliance with this Article, and any septic tanks, cesspools and similar private sewage disposal facilities shall be abandoned and filled with suitable material. The property owner will be required to connect to the newly available public sewer within one (1) year.

§ 231-15. Operation and maintenance of private facilities.

The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the city.

§ 231-16. Additional requirements.

§ 231-17. Permit required for disturbing public system.

No authorized person shall uncover, make any connections with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Department of Public Works.

§ 231-18. Application for permits; fees.

[Amended 4-4-1994 by L.L. No. 1-1994]

A licensed city plumber or approved contractor shall make application on a special form furnished by the city. The permit application shall be supplemented by any plans, specifications or other information considered pertinent in the judgment of the Department of Public Works. The Commissioner of Public

Works shall have the authority to establish, from time to time, reasonable fees for such permits. A sewer saddle shall be provided by the city at the time of application.

§ 231-19. Costs and expenses; indemnification.

All costs and expenses incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

§ 231-20. Separate building sewer required; exception.

A separate and independent building sewer shall be provided for every building; except that, where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one (1) building sewer.

§ 231-21. Use of old building sewers.

Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Department of Public Works, to meet all requirements of this chapter.

§ 231-22. Specifications.

[Amended 4-4-1994 by L.L. No. 1-1994]

The building sewer shall be PVC Schedule 40 or equal or other suitable material approved by the Department of Public Works. Joints shall be tight and waterproof. Any part of the building sewer that is located within ten (10) feet of a water service pipe shall be constructed with watertight joints.

§ 231-23. Size and slope.

The size and slope of the building sewer shall be subject to the approval of the Department of Public Works, but in no event shall the diameter be less than four (4) inches. The slope of such four-inch pipe shall be not less than one-eighth (1/8) inch per foot.

§ 231-24. Elevation and depth.

Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. No building sewer shall be laid parallel to or within three (3) feet of any bearing wall, which might thereby be weakened. The depth shall be sufficient to afford protection from frost. The building sewer shall be laid at uniform grade and in straight alignment insofar as possible. Changes in direction shall be made only with properly curved pipe and fittings.

§ 231-25. Artificial lifting of sewage.

[Amended 4-4-1994 by L.L. No. 1-1994]

In all buildings in which any sanitary sewer is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sanitary sewer.

§ 231-26. Excavations and backfilling.

All excavations required for the installation of a building sewer shall be open trench work unless otherwise approved by the Department of Public Works. Pipe laying and backfill shall be performed in accordance with the American Society for Testing and Materials Specification C12-19, except that no backfill shall be placed until the work has been inspected.

§ 231-27. Joints and connections.

[Amended 4-4-1994 by L.L. No. 1-1994]

All joints and connections shall be made gastight and watertight.

§ 231-28. Connection to public sewer.

[Amended 4-4-1994 by L.L. No. 1-1994]

The connection of the building sewer into the public sewer shall be made at the Y-branch if such branch is available at a suitable location. If the public sewer is twelve (12) inches in diameter or less and no

properly located Y-branch is available, the Public Works Department will provide the fitting. Where the public sewer is greater than twelve (12) inches in diameter and no properly located Y-branch is available, a neat hole may be cut into the public sewer to receive the building sewer, with entry in the downstream direction at an angle of about forty-five degrees (45°). A forty-five-degree ell (L) may be used to make such connection, with the spigot end cut so as not to extend past the surface of the public sewer. The invert of the building sewer at the point of connection shall be the same or at a higher elevation than the invert of the public sewer. A smooth, neat joint shall be made and the connection made secure and watertight by encasement in concrete. Special fittings may be used for the connection only when approved by the Department of Public Works.

§ 231-29. Notice of connection; supervision.

The applicant for the building sewer permit shall notify the Department of Public Works when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Department of Public Works.

§ 231-30. Guarding excavations; restoration.

All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city.

§ 231-31. Prohibited discharges to sanitary sewers.

No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, cooling water or unpolluted industrial process water to any sanitary sewer.

§ 231-32. Stormwater discharge controlled.

[Amended 4-4-1994 by L.L. No. 1-1994]

Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers or to a natural outlet approved by the Department of Public Works. Industrial cooling water or unpolluted process waters may be discharged, upon approval of the Department of Public Works, to a storm sewer or natural outlet.

§ 231-33. Prohibited discharges to any public sewer.

Except as hereinafter provided, no person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewer:

- A. Any liquid or vapor having a temperature higher than one hundred fifty degrees Fahrenheit (150°F.).
- B. Any water or waste which may contain more than one hundred (100) parts per million, by weight, of fat, oil or grease.
- C. Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.
- D. Any garbage that has not been properly shredded.
- E. Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, paunch manure or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewage works.
- F. Any waters or wastes having a pH lower than five point five (5.5) or higher than nine point zero (9.0) or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the sewage works.

- H. Any waters or wastes containing suspended solids of such character and quantity that unusual attention or expense is required to handle such materials at the sewage treatment plant.
- I. Any noxious or malodorous gas or substance capable of creating a public nuisance.

§ 231-34. Grease, oil and sand interceptors.

A. Grease, oil and sand interceptors shall be provided when, in the opinion of the Department of Public Works, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts or any flammable wastes, sand and other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and

capacity approved by the Department of Public Works and shall be located so as to be readily and easily accessible for cleaning and inspection.

B. Grease and oil interceptors shall be constructed of impervious materials capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers which, when bolted in place, shall be gastight and watertight.

C. Where installed, all grease, oil and sand interceptors shall be maintained by the owner, at his expense, in continuously efficient operation at all times.

§ 231-35. Restricted discharges.

A. The admission into the public sewers of any waters or wastes having a five-day biochemical oxygen demand greater than three hundred (300) parts per million by weight, containing more than three hundred fifty (350) parts per million by weight of suspended solids, containing any quantity of substances having the characteristics described in § 231-33 or having an average daily flow greater than two percent (2%) of the average daily sewage flow of the city shall be subject to the review and approval of the Department of Public Works.

B. Where necessary, in the opinion of the Department of Public Works, the owner shall provide, at his expense, such preliminary treatment as may be necessary to:

(1) Reduce the biochemical oxygen demand to three hundred (300) parts per million and the suspended solids to three hundred fifty (350) parts per million by weight,

(2) Reduce objectionable characteristics or constituents to within the maximum limits provided for in § 231-33; or

(3) Control the quantities and rates of discharge of such water or wastes.

