Consumer Access to the Public Utility Commission

The Pennsylvania Public Utility Commission (PUC) provides access to consumers through the following telephone numbers:

PUC Hotline: 1-800-692-7380 (toll free)

Consumers can also reach the Commission
by mail at the following address:

Pennsylvania Public Utility Commission
P.O. Box 3265
Harrisburg, PA 17105-3265

Information about the PUC is available on the Internet:

Consumer Access to the PUC	Inside Back Cover

1. Consumer Contacts to the Bureau of Consumer Services

The Pennsylvania Public Utility Commission's Bureau of Consumer Services (BCS) began investigating and writing decisions on utility consumer complaints and service termination cases in April 1977. Since then, BCS has investigated 1,990,745 cases, which include consumer complaints and payment arrangement requests (PARs), and has received 1,624,336 opinions and requests for information (inquiries). In 2015, BCS received 187,466 contacts by consumers including 61,118 utility customer contacts that required investigation. It is important to note that BCS determined 86 percent of the 2015 customer complaints investigated and reviewed had been appropriately handled by the subject utilities before the customers brought them to the PUC.

Case Handling

The handling of utility complaint cases is the foundation for a number of BCS's programs. The case-handling process provides an avenue through which consumers can obtain redress for errors and responses to inquiries. However, customers are required by Commission regulations to attempt to resolve problems directly with their utilities prior to filing a complaint or requesting a payment arrangement with the PUC. Although exceptions are permitted under extenuating circumstances, BCS generally handles those cases in which the utility and customer could not find a mutually satisfactory resolution to the problem.

Once a customer contacts the PUC with an informal complaint or PAR, BCS notifies the utility that a complaint or PAR has been filed. The utility sends BCS all records concerning the complaint, including records of its contacts with the customer regarding the complaint. A BCS investigator reviews the records, interacts with both the complainant and utility as necessary, renders a decision and closes the case.

Consumer Feedback Survey

In order to monitor its own service to consumers, BCS uses a third party to survey a sampling of customers who have contacted BCS with a utility-related problem or PAR. The purpose of the survey is to collect information from the consumer's perspective about the quality of the BCS complaint-handling service. The table on the next page shows how consumers rate the service they received from BCS.

Consumer Rating of BCS Service

How would you rate the service you received from the PUC (BCS)?	2014	2015
Excellent	57%	61%
Good	23%	22%
Fair	11%	9%
Poor	9%	8%

According to the survey results, 83 percent of consumers who contacted BCS in 2015 rated the BCS's service as "excellent" or "good." Appendix A presents more information about how consumers rated the service they received from BCS in 2014 and 2015. BCS management frequently reviews the findings of the consumer feedback survey and promptly investigates any negative trends to improve staff performance and ultimately customer service.

Databases

To manage and use its complaint data effectively, BCS maintains a computer-based Consumer Services Information System (CSIS) through a contract with the Pennsylvania State University. This system enables BCS to aggregate and analyze the thousands of informal complaints that are reported to the Commission each year. In this way, BCS can address generic as well as individual problems. BCS policy analysts categorize complaints into one of 36 specific problem categories. This case information is transmitted to the CSIS database for analysis. The analysis from case information is used by BCS to generate reports to the Commission, utilities, legislators and the public. The reports present information regarding utility performance, industry trends, investigations, new policy issues and the impact of utility or Commission policy.

The majority of the data presented in this report is from CSIS. In addition, this report includes statistics from BCS's Collections Reporting System (CRS), Local Exchange Carrier Reporting System (LECRS) and Compliance Tracking System (CTS). Both the CRS (for electric and gas) and the LECRS (for telephone) provide valuable resources for measuring changes in company collection performance, including the number of residential service terminations, while CTS maintains data on the number and type of apparent infractions attributable to the major utilities.

Distinctions Among Cases

A number of cases were removed from the analyses that appear later in this report because the cases did not fairly represent company behavior. One treatment of the data involved the removal of complaints about problems over which the Commission has no jurisdiction; information requests that did not require investigation; and most cases where the

customers indicated that they had not contacted the company prior to contacting the Commission.

Commercial customer contacts also were excluded from the data used in the analysis. Although BCS's regulatory authority has largely been confined to residential accounts, the Bureau handled 1,440 cases from commercial customers in 2015. Of these cases, 483 were related to loss of utility service, while the remaining 957 were consumer complaints.

With respect to the 483 commercial cases, BCS cannot make payment arrangements for those accounts. Due to its limited jurisdiction over commercial cases, BCS does not issue decisions regarding commercial disputes. Instead, Bureau investigators give commercial customers information regarding the company position or attempt to mediate a mutually acceptable agreement regarding the disputed matter. Many such cases are referred to the Office of Administrative Law Judge's Mediation Unit for Alternative Dispute Resolution where an attempt is made to mediate a resolution between the utility and its customer.

The table below shows that the vast majority of cases handled by BCS in 2015 involved residential utility service. Appendix B presents a comparison of the number of residential and commercial consumer complaints and PARs for 2014 and 2015.

Total Volume of Consumer Complaints and Payment Arrangement Requests (PARs) to BCS in 2015*

Industry	Consumer Complaints		Payment Arrangement Requests	
	Residential	Commercial**	Residential	Commercial**
Electric	6,248	611	32,001	326
Gas	1,765	158	13,818	133
Water	620	43	4,024	23
Telephone	1,091	145	106	1
Other***	3	0	2	0
Total	9,727	957	49,951	483

*This chart represents "investigated cases" only, and not those cases handled on the first call.

**All cases in 2015 that involved commercial accounts were deleted from the analyses in subsequent chapters of this report.

***Sewer and steam heat complaints are designated as "other" in this table and the tables that follow.

Generally, customer contacts to BCS fall into three basic categories: consumer complaints, PARs and inquiries. Consumer complaints and PARs are taken in by BCS for further investigation, while inquiries are not. BCS classifies consumer complaints as contacts regarding disputes about utilities' actions related to billing, service delivery, repairs, etc. PARs are classified as contacts involving payment negotiations for unpaid utility service. Consumer complaints and PARs often are collectively referred to as informal complaints. Inquiries include information requests, opinions from consumers and complaints addressed on the initial call which do not require further investigation on the part of BCS.

Consumer Complaints

Most consumer complaints regarding the electric, gas, water, sewer and steam heat industries deal with matters covered under 52 Pa. Code, Chapter 56, Standards and Billing Practices for Residential Utility Service and/or Chapter 14 of the Public Utility Code, the Responsible Utility Customer Protection Act. For the telephone industry, most of the cases found in the consumer complaint category deal with matters covered by 52 Pa. Code, Chapter 64 Standards and Billing Practices for Residential Telephone Service and Chapter 63 Telephone Service. For the most part, consumer complaints represent those customers who contacted the Commission due to the inability of the utility and the customer to reach a mutually satisfactory resolution to a dispute.

Consumer Complaints by Industry* 2014-15

Industry	2014	2015	% Change
Electric	14,995	6,859	-54%
Gas	2,963	1,923	-35%
Water	666	663	-<1%
Telephone	1,104	1,236	12%
Other	7	3	-57%
Total	19,735	10,684	-46%

* Table includes both residential and commercial consumer complaints.

Electric and gas utilities accounted for 64 percent and 18 percent, respectively, of all consumer complaints investigated by BCS in 2015. Water utilities accounted for six percent, while telephone utilities were the subject of 12 percent. During the winter of 2014, Pennsylvania experienced unusually bitter cold weather in what became known as the Polar Vortex, resulting in a significantly higher number of electric-related consumer complaints.

Justified Consumer Complaints

BCS investigators issue decisions regarding consumer complaint cases. BCS policy analysts review a sampling of the cases and utility records to determine if the utility took appropriate action when handling its customer contacts. This approach focuses strictly on the regulatory aspect of the complaint and evaluates utilities negatively only where, in the judgment of BCS, the utility did not follow appropriate complaint-handling procedures or properly apply regulations. Specifically, a case is considered "justified" in the appeal to BCS if it is found that, prior to BCS intervention, the company did not comply with Commission Orders, regulations, reports, Secretarial Letters, tariffs, etc.

Classification of Consumer Complaints

BCS has categorized the 2015 residential complaints into 14 categories for each of the electric, gas and water utilities and into 11 categories for each of the telephone utilities. The tables that show the percent of complaints in each category in 2015 appear in each industry chapter. The percentages shown in the tables are for all of the cases that residential consumers filed with BCS that were evaluated, not just the cases that are determined to be justified in coming to BCS. BCS analyzes the categories that generate complaints or problems for customers, even if the utility records indicate that the utility followed Commission procedures and guidelines in handling the complaint. BCS often discusses its findings with individual utilities so they can use the information to review their complaint-handling procedures in categories that seem to produce large numbers of consumer complaints to the Commission. The four tables in Appendix E show the actual number of cases in each category in 2015.

Payment Arrangement Requests

PARs principally include contacts to BCS involving requests for payment terms in one of the following situations:

- Suspension/termination of service is pending;
- Service has been terminated and the customer needs payment terms to have service restored; or
- The customer wants to eliminate a debt or arrearage from a past-due balance.

All of the measures pertaining to PARs are based on assessments of contacts to BCS from individual customers. As with consumer complaints, almost all customers had already contacted the utility prior to contacting BCS. During 2015, BCS handled 50,434 PARs from customers of the utilities under the Commission's jurisdiction.

Act 201 of 2004 amended Title 66 of the Public Utility Code by adding Chapter 14, the Responsible Utility Customer Protection Act, which changed the rules for terminations, reconnections and PARs. On June 9, 2011, the Commission adopted a final rulemaking order incorporating Chapter 14 into Chapter 56 of its regulations. The Independent Regulatory Review Commission (IRRC) approved these regulations on July 21, 2011. The revised Chapter 56 regulations have been in effect since Oct. 8, 2011. The law sets forth limits within which the Commission can establish payment arrangements between a public utility, customers and applicants. In addition to establishing the length of payment arrangements, Chapter 14 prohibits the Commission from establishing a second or subsequent payment arrangement, absent a decrease in income, if a customer has defaulted on a previous payment arrangement. Chapter 14 also prohibits the Commission from issuing payment arrangements involving customer assistance program arrearages.

On Oct. 22, 2014, Governor Corbett signed House Bill 939, also known as Act 155 of 2014, which among other things, reauthorized Chapter 14 for another ten years. In addition

to reauthorizing Chapter 14, the General Assembly revised the law in a number of areas, including:

- Expanding the scope of the law to cover small gas companies, steam heating and wastewater utilities.
- Prohibiting termination of utility service on Fridays.
- Allowing physician assistants, along with physicians and nurse practitioners, to file medical certificates.
- Allowing all customers and applicants to pay security deposits in installments over 90 days. CAP-eligible customers are exempt from security deposit requirements.
- New utility reporting requirements concerning the use of medical certificates and high-arrearage accounts.
- A five-year PUC reporting requirement (due in years 2019 and 2024) on the implementation and impact of Chapter 14.

The re-authorized law went into effect in December 2014. The Commission strives to balance the needs of both consumers and utilities when implementing the new law and will provide all interested parties with opportunities to participate in the process. On July 21, 2016, the Commission proposed revisions to 52 Pa. Code Chapter 56, including sections that have been superseded by the reauthorized Chapter 14. Commission staff will be reviewing the comments and preparing new regulations for a future Final Order (Docket L-2015-2508421). The Commission appreciates the opportunity to continually evaluate its regulations regarding Chapter 14 so that the goals of increasing utility account collections and eliminating the subsidization of bad debt costs by paying customers do not erode consumer protections.

In 2015, the overall volume of PARs handled by the Commission decreased by 19 percent from the previous year. PARs from electric and gas customers decreased 23 and 11 percent, respectively, while PARs from water customers decreased five percent since 2014. PARs from telephone customers declined 12 percent from 2014 to 2015.

Payment Arrangement Requests (PARs) by Industry*

2014-15

Industry	2014	2015	% Change
Electric	42,073	32,327	-23%
Gas	15,620	13,951	-11%
Water	4,255	4,047	-5%
Telephone	122	107	-12%
Other	9	2	-78%
Total	62,079	50,434	-19%

* Table includes both residential and commercial PARs. Please note: All consumer contacts requesting a payment arrangement are taken in and classified as a PAR. However, not all customers are eligible to receive a PAR.

As in past years, the majority of requests for payment arrangements in 2015 involved electric or gas companies. Sixty-four percent of the PARs (32,327 cases) were from electric customers, and 28 percent (13,951 cases) were from gas customers. Also, eight percent of PARs (4,047 cases) came from customers of various water utilities. Less than one percent of PARs (107 cases) came from telephone customers.

Inquiries and Opinions

During 2015, BCS received 32,298 customer contacts that, for the most part, required no follow-up investigation beyond the initial contact. BCS classifies these contacts as “inquiries.” The inquiries for 2015 include contacts to the BCS Utility Customer Hotline, as well as contacts to BCS using mail service and email communication.

In large part, the inquiries in 2015 involved questions regarding the customer assistance programs. BCS also classifies certain PARs as inquiries. For example, BCS does not issue payment decisions on requests to restore or avoid suspension/termination of toll or non-basic telephone service. When consumers call with these problems, BCS classifies these requests as inquiries. Similarly, if a customer has recently been through the BCS payment arrangement process and calls again with a new request regarding the same account, BCS does not open a new PAR case. In these instances, BCS classifies the customer's contact as an inquiry.

As in past years, BCS also has shifted some contacts that originated as consumer complaints and PARs into the inquiry category because it was not appropriate to count these contacts as informal complaints. Examples include complaints that were found to be duplicates, informal complaints filed against the wrong company, informal complaints that BCS handled in spite of the fact that customers had not previously contacted their companies about their problems and cases that the investigators verbally dismissed. These 1,969 cases accounted for six percent of inquiries in 2015.

BCS is able to expand its list of 80 reasons for contact as consumer reasons grow and change. Possible actions by BCS intake staff include: recording the consumer's opinion; giving information to the consumer; referring the consumer to a utility company; and referring the consumer to an agency or organization outside of the Commission. If the contact requires further action, the intake staff refers the contact to a BCS investigator, and the contact becomes a consumer complaint or a PAR. The following table shows the various reasons for contact for the 2015 inquiries.

Categories of 2015 Inquiries

Reason for Contact	Number	Percent
CAP inquiry	7,961	25%
Termination or suspension of service	5,898	18%
Unable to open new PAR – service on	5,235	16%
Competition issues and requests for information	3,333	10%
PUC has no jurisdiction	1,749	5%
Billing dispute	1,658	5%
Applicant/deposit issue	779	2%
Request for general information	764	2%
People-delivered company service	696	2%
Service (company facilities)	356	1%
Rate protest	276	1%
Unable to open new PAR – service off	86	<1%
Rate complaint	44	<1%
Weather outage	23	<1%
Cramming*	3	<1%
Slamming*	3	<1%
Other miscellaneous reasons	2,735	8%
Reason for contact is not available	699	2%
Total	32,298	97%

* Please refer to the Glossary of Terms.

