VIA EMAIL

Honorable Jaclyn A. Brilling, Secretary New York State Public Service Commission Three Empire State Plaza Albany, New York 12223

> Re: <u>Case 07-M-0548 – Proceeding on Motion of the Commission Regarding an</u> <u>Energy Efficiency Portfolio Standard</u>

<u>Case 08-G-1012 – Petition of New York State Electric & Gas Corporation</u> <u>for Approval of an Energy Efficiency Portfolio Standard (EEPS) "Fast</u> <u>Track" Utility-Administered Gas Energy Efficiency Program</u>

<u>Case 08-G-1013 – Petition of Rochester Gas and Electric Corporation for</u> <u>Approval of an Energy Efficiency Portfolio Standard (EEPS) "Fast Track"</u> <u>Utility-Administered Gas Energy Efficiency Program</u>

Case 08-E-1129– Petition of New York State Electric & Gas Corporation for Approval of an Energy Efficiency Portfolio Standard (EEPS) Utility-Administered Electric Energy Efficiency Program

<u>Case 08-E-1130– Petition of Rochester Gas and Electric Corporation for</u> <u>Approval of an Energy Efficiency Portfolio Standard (EEPS) "Utility-</u> <u>Administered Electric Energy Efficiency Program</u>

<u>Case 09-G-0363 – Petition for Approval of Energy Efficiency Portfolio</u> <u>Standard (EEPS) Gas Efficiency Programs</u>

Dear Secretary Brilling:

Pursuant to the New York State Public Service Commission's orders in the above captioned proceedings, New York State Electric & Gas Corporation and Rochester Gas and Electric Corporation hereby file the "Monthly Scorecard Reports" of EEPS program achievements for the month ending November 30, 2011. The programs addressed in these reports are as follows:

• Residential Gas HVAC Program

Honorable Jaclyn A. Brilling December 19, 2011

- Residential/Non-Residential Multifamily Program
- Residential Refrigerator Freezer Recycling Program
- Residential Empower Referral Program
- Non-Residential Small Business Direct Install Program
- Non-Residential Block Bidding Program
- Commercial and Industrial Rebate Program

Please direct any questions to me at telephone number 607-725-3936 or via email at jjfishgertz@nyseg.com.

Respectfully Submitted,

Joni J. theh- Seitz

Joni Fish-Gertz Manager, EEPS Programs

| | Rochester Gas and Electric Corporation |
| Program/Project: | Residential Gas HVAC Program |
| Reporting Period: | November 2011 |
| Report Contact Person: | Kevin Schmalz, Residential Program Manager |

Program Performance Goals

(a) Describe and discuss circumstances that may have an impact on the achievement of project performance goals (positive or negative).

No changes since the October scorecard.

(b) Describe and discuss other key aspects of program performance goals that were not discussed in (a).

No changes since the October scorecard.

(c) Forecast of net energy impacts.

Annual Energy Savings

| Year | RG&E Savings – in Dth | NYSEG Savings – in Dth |
|---------------|-----------------------|------------------------|
| 2009 Actual | 84,505 | 40,113 |
| 2010 Actual | 192,521 | 77,977 |
| 2011 Forecast | 90,974 | 43,935 |

2. Program Implementation Activities

(a) Marketing Activities

None at this time.

(b) Evaluation Activities

The evaluation contractor for this program, KEMA, is currently conducting a bill impact analysis.

(c) Other Activities

None at this time.

3. Customer Complaints and/or Disputes

No recent issues to report.

4. Changes to Subcontractors or Staffing

None at this time.

5. Additional Issues

RG&E and NYSEG continue to facilitate customer support of the Red Cross Heating Fund, with a total of \$ 10,540 contributed by RG&E customers and \$4,960 contributed by NYSEG customers through this program since July 1, 2009.

Program Performance Goals

(a) Describe and discuss circumstances that may have an impact on the achievement of project performance goals (positive or negative).

No changes since October 2011 Scorecard.