C. Plans, specifications and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Department of Public Works, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

§ 231-36. Maintenance of preliminary treatment facilities.

Where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

§ 231-37. Control manholes.

When required by the Department of Public Works, the owner of any property served by a building sewer carrying industrial wastes shall install a suitable control manhole in the building sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the Department of Public Works. The manhole shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times.

§ 231-38. Measurements, tests and analyses.

All measurements, tests and analyses of all characteristics of waters and wastes to which reference is made in §§ 231-33 and 231-35 shall be determined in accordance with Standard Methods for the Examination of Water and Waste Water and shall be determined at the control manhole provided for in § 231-37 or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected.

§ 231-39. Special agreements or arrangements.

No statement contained in this Article shall be construed as preventing any special agreement or arrangement between the city and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the city for treatment, subject to payment therefor by the industrial concern.

§ 231-40. Tampering with sewer system; penalties for offenses.

[Amended 4-4-1994 by L.L. No. 1-1994]

No unauthorized person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the municipal sewage works. Any person violating this provision shall be subject to the penalties set forth in the Penal Law.

§ 231-41. Right of entry.

The Plumbing Inspector and other duly authorized employees of the city, bearing proper credentials and identification, shall be permitted to enter upon all properties for the purposes of inspection, observation, measurement, sampling and testing, in accordance with the provisions of this Article.

§ 231-42. Notice of violations.

Any person found to be violating any provision of this Article, except § 231-40, shall be served by the city with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

§ 231-43. Penalties for offenses.

[Amended 4-4-1994 by L.L. No. 1-1994]

Any person who shall continue any violation beyond the time limit provided for in § 231-42 shall be subject to the penalties set forth in Chapter 1, General Provisions, Article III, of this Code.

§ 231-44. Recovery of expenses and damages.

Any person violating any of the provisions of this Article shall become liable to the city for any expense, loss or damage occasioned the city by reason of such violation.

§ 231-45. Nonliability of city.

[Added 4-4-1994 by L.L. No. 1-1994]

The city undertakes to use reasonable care and diligence to provide a constant flow to storm sewer users. The city, however, does not guarantee that blockages will not occur and assumes no liability for any damage caused to private property by the same.

§ 231-46. Check valves required.

[Added 4-4-1994 by L.L. No. 1-1994]

All building sewers must be installed with sewer check valves (backflow preventers).

ARTICLE IA. Industrial Wastewater, Other Materials and Substances

[Added 7-3-2001 by L.L. No. 4-2001]

§ 231-46.1. Acceptance and rejection of wastes.

A. If any waters or wastes are discharged or are proposed to be discharged to the sewerage system or sewers tributary thereto, which waters or wastes in the judgment of the Department of Public Works or its duly authorized agent, may have a deleterious effect upon said system or sewers, processes, equipment or receiving waters, or may otherwise create a hazard to life or constitute a public nuisance, or may exceed the concentration limits prescribed for normal sewage, the Department of Public Works or its duly authorized agent may:

- (1) Reject the waters or wastes;
- (2) Require pretreatment to an acceptable condition for discharge to the sewers;
- (3) Require control over the quantities and rates of discharge; and/or
- (4) Require payment to cover the added cost of handling and treating the waters or wastes not covered by existing charges or sewer rents;
- (5) Certified tests of industrial wastewater may be required periodically by the Department of Public Works or its duly authorized agent.

B. The discharge of waters or wastes requiring pretreatment, flow control or additional treatment will not be permitted into the sewerage system or sewers tributary thereto without previous approval by permit as prescribed under Article IB.

§ 231-46.2. Waste water requiring approval of permit.

The following are some of the industries which require approval by permit before discharging wastewater into public sewers: tanning, metal pickling, metal plating, galvanizing, pulp and paper making, brewing, distilling, public laundering, laundromats, soap making, glue manufacturing, meat and poultry packing, food processing, wool scouring, bleaching and dyeing, munitions manufacturing, oil refining, wool

washing, rubber production, salt works, chemical manufacturing, pharmaceutical manufacturing, slaughtering, dairies, dairy products, sugar refining, fat rendering, manufacture of syrups, jam or jelly, cotton textile manufacture or processing, or any industry producing wastes which may have or may create the aforesaid deleterious effects, hazards, nuisances, or added cost. The process or processes employed in the pretreatment and control, if required, of such wastewater shall in each case be satisfactory to and shall have the approval by permit of the Department of Public Works or its duly authorized agent as set forth under Article IB. No permit required pursuant to this section shall be arbitrarily denied.

§ 231-46.3. Prohibited materials, substances, water and wastes.

No person shall discharge or cause to be discharged into the sewerage system or sewers tributary thereto, any of the following materials, substances or wastes:

A. Any liquids, solids or gases which by reason of their nature or quantity are or may be sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the POTW or to the operation of the POTW. At no time shall two successive readings on an explosion hazard meter, at the point of discharge into the system (or at any point in the system), be more than 5% nor any single reading over 10% of the lower explosive limit (LEL) of the meter. Prohibited material include, but are not limited to, gasoline, kerosene, naphtha, benzene, toluene, xylene, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromates, carbides, hydrides and sulfides and any other substances which are a fire hazard or a hazard to the system.

B. Any wastewater having a pH less than 5.0 or greater than 12.0, unless the POTW is specifically designed to accommodate such wastewater, or wastewater having any other corrosive property capable of causing damage or hazard to sewers, structures, equipment or personnel.

C. Solid or viscous substances, in quantities or of such size or state, which may impair the hydraulic capacity, may cause maintenance difficulties, or may interfere with the proper operation of the sewerage system and sewers tributary hereto, such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, tar, plastics, wood, whole blood, paunch manure, feathers, hair and fleshings, entrails, paper dishes, cups, milk containers, etc., either whole or macerated.

D. Any liquid or vapor having a temperature higher than 150° F. (65° C.) or in such quantities that the temperature at the treatment works influent exceed 104° F. (40° C.). If, in the opinion of the Department of Public Works or its duly authorized agent, lower temperatures of such wastes could harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or could otherwise endanger life, health or property, or constitute or contribute to a nuisance, the Department of Public Works or its duly authorized agent may prohibit such discharges.

E. Waters or wastes containing substances which are not amenable to treatment or reduction by the POTW processes employed, or are amenable to treatment only to such a degree that the POTW effluent cannot meet the requirements of regulatory agencies having jurisdiction over discharge to the receiving waters.

