State of New York Department  
Of Public Service  
Three Empire State Plaza  
Albany, N.Y. 12223-1350

RE: Case Nos. 09-E-0715; 09-G-0716; 09-E-0717 and 09-G-0718  
Newspaper Publication

Dear Secretary Brillling:

New York State Electric & Gas Corporation ("NYSEG") and Rochester Gas and Electric Corporation ("RG&E", with NYSEG "the Companies") advises that in compliance with Ordering Clause 4 of the Public Service Commission's Order Establishing Rate Plan, issued and effective September 21, 2010 in the above-referenced proceedings, notice of its tariff filings have been published once each week for four consecutive weeks in newspapers having general circulation throughout the service territories affected.

## PUBLIC NOTICE

### **New York State Electric & Gas Corporation (NYSEG)**

NYSEG has filed tariff revisions with the New York State Public Service Commission (PSC) for new electricity and natural gas delivery rates to become effective September 1, 2011. These tariff revisions cover the second of three annual delivery rate increases under the terms of a 40-month rate plan approved by the PSC in September 2010 and they include a \$27.8 million increase in electricity revenue and a \$2.4 million increase in natural gas revenue. The natural gas revenue increase reflects the removal of costs associated with the sale of the Seneca gas storage facility approved by the Commission earlier this year.

A residential electricity customer with an average use of 600 kilowatt-hours/month can expect an average monthly bill increase of \$1.34. A residential natural gas heating customer using 1,043 therms/year can expect an average monthly bill increase of \$1.49.

Customers may see some charges prorated on a September or October bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect.

### **RESIDENTIAL CUSTOMERS**

**Regular Residential Customers:** The electricity delivery charge will increase 0.12 cents per kilowatt-hour. The per-therm natural gas delivery charge for the 4-to-50-therms block will increase 3.96 cents per therm. There are no changes to monthly customer or minimum charges.

**Day/Night and Time-of-Use Customers:** The electricity delivery charge will increase 0.10 cents per kilowatt-hour for Service Class 8 and 0.09 cents per kilowatt-hour for Service Class 12. There are no changes to monthly customer charges.

Additional information about changes in residential electricity and natural gas delivery charges is available at [nyseg.com](http://nyseg.com) (click on "For Suppliers and Partners, then on "Pricing and Tariffs" and then on "PSC Filings").

### **NONRESIDENTIAL CUSTOMERS**

Information about changes in nonresidential electricity customer charges, electricity demand and energy charges (where applicable), natural gas minimum charges and natural gas therm charges is available at [nyseg.com](http://nyseg.com).

Changes are also in effect for standby, street lighting, industrial high load factor and economic development rates. Please check page 2 of your bill for bill messages and [nyseg.com](http://nyseg.com) for detailed information.

Also, beginning November 1, a Revenue Decoupling Mechanism (RDM) will be included on customer bills for the major service classifications. This line item is actually an adjustment to delivery rates – either a charge or a credit – intended to help promote energy efficiency by minimizing the financial impact on the company of lower sales as a result of reduced energy use by customers.

**Regarding energy supply:** If you purchase energy supply from NYSEG, your price will continue to be based on market prices; if you purchase your energy supply from a supplier other than NYSEG (also known as an energy services company or ESCO), what you pay for energy supply depends on your agreement with your ESCO.

## PUBLIC NOTICE

### **Rochester Gas and Electric Corporation (RG&E)**

RG&E has filed tariff revisions with the New York State Public Service Commission (PSC) for new electricity and natural gas delivery rates to become effective September 1, 2011. These tariff revisions cover the second of three annual increases under the terms of a 40-month rate plan approved by the PSC in September 2010 and they include a \$10.2 million increase in electricity revenue and a \$10.9 million increase in natural gas revenue.

A residential electricity customer with an average use of 600 kilowatt-hours/month can expect an average monthly bill increase of \$1.11. A residential natural gas heating customer using 952 therms/year can expect an average monthly bill increase of \$2.46.

Customers may see some charges prorated on a September or October bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect.

### **RESIDENTIAL CUSTOMERS**

**Regular Residential Customers:** The electricity energy charge for delivery increased by 0.182 cents per kilowatt-hour. Increases to the natural gas block rates are: 4 to 100 therms: 3.206 cents per therm; 101 to 500: 2.99 cents; 501 to 1,000: 2.644 cents; over 1,000: 0.975 cents. There are no changes to monthly customer or minimum charges.

**Residential Time-of-Use Customers:** The electricity energy charge for delivery for Service Classification 4 (Schedule I and II) increased by 0.16 cents per kilowatt-hour. There are no changes to monthly customer charges.