(b) Describe and discuss other key aspects of program performance goals that were not discussed in (a).

No changes since October 2011 Scorecard.

(c) Forecast of net energy impacts.

NYSEG and RG&E Annual Energy Savings in MWh

| Year | NYSEG | RG&E |
|----------------|-------|-------|
| 2010 Actual | 886 | 2,311 |
| 2011 Projected | 2,114 | 7,508 |

2) Program Implementation Activities

(a) Marketing Activities

No changes since October 2011 Scorecard.

(b) Evaluation Activities

No changes since October 2011 Scorecard.

(c) Other Activities

None at this time.

3. Customer Complaints and/or Disputes

No NYPSC complaints have been reported. Customer disputes are handled as they occur.

4. Changes to Subcontractors or Staffing

No changes since October 2011 Scorecard.

5. Additional Issues

No changes since October 2011 Scorecard.

Program Performance Goals

(a) Describe and discuss circumstances that may have an impact on the achievement of project performance goals (positive or negative).

The Companies actively refer customers to the NYSERDA program and provide a weekly referral file of customer accounts to NYSERDA.

During November 2011, NYSEG provided 923 electric and 634 gas customer account referrals; and RG&E provided 817 electric and 737 gas customer account referrals to NYSERDA.

NYSEG customers participating in NYSERDA programs this month included 138 with electric accounts that produced an average project savings of 1,570 kWh and 34 with gas accounts that produced an average project savings of 101 therms.

RG&E customers participating in NYSERDA programs this month included 49 with electric accounts that produced an average project savings of 2,186 kWh and 32 with gas accounts that produced an average project savings of 111 therms.

(b) Describe and discuss other key aspects of program performance goals that were not discussed in (a).

SBEE Marketing and Outreach Activities Completed in November 2011:

(b) Evaluation Activities

Itron has completed evaluation of the program tracking database. Itron has also completed NYSEG / RG&E and implementation contractor staff interviews and participating customer telephone surveys. On site surveys / verifications are under way at selected participating customer sites, including light logger installation.

(c) Other Activities

None at this time.

3. Customer Complaints and/or Disputes

No NYPSC complaints have been reported. Customer disputes are handled as they occur.

4. Changes to Subcontractors or Staffing

An updated subcontractor list can be made available upon request.

5. Additional Issues

None at this time

| Program/Project: | Commercial & Industrial Rebate Program |
| | Including: Prescriptive Electric, Prescriptive Gas, Custom |
| | Electric, Custom Gas |
| Reporting Period: | November 2011 |
| Report Contact Person: | Thomas O'Connor, Non-Residential Program Manager |

1. Program Performance Goals

(a) Describe and discuss circumstances that may have an impact on the achievement of project performance goals (positive or negative).

Effective with the November 2011 scorecard, the total program budgets and total savings goals for C/I gas programs have been revised based on reallocations between programs approved on November 8, 2011. Specifically, \$291,077 and 6,500 dekatherms (dth) were transferred from NYSEG C/I Custom gas to NYSEG C/I Prescriptive gas and \$408,582 and 8,900 dth were transferred from RG&E C/I Custom gas to RG&E C/I Prescriptive gas.

(b) Describe and discuss other key aspects of program performance goals that were not discussed in (a).

Certain costs are reported based on Company payment of invoices received from program implementation contractors and therefore lag the actual issuance of payments.

(c) Forecast of net energy impacts.

NYSEG and RG&E Annual Energy Savings

Prescriptive Electric in MWh

| Year | NYSEG | RG&E |
|----------------|-------|------|
| 2010 Actual | 60 | 134 |
| 2011 Projected | 1,636 | 428 |

2. Program Implementation Activities

(a) Marketing Activities

During November, the Companies' Marketing and Sales (M&S) field personnel continued outreach to customers and trade allies to introduce and/or reinforce the C&I Rebate Program messages.