Residential Consumer Complaints Not Included in Industry Chapters

Traditionally, the primary focus of BCS's review of utilities' complaint handling has been on the performance of the major electric, gas, water and telephone utilities. However, for the past several years, BCS has included a limited amount of complaint information for the non-major utilities and the other service providers in the UCARE report. In 2015, BCS experienced a significant decrease in the overall number of residential consumer complaints for the non-major utilities. Consumer complaints decreased over the year in the electric, gas and telephone industries, and there was an increase in the water industry. This section

presents information about the residential consumer complaints that are not included in the industry chapters that follow.

In 2015, BCS staff investigated consumer complaints about a variety of problems that consumers were having with the non-major companies under the Commission's jurisdiction. The vast majority of complaints not included in the industry chapters involved billing disputes.

The next-highest volume of complaints coming from residential customers of the non-major electric, gas, water and telephone companies involved slamming. Those two types of complaints accounted for 69 percent of the residential consumer complaints about the non-major companies in the electric industry; 57 percent of residential consumer complaints about the non-major gas companies; 23 percent of the residential consumer complaints about the non-major water companies; and 23 percent of the complaints about the non-major telecommunications companies.

Appendix C presents a summary of the residential informal complaints (consumer complaints and PARs) that are not included in the electric, gas, water and telephone chapters that follow. The table lists the non-major companies for these industries; the electric generation suppliers and natural gas suppliers; and other providers of telecommunications services having five or more residential consumer complaints in 2015.

Calls to the Commission about Electric and Gas Competition

In 2015, the Commission's call center employees used BCS's information system to record information from the consumer contacts about electric and gas competition. Statistics show that 91 percent of contacts about electric and gas competition are related to the electric industry, while seven percent concern the gas industry. Call center employees recorded information from 5,723 consumer contacts about competition in the energy industries. Many calls came from consumers who called about various issues associated with customer choice in the electric and gas industries. Most frequently, consumers called about requests for competition documents and competition bill disputes (23 and 22 percent of calls, respectively).

In most instances, BCS classified these contacts as inquiries because they required no investigation or follow-up. However, some consumer contacts required further investigation and possibly action to resolve the consumer's concerns. In these cases, BCS classified the contact as a consumer complaint and investigated the consumer's issue. In 2015, billing disputes related to competition produced the largest volume of competition-related consumer complaints. Appendix D-1 explains the types of competition complaints BCS handles.

In prior years, BCS investigated a number of consumer complaints in which consumers alleged they were assigned to an electric or gas supplier without their consent or knowledge (slamming). In 2015, BCS received 668 allegations of electric slamming and 43 allegations of slamming in the gas industry. There were 10 allegations of slamming in the telephone industry. With respect to slamming, the Commission has stated clearly, it "...will have zero

tolerance for slamming by any means and in any form."¹ The Commission views customer slamming as among the most serious violations of consumer regulations. Of the 721 slamming complaints received by BCS, 650 were filed by residential customers.

During the early phases of electric and gas competition, BCS expected it would receive consumer complaints associated with the transition to customer choice. As expected, many customers experienced a variety of problems as they began choosing electric and gas suppliers. BCS found that, after investigating these complaints, it was often difficult to determine who was at fault in causing the complaint. Thus, BCS decided that it would be unfair to include competition complaints with consumer complaints about other issues when it calculates the performance measures it uses to evaluate and compare companies within the electric and gas industries. BCS continued this practice in 2015. Therefore, BCS excluded 2,369 competition-related complaints from the data set used to prepare the tables in the electric industry chapter and 178 such complaints in the gas industry chapter.

Informal Compliance Process and Infractions

BCS's informal compliance process remains its primary compliance effort. This process gives each utility specific examples of apparent infractions of Chapters 14, 56, 63 and 64. The informal compliance process uses consumer complaints to identify, document and notify utilities of apparent deficiencies. The utilities can use the information to pinpoint and voluntarily correct deficiencies in their customer-service operations. The process begins by BCS notifying a utility of an alleged infraction. A utility that receives notification of an allegation has an opportunity to respond. If the information about the allegation is accurate, BCS expects the utility to take action to correct the problem or address any deficiencies that led to the infraction. Corrective actions may entail: modifying a computer program; revising company procedures or the text of a notice, bill or letter; or providing additional staff training to ensure the proper use of a procedure.

If the utility states the information is inaccurate, it needs to provide specific details and supporting data to disprove the allegation. BCS always provides a final determination to the utility regarding the alleged infraction. For example, if the utility provides supporting data indicating that the information about the allegation is inaccurate, BCS, after reviewing all of the information, informs the utility that, in this instance, the facts do not reflect an infraction of the regulations. On the other hand, if the company agrees the information forming the basis of the allegation is accurate, or if BCS does not find that the data supports the utility's position that the information is inaccurate, BCS informs the company that the facts reflect an infraction of a particular section of the regulations. The notification process allows utilities to receive written clarifications of Chapter 14, 56, 63 or 64 provisions and the policies of the Commission and BCS.

The significance of apparent infractions identified by the informal compliance process is frequently emphasized by the fact that some represent systemic errors that are widespread and affect many utility customers. Since BCS receives only a small portion of the

¹ L-00970121, Public Meeting of May 21, 1998.

complaints that customers have with their utility companies, limited opportunities exist to identify such errors. Therefore, the informal compliance process is specifically designed to help utilities identify systemic errors. One example of a systemic error is a termination notice with text that does not comply with the requirements of Chapter 56. Each recipient of the notice is affected by that error. When such an error is discovered, BCS encourages utilities to investigate the scope of the problem and take corrective action. Some utilities have developed their own information systems to identify problems by reviewing complaints before they come to the Commission's attention. BCS encourages utilities to continue this activity and share their findings with Bureau staff.

2. Performance Measures

For the most part, BCS uses complaints it receives from customers of the major electric, gas, water and telephone utilities to assess utilities' complaint-handling performance. In nearly every case, the customer had already contacted the company about the problem prior to contacting BCS. BCS reviews the utility's record as to how the utility handled the complaint when the customer contacted the company. The review includes several classifications and assessments that form the basis of all the performance measures presented in this and the next four chapters, with the exception of the number of terminations and termination rate. The termination statistics for the electric, gas and water companies are drawn from reports required by Chapter 56 at §56.231(a)(14), while telephone termination statistics are drawn from reports required by Chapter 64 at §64.201(7). Water companies began reporting termination and reconnection data in 2012, which was a new requirement of the revised Chapter 56 regulations. The sections that follow explain the various measures BCS employs to assess utility performance.

Consumer Complaint Rate

The calculation of the consumer complaint rate (consumer complaints per 1,000 residential customers) permits the reader to make comparisons among utilities of various sizes. BCS has found that high consumer complaint rates and extreme changes in consumer complaint rates from one year to the next are often indicative of patterns and trends that it should investigate. However, since many of the complaints in the consumer complaint rates are not "justified," BCS considers the "justified consumer complaint rate" (justified consumer complaints per 1,000 residential customers) to be a clearer indication of a utility's complaint handling performance.

Justified Consumer Complaint Rate

BCS uses case evaluation to identify whether correct procedures were followed by the utility in responding to the customer's complaint prior to the intervention of BCS. Case evaluation is used to determine whether a case is "justified." A customer's case is considered "justified" if it is found that, prior to BCS intervention, the company did not comply with Commission Orders, policies, regulations, reports, Secretarial Letters or tariffs in reaching its final position. In the judgment of BCS, a case that is "justified" is a clear indication that the company did not handle a dispute properly or effectively, or, in handling the dispute, the company violated a rule, regulation or law.

The performance measure called "justified consumer complaint rate" reflects both volume of complaints and percent of consumer complaints found justified. The justified consumer complaint rate is the number of justified consumer complaints per 1,000 residential customers. By using this ratio, the reader can use the "justified" rate to compare utilities' performance within an industry and over time. BCS perceives the justified consumer complaint rate to be the bottom-line measure of performance that evaluates how effectively a company handles complaints from its customers.

BCS monitors the complaint rates and justified rates of the major utilities, paying particular attention to the number of justified complaints that customers file with the Commission. Justified complaints may indicate areas where BCS should discuss complaint-handling procedures with a utility so that its customers receive fair and equitable treatment when they deal with the utility. When BCS encounters company case-handling performance (justified consumer complaint rate) that is significantly worse than average, there is reason to suspect that many customers who contact the utility are at risk of improper dispute handling by the utility. As part of the monitoring process, BCS compares the "justified" rates of individual utilities and industries over time and investigates significant changes when they occur. In the chapters that follow, BCS compares the consumer complaint rates and the justified consumer complaint rates of the major utilities within the electric, gas, water and telephone industries.

Response Time to Consumer Complaints

Once a customer contacts BCS with a complaint about a utility, the utility is notified. The utility then sends BCS its records of its contact with the customer regarding the complaint. Response time is the time span in days from the date of BCS's first contact with the utility regarding a complaint to the date on which the utility provides BCS with its report regarding the complaint. Response time quantifies the speed of a utility's response to BCS' informal complaints. In the following chapters, response time is presented as the average number of days that each utility took to supply BCS with its utility reports in response to consumer complaints.

Payment Arrangement Request Rate

BCS normally intervenes at the customer's request only after direct payment negotiations between the customer and the company have failed. The volume of PARs from a utility's customers may fluctuate from year to year, or even from month to month, depending upon the utility's collection strategy as well as economic factors. The calculation of the PAR rate (PARs per 1,000 residential customers) permits the reader to make comparisons among utilities with differing numbers of residential customers. Nevertheless, unusually high or low rates and sizable changes in rates from one year to the next may reflect changes in company policies or bill collection philosophies, or they may be indicative of problems. BCS views such variations as potential areas for investigation.

Justified Payment Arrangement Request Rate

Just as with consumer complaints, once a customer contacts BCS with a PAR, BCS notifies the utility. The company sends a report to BCS that details the customer's payments, usage and payment negotiation history. Many of these cases are "straight" PARs, without any other issue or complaint against the company. Those cases are processed in an automated fashion and are not evaluated in the justified rate. In cases where the utility claims ineligibility for a PUC payment plan or where there are complaints or claims in addition to the PAR, a BCS investigator considers the customer's record and makes a decision regarding the issues and amount owed and notifies the company and the customer of the decision. BCS policy analysts review a sampling of these case records to

determine if the utility negotiated properly with the customer and uses this record to determine the outcome of the case. This approach evaluates companies negatively only when BCS finds appropriate payment negotiation procedures were not followed, or where the regulations have been misapplied. Specifically, a case is considered “justified” in the appeal to BCS if it is found that, prior to BCS intervention, the company did not comply with Commission regulations, reports, Secretarial Letters, tariffs or guidelines.

Changes in company policy can influence not only the volume of PARs to the Commission but also the effectiveness of a utility's payment negotiations. BCS uses the “justified PAR rate” to measure a utility's performance at handling PARs from customers. The justified PAR rate is the ratio of the number of justified PARs per 1,000 residential customers. BCS monitors the justified PAR rates of the major utilities. For example, BCS compares the “justified” rates of individual utilities and industries over time and investigates significant changes when they occur. In the chapters that follow, BCS compares the PAR rates and the justified PAR rates of the major utilities within the electric, gas, water and telephone industries. Because BCS receives a very large volume of requests for payment terms, it reviews a random sample of cases for the companies with the largest number of PARs. For these companies, the justified PAR rate and response time are based on a statistically valid subset of the cases that came to BCS.

Response Time to Payment Arrangement Requests

Once a customer contacts BCS for a PAR, BCS notifies the utility. The utility then sends BCS records that include the customer's payment history, the amount owed, prior payment arrangements and the results of the most recent payment negotiation with the customer. Response time is the number of days from the date BCS first contacts the utility regarding a PAR, to the date on which the utility provides BCS with its utility report so that BCS is able to issue payment terms, resolve any other issues raised by the customer and determine whether the customer was justified in seeking a payment arrangement through BCS. Response time quantifies the speed of a utility's response to BCS PARs. In the following chapters, response time is presented as the average number of days that each utility took to supply BCS with its utility reports.

BCS calculates response time for the major electric, gas and water companies using only their responses to PARs from customers whose service has been terminated, who have a dispute with the company, or who have previously had a BCS payment arrangement for the amount that they owe.

However, response time to PARs for the telephone companies is the average number of days that each telephone company took to supply BCS with a utility report for all categories of PARs.

Infraction Rate

During 2015, BCS continued its informal compliance notification process to improve utility compliance with applicable statutes and regulations relating to the treatment of residential accounts. In order to compare utilities of various sizes within an industry, BCS has

calculated a measure called the infraction rate. The infraction rate is the number of informally verified infractions for each 1,000 residential customers.

Several considerations are important to keep in mind when viewing the infraction rate charts in the chapters that follow. First, the data does not consider the causes of the individual infractions. Second, some infractions may be more serious than others because of their systemic nature, and therefore may show ongoing or repetitive occurrences. Still other infractions may be more serious because they involve threats to the health and safety of utility customers.

The value of the infraction rate is to depict industry trends over time. The trend for 2015 is calculated using BCS's Compliance Tracking System (CTS) data as of Sept. 28, 2016. The 2015 trends may change if the total number of infractions increases or decreases upon review by BCS. This would occur if new infractions are discovered from customer complaints that originated in 2015, but were still under investigation by BCS when the data was retrieved from CTS. Often, the total number of infractions for the year will change from the number cited in this report. BCS will update the 2015 infraction rate in the report on 2016 complaint activity. Infraction rates for each major electric, gas, water and telephone utility company are shown for 2013, 2014 and 2015 in upcoming chapters. Appendix H shows detailed information about the infractions BCS gleaned from its review of the 2015 consumer complaints and PARs. The information presented in Appendix H shows the infractions of Chapter 56, Chapter 14 and other regulations for the major electric, gas and water companies, and the infractions of Chapters 63 and 64 for the major telephone companies.

Termination Rate

Payment over time through a mutually acceptable payment arrangement is one possible outcome when a customer owes an outstanding balance to a utility company. Termination of the utility service is another. BCS views termination of utility service as a utility's last resort when customers fail to meet their payment obligations. The calculation of the termination rate allows the reader to compare the termination activity of utilities with differing numbers of residential customers. For the electric, gas and water industries, the termination rate is the number of service terminations divided by the number of residential customers. For the telephone industry, the termination rate is the number of terminations for each 1,000 residential customers. Any significant increase in the termination rate would indicate a trend or pattern the Commission may need to investigate.