Additional information about changes in residential electricity and natural gas delivery charges is available at [rge.com](http://rge.com) (click on "For Suppliers and Partners, then on "Pricing and Tariffs" and then on "PSC Filings").

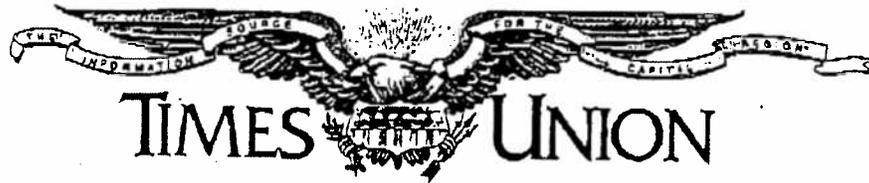

### **NONRESIDENTIAL CUSTOMERS**

Information about changes in nonresidential electricity customer charges, electricity demand and energy charges (where applicable), natural gas minimum charges and natural gas therm charges is available at [rge.com](http://rge.com).

Changes are also in effect for standby, street lighting and economic development rates. Please check page 2 of the bill for messages and [rge.com](http://rge.com) for detailed information.

Also, beginning November 1, a Revenue Decoupling Mechanism (RDM) will be included on customer bills for the major service classifications. This line item is actually an adjustment to delivery rates – either a charge or a credit – intended to help promote energy efficiency by minimizing the financial impact on the company of lower sales as the result of reduced energy use by customers.

**Regarding energy supply:** If you purchase energy supply from RG&E, your price will continue to be based on market prices; if you purchase your energy supply from a supplier other than RG&E (also known as an energy services company or ESCO), what you pay for energy supply depends on your agreement with your ESCO.

### PUBLIC NOTICE

#### New York State Electric & Gas Corporation (NYSEG)

NYSEG has filed tariff revisions with the New York State Public Service Commission delivery rates to become effective September 1, 2011. These tariff revisions cover increases under the terms of a 40-month rate plan approved by the PSC in September 2010. The revisions include a \$2.4 million increase in natural gas revenue, the removal of costs associated with the sale of the Seneca gas storage facility approved in 2009, and a \$1.34 increase in electricity revenue.

A residential electricity customer with an average use of 600 kilowatt-hours/month will see a \$1.34 increase in their electricity bill. A residential natural gas heating customer using 1,043 therms/year can expect a \$2.40 increase in their natural gas bill.

Customers may see some charges prorated on a September or October bill to take the new electricity and natural gas delivery rates into effect.

#### RESIDENTIAL CUSTOMERS

**Regular Residential Customers:** The electricity delivery charge will increase 0.11 cents per kilowatt-hour. The natural gas delivery charge for the 4-to-50-therms block will increase 3.96 cents per therm. Minimum charges will also increase.

**Day/Night and Time-of-Use Customers:** The electricity delivery charge will increase 0.09 cents per kilowatt-hour for Service Class 8 and 0.09 cents per kilowatt-hour for Service Class 12. There are no changes to the natural gas delivery charge.

Additional information about changes in residential electricity and natural gas delivery rates is available on "For Suppliers and Partners," then on "Pricing and Tariffs" and then on "PSC Filings."

#### NONRESIDENTIAL CUSTOMERS

Information about changes in nonresidential electricity customer charges, electricity minimum charges, natural gas minimum charges and natural gas therm charges is available on "For Suppliers and Partners."

Changes are also in effect for standby, street lighting, industrial high load factor and other nonresidential services. For more information, see page 2 of your bill for bill messages and [nyseg.com](http://nyseg.com) for detailed information.

Also, beginning November 1, a Revenue Decoupling Mechanism (RDM) will be included on your bill. This line item is actually an adjustment to delivery rates – either a charge or credit – to encourage energy efficiency by minimizing the financial impact on the company of lower sales.

**Regarding energy supply:** If you purchase energy supply from NYSEG, your price will be based on the market clearing price. If you purchase your energy supply from a supplier other than NYSEG (also known as a competitive supplier), your price will be based on your agreement with your ESCO.

ELIZABETH LEONE NORMAT  
Commissioner of Deeds  
Expiration Date 12/20/12

New York State Electric & Gas Corporation (NYSEG)  
NYSEG has filed tariff revisions with the New York State Public Service Commission for rates to become effective September 1, 2011. These tariff revisions cover the second terms of a 40 month rate plan approved by the PSC in September 2010 and they total a \$2.4 million increase in natural gas revenue. The natural gas revenue increase sale of the Seneca gas storage facility approved by the Commission earlier this year. Residential electricity customer with an average use of 600 kilowatt hours/month \$134. A residential natural gas heating customer using 1043 therms/year can expect new electricity and natural gas delivery rates went into effect.