F. Any wastewater containing toxic pollutants in sufficient quantity, either singly or by interaction with other pollutants, to injure or interfere with any wastewater treatment process, to constitute a hazard to humans or animals, to create a toxic effect on the receiving waters of the POTW, or to exceed the limitation set forth in a categorical pretreatment standard.

G. Any substance which may cause the POTW's effluent or any other product of the POTW, such as residues, sludges, or sums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no case, shall a substance discharged to the POTW cause the POTW to be in noncompliance with sludge use or disposal criteria, guidelines or regulations developed under Section 405 of the Federal Water Pollution Control Act; any criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, or state criteria applicable to the sludge management method being used.

§ 231-46.4. Materials, substances, waters and wastes restricted or subject to permission.

A. No person shall discharge or cause to be discharged in to the sewerage system or sewers tributary thereto, the following described materials, substances, waters, or wastes if it appears likely in the judgment of the Department of Public Works or its duly authorized agent that such wastes may have a deleterious effect upon the sewer system or sewers tributary thereto, sewage treatment or other processes, equipment, or receiving waters, or may otherwise endanger life, limb, property, or constitute a public nuisance.

B. In forming this opinion as to the acceptability of these quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction, POTW processes and capacity, degree of treatability, and other pertinent factors shall be considered.

C. The materials, substances, waters and wastes prohibited or restricted are:

(1) Any waters or wastes containing fats, wax, grease or oils, whether emulsified or not in excess of 100 mg/l, or containing substances which may solidify or become viscous at temperatures between 32° F. and 150° F. (0° C. and 65° C.).

(2) Any garbage that has not been properly shredded. The installation and operation of garbage grinders equipped with a motor greater than 3/4 horsepower shall be subject to the review and approval of the Department of Public Works or its duly authorized agent. (Not more than 30% of ground garbage, on the dry basis, shall pass a No. 40 U.S. Standard sieve.)

(3) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Department of Public Works or its duly authorized agent in compliance with applicable City, county, state or federal regulations.

(4) Materials which exert or cause unusual concentration of inert suspended solids, such as, but not limited to, Fuller's earth, lime slurries, and lime residues, or of dissolved solids, such as, but not limited to, sodium chloride and sodium sulfate.

(5) Waters or wastes which exert or cause unusual volume of flow or concentration constituting slugs, as defined herein.

(6) Any waters or wastes containing excessive discoloration, concentrations exceeding limits which may be established by the Department of Public Works or its duly authorized agent to meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(7) Any noxious malodorous liquids, gases, or solids which, either singly or by interaction with other wastes, are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for maintenance and repair.

(8) Any substance which will cause the POTW to violate its SPDES permit or the receiving water quality standards.

(9) Any wastewater with objectionable color not removed in the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions.

(10) Any waters or waste from a motor vehicle, tank truck or any other mobile conveyance without prior written authorization by the Department of Public Works or its duly authorized agent, specifying the nature, volume, manner, time and place of discharge.

D. When the Department of Public Works or its duly authorized agent determines that a user(s) is contributing to the POTW any of the above-enumerated substances in such amounts as to interfere with the operation of the POTW, the Department of Public Works or its duly authorized agent shall: advise the user(s) of the impact of the contribution on the POTW; and develop effluent limitation(s) for such user to correct the interference with the POTW.

§ 231-46.5. Prohibited or restricted toxic pollutants.

A. No person shall discharge or cause to be discharged into the sewerage system or sewers tributary thereto, any water or wastes containing toxic, poisonous, or other solids, liquids, or gases in sufficient quantity in the judgment of the Department of Public Works or its duly authorized agent, either singly or by interaction with other processes, equipment, or receiving waters, to endanger life, limb, property, or to constitute a public nuisance.

B. The following is a partial list of such prohibited or restricted substances:

(1) Alcohols.

(2) Antibiotics.

(3) Arsenic and arsenicals.

(4) Bromine, iodine, chlorine.

(5) Copper and copper salts.

(6) Cresols and creosotes.

(7) Flourides.

(8) Formaldehyde.

(9) Mercury and mercurials.

(10) Phenolic compounds.

(11) Silver and silver compounds.

 (13) Zinc compounds.
 (14) All strong oxidizing agents, such as chromates, dichromates, permanganates, peroxides, etc.
 (15) Chemical compounds producing toxic, flammable or explosive gases, either upon acidification, alkalization, oxidation or reduction.
 (16) Strong reducing agents, such as nitrates, sulphides, sulphites, thiosulphates, etc.
 (17) Wastes from industrial processes or hospital procedures containing viable pathogenic organisms.
 C. Until operating experience and knowledge indicate otherwise in the judgment of the Department of Public Works or its duly authorized agent, the tabulated maximum concentrations are established for the following substances at discharge to public sewers and at the influent to the POTW.

Substance	Maximum Concentration	
	At Distance to Public Sewers	At Sewage Treatment Plant Influent

D. Discharge concentrations shall be determined from a twenty-four-hour composite sample collected from the building service sewer at a point prior to connection to the City's collector sewers. Users with multiple discharge outfalls shall not combine wastewater streams unless approved by the Department of Public Works or its duly authorized agent.

E. The Department of Public Works or its duly authorized agent may impose lower concentrations at the point of discharge to the public sewers where maximum concentrations at the plant influent are exceeded.

§ 231-46.6. Federal categorical pretreatment standards.

Upon the promulgation of the federal categorical pretreatment standards for a particular industrial subcategory, the federal standard, if more stringent than the limitation imposed under this Part 1 for sources in that subcategory, shall immediately supersede the limitations imposed under this Part 1. The Department of Public Works or its duly authorized agent shall notify all affected users of the applicable reporting requirements under 40 CFR 403.12.

§ 231-46.7. State and county sewer district requirements.

State and county sewer district requirements and limitations on discharges shall apply in any case where they are more stringent than federal requirements and limitations or those in this Part 1.

§ 231-46.8. Dilution of discharge.

No user shall increase the use of process water or in any way attempt to dilute a discharge as a partial or complete substitute for adequate pretreatment to achieve compliance with the standards, or any pollutant specific limitation by the county sewer district or state.

§ 231-46.9. (Reserved)

§ 231-46.10. (Reserved)

ARTICLE IB. Industrial Wastewater Permit

[Added 7-3-2001 by L.L. No. 4-2001]

§ 231-46.11. Permit required.