BCS Performance Measures and Industry Chapters

The tables in the following chapters present the data alphabetically by company name. Each chapter includes tables that show the consumer complaint rate and the justified consumer complaint rate of each major utility. Also included in the industry chapters are tables that show the prior year's justified consumer complaint rates and justified PAR rates for each of the major utilities. The tables also reflect the average rates of the major utilities within the industry for each of these measures. In addition, each industry chapter presents tables that show infraction rates, response times to consumer complaints and PARs, and the termination rates for the major utilities.

It is important to note that the electric and gas industry chapters present only data from those utilities that have more than 100,000 residential customers. In the water industry chapter, data for the “Class A” water utilities that have fewer than 100,000 residential customers are presented together as a whole. The telephone chapter presents data from those local service providers serving more than 50,000 residential customers.

BCS has found the inclusion of statistics for the smaller utilities can skew the average of industry statistics in ways that do not fairly represent industry performance. For this reason, BCS excluded the statistics involving UGI-Electric when it calculated the 2014 and 2015 averages for the electric industry. Similar to previous years, statistics for UGI-Electric are included in the appendices of this report.

Universal Service and Energy Conservation Programs

The Commission has a long history of involvement in universal service and energy conservation programs that help utility consumers obtain and keep service, and conserve energy. At the end of the water and telephone chapters that follow, readers will find highlights of the water and telephone programs that the Commission has supported and encouraged, not only in 2015, but in prior years as well.

BCS monitors and evaluates the universal service and energy conservation programs of the electric and gas companies. The goal in monitoring these programs is to help the Commission fulfill its oversight responsibilities by increasing the effectiveness of utility collections while protecting the public's health and safety.

The electric and gas programs include: Customer Assistance Programs; the Low-Income Usage Reduction Programs; Utility Hardship Fund Programs; Customer Assistance and Referral Evaluation Services programs; and other programs to assist low-income customers. BCS's reporting on these programs is no longer included in this report.

In September 2016, the Commission released the 16th annual report on Universal Service Programs and Collections Performance. BCS prepared the report, which presents 2015 universal service and collections data for the major electric and natural gas distribution companies. The report is available on the Commission's website at:

http://www.puc.pa.gov/General/publications_reports/pdf/EDC_NGDC_UniServ_Rpt2015.pdf

3. Electric Industry

In 2015, the Commission had jurisdiction over 15 electric distribution companies (EDCs). However, the majority of the consumer complaints and PARs involving the electric industry were from residential customers of the seven major EDCs: Duquesne Light Co. (Duquesne); PECO Energy Co. (PECO); PPL Electric Utilities Inc. (PPL) and four FirstEnergy companies – Metropolitan Edison Co. (Met-Ed); Pennsylvania Electric Co. (Penelec); Pennsylvania Power Co. (Penn Power) and West Penn Power Co. (West Penn). This chapter will focus exclusively on those seven companies. Most of the complaints and PARs dealt with matters covered under Chapter 56 of our regulations or Chapter 14 of the Public Utility Code. Generally, consumer complaints and PARs represent customer appeals to the Commission resulting from the inability of the company and the customer to reach a mutually satisfactory resolution to a dispute or payment negotiation.

The statistics in the tables on the pages that follow depict the performance of each of the seven major electric utilities in 2015. The tables in the appendices also include UGI-Electric, a major EDC with fewer than 100,000 residential customers. PECO's statistics include data for both electric and gas service. Because their gas and/or electric customers contact the same call center and receive only one bill per billing period, PECO is unable to separate and report data by gas and electric service. BCS investigated complaints in 2015, generated as a result of the electric choice program, which allows customers to choose an electric generation supplier (EGS). However, as mentioned in the first chapter, BCS removed these complaints from the data it used to prepare the tables on consumer complaints and PARs. Appendices F and G present 2014 and 2015 statistics on the performance of the seven largest EDCs, as well as UGI-Electric.

Consumer Complaints

During 2015, BCS handled 4,705 consumer complaints from residential customers of the various EDCs and 1,543 consumer complaints from residential customers of EGSs. Of these residential complaints, 74 percent (4,641) were from customers of the seven largest EDCs. For the analyses in this chapter, BCS excluded a total of 77 consumer complaints about the major EDCs that involved competition issues.

Consumer Complaint Categories

The following table shows the percentage of 2015 complaints from residential customers of the seven largest EDCs, in each of the 14 categories used by BCS policy analysts. Appendix E, Table 1, provides the actual number of cases that fell into each category in 2015.

Consumer Complaint Categories: 2015 Major Electric Distribution Companies

Categories	Duquesne **	Met-Ed**	PECO+**	Penelec **	Penn Power	PPL**	West Penn**	Electric Average
Billing Disputes	31%	17%	22%	18%	19%	26%	13%	21%
Termination or PAR Procedures	11%	12%	15%	13%	16%	23%	8%	14%
Credit and Deposits	9%	15%	15%	20%	9%	6%	13%	13%
Personnel Problems	14%	8%	15%	9%	11%	9%	14%	11%
Metering	4%	21%	6%	14%	16%	5%	8%	10%
Discontinuance/ Transfer	6%	8%	9%	10%	5%	10%	4%	8%
Other Payment Issues	15%	3%	4%	2%	3%	3%	3%	5%
Damages	2%	2%	1%	3%	5%	3%	12%	4%
Service Quality	<1%	3%	2%	2%	2%	3%	5%	3%
Service Extensions	1%	2%	2%	2%	3%	1%	7%	3%
Service Interruptions	2%	2%	3%	2%	1%	2%	4%	3%
Scheduling Delays	3%	1%	2%	<1%	0%	1%	3%	2%
Rates	1%	2%	<1%	1%	6%	1%	2%	1%
All Other Problems	2%	4%	6%	4%	4%	6%	3%	4%
Total-Number*	456	450	450	473	160	463	504	2,956

* Based on residential complaints opened in 2015 and evaluated by BCS as of July 22, 2016.

** Based on a probability sample of cases.

+ PECO statistics include electric and gas.

- Categories are for all residential complaints filed with BCS that were evaluated, whether or not they were found to be justified. See Appendix D-1 for an explanation of complaint categories and Appendix E, Table 1, for the number of cases in each category.
- In 2015, billing disputes accounted for 21 percent, termination or PAR procedures accounted for 14 percent and credit and deposits accounted for 13 percent of the consumer complaints for the major EDCs. These three categories accounted for 48 percent of consumer complaints about the major EDCs.

2015 Residential Consumer Complaint Rates/ Justified Consumer Complaint Rates Major Electric Distribution Companies

Company	Consumer Complaint Rate	Justified Consumer Complaint Rate
Duquesne	1.20	0.27*
Met-Ed	1.48	0.25*
PECO+	0.79	0.08*
Penelec	1.14	0.18*
Penn Power	1.26	0.16
PPL	0.59	0.06*
West Penn	1.05	0.11*
Average	1.07	0.16

* Justified consumer complaint rate based on a probability sample of cases.

+ PECO statistics include electric and gas.

- The consumer complaint rate equals the number of consumer complaints for each 1,000 residential customers. The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- For the major EDCs, the average of the consumer complaint rates was over six times greater than the average of the justified consumer complaint rates.
- Appendix F, Table 1, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major EDC in 2014 and 2015.

2014-15 Justified Residential Consumer Complaint Rates Major Electric Distribution Companies

Company	2014	2015
Duquesne*	0.12	0.27
Met-Ed*	0.67	0.25
PECO*+	0.12	0.08
Penelec*	0.33	0.18
Penn Power	0.19	0.16
PPL*	0.21	0.06
West Penn*	0.25	0.11
Average	0.27	0.16

* Based on a probability sample of cases.

+ PECO statistics include electric and gas.

- The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- The average of the justified consumer complaint rates for the major electric distribution companies decreased from 0.27 in 2014 to 0.16 in 2015.
- Of the seven major EDCs, three have justified consumer complaint rates that are higher than the industry average. Duquesne's justified consumer complaint rate, at 0.27, is almost double the industry average.
- Appendix F, Table 1, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major EDC in 2014 and 2015.

2014-15 Response Time to BCS Residential Consumer Complaints Major Electric Distribution Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Duquesne	4.7	20.3	15.6
Met-Ed	18.7	15.7	-3.0
PECO+	9.9	11.6	1.7
Penelec	17.9	14.7	-3.2
Penn Power	16.6	16.0	-0.6
PPL	19.7	18.6	-1.1
West Penn	19.6	14.9	-4.7
Average	15.3	16.0	0.7

+ PECO statistics include electric and gas.

- The calculation for average response time includes all residential consumer complaints for the major electric companies.
- Overall, the average response time increased slightly from 15.3 days in 2014 to 16.0 days in 2015.
- PECO had the shortest consumer complaint response time in 2015 at 11.6 days, while Duquesne had the longest at 20.3 days. Duquesne's consumer complaint response time increased by 15.6 days from 2014 to 2015.

Payment Arrangement Requests

In 2015, BCS handled 31,507 PARs from residential customers of the EDCs. There were 494 PARs from residential customers of Pennsylvania's EGSSs. Ninety-seven percent (30,979) of the residential PARs were from customers of the seven largest EDCs. In 2015, BCS reviewed a representative sample of the PARs for the seven largest EDCs. Thus, the calculation for justified PAR rate that appears in the pages that follow is based on a subset of cases that BCS received from the customers of these utilities. BCS believes that the size of the samples gives a reasonable indication of the performance of these companies. Appendix G, Table 1, provides additional statistics regarding the PARs from residential customers of the major EDCs.

**2015 Residential Payment Arrangement Request (PAR) Rates/
Justified PAR Rates*
Major Electric Distribution Companies**

Company	PAR Rate	Justified PAR Rate
Duquesne	4.51	0.71
Met-Ed	6.54	0.64
PECO+	4.23	0.30
Penelec	6.31	0.59
Penn Power	6.64	0.79
PPL	10.43	0.52
West Penn	3.72	0.22
Average	6.06	0.54

* All companies have justified PAR rates based on a probability sample of cases.

+ PECO statistics include electric and gas.

- The PAR rate equals the number of PARs for each 1,000 residential customers. The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- On average, there were more than six PARs to BCS for each 1,000 residential customers of the major EDCs in 2015. There was less than one justified PAR for each 1,000 residential customers.
- Appendix G, Table 1, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major EDC in 2014 and 2015.

2014-15 Justified Residential Payment Arrangement Request (PAR) Rates* Major Electric Distribution Companies

Company	2014	2015
Duquesne	0.14	0.71
Met-Ed	0.47	0.64
PECO+	0.33	0.30
Penelec	0.33	0.59
Penn Power	0.32	0.79
PPL	0.38	0.52
West Penn	0.17	0.22
Average	0.31	0.54

* All companies have justified PAR rates based on a probability sample of cases.

+ PECO statistics include electric and gas.

- The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- The average of the justified PAR rates for the seven major EDCs increased from 0.31 in 2014 to 0.54 in 2015.
- The justified PAR rates increased for six of the seven major EDCs from 2014 to 2015. Four of the major EDCs have justified PAR rates greater than the 2015 industry average while three of the major EDCs have justified PAR rates below the industry average.
- Appendix G, Table 1, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major EDC in 2014 and 2015.

2014-15 Response Time to BCS Residential Payment Arrangement Requests (PARs) Major Electric Distribution Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Duquesne	2.4	16.4	14.0
Met-Ed	14.5	10.3	-4.2
PECO+	5.0	4.7	-0.3
Penelec	15.3	11.3	-4.0
Penn Power	13.1	11.2	-1.9
PPL	16.7	13.1	-3.6
West Penn	15.4	11.8	-3.6
Average	11.8	11.3	-0.5

+ PECO statistics include electric and gas.

- The calculation for average response time includes all residential PARs for the major electric companies.
- The average response time for the seven major EDCs decreased by 0.5 days. The average response time went from 11.8 days in 2014 to 11.3 days in 2015.
- There was a wide range of PAR response times among the major EDCs in 2015, from a low of 4.7 days for PECO to a high of 16.4 days for Duquesne.

Termination and Reconnection of Service

Each month, the electric companies report to the Commission the number of residential accounts that they terminated for non-payment during the previous month. They also report the number of previously terminated residential accounts that they reconnected during the month. Some EDCs maintain a fairly consistent pattern of termination behavior, while others fluctuate from year to year. The number of reconnections varies from year to year and from company to company, depending on a variety of factors. The EDC reconnects a customer's terminated service when a customer either pays his/her debt in full or makes a significant payment on the debt and agrees to a payment arrangement for the balance owed to the company. The following tables indicate the annual number of residential accounts each of the seven largest EDCs terminated and reconnected in 2013, 2014 and 2015. The first table also presents the termination rates for each of these companies.

Residential Service Terminations/Termination Rates Major Electric Distribution Companies

Company	Residential Service Terminations				Termination Rates		
	2013	2014	2015	% Change 2014-15	2013	2014	2015
Duquesne	25,649	23,853	16,601	-30%	4.87	4.52	3.16
Met-Ed	23,672	25,071	25,136	<1%	4.85	5.12	5.10
PECO+	84,235	89,655	87,144	-3%	5.87	6.20	5.99
Penelec	20,544	20,657	21,579	4%	4.07	4.10	4.30
Penn Power	4,999	4,482	4,951	10%	3.54	3.16	3.47
PPL	47,759	56,777	52,229	-8%	3.92	4.65	4.26
West Penn	13,904	12,133	12,551	3%	2.24	1.95	2.02
Major Electric	220,762	232,628	220,191	-5%			
Average of Rates					4.19	4.24	4.04

+ PECO statistics include electric and gas.

- The termination rate is the number of service terminations divided by the number of residential customers, expressed as a percent.
- Overall, the seven major EDCs terminated five percent less residential accounts in 2015 than in 2014.

Residential Service Reconnections Major Electric Distribution Companies

Company	2013	2014	2015	% Change 2013-14
Duquesne	20,355	18,523	10,578	-43%
Met-Ed	19,046	20,185	20,503	2%
PECO+	61,858	67,343	67,000	-1%
Penelec	16,184	15,959	16,506	3%
Penn Power	4,740	3,925	4,880	24%
PPL	34,910	42,767	39,083	-9%
West Penn	11,089	9,472	9,732	3%
Major Electric	168,182	178,174	168,282	-6%

+ PECO statistics include electric and gas.

- Overall, the seven major EDCs reconnected six percent less residential accounts in 2015 than in 2014.