**RESIDENTIAL CUSTOMERS**  
Regular Residential Customers: The electricity delivery charge will increase 0.12 (gas delivery charge for the 4 to 50 therms block will increase 3.56 cents per therm; minimum charges.

**Day/Night and Time-of-Use Customers:** The electricity delivery charge will increase and 0.08 cents per kilowatt hour for Seneca Class 12. There are no changes to month additional information about changes in residential electricity and natural gas delivery for Suppliers and Partners' then on "Pricing and Tariffs" and then on "PSC Filings".

**NONRESIDENTIAL CUSTOMERS**  
Information about changes in nonresidential electricity customer charges, electric natural gas minimum charges and natural gas (then on "Pricing and Tariffs" and then on "PSC Filings").

Changes are also in effect for standby, street lighting, industrial high load factor and other bill for bill messages and nyseg.com for detailed information.

Also, beginning November 1, a Revenue Decoupling Mechanism (RDM) will be in effect. This RDM is actually an adjustment to delivery rates - either a charge efficiency by minimizing the financial impact on the company of lower sales as a result. Regarding energy supply: If you purchase energy supply from NYSEG, your price purchase your energy supply from a supplier other than NYSEG (also known as an energy supply depends on your agreement with your ESCO.

PUBLIC NOTICE

New York State Electric & Gas Corporation (NYSEG)

NYSEG has filed tariff revisions with the New York State Public Service Commission (PSC) for new electricity and natural gas delivery rates to become effective September 1, 2011. These tariff revisions cover the second of three annual delivery rate increases under the terms of a 40-month rate plan approved by the PSC in September 2010 and they include a \$27.8 million increase in electricity revenue and a \$2.4 million increase in natural gas revenue. The natural gas revenue increase reflects the removal of costs associated with the sale of the Seneca gas storage facility approved by the Commission earlier this year.

A residential electricity customer with an average use of 600 kilowatt-hours/month can expect an average monthly bill increase of \$1.34. A residential natural gas heating customer using 1,043 therms/year can expect an average monthly bill increase of \$1.49.

Customers may see some charges prorated on a September or October bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect.

RESIDENTIAL CUSTOMERS

Regular Residential Customers: The electricity delivery charge will increase 0.12 cents per kilowatt-hour. The per-therm natural gas delivery charge for the 4-to-50-therms block will increase 3.96 cents per therm. There are no changes to monthly customer or minimum charges.

Day/Night and Time-of-Use Customers: The electricity delivery charge will increase 0.10 cents per kilowatt-hour for Service Class 8 and 0.09 cents per kilowatt-hour for Service Class 12. There are no changes to monthly customer charges.

Additional information about changes in residential electricity and natural gas delivery charges is available at nyseg.com (click

PUBLIC NOTICE

Rochester Gas and Electric Corporation (RG&E)

RG&E has filed tariff revisions with the New York State Public Service Commission (PSC) for new electricity and natural gas delivery rates to become effective September 1, 2011. These tariff revisions cover the second of three annual increases under the terms of a 40-month rate plan approved by the PSC in September 2010 and they include a \$10.2 million increase in electricity revenue and a \$10.9 million increase in natural gas revenue.

A residential electricity customer with an average use of 600 kilowatt-hours/month can expect an average monthly bill increase of \$1.11. A residential natural gas heating customer using 952 therms/year can expect an average monthly bill increase of \$2.46.

Customers may see some charges prorated on a September or October bill to take into account energy delivered before and after the new electricity and natural gas delivery rates went into effect.

RESIDENTIAL CUSTOMERS

Regular Residential Customers: The electricity energy charge for delivery increased by 0.182 cents per kilowatt-hour. Increases to the natural gas block rates are: 4 to 100 therms: 3.206 cents per therm; 101 to 500: 2.99 cents; 501 to 1,000: 2.644 cents; over 1,000: 0.975 cents. There are no changes to monthly customer or minimum charges.

Residential Time-of-Use Customers: The electricity energy charge for delivery for Service Classification 4 (Schedule I and II) increased by 0.16 cents per kilowatt-hour. There are no changes to monthly customer charges.

Additional information about changes in residential electricity and natural gas delivery charges is available at rge.com (click on "For Suppliers and Partners," then on "Pricing and Tariffs" and then on "PSC Filings").
