Dear Ms. Brillig:

Enclosed please find abbreviated Cost of Service filings for the above referenced systems. Please note that the rebuild in all of the systems have been completed and therefore the Form 1235 is being filed as a final filing.

As you know, Cablevision has been in the process of rebuilding its cable network in the New York metropolitan area and will have invested considerable capital when completed. Upon completion, the rebuild will consist of a two-way 750 MHz HFC (hybrid fiber coax) system.

The utilization of this advanced technology will provide many enhancements that will benefit all subscribers such as advanced video services, interactive video, service reliability, improved picture quality, increased channel capacity, new package offerings and two way capability, to name a few.

As always, if you have any questions please feel free to contact me at any time.

Sincerely,

Jeffrey M. Clark
Director Franchise Management