Compliance

BCS provides utilities with written clarifications or explanations of Chapter 56 provisions and other Commission regulations and policies. The use of "infraction rate" is intended to help the Commission monitor the duty of electric companies at 66 Pa. C.S. §2807(d) to, at a minimum, maintain customer services under retail competition at the same level of quality as existed prior to the beginning of the Electricity Generation Customer Choice and Competition Act of 1996.

The infraction rates in the table that follows are based on informal complaints that residential consumers filed with BCS from 2013 through 2015. Infractions identified on complaints involving competition issues are included in the infraction statistics. Appendix H, Table 1, presents detailed information about the infractions identified in 2015 cases to the BCS.

Commission Infraction Rates Major Electric Distribution Companies

Company	2013	2014	2015
Duquesne	0.04	0.10	0.27
Met-Ed	0.24	0.25	0.20
PECO+	0.06	0.02	0.04
Penelec	0.13	0.13	0.15
Penn Power	0.06	0.08	0.29
PPL	0.03	0.06	0.06
West Penn	0.22	0.15	0.12

+ PECO statistics include electric and gas.

- The infraction rate is the number of informally verified infractions per 1,000 residential customers.
- The infraction rates from 2014 to 2015 for Duquesne, PECO, Penelec and Penn Power increased, while the rates for Met Ed and West Penn decreased. PPL's rate remained stable.
- Appendix H, Table 1, presents the actual number of infractions for 2015 categorized by infraction category.
- As shown in Appendix H, Table 1, the dispute handling category is noteworthy due to both high volume and high percentage of the total number of infractions.

4. Natural Gas Industry

In 2015, the Commission had jurisdiction over 25 natural gas distribution companies (NGDCs). However, the majority of the consumer complaints and PARs involving the gas industry came from residential customers of the seven major NGDCs: Columbia Gas of Pennsylvania Inc. (Columbia); National Fuel Gas Distribution Corp. (NFG); Peoples Natural Gas Co. (Peoples); Peoples-Equitable Division (Peoples-Equitable); Philadelphia Gas Works (PGW); UGI Utilities Inc.-Gas (UGI-Gas); and UGI Penn Natural Gas. This chapter will focus exclusively on those seven utilities. As with the electric industry, most of the complaints and PARs dealt with matters covered under Chapter 56 of our regulations or Chapter 14 of the Public Utility Code. Generally, those consumer complaints and PARs represent customer appeals to the Commission resulting from the inability of the company and the customer to reach a mutually satisfactory resolution to a dispute or payment negotiation.

The statistics in the tables on the pages that follow depict the performance of each of the seven major gas utilities in 2015. Appendices F and G provide statistics for these utilities from 2014 and 2015.

Consumer Complaints

During 2015, BCS handled 1,649 consumer complaints from residential customers of the various NGDCs and 116 consumer complaints from residential customers of natural gas suppliers (NGSs). Of these residential complaints, 90 percent (1,588) were from customers of the seven largest NGDCs. For the analyses of the seven major gas companies that appear in this chapter, BCS excluded 11 consumer complaints that involved competition issues.

Consumer Complaint Categories

The following table shows the percentage of 2015 complaints from residential customers of the seven major gas utilities in each of the 14 categories used by BCS policy analysts to categorize consumer complaints about electric, gas and water utilities. Appendix E, Table 2, provides the actual number of cases that fell into each category in 2015.

Consumer Complaint Categories: 2015 Major Natural Gas Distribution Companies

Categories	Columbia	NFG	Peoples	Peoples-Equitable	PGW**	UGI-Gas	UGI Penn Natural	Gas Average
Personnel Problems	22%	7%	11%	26%	17%	8%	7%	15%
Termination or PAR Procedures	8%	25%	18%	11%	12%	17%	30%	15%
Discontinuance/Transfer	9%	12%	7%	12%	23%	9%	7%	15%
Billing Disputes	11%	13%	18%	14%	15%	12%	9%	14%
Damages	10%	12%	11%	4%	6%	10%	10%	8%
Other Payment Issues	4%	4%	3%	5%	11%	2%	4%	7%
Service Quality	9%	4%	11%	6%	2%	8%	2%	5%
Metering	1%	6%	5%	2%	7%	2%	1%	5%
Credit and Deposits	3%	6%	1%	3%	1%	15%	16%	4%
Scheduling Delays	6%	0%	7%	9%	4%	2%	0%	4%
Service Extensions	10%	4%	5%	4%	<1%	9%	4%	4%
Rates	3%	0%	1%	2%	<1%	1%	0%	1%
Service Interruptions	1%	0%	1%	1%	1%	2%	1%	1%
All Other Problems	2%	4%	2%	3%	1%	2%	9%	3%
Total-Number*	99	67	153	103	482	123	81	1,108

* Based on residential complaints opened in 2015 and evaluated by BCS as of July 22, 2016.

** Based on a probability sample of cases.

- Categories are for all residential complaints filed with BCS that were evaluated, whether or not they were found to be justified. See Appendix D-1 for an explanation of complaint categories and Appendix E, Table 2, for the number of cases in each category.
- In 2015, personnel problems generated 15 percent of the complaints about the major gas companies followed by termination or PAR procedures (15 percent). Complaints about discontinuance/transfer accounted for 15 percent of residential consumer complaints about the major gas companies.

2015 Residential Consumer Complaint Rates/ Justified Consumer Complaint Rates Major Natural Gas Distribution Companies

Company	Consumer Complaint Rate	Justified Consumer Complaint Rate
Columbia	0.38	0.02
NFG	0.37	0.06
Peoples	0.55	0.04
Peoples-Equitable	0.49	0.04
PGW	1.76	0.28*
UGI-Gas	0.44	0.04
UGI Penn Natural	0.57	0.09
Average	0.65	0.08

* Justified consumer complaint rate based on a probability sample of cases.

- The consumer complaint rate equals the number of consumer complaints for each 1,000 residential customers. The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- In 2015, the average of the consumer complaint rates was over eight times the average of the justified consumer complaint rates for the seven major gas companies.
- Appendix F, Table 2, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major gas company in 2014 and 2015.

2014-15 Justified Residential Consumer Complaint Rates Major Natural Gas Distribution Companies

Company	2014	2015
Columbia	0.04	0.02
NFG	0.10	0.06
Peoples	0.12	0.04
Peoples-Equitale	0.05	0.04
PGW*	0.38	0.28
UGI-Gas	0.09	0.04
UGI Penn Natural	0.11	0.09
Average	0.13	0.08

* Justified consumer complaint rate based on a probability sample of cases.

- The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- The justified consumer complaint rates for all of the major gas companies decreased from 2014 to 2015.
- The average of the justified consumer complaint rates for the major gas companies decreased from 0.13 in 2014 to 0.08 in 2015. PGW and UGI Penn Natural had justified consumer complaint rates that were higher than the 2015 industry average.
- Appendix F, Table 2, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major gas company in 2014 and 2015.

2014-15 Response Time to BCS Residential Consumer Complaints Major Natural Gas Distribution Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Columbia	5.3	5.9	0.6
NFG	13.9	5.7	-8.2
Peoples	3.1	2.9	-0.2
Peoples-Equitable	2.3	2.4	0.1
PGW	18.7	15.6	-3.1
UGI-Gas	10.0	12.7	2.7
UGI Penn Natural	10.9	14.1	3.2
Average	9.2	8.5	-0.7

- The calculation for average response time includes all residential consumer complaints for the major gas companies.
- The average response time for the major gas companies decreased from 9.2 days in 2014 to 8.5 days in 2015.
- Consumer complaint response time performance varied among the major gas companies in 2015, from a low of 2.4 days for Peoples-Equitable to a high of 15.6 days for PGW.

Payment Arrangement Requests

In 2015, BCS handled 13,783 PARs from residential customers of the NGDCs. There were 35 PARs from residential customers of Pennsylvania's NGs. Ninety-six percent (13,246) of the residential PARs were from customers of the seven major NGDCs. In 2015, BCS reviewed a representative sample of the PARs for case outcome for Peoples, PGW, UGI-Gas and UGI Penn Natural. Thus, the calculation for justified PAR rate that appears in the pages that follow is based on a subset of cases that BCS received from customers of these utilities. BCS believes that the size of the samples gives an adequate indication of the performance of these companies. Appendix G, Table 2, provides additional statistics regarding the PARs from residential customers of the major NGDCs.

**2015 Residential Payment Arrangement Request (PAR) Rates/
Justified PAR Rates*
Major Natural Gas Distribution Companies**

Company	PAR Rate	Justified PAR Rate
Columbia	1.75	0.03
NFG	2.46	0.11
Peoples	3.19	0.04*
Peoples-Equitable	2.01	0.07
PGW	15.79	0.39*
UGI-Gas	5.26	0.64*
UGI Penn Natural	8.63	1.21*
Average	5.58	0.36

* Based on a probability sample of cases.

- The PAR rate equals the number of PARs for each 1,000 residential customers. The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- On average, there were more than five PARs to BCS for each 1,000 residential customers of the major NGDCs in 2015. There was less than one justified PAR for each 1,000 residential customers.
- Appendix G, Table 2, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major gas company in 2014 and 2015.

2014-15 Justified Residential Payment Arrangement Request (PAR) Rates* Major Natural Gas Distribution Companies

Company	2014	2015
Columbia	0.04	0.03
NFG	0.20	0.11
Peoples*	0.15	0.04
Peoples-Equitale	0.05	0.07
PGW*	0.49	0.39
UGI-Gas*	0.53	0.64
UGI Penn Natural*	1.04	1.21
Average	0.36	0.36

* Based on a probability sample of cases.

- The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- The average of the justified PAR rates for the seven major gas utilities remained stable from 2014 to 2015 at 0.36. Three of the seven major gas companies had increases in their justified PAR rates.
- The 2015 justified PAR rates among the major NGDCs ranged from a low of 0.03 for Columbia to a high of 1.21 for UGI Penn Natural.
- Appendix G, Table 2, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major gas company in 2014 and 2015.

2014-15 Response Time to BCS Residential Payment Arrangement Requests (PARs) Major Natural Gas Distribution Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Columbia	2.4	2.5	0.1
NFG	8.6	2.7	-5.9
Peoples	2.8	1.8	-1.0
Peoples-Equitable	1.4	1.4	0.0
PGW	12.9	10.3	-2.6
UGI-Gas	5.6	5.2	-0.4
UGI Penn Natural	5.9	4.9	-1.0
Average	5.6	4.1	-1.5

- The calculation for average response time includes all residential PARs for the major gas companies.
- From 2014 to 2015, the average response time for the major gas companies decreased by 1.5 days.
- The 2015 PAR response times for the major NGDCs varied from a low of 1.4 days for Peoples-Equitable to a high of 10.3 days for PGW.

Termination and Reconnection of Service

Each month, the gas utilities report to the Commission the number of residential accounts that they terminated for nonpayment during the previous month. They also report the number of previously terminated residential accounts that they reconnected during the month. Historically, utilities have shown a varied pattern of termination behavior, from a consistent pattern to one that fluctuates from year to year. The number of reconnections varies from year to year and from company to company, depending on a variety of factors. The NGDC reconnects a customer's terminated service either when a customer pays his/her debt in full or makes a significant payment on the debt and agrees to a payment arrangement for the balance owed to the company. The tables that follow indicate the annual number of residential accounts each of the seven largest gas utilities terminated and reconnected in 2013, 2014 and 2015. The first table also presents the termination rates for each of these companies.

Residential Service Terminations/Termination Rates Major Natural Gas Distribution Companies

Company	Residential Service Terminations				Termination Rates		
	2013	2014	2015	% Change 2014-15	2013	2014	2015
Columbia	12,030	11,252	12,664	13%	3.13	2.91	3.27
NFG	9,576	9,942	9,025	-9%	4.82	5.00	4.53
Peoples	7,229	9,436	7,894	-16%	2.19	2.86	2.38
Peoples-Equitable	8,507	7,607	3,562	-53%	3.51	3.12	1.45
PGW	28,497	29,769	29,602	-1%	6.08	6.34	6.29
UGI-Gas	9,055	11,149	9,658	-13%	2.79	3.36	2.85
UGI Penn Natural	6,214	7,242	6,829	-6%	4.17	4.81	4.50
Major Gas	81,108	86,397	79,234	-8%			
Average of Rates					3.81	4.06	3.61

- The termination rate is the number of service terminations divided by the number of residential customers, expressed as a percent.
- Overall, the seven major gas companies terminated eight percent less residential accounts in 2015 than in 2014.

Residential Service Reconnections Major Natural Gas Distribution Companies

Company	2013	2014	2015	% Change 2014-15
Columbia	6,490	6,212	7,088	14%
NFG	6,453	6,753	6,081	-10%
Peoples	5,426	5,210	5,597	7%
Peoples-Equitable	6,453	5,620	2,361	-58%
PGW	19,907	19,836	19,672	-1%
UGI-Gas	4,332	5,240	5,559	6%
UGI Penn Natural	3,483	4,008	4,222	5%
Major Gas	52,544	52,879	50,580	-4%

- Overall, the seven major NGDCs reconnected four percent less residential accounts in 2015 than in 2014.

Compliance

BCS provides utilities with written clarifications or explanations of Chapter 56 provisions and other Commission regulations and policies. The use of “infraction rate” is intended to help the Commission monitor the duty of natural gas companies at 66 Pa. C.S. §2206(a) to, at a minimum, maintain customer services under retail competition at the same level of quality as existed prior to the beginning of the Natural Gas Choice and Competition Act of 1999.

The infraction rates in the table that follows are based on the review of informal complaints that residential consumers filed with BCS from 2013 through 2015. Infractions identified on complaints involving competition issues are included in the infraction statistics. Appendix H, Table 2, presents detailed information about the infractions identified on 2015 cases to the BCS.

Commission Infraction Rates Major Natural Gas Distribution Companies

Company	2013	2014	2015
Columbia	0.01	0.01	0.01
NFG	0.04	0.03	0.04
Peoples	0.16	0.08	0.03
Peoples-Equitable	0.02	0.01	0.03
PGW	0.43	0.20	0.35
UGI-Gas	0.01	0.08	0.03
UGI Penn Natural	0.03	0.03	0.07

- The infraction rate is the number of informally verified infractions per 1,000 residential customers.
- From 2014 to 2015, infraction rates decreased for Peoples and UGI-Gas, while the infraction rate increased for NFG, Peoples-Equitable, PGW and UGI Penn Natural. The rate for Columbia remained stable.
- Appendix H, Table 2, presents the actual number of infractions for 2015 categorized by infraction category.
- As shown in Appendix H, Table 2, the dispute handling category is noteworthy due to both high volume and high percentage of the total number of infractions.

5. Water Industry

In 2015, the Commission had jurisdiction over 84 water companies, including 22 municipal water companies. The Commission categorizes the non-municipal water companies into one of three classifications: A, B and C. Those three classifications are based on the amount of the company's annual revenues.