Following is a summary of community outreach events conducted:

| Company | Community Organization | Number Attending |
|----------|----------------------------------|------------------|
| 11/10/11 | Facilities Management Expo | 1,000 |
| 11/17/11 | Tioga County Chamber of Commerce | 150 |
| 11/18/11 | Auburn & Cayuga Counties | 25 |
| | Energy Assistance Seminar | |

(b) Evaluation Activities

No additional activities to report.

(c) Other Activities

None at this time.

3. Customer Complaints and/or Disputes

No NYS PSC complaints have been reported. Customer disputes are handled as they occur.

4. Changes to Subcontractors or Staffing

None at this time.

5. Additional Issues

None at this time.

| sounds, it is assumed that each number approach has one measure, measure data is n | ato |

¹⁸ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

collected only from applications that have been determined to be eligible and complete.

¹⁹ Program to date information may include changes to prior period data received from the implementation contractor based on additional review and/or reconsideration of rebate eligibility decisions made in prior periods. Additional information regarding such changes is available upon request.

²⁰ Per request from DPS Staff during December 7, 2009 conference call, the data contained in these fields reflects the most recent month's expenditures in the respective category, not "to date" information.

²¹ Includes program true-ups due to timing.

²² Monthly and program goals and budgets include additional amounts authorized in the<u>Order Approving Three New Energy Efficiency</u> Portfolio Standard (EEPS) Programs and Enhancing Funding and Making Other Modifications for Other EEPS Programs (June 24, 2010), (the "June 24 Order"). ²³ Previous PSC Scorecard expense reporting for the residential natural gas HVAC program was based on expenditures as received on invoices from the implementation contractor. Beginning with the August 2010 scorecard, expenditures will be reported in accordance with normal accounting practice to recognize expenses in the month recorded to the general ledger.

²⁴ Net first-year annual therms and net lifecycle therms committed this month are undetermined at this time pending actual installed equipment capacity and efficiency.

²⁵ Total acquired first-year impacts reported on the October 2010 Scorecard included rebates that were processed during October, but no actually paid until November. Therefore, Total acquired first-year impacts reported on the November 2010 Scorecard also include all of the savings reported on the October Scorecard in this category. October 2010 savings are adjusted downward by the corresponding amount. There is no effect on Program-To-Date totals.

²⁶ Reported kWH savings reflect ancillary electric savings for installed ECM motors on gas furnaces per the New York Standards Approach for Estimating Energy Savings from Energy Efficiency Programs effective January 1, 2011. Year to date kWH savings reflec ancillary savings from rebates paid since inception of the program to date.

| | Number of | EEPS Incentive Amounts | Other Incentive |
|---|-----------|------------------------|-----------------|
| Other Fuels Conversion Participation To Date ⁴ | Measures | Paid ² | Amounts Paid |
| Conversion space heating measures approved to date ¹ | 502 | \$306,451 | \$0 |
| Conversion water heating measures approved to date | 108 | \$29,410 | \$0 |
| Conversion thermostat measures approved to date | 232 | \$5,210 | \$0 |
| Conversion duct sealing measures approved to date | 0 | \$0 | \$0 |
| Total conversion measures approved to date | 842 | \$341,071 | \$0 |

Table 2A Notes:

¹ Includes furnaces, boilers, and boiler reset controls

² Based on invoices received from program implementation contractors for incentive payments made to program participants. Due to possible lag between receipt of invoices and Company payment, some incentives included herein may not yet be reflected in the Incentives and Services amounts reported.

³ Estimated by prorating the non-incentive expenditures to date reported in the Cost section by the ratio of fuels conversion measure incentives paid to program participants to date compared to the total of all measure incentives paid to program participants to date as invoiced by the program implementation contractors. The data was derived from information customers provided on rebate applications No funds have been expended marketing directly to potential fuels conversion customers nor have any special incentives been offered or given to these customers.