A. Except upon the issuance of a permit therefor by the Department of Public Works or its duly authorized agent and upon such terms and conditions as may be established by the Department of Public Works or its duly authorized agent in the issuance of such a permit, it shall be unlawful for any person:

- (1) To discharge sewage directly into the sewerage system.
- (2) To discharge directly or indirectly into the sewerage system, or tributary public sewers or into any private sewer or any combined sewer discharging into a tributary public sewer, sewage combined with industrial wastewater or other wastes, which, at the point of discharge, exceed the concentration limits prescribed for normal sewage under § 231-1 herein, or fall within the categories prohibited or restricted under Article IA herein.

B. Each significant industrial user proposing to connect to or to contribute to the POTW shall obtain an industrial wastewater permit before connecting to or contributing to the POTW. Each existing significant industrial user connected to or contributing to the POTW shall obtain an industrial wastewater permit within 180 days after the effective date of this Part 1.

§ 231-46.12. Permit application.

The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. The following conditions shall apply to this schedule:
 - (a) The schedule shall contain increments of progress in the form of dates for commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (e.g., hiring an engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, etc.).
 - (b) No increment referred to in Subsection A(9)(a) shall exceed nine months.
 - (c) Not later than 14 days following each date in the schedule and the final date for compliance, the user shall submit a progress report to the Department of Public Works or its duly authorized agent stating, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the day on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the user to return the construction to the schedule established. Where a user subject to a national categorical pretreatment standard has not previously submitted an application for an industrial wastewater permit as required by Article IB of this Part 1, the user shall apply for a permit within 180 days after the promulgation of the applicable national categorical pretreatment standard. In addition, the user with an existing industrial wastewater permit shall submit to the Department of Public Works or its duly authorized agent within 180 days after the promulgation of an applicable federal categorical pretreatment standard, the information required by Subsection A(8) and (9).

§ 231-46.13. Terms and conditions.

Terms and conditions as may be required and imposed by the Department of Public Works or its duly authorized agent in the issuance of the permit are as follows:

A. A limitation upon the volume of sewage and the rate of flow permitted from the premises;

B. The installation and maintenance by the permittee, at his own expense, of facilities or equipment for intermittent or continuous measurement of sewage, industrial wastewater or other wastes discharged from the premises into a public sewer and maintenance of appropriate records of all measurements;

C. The installation and maintenance by the permittee, at his own expense, of detention tanks or other facilities or equipment for reducing the maximum rates of discharge of sewage to such a percentage of the twenty-four-hour rate as may be required by the Department of Public Works or its duly authorized agent;

D. The installation and maintenance by the permittee, at his own expense, of such pretreatment facilities as may be required by the Department of Public Works or its duly authorized agent;

E. The installation and maintenance by the permittee, at his own expense, of a suitable control or sampling manhole or manholes in any sewer discharging to a public sewer for which a permit is issued;

F. The installation and maintenance by the permittee, at his own expense, of grease, oil and sand interceptors, separators or traps that are necessary for the proper handling of liquid wastes containing such substances in excessive quantities or any flammable waste or other harmful ingredients;

G. The submission to and approval by the Department of Public Works or its duly authorized agent of the plans for any of the facilities or equipment required to be installed and maintained by the permittee;

H. Such other terms and conditions as may be necessary to protect the sewerage system and the public sewer tributary to it and to carry out the intent and provisions of these rules and regulations;

I. Such terms and conditions may also provide that subsequent to the commencement of operation of any pretreatment facilities, periodic reports with certified test results shall be made by the permittee to the Department of Public Works or its duly authorized agent, setting forth adequate data upon which the acceptability of the sewage, industrial wastewater or other wastes, after treatment, may be determined;

J. Where pretreatment of flow-equalizing facilities are provided for any water or wastes, they shall be maintained continuously in satisfactory and effective operation by the permittee at his expense;

K. A violation by the permittee of the permit shall be a cause for revocation or suspension of the permit.

§ 231-46.14. Sampling and testing wastes.

Whenever sewage, industrial wastewater or other wastes having characteristics other than prescribed for normal sewage as defined in § 231-1 herein, or falling within the categories of waste prohibited or restricted from public sewers pursuant to these rules and regulations, is discharged into public sewers from any premises, the Department of Public Works or its duly authorized agent shall have the right to take samples and tests as may be necessary to determine the nature and concentration of such wastes,

and shall have the right to reassess its determinations by taking samples and test at any time or by periodic rechecks without notice to the person discharging such wastes.

A. Samples shall be taken and flow measurements made normally at the control manhole or manholes.

B. In the event that the requirement for a control manhole or manholes has been specifically waived, the samples shall be taken at a point or points to be selected by the Department of Public Works or its duly authorized agent.

C. When required by the Department of Public Works or its duly authorized agent, the owner of any property served by a building sewer carrying industrial wastewater and classified as a significant industrial user shall install a suitable control manhole, together with such meters and other appurtenances in the building sewers as are necessary, to facilitate observation, sampling and measurement of the wastes. Such manholes, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Department of Public Works or its duly authorized agent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

D. Measurement and analyses of wastes. All measurements, tests and analyses of the characteristics of water and wastes to which reference is made in these rules and regulations shall be determined in accordance with the latest edition of "Standard Methods for Examination of Water and Waste Water," published by the American Public Health Association, and shall be determined at the sampling part, or upon suitable samples taken at said sampling part. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb and property.

§ 231-46.15. Term of permit; transfer.

A. Permits shall be issued for a specified time period, not to exceed three years. A permit may be issued for a period of less than a year or may be stated to expire on a minimum of 180 days prior to the expiration of the user's existing permit. The terms and conditions of the permit may be subject to modification by the Department of Public Works or its duly authorized agent during the term of the permit as limitations or requirements, as identified in Article IA, are modified or other just cause exists. The user shall be informed of any proposed changes in his permit at least 30 days prior to the effective date of change. Any changes or new conditions in the permit shall include a reasonable time schedule for compliance.

B. Permit transfer. An industrial wastewater permit is issued to a specific user for a specific operation, A permit shall not be reassigned or transferred or sold to a new owner, new user, different premises, or a new or changed operation.

§ 231-46.16. Reporting requirements for permittee.

A. Compliance date report. Within 90 days following the date for final compliance with applicable pretreatment standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any user subject to pretreatment standards and requirements shall submit to the Department of Public Works or its duly authorized agent a report indicating the nature and concentration of all pollutants in the discharge from the regulated process which are limited by such pretreatment standards or requirements. The report shall state whether the applicable pretreatment standards or requirements are being met on a consistent basis and, if not, what additional O & M and/or pretreatment is necessary to bring the user into compliance with the applicable pretreatment standards or requirements. This statement shall be signed by an authorized representative of the industrial user and certified by a qualified professional.