The non-municipal water companies with the largest annual revenues are classified as "Class A" water companies. "Class A" water companies must have annual revenues of \$1 million or more for three years in a row. In 2015, nine "Class A" water companies served residential customers. The number of residential customers for these major companies ranged from 2,410 for SUEZ Water Bethel to 597,114 residential customers for Pennsylvania American Water Co. (PAWC). In 2015, the "Class A" water companies were Aqua Pennsylvania Inc. (Aqua), Audubon Water Co., Columbia Water Co., Newtown Artesian Water Co., PAWC, Superior Water Co., SUEZ Water Bethel f/k/a United Water Bethel, SUEZ Water PA f/k/a United Water of Pennsylvania Inc. and York Water Co. The tables in this chapter present individual statistics for the two largest water companies, PAWC and Aqua, and for the "Other Class A" companies as a whole.

The other classes of water companies have lower annual revenues and, typically, fewer residential customers. In 2015, eight "Class B" companies were operating. "Class B" water companies have annual revenues between \$200,000 and \$999,999. In 2015, the number of residential customers for the "Class B" companies ranged from 287 to 2,517. There were 44 "Class C" companies in 2015. "Class C" water companies have annual revenues of less than \$200,000. The number of residential customers for the "Class C" companies ranged from two to 1,131 in 2015.

The municipal water companies are companies owned by municipalities that serve customers outside their boundaries. The Commission's jurisdiction is limited to regulating the rates and service of customers outside the municipalities.

The majority of the residential consumer complaints and PARs to BCS came from customers of the "Class A" water companies. Most of the complaints and PARs from water customers dealt with matters covered by Chapter 56 of our regulations or Chapter 14 of the Public Utility Code. These consumer complaints and PARs represent customer appeals to the Commission resulting from the inability of the company and the customer to reach a mutually satisfactory resolution to a dispute or payment negotiation.

The tables on the pages that follow depict the performance of the "Class A" water companies in 2015. Appendices F and G also present statistics about the performance of the "Class A" water companies.

Consumer Complaints

During 2015, BCS handled a total of 620 consumer complaints from residential customers of the various water companies. Of those complaints, 95 percent (590) were from customers of the “Class A” companies. The remaining five percent were from customers of smaller water companies. While a majority of consumer complaints involved the “Class A” water companies in 2015, the Commission devoted a significant amount of attention to the smaller water companies. Sometimes the amount of time BCS spends on a few complaints from customers of a smaller company exceeds the amount of time it spends addressing complaints filed against one of the larger companies. This is because larger companies typically have the resources to respond appropriately to complaints and PARs as compared to smaller water companies with limited resources.

In 2015, customers of the small water companies filed complaints with BCS for a variety of reasons. Of the 30 consumer complaints filed about the “Non-Class A” water companies, 47 percent (14 cases) involved disputes about service, including people-delivered service or other aspects of the companies’ service to customers.

Consumer Complaint Categories

The following table shows the percentage of 2015 complaints from residential customers of the “Class A” water companies in each of the categories used by BCS policy analysts to categorize consumer complaints about electric, gas and water companies. Appendix E, Table 3, provides the actual number of cases that fell into each category in 2015.

Consumer Complaint Categories: 2015 Major Water Companies

Categories	Aqua	PAWC	"Other Class A"	All "Class A" Water Average
Billing Disputes	40%	31%	43%	35%
Termination or PAR Procedures	10%	20%	9%	15%
Service Quality	12%	15%	16%	14%
Personnel Problems	7%	13%	11%	11%
Metering	9%	7%	5%	7%
Credit and Deposits	7%	2%	2%	4%
Damages	2%	4%	2%	3%
Scheduling Delays	4%	1%	2%	3%
Discontinuance/Transfer	5%	1%	0%	2%
Service Interruptions	1%	2%	2%	2%
Other Payment Issues	1%	2%	0%	2%
Rates	1%	1%	0%	1%
Service Extensions	0%	0%	2%	<1%
All Other Problems	1%	1%	5%	2%
Total-Number*	179	286	44	509

* Based on residential complaints opened in 2015 and evaluated by BCS as of July 22, 2016.

- Categories are for all residential complaints filed with BCS that were evaluated, whether or not they were found to be justified. See Appendix D-1 for an explanation of complaint categories and Appendix E, Table 3, for the number of cases in each category.
- Thirty-five percent of residential complaints filed against the "Class A" water companies involved billing disputes.

**2015 Residential Consumer Complaint Rates/
Justified Consumer Complaint Rates
Major Water Companies**

Company	Consumer Complaint Rate	Justified Consumer Complaint Rate
Aqua	0.51	0.17
PAWC	0.58	0.17
"Other Class A"	0.33	0.01
Average	0.47	0.12

- The consumer complaint rate equals the number of consumer complaints for each 1,000 residential customers. The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- The consumer complaint rates for Aqua and PAWC are three times greater than their justified consumer complaint rates.
- Appendix F, Table 3, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for Aqua, PAWC and the "Other Class A" water companies in 2014 and 2015.

2014-15 Justified Residential Consumer Complaint Rates Major Water Companies

Company	2014	2015
Aqua	0.16	0.17
PAWC	0.29	0.17
"Other Class A"	0.03	0.01
Average	0.16	0.12

- The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- The justified consumer complaint rate increased for Aqua, but decreased for PAWC between 2014 and 2015.
- Appendix F, Table 3, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for Aqua, PAWC and the "Other Class A" water companies in 2014 and 2015.

2014-15 Response Time to BCS Residential Consumer Complaints Major Water Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Aqua	19.4	22.7	3.3
PAWC	16.6	20.7	4.1
"Other Class A"	15.9	11.8	-4.1
Average	17.3	18.4	1.1

- The calculation for average response time includes all residential consumer complaints for the major water companies.
- The average response time for Aqua increased by 3.3 days from 2014 to 2015. The average response time for PAWC increased 4.1 days, from 16.6 days in 2014 to 20.7 days in 2015.

Payment Arrangement Requests

In 2015, BCS handled 4,024 PARs from residential customers of the water industry. Ninety-nine percent (4,000) of the residential PARs were from customers of the "Class A" water companies. As in past years, for the companies with the largest volume of requests, BCS policy analysts reviewed a representative sample of PARs for case outcome. In 2015, BCS reviewed a sample of the PARs for Aqua and PAWC. Thus, the calculation for justified PAR rate that appears in the pages that follow is based on a subset of cases that BCS received from customers of these companies. BCS believes the size of the sample gives a reasonable indication of the performance. Appendix G, Table 3, provides additional statistics regarding the PARs from residential customers of the "Class A" water companies.

**2015 Residential Payment Arrangement Request (PAR) Rates/
Justified PAR Rates
Major Water Companies**

Company	PAR Rate	Justified PAR Rate
Aqua	1.90	0.11*
PAWC	5.16	0.96*
"Other Class A"	1.25	0.08
Average	2.77	0.38

* Justified PAR rates based on a probability sample of cases.

- The PAR rate equals the number of PARs for each 1,000 residential customers. The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- On average, there were nearly three PARs to BCS for each 1,000 residential customers of the major water companies in 2015. There was less than one justified PAR for each 1,000 residential customers.
- Appendix G, Table 3, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for Aqua, PAWC and the "Other Class A" water companies in 2014 and 2015.

2014-15 Justified Residential Payment Arrangement Request (PAR) Rates Major Water Companies

Company	2014	2015
Aqua*	0.07	0.11
PAWC*	0.57	0.96
"Other Class A"	0.00	0.08
Average	0.21	0.38

* Based on a probability sample of cases.

- The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- The justified PAR rate increased for both Aqua and PAWC between 2014 and 2015.
- Appendix G, Table 3, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for Aqua, PAWC and the "Other Class A" water companies in 2014 and 2015.

2014-15 Response Time to BCS Residential Payment Arrangement Requests (PARs) Major Water Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
Aqua	15.8	17.1	1.3
PAWC	22.5	14.9	-7.6
"Other Class A"	4.5	5.2	0.7
Average	14.3	12.4	-1.9

- The calculation for average response time includes all residential PARs for the major water companies.
- Aqua's response time increased 1.3 days to reach 17.1 days in 2015. PAWC's response time decreased 7.6 days, from 22.5 days in 2014 to 14.9 days in 2015.

Termination and Reconnection of Service

Each month, the water utilities report to the Commission the number of residential accounts that they terminated for nonpayment during the previous month. They also report the number of previously terminated residential accounts that they reconnected during the month. Historically, utilities have shown a varied pattern of termination behavior, from a consistent pattern to one that fluctuates from year to year. The number of reconnections varies from year to year and from company to company, depending on a variety of factors. The water company reconnects a customer's terminated service either when a customer pays his/her debt in full or makes a significant payment on the debt and agrees to a payment arrangement for the balance owed to the company. The tables that follow indicate the annual number of residential accounts each of the water utilities terminated and reconnected in 2013, 2014 and 2015. The first table also presents the termination rates for each of these companies.

Residential Service Terminations/Termination Rates Major Water Companies

Company	Residential Service Terminations				Termination Rates		
	2013	2014	2015	% Change 2014-15	2013	2014	2015
Aqua	7,453	6,111	5,294	-13%	1.92	1.56	1.36
PAWC	15,054	8,161	20,750	154%	2.54	1.37	3.48
"Other Class A"	2,836	1,806	1,818	1%	2.08	1.31	1.29
Major Water	25,343	16,078	27,862	73%			
Average of Rates					2.18	1.41	2.04

- The termination rate is the number of service terminations divided by the number of residential customers, expressed as a percent.
- Overall, the water companies terminated 73 percent more residential accounts in 2015 than in 2014.

Residential Service Reconnections Major Water Companies

Company	2013	2014	2015	% Change 2014-15
Aqua	4,339	3,952	3,521	-11%
PAWC*	11,934	4,899	16,850	244%
"Other Class A"	1,957	1,015	1,110	9%
Major Water	18,230	9,866	21,481	118%

* Reconnection data excludes November 2013 to March 2014.

- Overall, the water companies reconnected 118 percent more residential accounts in 2015 than in 2014.

Compliance

BCS provides water utilities with written clarifications or explanations of Chapter 56 provisions and other Commission regulations and policies.

The infraction rates in the table that follows are based on the review of informal complaints that residential consumers filed with BCS from 2013 through 2015. Appendix H, Table 3, presents detailed information about the infractions identified on 2015 cases to the BCS.

Commission Infraction Rates Major Water Companies

Company	2013	2014	2015
Aqua	0.32	0.27	0.25
PAWC	0.23	0.39	0.25
"Other Class A"	0.01	0.04	0.01

- The infraction rate is the number of informally verified infractions per 1,000 residential customers.
- The infraction rates for Aqua, PAWC and the "Other Class A" water companies decreased from 2014 to 2015.
- Appendix H, Table 3, presents the actual number of infractions for 2015 categorized by infraction category.
- As shown in Appendix H, Table 3, the dispute handling category is noteworthy due to both high volume and high percentage of the total number of infractions.

Programs That Assist Low-Income Customers

Several water companies voluntarily operate programs to assist low-income customers in maintaining water service.

Aqua Pennsylvania Inc. (Aqua) - In 1994, Aqua implemented a pilot program that provided payment assistance and conservation services to low-income customers. Aqua named this program "Helping Hand." In 1996, Aqua made the program a permanent part of its low-income assistance.

Helping Hand is for customers at or below 200 percent of the federal poverty level. On April 1, 2009, in recognition of the current economic climate, the company eased the remaining minimum requirements. The company reduced the minimum past amount due from \$150 to \$110, and the minimum number of days past due from 30 to 21.

Each household enrolled in the Helping Hand program receives a plumbing inspection, including minor repairs, and/or a conservation kit, containing water saving devices. The customer also receives water usage and conservation information. Customers who make their payments on time and in full receive a credit of \$20 per month applied to their arrearage.

At the end of 2015, 378 active participants were enrolled in the Helping Hand program. During the year, Aqua spent \$117,275 to complete eligibility interviews and household audits. In addition, the company provided \$26,975 in arrearage forgiveness credits to 401 program participants.

Pennsylvania American Water Co. (PAWC) – In 1991, PAWC established the “Help to Others” (H2O) program. The H2O program provides customers with an 80 percent discount on their monthly service fees – a savings of about \$12 per month. The program also provides water-saving devices and conservation education. As of March 2016, there were 15,795 customers billed the discounted rate.

In addition to a discount for water, the company also offers a discount for wastewater customers in Coatesville, Bushkill, Lehman Pike, Claysville, Clarion, East Stroudsburg, Blue Mountain and Winona Lakes. This discount offers a 15 percent discount off the total wastewater billing for those who qualify. As of March 2016, there were 704 customers billed the discount for wastewater.

As part of the H2O program, PAWC also participates with the Dollar Energy Fund to provide cash grants of up to \$500 per year for those water and wastewater customers listed above. Dollar Energy Fund is a hardship fund administrator that provides cash assistance to utility customers who need help in paying their utility bills. During the 2014-15 program year, PAWC’s shareholders and customers provided \$344,844 in hardship fund benefits to 1,248 customers for an average benefit of \$276. In addition, PAWC’s shareholders provided \$10,000 for the 2014-15 program year for their wastewater customers. The program year has wastewater funds available totaling \$11,772.

Suez Water Pennsylvania f/k/a United Water of Pennsylvania Inc. (Suez Water PA) – Suez Water PA implemented the “Suez Cares” f/k/a “UW Cares” program in 2005. Suez Cares is a nonprofit 501(c)(3) organization that provides financial assistance to customers who experience a temporary financial crisis caused by such occurrences as a job loss, severe illness, casualty or extensive military service. Cash grants up to \$100 are provided to qualifying customers who are first screened by the Salvation Army for eligibility. To be eligible for a grant, customers must have made a nominal payment within the last 90 days. During the 2015 program year, the company provided grants totaling \$4,375 to qualifying customers.

York Water Co. – In 2005, the York Water Co. established the “York Water Cares” program. This program offers qualified customers up to \$120 in arrearage forgiveness benefits and plumbing repairs. The repairs are designed to help the customer conserve and reduce overall water usage.

During 2015, the company expended \$720 for customer plumbing repairs and enrolled a total of 10 new customers in the York Water Cares program. As of program end 2015, 16 customers received arrearage forgiveness benefits totaling \$980 for an average benefit of approximately \$61 per customer. The company anticipates an annual savings of \$1,020 in costs for termination proceedings that may be avoided as a result of customer participation in the York Water Cares program.