⁴ Program to date information may include changes to prior period data received from the implementation contractor based on additionareview and/or reconsideration of rebate eligibility decisions made in prior periods. Additional information regarding such changes is available upon request.

| Utility Notes: | |

¹³ Start-up costs are not included in the program budget or actual costs. These costs were deferred as specified on p. 13 of the April 9, 2009 Order Approving "Fast Track" Utility-Administered Gas Energy Efficiency Programs With Modificationsin Cases 08-G-1012 et al, and as noted in the June 8, 2009 New York State Electric & Gas Corporation and Rochester Gas and Electric Corporation Residentia Gas HVAC Program Implementation Plan. A summary of deferred costs to date is shown below:

| Maximum Deferral (p. 13, April 9, 2009 Order) | \$155,880 |
|---|-----------|
| Deferred costs | |
| Program marketing | \$8,009 |
| Trade ally training | \$0 |
| Direct program implementation | \$1,478 |
| Evaluation | \$1,850 |
| Total deferred costs | \$11,337 |
| Remaining deferral allowance | \$144,543 |
| | |

¹⁴ Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission. Although an estimate of the total Portfolio Costs was provided to the Commission on June 8, 2009 in the New York State Electric & Gas Corporation and Rochester Gas and Electric Corporation Residential Gas HVAC Program Implementation Plan, these costs were not included in the program budget, and are not included in this report of actual program expenditures.

for incentive payments made to program participants. They will thus lag the actual issuance of incentive payments to program participants.

¹⁶ Impacts are calculated using actual installed measures information instead of deemed savings based calculations for all measures except indirect water heaters. Impacts for indirect water heater measures will continue to be based on deemed savings until an approved formula to calculate actual installed measure based impacts is available.

¹⁷ Since an application with multiple measures is separated into multiple rebates, participation reflects the number of installed measures. Applications that are identified as incomplete, erroneous, or ineligible during processing are considered "flawed". For participation counts, it is assumed that each flawed application has one measure. Measure data is not collected on flawed applications; rather, it is collected only from applications that have been determined to be eligible and complete.

¹⁸ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁹ Program to date information may include changes to prior period data received from the implementation contractor based on additional review and/or reconsideration of rebate eligibility decisions made in prior periods. Additional information regarding such changes is available upon request.

²⁰ Per request from DPS Staff during December 7, 2009 conference call, the data contained in these fields reflects the most recent month's expenditures in the respective category, not "to date" information.

²¹ Includes program true-ups due to timing.

²² Monthly and program goals and budgets include additional amounts authorized in the<u>Order Approving Three New Energy Efficiency</u> <u>Portfolio Standard (EEPS) Programs and Enhancing Funding and Making Other Modifications for Other EEPS Programs</u> (June 24, 2010), (the "June 24 Order"). ²³ Previous PSC Scorecard expense reporting for the residential natural gas HVAC program was based on expenditures as received on invoices from the implementation contractor. Beginning with the August 2010 scorecard, expenditures will be reported in accordance with normal accounting practice to recognize expenses in the month recorded to the general ledger.

²⁴ Net first-year annual therms and net lifecycle therms committed this month are undetermined at this time pending actual installed equipment capacity and efficiency.

²⁵ Total acquired first-year impacts reported on the October 2010 Scorecard included rebates that were processed during October, but no actually paid until November. Therefore, Total acquired first-year impacts reported on the November 2010 Scorecard also include all of the savings reported on the October Scorecard in this category. October 2010 savings are adjusted downward by the corresponding amount. There is no effect on Program-To-Date totals.