B. Periodic compliance reports.

(1) Any user subject to a pretreatment standard, after the compliance date of such pretreatment standard, or, in the case of a new source, after commencement of the discharge into the POTW, shall submit to the Department of Public Works or its duly authorized agent during the months of June and December, unless required more frequently in the pretreatment standard or by the Department of Public Works or its duly authorized agent, a report indicating the nature and concentration of pollutants in the effluent which are limited by such pretreatment standards. In addition, this report shall include a report of average daily flow which occurred during the reporting period. At the discretion of the Department of Public Works or its duly authorized agent and in consideration of such factors as local high or low flow rates, holidays, budget

cycles, etc., the Department of Public Works or its duly authorized agent may agree to alter the months during which the above reports are to be submitted.

(2) The Department of Public Works or its duly authorized agent may impose mass limitations on users which are using dilution to meet applicable pretreatment standards or requirements or in other cases where the imposition of mass limitations are appropriate. In such cases, the report required by Subsection B(1) of this section shall indicate the mass of pollutants regulated by pretreatment standards in the effluent of the user. These reports shall contain the results of sampling and analysis of the wastewater, including the concentration, or production and mass where requested by the Department of Public Works or its duly authorized agent, of pollutants contained therein which are limited by the applicable pretreatment standards. The frequency of monitoring shall be prescribed in the applicable pretreatment standard. All analysis shall be performed in accordance with procedures established by the Administrator of the United States Environmental Protection Agency (hereinafter Administrator) pursuant to Section 304(g) of the Act and contained in 40 CFR, Part 136 and amendments thereto or with any other test procedures approved by the Administrator. Sampling shall be performed in accordance with the techniques approved by the Department of Public Works or its duly authorized agent.

§ 231-46.17. Pretreatment; publication of list of noncompliant users.

A. Users shall provide necessary wastewater pretreatment as required to comply with this Part 1 and the Sewer Use Ordinance of the County Sewer District and shall achieve compliance with all federal categorical pretreatment standards within the time limitations as specified by the federal pretreatment regulations. Any facilities required to pretreat wastewater to a level acceptable to the County Sewer District shall be provided, operated and maintained at the user's expense. Detailed plans and descriptions of the pretreatment facilities and operating procedures shall be submitted to the Department of Public Works and the County Sewer District for review, and shall be acceptable to the Department of Public Works and the County Sewer District before construction of the facility. The review of such plans and operating procedures will in no way relieve the user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the Department of Public Works and the County Sewer District under the provisions of this Part 1 and the Sewer Use Ordinance of the County Sewer District. Any subsequent changes in the pretreatment facilities or method of operation shall be reported to and be acceptable to the Department of Public Works and the County Sewer District prior to the user's initiation of the changes.

B. The Department of Public Works or its duly authorized agent shall annually publish in a newspaper of general circulation a list of the users which were not in compliance with any pretreatment requirements or standards at least once during the 12 previous months. The notification shall also summarize any enforcement actions taken against the user(s) during the same 12 months.

C. All records relating to compliance with pretreatment standards shall be made available to officials of the EPA or approval authority upon request.

§ 231-46.18. Confidential information.

A. Information and data on a user obtained from reports, questionnaires, permit applications, permits and monitoring programs and from inspections shall be available to the public or other governmental agency without restriction unless the user specifically requests and is able to demonstrate to the satisfaction of the Department of Public Works or its duly authorized agent that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the user.

B. When requested by the person furnishing a report, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public but shall be made available upon written request to governmental agencies for uses related to this Part 1, the National Pollutant Discharge Elimination System (NPDES) permit, state disposal system permit and/or the pretreatment programs; provided, however, that such portions of a report shall be available for use by the County Sewer District, state or any state agency in judicial review or enforcement proceedings involving the person finishing the report. Wastewater constituents and characteristics will not be recognized as confidential information.

C. Information accepted by the Department of Public Works or its duly authorized agent as confidential shall not be transmitted to any governmental agency or to the general public by the Department of Public Works or its duly authorized agent until and unless a ten-day notification is given to the user.

D. Required notice of change in volume or character of wastes. Any industrial user, which is connected to the County Sewer District POTW and is discharging wastewater thereto, shall notify the Department of Public Works and County Sewer District 15 days prior to the commencement of any action, alteration or construction that will result in a significant change in the flow volume or character of this discharge. Notification of discharge under emergency conditions and spillage of wastewater not in accordance with standards shall be made as required in this article.

§ 231-46.19. Pretreatment standards.

In compliance with Public Laws 84-660 and 92-500 of the Water Pollution Control Acts and amendments thereto, these regulations adopt and use as a guide the national pretreatment standards and the Environmental Protection Agency's (EPA) pretreatment guidelines. The Department of Public Works recognizes that, in some cases, these pretreatment standards may not be sufficient to protect the operation of the County Sewer District's POTW treatment plant and enable it to comply with the terms of the County Sewer District's SPDES permit. In such cases, the Department of Public Works and County Sewer District reserve the right to impose more stringent pretreatment standards than those specified in the EPA regulations.

§ 231-46.20. (Reserved)

A. The Department of Public Works or its duly authorized agent may suspend the wastewater treatment service and/or an industrial wastewater permit when such suspension is necessary, in the opinion of the Department of Public Works or its duly authorized agent in order to stop an actual or threatened discharge which presents or may present an imminent or substantial endangerment to the health or welfare of persons, to the environment, causes interference to the County Sewer District's POTW or causes the County Sewer District to violate any condition of its SPDES Permit.

B. Any user notified of a suspension of the wastewater treatment service and/or the industrial wastewater permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the suspension order, the Department of Public Works or its duly authorized agent shall take such steps as deemed necessary, including immediate severance of the sewer connection, to prevent or minimize damage to the County Sewer District's POTW system or endangerment to any individuals. The Department of Public Works or its duly authorized agent shall reinstate the industrial wastewater permit and/or the wastewater treatment service upon proof of the elimination of the noncomplying discharge. A detailed written statement submitted by the user describing the causes of the harmful contribution and the measures taken to prevent any future occurrence shall be submitted to the Department of Public Works or its duly authorized agent within 15 days of the date of occurrence.

§ 231-46.24. Revocation of permit.