6. Telephone Industry

During 2015, BCS handled consumer complaints, PARs and inquiries from the customers of a variety of telecommunications service providers, including incumbent local exchange carriers (ILECs), competitive local exchange carriers (CLECs), long-distance companies and resellers. Just over 641 providers of telecommunications services were certificated and able to conduct business in Pennsylvania in 2015. Of this group of telecommunications providers, 37 were ILECs. Thirty-two of these ILECs were non-major utilities each serving fewer than 50,000 residential customers. The remaining five ILECs were major companies, each with more than 50,000 residential customers. Collectively, these five major telephone companies served just under 1.4 million residential customers in 2015.

This chapter will focus exclusively on the five major ILECs in 2015 – CenturyLink (CenturyLink); Frontier Communications Commonwealth Telephone Co. (Frontier Commonwealth); Verizon North Inc. (Verizon North); Verizon Pennsylvania (Verizon PA); and Windstream Communications (Windstream).

Unlike the electric, gas and water chapters, the analyses of the five companies that appear in this chapter include complaints about competition-related issues such as slamming, competition-related service complaints and billing problems. This is the 13th year that BCS included competition-related complaints in its analyses of the largest telephone companies.

Consumer Complaints

Although BCS handled consumer complaints about different types of telecommunications service providers in 2015, the complaints predominantly came from the residential customers of the five major ILECs. Overall, BCS handled 1,091 consumer complaints from residential customers of telecommunications service providers in 2015. Of those complaints, 1,017 were from residential customers of all of Pennsylvania's ILECs while 1,007 were from customers of the five major ILECs. Meanwhile, 45 consumer complaints were from residential customers of the CLECs operating in Pennsylvania. The remaining 29 consumer complaints were from residential customers of other providers of telecommunications services such as long-distance carriers, resellers, wireless carriers and Voice over Internet Protocol (VoIP) providers.

Consumer Complaint Categories

The following table shows the percentage of 2015 consumer complaints from residential customers of the major telephone companies in each of the 11 categories used by BCS policy analysts to categorize consumer complaints about telephone companies.

Consumer Complaint Categories: 2015

Major Local Telephone Companies

Categories	Century-Link	Frontier Commonwealth	Verizon North	Verizon PA**	Wind-stream	Telephone Average
Unsatisfactory Service	21%	41%	57%	32%	53%	34%
Billing Disputes	32%	33%	10%	23%	19%	23%
Service Delivery	15%	15%	17%	22%	12%	21%
Service Terminations	18%	0%	2%	4%	2%	4%
Competition	0%	0%	5%	2%	2%	2%
Credit and Deposits	0%	0%	0%	1%	2%	1%
Discontinuance/Transfer	0%	0%	0%	<1%	2%	1%
Annoyance Calls	0%	3%	0%	<1%	0%	<1%
Toll Services	3%	0%	0%	0%	0%	<1%
Non-Recurring Charges	0%	0%	0%	0%	0%	0%
All Other Problems	12%	8%	10%	16%	7%	15%
Total-Number*	34	39	42	614	43	772

* Based on residential complaints opened in 2015 and evaluated by BCS as of July 22, 2016.

** Based on a probability sample of cases.

- Categories are for all residential complaints filed with BCS, whether or not they were found to be justified. See Appendix D-2 for an explanation of complaint categories and Appendix E, Table 4, for the number of cases in each category.
- Seventy-eight percent of all complaints for the major telephone companies fall into one of three complaint categories: unsatisfactory service, billing disputes or service delivery.
- Unsatisfactory service complaints account for 34 percent of the total number of consumer complaints filed against the five major telephone companies in 2015. Last year, unsatisfactory service accounted for 30 percent of all consumer complaints filed against the major telephone companies.

The 2014 and 2015 consumer complaint figures for justified consumer complaint rates and response times for each of the major telephone companies are presented on the following pages. Appendix F, Table 4, provides additional statistics about the consumer complaints from residential customers of the five major local telephone companies.

2015 Residential Consumer Complaint Rates/ Justified Consumer Complaint Rates Major Local Telephone Companies

Company	Consumer Complaint Rate	Justified Consumer Complaint Rate
CenturyLink	0.26	0.12
Frontier Commonwealth	0.37	0.25
Verizon North	0.25	0.14
Verizon PA	0.95	0.37*
Windstream	0.44	0.33
Average	0.46	0.24

* Justified consumer complaint rate based on a probability sample of cases.

- The consumer complaint rate equals the number of consumer complaints for each 1,000 residential customers. The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- For the five major telephone companies, the average of their consumer complaint rates is nearly two times greater than the average of their justified consumer complaint rates.
- Appendix F, Table 4, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major telephone company in 2014 and 2015.

2014-15 Justified Residential Consumer Complaint Rates Major Local Telephone Companies

Company	2014	2015
CenturyLink	0.13	0.12
Frontier Commonwealth	0.20	0.25
Verizon North	0.08	0.14
Verizon PA*	0.31	0.37
Windstream	0.19	0.33
Average	0.18	0.24

* Based on a probability sample of cases.

- The justified consumer complaint rate equals the number of justified consumer complaints for each 1,000 residential customers.
- Four of the major telephone companies had justified consumer complaint rates that increased while one, CenturyLink, had a justified consumer complaint rate that decreased.
- Frontier Commonwealth, Verizon PA and Windstream had justified consumer complaint rates that were higher than the industry average.
- Appendix F, Table 4, presents the number of consumer complaints, the consumer complaint rate, the number of justified consumer complaints and the justified consumer complaint rate for each major telephone company in 2014 and 2015.

2014-15 Response Time to BCS Residential Consumer Complaints Major Local Telephone Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
CenturyLink	16.0	18.7	2.7
Frontier Commonwealth	21.5	18.2	-3.3
Verizon North	5.9	20.8	14.9
Verizon PA	8.6	11.6	3.0
Windstream	16.4	22.3	5.9
Average	13.7	18.3	4.6

- For the five major telephone companies, the average response time to consumer complaints increased from 13.7 days in 2014 to 18.3 days in 2015.
- The response time for Frontier Commonwealth decreased by more than 3 days. In contrast, Verizon North increased their average response time by 14.9 days since 2014.

Payment Agreement Requests

Telephone service consists of three components: basic service, nonbasic service and toll service. BCS does not handle customer requests for payment agreements that involve toll or nonbasic services. For the telephone industry, PARs are principally contacts to BCS or to companies involving a request for payment terms for arrearages associated with basic service. Most PARs are cases relating to the suspension of basic telephone service for nonpayment. Suspension of basic telephone service involves the temporary cessation of service without the consent of the customer and occurs when the customer owes the local telephone company money. If the customer does not pay or make an agreement to pay the amount owed, the company proceeds to terminate the customer's service, which is the permanent cessation of service. The majority of PARs are from customers who contact BCS to request payment agreements after they have received a suspension notice.

Under Chapter 64, a customer contact in response to a suspension notice is a dispute (as the term is defined in §64.2) only if the contact includes a disagreement with respect to the application of a provision of Chapter 64. Where telephone cases involving telephone service suspension are concerned, failure to negotiate a payment agreement does not in itself mean that a dispute exists. Consequently, in this report, telephone cases that involve PARs have been separated from telephone PARs that also involve a dispute. For the telephone industry, PARs that involve a dispute are classified as consumer complaints. During 2015, BCS handled 106 PARs from residential customers of telecommunications service providers. Of these PARs, 94 were from residential customers of the five major telephone

companies: CenturyLink, Frontier Commonwealth, Verizon North, Verizon PA and Windstream.

The 2014 and 2015 justified PAR rates and response times for the major telephone companies are presented in the tables that follow.

**2015 Residential Payment Agreement Request (PAR) Rates/
Justified PAR Rates
Major Local Telephone Companies**

Company	PAR Rate	Justified PAR Rate
CenturyLink	0.04	0.00
Frontier Commonwealth	0.02	0.02
Verizon North	0.02	0.00
Verizon PA	0.09	0.00
Windstream	0.01	0.00
Average	0.04	0.00

- The PAR rate equals the number of PARs for each 1,000 residential customers. The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- On average, there was less than one PAR to BCS for each 1,000 residential customers of the major telephone companies in 2015. There were no justified PARs for each 1,000 residential customers.
- Appendix G, Table 4, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major telephone company in 2014 and 2015.

**2014-15 Justified Residential
Payment Agreement Request (PAR) Rates
Major Local Telephone Companies**

Company	2014	2015
CenturyLink	0.02	0.00
Frontier Commonwealth	0.00	0.02
Verizon North	0.01	0.00
Verizon PA	0.00	0.00
Windstream	0.01	0.00
Average	0.01	0.00

- The justified PAR rate equals the number of justified PARs for each 1,000 residential customers.
- The average justified PAR rate for the five major telephone companies decreased from 0.01 in 2014 to 0.00 in 2015. Frontier Commonwealth had a justified PAR rate greater than the 2015 industry average.
- Three of the five major telephone companies had justified PAR rates that decreased from 2014 to 2015. Frontier Commonwealth's justified PAR rate increased, while Verizon PA's PAR rate remained stable.
- Appendix G, Table 4, presents the number of PARs, the PAR rate, the number of justified PARs and the justified PAR rate for each major telephone company in 2014 and 2015.

2014-15 Response Time to BCS Residential Payment Agreement Requests (PARs) Major Local Telephone Companies

Company	Number of Days 2014	Number of Days 2015	Change in Days 2014 to 2015
CenturyLink	12.3	13.5	1.2
Frontier Commonwealth	6.0	11.0	5.0
Verizon North	2.5	7.3	4.8
Verizon PA	3.1	8.9	5.8
Windstream	11.5	11.0	-0.5
Average	7.1	10.3	3.2

- The average response time to PARs for the five major telephone companies increased from 7.1 days in 2014 to 10.3 days in 2015.
- Of the five major telephone companies, only Windstream's response time to PARs decreased from 2014 to 2015.

Termination of Service

Chapter 64 defines suspension as a temporary cessation of service without the consent of the customer. Termination of service, according to Chapter 64, is the permanent end of service after a suspension without the consent of the customer. Most PARs are cases relating to the termination of telephone service and are registered during the suspension phase. Many customers who have their basic service suspended are able to make payment agreements and avoid termination. Those who are not able to avoid termination cease to be customers once the termination of basic service takes place. Shifts in terminations can signal potential problems with customers maintaining basic telephone service and reflect the impact of universal service programs.

Residential Service Terminations/Termination Rates

Major Local Telephone Companies

Company	Residential Service Terminations				Termination Rates		
	2013	2014	2015	% Change 2014-15	2013	2014	2015
CenturyLink	9,840	8,100	7,044	-13%	65.58	57.22	52.16
Frontier Commonwealth	3,048	2,988	2,460	-18%	26.14	27.02	23.20
Verizon North	6,972	5,928	4,164	-30%	33.22	31.67	24.62
Verizon PA	55,956	44,472	28,980	-35%	47.10	44.14	32.66
Windstream	4,140	3,720	3,204	-14%	38.78	36.64	33.10
Major Telephone	79,956	65,208	45,852	-30%			
Average of Rates					42.16	39.34	33.15

- The termination rate equals the number of basic service terminations for each 1,000 residential customers.
- Overall, the average residential service termination rate for the major telephone companies decreased from 39.34 in 2014 to 33.15 in 2015.
- From 2014 to 2015, the termination rate decreased for all five of the major telephone companies. Verizon PA had the greatest decrease in terminations, down 35 percent since 2014.

Compliance

The informal compliance notification process enables BCS to provide companies with written clarifications and explanations of Chapter 63 and Chapter 64 provisions and BCS policies. The informal compliance process is specifically designed to identify systemic errors. Companies can then investigate the scope of the problem and take corrective action. Appropriate corrective action usually involves modifying a computer program; revising the text of a notice, a billing or a letter; changing a company procedure; or providing additional staff training to ensure the proper implementation of a sound procedure.

Each year, BCS retrieves infraction data from the BCS Compliance Tracking System and produces tables that present Chapter 63 and Chapter 64 infraction statistics for the major telephone companies reviewed in this chapter. The infraction statistics are drawn from cases that residential consumers filed with BCS in 2013, 2014 and 2015. Appendix H, Tables 4 and 5, present detailed information about the infractions identified on 2015 cases to the BCS.

Commission Infraction Rates – Chapter 63 Major Local Telephone Companies

Company	2013	2014	2015
CenturyLink	0.05	0.18	0.08
Frontier Commonwealth	0.39	0.18	0.52
Verizon North	0.42	0.11	0.64
Verizon PA	0.58	0.28	0.47
Windstream	1.50	0.27	0.90

- The infraction rate is the number of informally verified infractions per 1,000 residential customers.
- Infraction rates for four of the five major telephone companies increased since 2014. The infraction rate for Century Link decreased in 2015.
- Appendix H, Table 4, presents the actual number of infractions of Chapter 63 found on 2015 informal complaints for the major local telephone companies by infraction category.

Commission Infraction Rates – Chapter 64 Major Local Telephone Companies

Company	2013	2014	2015
CenturyLink	0.26	0.18	0.16
Frontier Commonwealth	0.32	0.29	0.37
Verizon North	0.12	0.05	0.11
Verizon PA	0.24	0.10	0.28
Windstream	0.31	0.11	0.42

- The infraction rate is the number of informally verified infractions per 1,000 residential customers.
- Infraction rates for four of the five major telephone companies increased since 2014. The infraction rate for Century Link decreased in 2015.
- Appendix H, Table 5, presents the actual number of infractions of Chapter 64 found on 2015 informal complaints for the major local telephone companies by infraction category.

Universal Service Programs

As part of its ongoing responsibilities, BCS monitors the universal service programs of local telephone companies and wireless companies. For the telephone industry, universal service programs² include Lifeline 135 Service (Lifeline 135), Lifeline Service (Lifeline) and the Universal Telephone Assistance Program (UTAP). These programs ensure that low-income consumers have access to telephone service by providing discounts or credits for telephone service. The Commission approved the implementation of Pennsylvania's first universal service program for local telephone companies in 1989.³ In December 1997, the Commission approved Lifeline service plans for 44 telephone companies which led to the statewide implementation of telephone companies' Lifeline programs in 1998.

Lifeline and Lifeline 135 Service

The Commission's 2005 Final Lifeline Order (Final Order), at Docket No. M-00051871 expanded the Lifeline program eligibility to be consistent with the Federal Communications Commission's (FCC) programs.⁴ It added the National School Free Lunch Program and an income-only based criterion (income at or below 135 percent of the federal poverty guidelines) as new criteria for Pennsylvania's Lifeline program eligibility. Second, the Final

² With the exception of UTAP, these programs are supported fully or in part by federal universal service funds.

³ The Link-Up America Program was the first universal service program. The FCC eliminated this program in 2012.

⁴ FCC Report and Order and Further Notice of Proposed Rulemaking in the Matter of Lifeline and Link-Up, at CC Docket No. 04-87, WC Docket No. 03-109.