²⁶ Reported kWH savings reflect ancillary electric savings for installed ECM motors on gas furnaces per the New York Standards Approach for Estimating Energy Savings from Energy Efficiency Programs effective January 1, 2011. Year to date kWH savings reflec ancillary savings from rebates paid since inception of the program to date.

| | Number of | EEPS Incentive Amounts | Other Incentive |
|---|-----------|------------------------|-----------------|
| Other Fuels Conversion Participation To Date ⁴ | Measures | Paid ² | Amounts Paid |
| Conversion space heating measures approved to date ¹ | 410 | \$184,770 | \$0 |
| Conversion water heating measures approved to date | 11 | \$3,040 | \$0 |
| Conversion thermostat measures approved to date | 302 | \$6,190 | \$0 |
| Conversion duct sealing measures approved to date | 2 | \$1,200 | \$0 |
| Total conversion measures approved to date | 725 | \$195,200 | \$0 |

Table 2A Notes:

¹ Includes furnaces, boilers, and boiler reset controls

² Based on invoices received from program implementation contractors for incentive payments made to program participants. Due to possible lag between receipt of invoices and Company payment, some incentives included herein may not yet be reflected in the Incentives and Services amounts reported.

³ Estimated by prorating the non-incentive expenditures to date reported in the Cost section by the ratio of fuels conversion measure incentives paid to program participants to date compared to the total of all measure incentives paid to program participants to date as invoiced by the program implementation contractors. The data was derived from information customers provided on rebate applications No funds have been expended marketing directly to potential fuels conversion customers nor have any special incentives been offered or given to these customers.

⁴ Program to date information may include changes to prior period data received from the implementation contractor based on additionareview and/or reconsideration of rebate eligibility decisions made in prior periods. Additional information regarding such changes is available upon request.

DPS Staff Notes: See Attachment I.

Utility Notes:

¹³ Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁴ Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for incentive payments made to program participants. They will thus lag the actual issuance of incentive payments to program participants.

⁵ Impacts are calculated using actual installed measure information for all measures.

⁶ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷ Information presented here may include changes to previously filed monthly scorecard tables based on: review of additional information, reconsideration of eligibility decisions made by the implementation contractor during prior reporting periods, or other factors.

¹⁸ Data contained in these fields reflects the most recent month's expenditures in the respective category, as reported in the companies' accounting systems, not "to date" information. Negative values reflect accounting adjustments incurred as accruals are realized.

¹⁹ Effective February 9, 2011, Staff requested that Program Administrators report their Net Savings as a percent of the total program goal through 2011, as it is set forth in the relevant Commission Order or, for certain programs, the approved Operating Plan, whichever is appropriate. Since most programs are in their second year of implementation, comparing achievements to date against an annual goal would distort a program's achievements and would no longer provide the meaningf information that Staff and the EAG had intended when they developed the Reporting Guidelines.

²⁰ Effective with the November 2011 scorecard, the total savings goal has been revised based on the reallocation of savings between programs approved on November 8, 2011.

²¹ Effective with the November 2011 scorecard, the total program budget has been revised based on the reallocation of spending between programs approved on November 8, 2011.

DPS Staff Notes: See Attachment I. Utility Notes:

¹³ Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of th Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁴ Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for incentive payments mac to progra+A80

⁵ Impacts are calculated using actual installed measure information for all measures.

⁶ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷ Information presented here may include changes to previously filed monthly scorecard tables based on: review of additional information, reconsideration of eligibility decisions made by the implementation contractor during prior reporting periods, or other factors.

¹⁸ Data contained in these fields reflects the most recent month's expenditures in the respective category, as reported in the companies' accounting systems, not "to date" information. Negative values reflect accounting adjustments incurred as accurals are realized.

¹⁹ Effective February 9, 2011, Staff requested that Program Administrators report their Net Savings as a percent of the total program goal through 2011, as it is set forth in the relevant Commission Order or, for certain programs, the approved Operating Plan, whichever is appropriate. Since most programs are in their second year of implementation, comparing achievements to date against an annual goal would distort a program's achievements and would no longer provide the meaningfu information that Staff and the EAG had intended when they developed the Reporting Guidelines.

²⁰ Effective with the November 2011 scorecard, the total savings goal has been revised based on the reallocation of savings between programs approved on November 8, 2011.

²¹ Effective with the November 2011 scorecard, the total program budget has been revised based on the reallocation of spending between programs approved on November 8, 2011.