Any user who violates the following conditions of this Part 1 and the Sewer Use Ordinance of the County Sewer District, or applicable state and federal regulations, is subject to having his industrial wastewater permit revoked in accordance with the procedures in this section:

- A. Failure of a user to factually report the wastewater constituents and characteristics of his discharge;
- B. Failure of the user to report significant changes in operations, wastewater constituents and/or characteristics;
- C. Refusal of reasonable access to the user's premises for the purpose of inspection or monitoring; or,
- D. Violation of conditions of the permit.

§ 231-46.25. Notification of violation.

Whenever the Department of Public Works or its duly authorized agent finds that any user has violated or is violating this Part 1 and the Sewer Use Ordinance of the County Sewer District, wastewater permit, or any prohibition, limitation of requirements contained herein, the Department of Public Works or its duly authorized agent may serve upon such person a written notice stating the nature of the violation. Within 30 days of the date of the notice, a plan for the satisfactory correction thereof shall be submitted to the Department of Public Works or its duly authorized agent by the user.

§ 231-46.26. Falsifying information; penalties.

Any user who knowingly makes any false statements, representation, or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this Part 1 or to the industrial wastewater permit, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required shall, upon conviction, be punished by a fine of not more than \$1,000 or by imprisonment for not more than six months, or by both.

§ 231-48. Application for service; connection fees.

[Amended 4-4-1994 by L.L. No. 1-1994; 9-21-1999]

A. Application for a new service connection shall be made at the office of the Utilities Department on the form provided. The application fee shall be paid directly to the Department of Finance upon submittal of the application. The application shall state the name of the owner of the property to which the new service will be connected, which person shall be responsible for the payment of all water rents, and shall state the location of the connection, the time the work will be started and completed and the category of the service. The application must be signed by a licensed plumber who will perform the work involved.

B. During the construction of any improvement to any real property in the city which requires the installation of a new service connection to a city main, the person or legal entity so installing such new service may connect to the city system to use city water only after making application to the Department of Public Works as heretofore provided, and paying the fees as hereinafter prescribed.

(1) For a service connection to the city water system, a fee of \$3,000 for each unit, which unit is defined as any estimated usage of 15,000 cubic feet of water per year. Any such person shall supply to the Department of Public Works information setting forth reasonably anticipated water needs for such improvement. All funds received by the city under this section shall be placed in an account designated for the purposes outlined in the preamble to this legislation and for no other purposes. Editor's Note: "This legislation" refers to the ordinance adopted 9-21-1999, the preamble to which is on file in the City Clerk's office.

(2) For each additional unit of water use per year there shall be charged \$1,000 for each additional unit.

C. Any development which will require a new service connection or connections shall make application to connect to the city water system to the Department of Public Works for approval of such connection and shall, prior to submitting any application to any city board or office, including but not limited to the Building Inspector or the Planning Board, enter into an agreement with the Department of Public Works for payment of all connection fees imposed herein.

§ 231-49. Acceptance of applications.

[Amended 4-4-1994 by L.L. No. 1-1994]

Applications will be accepted by the City Utilities Department subject to the existence of a water main of suitable size and condition in a street or right-of-way abutting the premises to be served. The application in no way obligates the city to extend its mains to serve the premises under consideration. No agreement will be entered into by the city with any applicant for water service until all arrears and charges due by the applicant for water rents or services of the Utilities Department at any premises now or heretofore owned by such person shall have been paid in full.

§ 231-50. Right to construct service connection.

A. Upon receipt of a permit from the city, the owner may have the service connection installed by the plumber whose name appears on the application. Should the owner desire to use a different plumber to make such connection for any reason whatsoever, he must reapply for a permit. All other permits as may be necessary for the particular situation must be obtained prior to excavation.

B. There will be no additional water service connections made beyond that stated in the application without first obtaining a permit to construct such additional services.

C. The entire service lateral from the main in the street to the owner's premises is the property of the owner, and any and all repairs shall be the responsibility of said owner. There shall be a separate service lateral for each principal structure from the main in the street to said principal structure. Common water and sewer services are not permitted.

[Added 2-16-1988]

§ 231-51. Performance of system.

The city undertakes to use reasonable care and diligence to provide a constant supply of water at reasonable pressure to the users. However, the city reserves the right at any time, without notice, to shut off the water in its mains for the purpose of making repairs, taps and extensions, and the city will not be held liable for deficiency or failure in the supply of water or in the pressure for any cause whatsoever. The city will, however, give notice, where practical, of such shutoffs. The city water system furnishes water and not pressure and does not guarantee a continuous supply. No responsibility will be assumed by the city for any damages to any apparatus in any house or building due to the shutting off or turning on of water with or without notice.

§ 231-52. Extensions of system.

A. In the case where a new or existing main is connected to the city water system and such has been constructed by an entity other than the Utilities Department, all applicable standards and regulations must be met prior to acceptance. Acceptance of the line or lines shall be conditional for a period of one year, and all breaks, leaks or other damage which occur in or due to the lines shall be the responsibility of the former owner to repair. When such damage is detected within that period, the Utilities Department shall notify the former owner and request that prompt action be taken to repair such damage, whether it is damage to the line itself or damage caused by a result of the leak. Where the Utilities Department deems that the previous owner has not taken prompt action to repair the damage and it feels that the resulting conditions degrade the public safety, it may elect to do such repair itself or to contract such work through some other source and to charge the previous owner for all of the costs incurred.

[Amended 4-4-1994 by L.L. No. 1-1994]

B. Before such extensions will be accepted, the owner shall deposit with the Department of Finance a bond equal to 5% of the normal construction cost of such extension, including service connections, which shall be in effect for the period of conditional acceptance.

C. The Commissioner of Public Works reserves the right to waive or amend the standards for acceptance, to reduce or increase the period of conditional acceptance and to waive the bonding requirement.

§ 231-53. Payment of water rents.

A. All water and sewage dispensed through the city water and sewer system shall be classified under one (1) of the following categories: ordinary usage, special permit or outside of service area. The determination of the category shall be made by the Utilities Department at the time of the issuance of the permit.

[Amended 3-15-1982; 4-4-1994 by L.L. No. 1-1994]

B. All bills for water and sewer rates and services, based on the water and sewer rate schedules in effect at that time, will be mailed to the owners of the real property served, and the owners shall be liable for the same. Payment shall be made directly to the Department of Finance. The payment of a bill and penalties for nonpayment shall be as specified in the City Charter, Title IX, § C81, and Title X, § C91. The charges for water and sewer rates shall be set in accordance with the rates established by the City Council and in accordance with the laws of the State of New York and the provisions in the City Charter.