Order directed all jurisdictional Eligible Telecommunication Carriers (ETCs)⁵ to implement the Lifeline provisions contained in Chapter 30. Under these provisions,⁶ ETCs are to inform new and existing customers about the availability of Lifeline services. They also must permit eligible Lifeline service customers to purchase any number of optional services (i.e. call waiting) at the tariffed rates for these services.

On Dec. 18, 2008, the Commission adopted the initial decision of a PUC administrative law judge ordering Verizon PA and Verizon North to revise their tariffs to permit their Lifeline 135 customers the opportunity to subscribe to three types of bundled service plans.⁷ Those customers may subscribe to a bundled service package plan that offers 1) local service with three optional services; 2) local service with three optional services plus regional toll service; or 3) local service with three optional services plus regional toll service and long-distance service at a single monthly rate.

In August 2010, the Commission adopted the final Policy Statement on the Commonwealth of Pennsylvania Guidelines for Designation and Annual Recertification as an ETC for purposes of Federal Universal Service Support (ETC Guidelines).⁸ Designation as an ETC for provision of Lifeline service would permit the wire-line and wireless providers to participate in the federal Universal Service Fund's (USF) Lifeline program in order to receive support from the Low-Income program of the federal USF for these services. In 2015, there were 19 wireless telephone companies providing Lifeline services in Pennsylvania. There were 10 wireless telephone company ETC petitions pending.

On March 2, 2012, the FCC issued a Final Rule⁹ which reformed and begins to modernize the federal USF Lifeline program. The reforms substantially strengthen protections against waste, fraud and abuse; improve program administration and accountability; improve enrollment and consumer disclosures; initiate modernization of the program for broadband; and constrain the growth of the program in order to reduce the burden of all who contribute to the federal USF. In addition, the FCC identified numerous unserved census block groups in Pennsylvania where wireless ETCs may bid to receive Mobility Fund Phase 1 support to build infrastructure over which to deliver 3G or better broadband and voice service. In October 2012, T-Mobile Northeast, LLC and NEP Cellcorp, Inc. won the bids to build the infrastructure in designated areas of Pennsylvania.

The following table shows enrollment activity for the major telephone companies' Lifeline programs in 2014 and 2015.

⁵ To provide Lifeline services, telephone companies must be designated Eligible Telecommunications Carriers (ETC) by their state commission or the FCC. ETCs may receive universal service funding.

⁶ 66 Pa. C.S. §§ 30 (f)(1-4). These rules apply to all Pennsylvania incumbent local exchange carriers and three competitive local exchange carriers.

⁷ See Dockets C-20077916 and C-20077917.

⁸ Docket No. M-2010-2164741 which codifies the guidelines at 52 Pa. Code § 69.2501.

⁹ 47 CFR Part 54 – Universal Service

Lifeline Service Activity 2014-15

Company	Total Number of Customers Who Received Lifeline Service		Total Number of Customers Enrolled as of December	
	2014	2015	2014	2015
CenturyLink	2,660	2,043	1,596	1,285
Frontier Commonwealth	2,314	2,062	1,861	1,152
Verizon North*	6,845	3,079	2,114	2,089
Verizon PA*	38,399	20,487	13,456	15,028
Windstream	4,572	3,610	3,052	2,182
Total	54,790	31,281	22,079	21,736

* The figures for Verizon PA and Verizon North include customers enrolled in both the Lifeline and Lifeline 135 programs.

As of July 1, 2015, the monthly credit¹⁰ is \$9.25 for the Lifeline 135 program, and \$11.75 for the Verizon companies' Lifeline program.

Universal Telephone Assistance Program

Verizon PA implemented a Universal Telephone Assistance Program (UTAP) along with its Lifeline service program as part of a settlement agreement that was approved by the Commission August 4, 1995 (P-00930715, P-00950958). Verizon PA is the only company that offers a financial assistance program that helps existing Lifeline customers and qualified Lifeline applicants (with a pre-existing basic service arrearage) to restore their basic telephone service. The Dollar Energy Fund manages UTAP and distributes funds to qualified customers and Lifeline applicants. The average UTAP assistance grant given to customers in 2015 was \$70. Overall, UTAP distributed \$7,746 in financial assistance to 110 of Verizon PA's qualified customers in 2015.

Automatic Notification Program

The Lifeline service automatic notification provision at 66 Pa.C.S. § 3019(f)(5) requires that all jurisdictional ETCs provide the Department of Human Services (DHS), formerly the Department of Public Welfare, with service descriptions, subscription forms, contact telephone numbers and service area information so DHS can notify its clients about the availability of Lifeline service. In 2005, a working group consisting of representatives of the PUC, Pennsylvania Telephone Association, the Office of Consumer Advocate and the Pennsylvania Utility Law Project worked with DHS to implement this provision. Commission staff coordinated with members of the working group to develop subscription forms and

¹⁰ The monthly credit is subject to change due to the Federal Subscriber Line Cost rate changes.

listings of company contacts by county. Commission staff continues to provide DHS with copies of informational brochures and a link to the Commission's website for information about companies that offer Lifeline programs.

Wireless ETC Designation

Virgin Mobile USA, LP is the first wireless carrier designated by the Commission to be an ETC. On Dec. 22, 2010, the Commission approved Virgin Mobile's petition (Docket No. P-2010-2155915) for limited designation as an ETC. In January 2011, Virgin Mobile filed a petition for reconsideration to lift the Public Safety Answering Point (PSAP) certification requirements since the FCC no longer required facilities-based carriers seeking ETC status to comply with the PSAP certification obligations. The Commission approved Virgin Mobile's petition for reconsideration on Feb. 10, 2011. Effective Feb. 14, 2011, Virgin Mobile could operate its Lifeline program, Assurance Wireless, in Pennsylvania.

On Oct. 14, 2011, the Commission approved YourTel America's petition to become an ETC in Pennsylvania. The Commission approved the ETC petitions for Cricket Communications, Inc.; Keystone Wireless, LLC d/b/a Immix Wireless; T-Mobile Northeast, LLC; T-Mobile Central, LLC and Voicestream Pittsburgh, LP; Budget Prepay, Inc.; Global Connection, Inc. and Tag Mobile, LLC in 2012. Keystone and T-Mobile each petitioned for both low-income and high-cost support and sought federal Mobility Fund Phase 1 support. The federal Mobility Fund Phase 1 support will accelerate delivery of advanced mobile services to tens of thousands of road miles that currently lack 3G or 4G service. Winning bidders must deploy either 3G service within two years or 4G service within three years of the award. T-Mobile was approved for the federal Mobility Fund Phase 1 support in Pennsylvania. T-Mobile was awarded \$1,772,094, equaling 74.93 road miles.

The Commission approved the ETC petitions of Q-link Wireless, LLC; Blue Jay Wireless, LLC; Nexus Communications, Inc. and Telrite Corp. in 2013 and AmeriMex Communications Corp.; Airvoice Wireless, LLC; Buffalo-Lake Erie Wireless Systems Co., LLC and Sage Telecom Communications, LLC; Full Service Network, LP; iWireless, LLC and American Broadband and Telecommunications Company in 2015 and the amended ETC petition of NEP Cellcorp, Inc. during 2014. The Commission granted relinquishment of ETC designation for Aegis Telecom, Inc.; Cricket Communications, Inc.; NEP Cellcorp, Inc. and approved Budget Prepay, Inc.'s Petition for Limited Waiver of Annual Re-Certification Requirements for Lifeline Subscribers in 2015.

The Commission became aware that Keystone Wireless was not offering Lifeline service. On Jan. 13, 2014 the Commission issued a letter to Keystone Wireless advising the company that it was ineligible for the high cost funding support from the federal USF mechanism, and that its information would be removed from our Lifeline information packets until it complies with the Commission Order approving the company's petition for ETC designation. Keystone Wireless, LLC legally changed its name to Limitless Mobile, LLC on Jan. 10, 2014. Limitless Mobile (Keystone) provided Lifeline service to one consumer during 2014 and 2015.

For more information about the telephone universal service programs, contact Sandra Johnson-Gumby in BCS at (717) 772-0806 or by email at sjohnson-g@pa.gov.

Glossary of Terms

Competitive Local Exchange Carrier (CLEC) - A telecommunications provider that competes with other already established telecommunications providers to provide local telephone service.

Consumer Complaint Rate - The number of consumer complaints per 1,000 residential customers.

Consumer Complaints - Cases to BCS involving billing, service, rates and other issues not related to requests for payment terms.

Cramming - The submission or inclusion of unauthorized, misleading or deceptive charges for products or services on an end-user customer's local telephone bill.

Customer Assistance Programs (CAPs) - Alternative collection programs set up between a utility company and a customer that allow low-income, payment-troubled customers to pay utility bills that are based on household size and gross household income. CAP participants agree to make regular monthly payments, which are usually less than the current bill, in exchange for continued utility service.

Electric Distribution Company (EDC) - Owner of the power lines and equipment necessary to deliver purchased electricity to the customer.

Electric Generation Supplier (EGS) - A person or corporation, generator, broker, marketer, aggregator or other entity that sells electricity, using the transmission or distribution facilities of an EDC.

Hardship Funds - Utility-sponsored funds that provide cash assistance to low-income utility customers to help them pay their utility bills.

Incumbent Local Exchange Carrier (ILEC) - A telecommunications company that was providing local telephone service in 1996 to customers in a specific geographic area designated by the Federal Communications Commission and held a certificate from the PUC.

Infraction - A misapplication or infringement of a Commission regulation, particularly the standards and billing practices for residential utility service.

Infraction Rate - The number of informally verified infractions per 1,000 residential customers (includes infractions drawn from both consumer complaints and PARs).

Inquiries - Consumer contacts to BCS that, for the most part, require no follow-up investigation beyond the initial contact.

Justified Consumer Complaint Rate - The number of justified consumer complaints per 1,000 residential customers.

Justified Payment Arrangement Request Rate - The number of justified PARs per 1,000 residential customers.

Local Exchange Carrier (LEC) - A public utility that provides basic telephone service either exclusively or in addition to toll service.

Natural Gas Distribution Company (NGDC) - A natural gas utility regulated by the PUC that owns the gas lines and equipment necessary to deliver natural gas to the consumer.

Natural Gas Supplier (NGS) - An entity other than an NGDC that sells, or arranges to sell, natural gas to customers using the distribution lines of an NGDC.

Payment Arrangement Request Rate - The number of PARs per 1,000 residential customers.

Payment Arrangement Requests (PARs) - Consumer requests for payment arrangements principally include contacts to BCS involving a request for payment terms in one of the following situations: suspension/termination of service is pending; service has been suspended/terminated and the customer needs payment terms to have service restored; or the customer wants to retire an arrearage.

Problem Categories - A breakdown of residential consumer complaints by specific problem categories such as billing, credit and deposits, service quality, rates, etc.

Response Time in Days - Response time is the time span in days from the date of BCS's first contact with the company regarding a complaint to the date on which the utility provides BCS with its report regarding the complaint. Response time quantifies the speed of a utility's response to BCS consumer complaints and PARs.

Slamming - The unauthorized switching of a customer's service provider. In telecommunications, slamming refers to changing a customer's local exchange carrier or primary long-distance service provider without the customer's consent. In electric and gas, slamming refers to changing the customer's supply provider without customer authorization.

Termination Rate - For the electric and gas industries, termination rate is the number of service terminations divided by the number of residential customers. For the telephone industry, termination rate is the number of service terminations per 1,000 residential customers.

Appendix D-1

Classification of Consumer Complaints Electric, Gas & Water

Billing Disputes - Complaints about bills from the utility: high bills; inaccurate bills or balances; installation charges; customer charges; service charges; repair charges; late payment charges; frequency of bills; and the misapplication of payment on bills.

Competition - Complaints about issues that are directly related to competition: enrollment/eligibility; application and licensing; supplier selection; changing/switching suppliers, which includes slamming; advertising and sales; billing; contracts; and credit and deposits. This category also includes any complaints about more general competition issues such as consumer education, pilot programs and restructuring.

Credit & Deposits - Complaints about a company's requirements to provide service: applicant must pay another person's bill, applicant must complete an application, applicant must provide identification, or applicant must pay a security deposit. This category also includes complaints about the amount of or the amortization of a deposit, the payment of interest on a deposit or the failure of a company to return a deposit to the customer.

Damages - Complaints about a company's lack of payment or lack of restored property related to damages to equipment, appliances or property due to service outages, company construction or repair, and improperly delivered or transferred service.

Discontinuance/Transfer - Complaints related to the responsibility for or the amount of bills after discontinuance or transfer of service: The customer requested discontinuance of service, and the company failed to finalize the account as requested or transferred a balance to a new or existing account from the account of another person or location.

Metering - Billing complaints directly related to the reading of or the failure to read the customer's meter and the accuracy of the meter readings (company reading, customer supplied reading or misreading).

Other Payment Issues - Complaints about the amount of budget bills or the transfer of a customer's debt to a collection agency.

Personnel Problems - Complaints about performance by company personnel: a company representative did not finish the job correctly; a meter reader entered a customer's home to read the meter without knocking; company personnel will not perform a requested service; business office personnel treated the customer rudely; and overall mismanagement of a utility. This category also includes any complaints about sales such as appliance sales by the utility, as well as complaints about a company's CAP program or procedures.

Rates - General or specific complaints about a utility's rates: general or specific rates are too high, the company's rates are being used to recover advertising costs, or the customer is being billed on the incorrect rate.

Scheduling Delays - Complaints about problems with a company's scheduling: delays in scheduling or repairing service or relocating poles, failures to keep scheduled meetings or appointments, and lack of accessibility to customers.

Service Extensions - Complaints about line extensions or installation of service: the responsibility for line extensions; the cost and payment for line extensions; inspection requirements; delay in installation; connection or disconnection of service; and denial of service extensions.

Service Interruptions - Complaints about service interruptions: the frequency of service interruptions, the duration of interruptions or the lack of prior notice regarding interruptions.

Service Quality - Complaints about a utility's product: the quality of the product is poor (water quality, voltage or pressure); the company's equipment is unsatisfactory or unsafe; the company fails to act on a complaint about safety; the company plans to abandon service; the company does not offer needed service; the company wants to change location of equipment; or the company providing service is not certified by the Commission (defactos).

Termination or PAR Procedures - Complaints about termination and/or payment arrangement procedures: The customer claims no termination notice was received, the company failed to honor a medical certificate, there was a delay in reconnection after the bill was paid.

All Other Problems - All other complaints that do not fit into the above categories, including, but not limited to, credit application procedures.

Appendix D-2

Classification of Consumer Complaints Telephone

Annoyance Calls - Complaints about the company's failure to resolve problems related to receiving unsolicited sales calls or harassing calls. This includes the company's failure to change the phone number or initiate an investigation, and problems with auto dialers and fax machines.