[Amended 3-15-1982]

C. In the event that the owner questions the accuracy of his water meter, such will be tested in his presence upon his request.

D. All meters are to be safely tied with wire and sealed at the register and case connections. Seals shall not be broken without permission from the Utilities Department.

[Amended 4-4-1994 by L.L. No. 1-1994]

E. All accounts shall be metered before supplying any part of the property being served. Where, for any reason, the user is not metered, he will be billed as noted in the rate schedule for water use as estimated by the Utilities Department. In addition, a penalty will be assessed as noted in the rate schedule. For the intent of this Article, a dead meter shall be the same as if there were no meter at that location.

[Amended 4-4-1994 by L.L. No. 1-1994]

F. Each dwelling house, trailer or building shall have a separate meter, and under no circumstances shall one property be serviced through another of unrelated occupancy.

G. Where leaks occur on private property upstream of the point where the quantity of flow is metered, the Utilities Department may estimate the total amount of water which has been expended through the leak beginning from the time the user has been notified of the leak to the time when such leak has been stopped. Such volume of water shall be classified as special use and will be included in the subsequent bill.

[Amended 4-4-1994 by L.L. No. 1-1994]

H. It shall be the responsibility of the property owner to provide a place for the city to install the water meter or meters. Such place or places shall be in a location that is easy of access and in accordance with the requirements as prescribed by the Utilities Department. The place provided shall be heated at all times to prevent the meter from freezing. No unauthorized person shall in any way damage, disfigure or interfere with any water meter. The only authorized persons referred to herein are those that are authorized by the Utilities Department. In the event that any meter is damaged because of a freeze-up or because of some interference to the water meter or by an unauthorized person as referred to herein, then the property owner and/or the user shall be responsible for any and all repairs, costs, damages and replacements occurred as a result of the same. Not only shall the owner and/or the user be personally responsible for this cost, but the same may become a lien upon the property serviced by the meter and foreclosed in the manner provided for unpaid water charges.

[Added 3-15-1982; amended 4-4-1994 by L.L. No. 1-1994]

§ 231-54. Change of ownership of building or property.

[Amended 4-4-1994 by L.L. No. 1-1994]

A. When a building or property, or part thereof, serviced by a City water meter undergoes a change of ownership, a request may be made by the seller or by an representative of a seller for a current reading of the meter. The person making such request to the Utilities Department shall be responsible for providing the meter reader with access to the water meter. Persons requesting meter reading under this subsection shall pay a fee of \$50 for each meter reading request. Persons requesting meter readings on multiple metered accounts under this subsection shall pay a fee of \$50 for the initial meter reading requested; additional meter readings at each building location will be charged at \$20 each. Said fee(s) shall be a charge on the next water bill for the property on which the meter is located.

[Amended 6-21-2005]

B. In the case of abandonment of the property, the Utilities Department may continue to serve water to the property and to bill for the same until it is notified, in writing, of such abandonment.

C. In the case where the property is to be razed, the property owner or his agent shall notify the Utilities Department so that the service line may be disconnected from the city main and that the meter may be read and removed. Where such notice is not given and damage results, the property owner shall be responsible to pay any and all such damages. It is the responsibility of the property owner to disconnect the abandoned service lateral at the corporation stop.

§ 231-55. Discontinuance of service.

[Amended 3-15-1982]

A. Water and sewer services may be discontinued after reasonable notice is given the owner and user for any of the following reasons:

- (1) For use of water other than for the purpose represented in the application.
- (2) For willful waste of water through improper or imperfect pipes.
- (3) For molesting any service pipe, seal, meter, curb stop or any other appurtenance of the water and sewer systems.

(4) For nonpayment of bills for water and sewer rates or for services or penalties rendered by the Utilities Department.

[Amended 4-4-1994 by L.L. No. 1-1994]

(5) For cross-connecting the city service pipe with any other source of supply or with any apparatus which may endanger the quality of the city water supply.

(6) For refusal of reasonable access to the property for the purpose of inspecting or repairing, replacing or reading of the water meter.

(7) For violation by the user of any regulation of the New York State Health Department and of the unified codes of the city.

B. Where two (2) or more consumers are now supplied with water and sewer through one (1) service connection under the control of one (1) corporation stop, if any of the parties so supplied shall violate any of the rules of this Article, the city reserves the right to shut off the joint service line, except that such action shall not be taken until the innocent consumer who is not in violation of the city rules has been given a reasonable opportunity to attach his pipe to a separately controlled service connection. Such connection is to be made at the owner's expense.

C. In cases where, in the opinion of the Utilities Department, the public safety is endangered because water and sewage is leaking through a faulty connection and the leak lies on private property, the Utilities Department shall inform the user and owner and request the owner to repair or replace the faulty connection and thereupon shall shut off the water to this user.

[Amended 4-4-1994 by L.L. No. 1-1994]

§ 231-56. Restrictions on use of water.

A. The Utilities Department reserves the right to restrict or to stop any and all uses of water outside of the building to which the service is connected. Such uses include the sprinkling of lawns; the washing of automobiles, houses or walks; or any other use deemed by the Utilities Department to be within the intent of the section.

[Amended 4-4-1994 by L.L. No. 1-1994]

B. The city shall give notice of such restricted water use in the official newspaper of the city at least one (1) day prior to the enforcement of this restriction.

§ 231-57. Equipment using city water.

[Amended 4-4-1994 by L.L. No. 1-1994]

Any equipment, such as refrigeration or air-conditioning, operated by the user, which equipment discharges into a sewer system, shall have a free-air-gap section at the entry into the sewage system. All such equipment, including but not limited to fire sprinkler systems, shall have backflow preventers installed.

§ 231-58. Emergency powers.

In the event of an emergency, water vehicles and personnel shall have the right-of-way in the work area and, if necessary, shall have the right to close sections of streets or highways where the work involved may be hazardous to people or vehicles.

§ 231-59. Permit for construction of service connection.

[Amended 4-4-1994 by L.L. No. 1-1994]

A. No person shall excavate within a public right-of-way with the purpose to connect a water service to the city water system without first receiving written permission from the City Utilities Department to make such a connection and from the owners of any such private property or utility which may lie within ten (10) feet in any direction of the excavation.

B. Prior to excavating on a city right-of-way on his property, the person who is making the connection will:

- (1) Arrange a mutually agreeable date with the City Utilities Department for the digging.
- (2) Obtain knowledge from the City Utilities Department and from owners of any public or private utility as to the proper location for the digging.
- (3) Place the sum of one hundred dollars (\$100.) with the Department of Finance to be held in escrow for a sixty-day period to be used to reimburse the city for any expenses it might accrue which are due to the effect of the excavation. The Department of Public Works reserves the right to waive or amend this requirement.

C. All repairs to the existing public or private property shall be made promptly and are subject to the approval by the Utilities Department or by the owner of the private property, or both, for a period of one (1) year from the date of the excavation.

§ 231-60. Excavations.

[Amended 4-4-1994 by L.L. No. 1-1994]

No excavation on a city right-of-way and/or on city property shall be made without first obtaining all necessary permits. Furthermore, proper consideration of surrounding conditions and due regard for safety of the public shall be maintained at all times. Where practical, excavations shall be backfilled at the end of each working day; however, at the discretion of the Utilities Department and where the magnitude of the work prevents such backfilling, excavations shall be guarded and lighted in a manner detailed by the Utilities Department. While open, all excavations shall be clearly marked and guarded so as to permit the maintenance and regulation of traffic as determined by the Utilities Department.

§ 231-61. Safe construction.

[Amended 3-5-1984; 4-4-1994 by L.L. No. 1-1994]

A. No person other than employees of the Department shall make any connection, repair, addition or alteration to any city water main.

B. Connection from the corporation stop to the user's premises will be made only after all permits to do so have been obtained from the Utilities Department by a plumber who is licensed by the city to do such work. All waterlines beyond the corporation stop will be furnished by the user and shall not be less than three-fourths-inch Type K copper. Meters up to and including one (1) inch in size will be furnished. All meters larger than one (1) inch are to be furnished by the user. Further, all such meters larger than one (1) inch are to be maintained by the user thereof. As part of such maintenance, said meters shall be tested by the user. Such tests shall occur whenever directed by the Public Works Department of the City of Saratoga Springs; but in any event, every such meter shall be tested a minimum of once every five (5) years. All tests shall comply with American Waterworks Association Water Meter Test Specifications or such other appropriate test specifications as may be approved by the Department of Public Works.

C. All new water services shall be metered at the nearest point of entry into the building, and such metering shall be equipped with appropriate valves on the inlet and outlet side. The meter is to be installed in horizontal piping by the personnel of the City Utilities Department.

D. Service pipe shall have a minimum cover of five (5) feet or be insulated if such cover is not possible. Where the service line must cross an existing sewer, it must pass at least eighteen (18) inches above the sewer, and the sewer must be encased in concrete with at least six (6) inches of cover on all sides for a distance of three (3) feet on either side of the service line. The Utilities Department reserves the right to effect more stringent sanitary precautions where it deems necessary or where the connection is made to a place of public use.

§ 231-62. Turning on service.

A. All turning on and shutting off of water is the responsibility of the city, and no person is to tamper with or touch the corporation stop in any manner.

B. No turn-ons will be made unless the property owner or his agent is on the premises at the time the service is rendered. In the event that damages result to the premises because of the water being turned on, the city will not be held responsible, and all repairs shall be made at the expense of the property owner.

§ 231-63. Attachment of electrical grounds.

No electrical grounds will be attached to pipes which are located beyond the outlet valve of the water meter or at any location such that the ground will be broken when the meter is removed.

§ 231-64. Operation of valves.

[Amended 4-4-1994 by L.L. No. 1-1994]

No person other than employees of the Utilities Department shall molest or interfere with or open or close, or attempt to do so, any valve or shutoff appurtenant to the mains through which city water flows, except for private hydrants. Private hydrants are to be operated only for the use intended under special permit or as agreed by special contract with the City Utilities Department. In all except emergency cases,

the Utilities Department shall be informed prior to each time the hydrant is to be used, and a log shall be kept of the duration of time during which water is flowing from the hydrant.

B. Except as stipulated above, no person other than employees of the Utility Department, the Fire Chiefs or members of the Fire Department shall manipulate, control or operate, or attempt to do so, any hydrant or plug deriving its supply of water from the city water system. In any event, only those trained in the operation of such fire hydrants or plugs will be permitted to manipulate the same.

§ 231-65. Connections to system.

A. No person other than employees of the Utilities Department shall make any connections, repairs, additions or alterations to the city water system except as defined in §§ 231-64 through 231-67.

[Amended 4-4-1994 by L.L. No. 1-1994]

B. The owners of all premises having connection with any water main through which city water flows must keep all the pipes and fixtures in connection therewith in good repair and protected against freezing.

§ 231-66. Protection of watershed.

The Public Health Law, § 100, with reference to the City of Saratoga, New York, Section 141.3 or Part 141, Subchapter A, Chapter III, Title 10 of the Official Compilation of Codes, Rules and Regulations of the State of New York, is hereby incorporated into this Article.

§ 231-67. Tampering with system.

[Amended 4-4-1994 by L.L. No. 1-1994]

§ 231-69. Water rates.

[Added 3-15-1982]

§ 231-72. Nonpayment of bills.

[Added 3-15-1982]

The water supply may be shut off from any premises for which the water bill remains unpaid for a period of ten (10) days after the bill is rendered and mailed. When shut off, water shall not be turned on except upon the payment of the usual fee for turning on water.

§ 231-73. Charges act as lien.

[Added 3-15-1982]

Charges for water shall be a lien upon the premises as provided for in § C81 of the City Charter and also as provided by the statutes and laws of the State of New York. The Commissioner of Finance shall prepare a statement of all unpaid water and other related charges thirty (30) days after the same have become due and payable. Failure, however, to prepare this statement as provided for herein shall not affect the right of the city to establish its lien for unpaid water bills and to foreclose the lien as provided in the City Charter and the statutes and laws of the State of New York. Furthermore, nothing herein shall prevent the city from proceeding against the user and/or owner of the property which benefited from the water use as a personal claim, and the City Attorney is hereby authorized and directed to institute any proceeding in the name of the city in any court of competent jurisdiction against any property and against any user of city water that said City Attorney deems necessary. The rates and charges herein established, in addition to being a lien upon the premises as provided for herein and in the City Charter, may be collected from the owners, occupants and users of the premises benefiting from the water charges and other related charges from and after the effective date of this Article. Editor's Note: Original §§ 132-92 through 132-94, dealing with sewer rates, which immediately followed this section, were deleted 4-4-1994 by L.L. No. 1-1994. See now §§ 231-2 through 231-4.