Billing Disputes - Complaints about bills from the utility: high bills; inaccurate bills or balances; installation charges; customer charges; service charges; repair charges; late payment charges; frequency of bills; and the misapplication of payment on bills.

Competition - Complaints about changing/switching service providers, slamming, cramming, competition-related billing problems, contracts, competition-related service problems and all other problems associated with competition in the telecommunications marketplace.

Credit & Deposits - Complaints about a company's requirements to provide service: applicant payment of another person's bill; completion of an application; provision of identification; or payment of a security deposit. This category also includes complaints about the amount of or the amortization of a deposit, the payment of interest on a deposit or the failure of a company to return a deposit to the customer.

Discontinuance/Transfer - Complaints related to responsibility for or the amount of bills after discontinuance or transfer of service; company failure to finalize the account as requested; or the company's transfer of a balance to a new or existing account from the account of another person or location.

Non-Recurring Charges - Complaints about one-time charges for installation of basic and/or non-basic services.

Service Delivery - Complaints about delays in service installations or disconnections of service and failures to keep scheduled appointments; lack of facilities to provide service; unauthorized transfer of service; unavailability of special services; and the rudeness of business office personnel.

Service Terminations - Complaints about suspension or termination procedures when there is no need for a payment agreement.

Toll Services - Complaints about charges for local toll and/or long-distance toll services.

Unsatisfactory Service - Complaints about poor service quality, problems with the assignment of phone numbers, incorrect information in phone directories, lack of directories, equal access to toll network, and service interruptions and outages.

All Other Problems - All other complaints that do not fit into the above categories, including complaints about audiotex (special phone entertainment or information services), excessive

coin-phone rates, extended area of service (limited local calling area), rates (general or specific rates are too high or the customer is being billed on the incorrect rate) and sales nonbasic service (including the availability of certain services). Also included are complaints that were taken in by BCS, but closed before they could be investigated because the consumer called back and resolved the complaint with the company or because the consumer changed their mind about filing the complaint. In addition, some complaints, during investigation, were found to not fall under the PUC's jurisdiction.

¹ Consumer complaint rate = consumer complaints per 1,000 residential customers.

² Estimated based on the number of cases in CSIS as of July 22, 2016.

³ Justified consumer complaint rate = justified consumer complaints per 1,000 residential customers.

⁴ Does not include UGI-Electric.

⁵ PECO statistics include electric and gas.

* Based on a probability sample of cases.

March 3, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

January 2016

Utility Companies	Initial Complaints (QRS)		Escalated Complaints (SRS)		Escalation Rate	12 Month Escalated Complaint Rate

United Water - Westchester	2	4.6	0	0.0	0%	2.1

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers

March 25, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016 Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113

April 28, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

March 2016

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123

May 27, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

April 2016

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

Customer Service Response Index

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016 Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123
Apr-16	\$208,820.40	116
May-16

June 29, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103

July 29, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

A handwritten signature in black ink that reads "Michael Corso". The signature is written in a cursive, flowing style.

Michael Corso
Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

June 2016

Utility Companies	Initial Complaints (QRS)		Escalated Complaints (SRS)		Escalation Rate	12 Month Escalated Complaint Rate

United Water - Westchester	7	16.1	2	4.6	29%	1.9

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113

August 30, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

LuAnn Scherer
Acting Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

United Water - New York	12	16.1	2	2.7	17%	3.1
United Water - Westchester	4	9.2	0	0.0	0%	1.7

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

Customer Service Response Index

July 2016

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016 Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123

Deceptive marketing complaints are taken from customers who report situations where an energy service company or energy marketer solicits the customer's home or business in a manner which the customer believes is misleading or the customer was presented with information which the customer believes is untrue.

September 29, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

LuAnn Scherer
Acting Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

August 2016

Utility Companies	Initial Complaints (QRS)		Escalated Complaints (SRS)		Escalation Rate	12 Month Escalated Complaint Rate
	No.	Rate*	No.			
Central Hudson Gas & Electric Corp.	54	17.6	2	0.7	4%	0.3

United Water - New York	10	13.5	4	5.4	40%	3.1
United Water - Westchester	4	9.2	0	0.0	0%	1.7

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123

October 28, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

LuAnn Scherer

Acting Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

September 2016

Utility Companies	Initial Complaints (QRS)		Escalated Complaints (SRS)		Escalation Rate	12 Month Escalated Complaint Rate

United Water - Westchester	4	9.2	0	0.0	0%	1.5

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123
Apr-16	\$208,820.40	116

Deceptive marketing complaints are taken from customers who report situations where an energy service company or energy marketer solicits the customer's home or business in a manner which the customer believes is misleading or the customer was presented with information which the customer believes is untrue.

November 30, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

LuAnn Scherer

Acting Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

United Water - Westchester	4	9.2	1	2.3	25%	1.5

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

2016

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123
Apr-16	\$208,820.40	116
May-16	\$320,169.70	92
Jun-16	\$210,276.06	134
Jul-16	\$174,940.80	109
Aug-16	\$794,743.63	85
Sep-16	\$300,124.16	79
Oct-16	\$349,086.59	147
Nov-16		
Dec-16		
2016 Total	\$3,455,297.53	1101

December 30, 2016

Dear Readers:

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We strive to ensure that utilities fulfill their obligation to provide effective customer service in compliance with the laws, rules, regulations and policies we enforce.

Each month, this report provides an overview of complaint activity and utility responsiveness during the preceding month which is informative to both consumers and utility companies. Specific details regarding the way we measure the companies' activities are described in the section How Utility Complaint Data Is Reported.

The table titled Complaint Activity of New York's Major Utilities reports on the volume of complaints received against the largest utilities in each industry while the table titled Customer Service Response Index reports on the level of customer service and responsiveness delivered by each service provider.

The chart, Credit Adjustments Received for Consumers, reflects the amount of refunds or credits customers received as a result of our investigations. The Office of Consumer Services also monitors complaints against the competitive energy service companies (ESCO's) operating in New York. These complaints are reported in two tables; Number of Initial Complaints Received Against ESCO's and Number of Escalated Complaints Received Against ESCO's.

I hope this report is helpful in providing you with a summary of utility complaint activity. If you have any questions, please e-mail John.Auricchio@dps.ny.gov

Sincerely,

LuAnn Scherer

Acting Director
Office of Consumer Services

If You Have a Complaint About Your Utility Service

If you're having difficulty resolving a dispute with your regulated energy, telephone, cable television or water company, Department of Public Service staff is available to assist you.

The Office of Consumer Services takes all utility consumer complaints seriously. You can contact us toll-free by telephone, in writing or via the Internet. When you contact our office with a complaint about a utility or other service provider, we take immediate steps to address your concerns.

After we complete entering the details of your complaint we send your complaint to the utility by e-mail or fax. In an effort to ensure that utilities fulfill their obligation to provide effective customer service, we will first ask your utility to contact you and resolve your concern. If your complaint is related to the provision of service, your utility should contact you within two business hours. If your complaint is related to billing or another matter, the utility should contact you by the close of the following business day.

If the utility does not contact you with its initial acknowledgement, does not provide its response to you within two weeks or the matter remains unresolved after you have received a response, you can contact us. We will then further investigate the matter and notify you in writing or by telephone of the decision and the reasons for the decision.

If you believe the initial decision is wrong, you can request an informal hearing. This request may be in writing and made within 15 days of the initial decision. You may be asked to submit certain documents to support your position. If you and the utility are unable to settle the complaint, the hearing officer will make a decision on your complaint and notify you in writing of the decision.

If you believe that the informal hearing officer's decision was wrong, you can appeal it within 15 days of the decision. Your written appeal must contend that there was an error by the hearing officer or reviewer that affected the decision or that evidence not previously available would affect the decision. All appeals, except those involving PSEG-LI, will be decided by the Public Service Commission. PSEG-LI appeals will be decided by Long Island Power Authority (LIPA).

If you have a complaint about your utility service you may contact us thru one of the following avenues:

By Telephone	Monday thru Friday 8:30am – 4:00pm	800-342-3377
Via the Internet	24 hours a day	www.dps.ny.gov
In Writing	Please be sure to include as much detail as possible, including your account number, service address, telephone number and the specifics of your complaint.	NYS Dept. of Public Service Office of Consumer Services Three Empire State Plaza Albany, NY 12223-1350

How Utility Complaints Are Measured

The Office of Consumer Services reports complaint data by volume and by responsiveness. A complaint rate is used to compare small utilities to large utilities. A response index is used to measure how well utilities address consumer complaints we forwarded to them.

The Office of Consumer Services closely monitors the number and types of complaints received against all utilities operating in New York State. We expect utility companies to be highly responsive to their customers' needs, especially when the customer feels that it is necessary to seek the assistance of the Department of Public Service staff. Each month, this report provides an overview of complaint activity and utility responsiveness which we believe is informative to both consumers and utility companies.

The table titled **Complaint Activity of New York's Major Utilities** reports on the volume of complaints received against the largest utilities in each industry. These utility companies vary in size from just over 10,000 customers to several million customers. Therefore, in order to compare complaint volumes among companies, a complaint rate per 100,000 customers is displayed. This allows the reader to compare the complaints of a large company to that of a small company.

There are two measures of complaints which are reported each month. At first all complaints are recorded and forwarded to the utility for resolution directly with the customer. These are noted as initial complaints (QRS) in the table titled **Complaint Activity of New York's Major Utilities**. If the customer informs us that the utility failed to satisfy their complaint the matter is escalated for further handling and investigation by staff and is noted as escalated complaints (SRS). Both numbers are converted into a complaint rate which allows the reader to compare performance regardless of the size of a company's customer base. The escalation rate is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The 12 month complaint rate is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility. This rate represents the average number of escalated complaints received per month per 100,000 customer accounts.

The table titled **Customer Service Response Index** (CSRI) reports on the level of customer service and responsiveness delivered by each service provider. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed in a particular monthly report it is because there was no activity for the company in the reporting month.

The **Index** is determined by measuring four metrics:

The Consumer Satisfaction Metric (CSM) is a ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points is awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

The Complaint Response Time Metric (CRM) is the average number of days it took the service provider to respond to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

The Escalated Complaint Response Time Metric (ERM) is the average number of days it took the service provider to respond to escalated complaints closed in the reporting month. A score of 2 points is awarded when a service provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

The Pending Case Metric (PCM) is the average age of all cases awaiting response, determined on the last day of the reporting month. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

Complaint Activity of New York's Major Utilities

November 2016

Utility Companies	Initial Complaints (QRS)		Escalated Complaints (SRS)		Escalation Rate	12 Month Escalated Complaint Rate

All complaint rates are based on December 2015 customer populations.

* - Complaints per 100,000 customer accounts where populations are reported by the utility

This table reports on the volume of complaints received against the largest utilities in each industry.

Initial Complaints (QRS) - This is the number (No.) of complaints we receive and forward to the utility company for resolution directly with the customer and the corresponding complaint rate (Rate) per 100,000 customer accounts.

Escalated Complaints (SRS) - This is the number (No.) of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility. The corresponding escalated complaint rate (Rate) per 100,000 customer accounts allows the reader to compare one utility to another regardless of the number of customer accounts.

Escalation Rate - This is a measure of how successful a utility is in satisfying their customer upon receipt of an initial complaint made through the Office of Consumer Services. The lower the rate the more successful the utility was in resolving initial complaints directly with the customer.

12 Month Escalated Complaint Rate - This rate represents the average number of escalated complaints received per month per 100,000 customer accounts. This is often used as one of several customer service measures that may be taken into consideration when staff monitors the quality of customer service delivered by an individual utility.

This table reports on the current level of customer service and responsiveness delivered by each service provider under the Department's jurisdiction. The Customer Service Response Index is determined by measuring four metrics. Complete CSRI data is posted on the first page of the report for those service providers that average ten or more initial complaints per month. For all other service providers, the performance in each area is reported on subsequent pages of the table, less the actual index measures because the index measures for companies with fewer than ten initial complaints have been found to show significant fluctuations on a month to month basis. These fluctuations may result in the reader reaching an inaccurate conclusion as to a service provider's performance. If a company is not listed on this report it is because there was no activity for the company in the reporting month. Below is an explanation of the data in each column.

Initial Complaints - This is the number of initial complaints we receive and forward to the utility company for resolution directly with the customer.

Escalated Complaints - This is the number of complaints that we escalated for further handling and investigation because the customer informed us that the utility failed to satisfy their initial complaint after we forwarded the initial complaint to the utility.

CSM Index - The Consumer Satisfaction Index scores the ratio of the number of initial complaints to the number of escalated complaints in the reporting month. A score of 5 points are awarded when a service provider receives no escalated complaints during the reporting month. There is no score awarded if a service provider satisfies less than 50% of the customers that the Department refers to them.

Complaint Response Time - This is the average number of days it took for a utility to respond to initial complaints in the reporting month.

CRM Index - The Complaint Response Time Index scores the service provider's responsiveness to initial complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for initial complaints is 14 days or less. No points are earned if the average response time for initial complaints is more than 28 days (twice the acceptable reply standard).

E. Complaint Response Time - This is the average number of days it took for a utility to respond to escalated complaints in the reporting month.

ERM Index - The Escalated Complaint Response Time Index scores the service providers responsiveness to escalated complaints closed in the reporting month. A score of 2 points is awarded when a provider's average response time for escalated complaints is 10 days or less. No points are earned if the average response time for escalated complaints is more than 25 days (two weeks past due).

Avg. Age of Cases Pending - This is the average age of all the cases awaiting a response from the service provider.

PCM Index - The Pending Case Index scores the average age of all cases awaiting response by the service provider. A score of 1 point is awarded when a service providers' average age of all cases is 14 days or less. No points are earned if the average age of all cases exceeds 70 days (two months delinquent). A negative score is applied if the average age of all cases is over 70 days.

CSRI - The Customer Service Response Index is the overall score received by the service provider. It is the sum of the four indices.

Credit Adjustments Received For Consumers

As a result of our investigation into consumers' complaints, when staff determines that a consumer was overbilled, the utility is directed to refund to the consumer, any monies it collected above and beyond what was allowed by tariffs, rules and regulations. The chart below identifies the credits obtained on behalf of consumers.

	Total	Consumers
Jan-16	\$191,889.11	103
Feb-16	\$194,994.20	113
Mar-16	\$710,252.88	123
Apr-16	\$208,820.40	116
May-16	\$320,169.70	92
Jun-16	\$210,276.06	134
Jul-16	\$174,940.80	109
Aug-16	\$794,743.63	85
Sep-16	\$300,124.16	79
Oct-16	\$349,086.59	147