Utility Notes:

¹³Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁴Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for installed measures incentive payments made to program participants. They will thus lag the acquired savings actual issuance of incentive payments to program participants.

¹⁵ Impacts are calculated using actual installed measure information for all measures.

⁶All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷Data contained in these fields reflects the most recent month's expenditures in the respective category, not "to date" information.

¹⁸Effective with the June 2011 scorecard, monthly savings goals have been revised based on the reallocations of savings between programs approved May 27, 2011.

¹⁹Effective with the June 2011 scorecard, the total program budget has been revised based on the reallocations of spending between programs approved May 27, 2011.

Utility Notes:

¹³Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁴Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for installed measures. They will thus lag the acquired savings.

¹⁵ Impacts are calculated using actual installed measure information for all measures.

¹⁶All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷Information contained in this monthly table may include changes to previously filed monthly scorecard tables based on additional review and/or reconsideration of rebate eligibility decisions made by the implementation contractor during prior reporting periods. Additional information regarding such changes is available upon request.

¹⁸Data contained in these fields reflects the most recent month's expenditures in the respective category, not "to date" information. Negative values reflect accounting adjustments incurred as accruals are realized.

¹⁹For the purposes of this directed installation program the following definitions are used: Received applications are those for which a customer proposal is offered. The application becomes processed once the implementation contractor and customer have reviewed the proposal and and the customer signs a contract to approve the direct installations. Processed applications become approved applications when the direct installations have been physically installed.

²⁰ The monthly net kwh goal is adjusted to reflect a monthly value for the remaining goal in 2010 added to the 2011 goal to arrive at the remaining program goal for 2011 reflected as the annual goal.

Utility Notes:

¹³Initially for the Block Bidding Program, Acquired savings was reported for the month that the completion of the installation of the energy savings measure was validated and approved by the Company. Based on recent conversations with DPS, beginning with the June Scorecard the Companies began reporting acquired energy savings for Block Bidding when the savings have been committed by a signed contract with the Supplier.

¹⁴Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁵Incentives and services costs are reported based on Company payment of invoices received from program contractors and/or Bidders/Suppliers.

⁶The number of measures represents the number of customer host locations proposed by the accepted bidders .

¹⁷Due to the non-uniform acquisition of energy savings under the Block Bidding Program, the Program does not have defined Monthly goals.

¹⁸The Block Bidding Program did not acquire energy savings in 2010. Therefore, the 2011 program goal of 6,789 mWhs consists of the 2010 program goal, the 2011 program goal and the additonal savings based on the the reallocations of savings between programs approved on May 27, 2011.

¹⁹Effective with the June 2011 scorecard, the total program budget has been revised based on the reallocations of spending between programs approved on May 27, 2011.

²⁰Net kWh acquired savings to date represents an amendment to a project reported which reduces the proposed energy savings by 103,980 from a previously signed contract under RFP2.

¹³ Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to ionitly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

¹⁴ Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for incentive payments made to program participants. They will thus lag the actual issuance of incentive payments to program participants.

⁵ Impacts are calculated using actual installed measure information for all measures.

⁶ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷ Information presented here may include changes to previously filed monthly scorecard tables based on: review of additional information, reconsideration of eligibility decisions made by the implementation contractor during prior reporting periods, or other factors.

¹⁸ Data contained in these fields reflects the most recent month's expenditures in the respective category, as reported in the companies' accounting systems, not "to date" information. Negative values reflect accounting adjustments incurred as accruals a

¹⁹ Effective February 9, 2011, Staff requested that Program Administrators report their Net Savings as a percent of the total program goal through 2011, as it is set forth in the relevant Commission Order or, for certain programs, the approved Operating Plan, whichever is appropriate. Since most programs are in their second year of implementation, comparing achievements to date against an annual goal would distort a program's achievements and would no longer provide the meaningful information that Staff and the EAG had intended when they developed the Reporting Guidelines.

²⁰Number of program applications received to date includes 226 engine block heater timers; applications processed to date includes 225 engine block heater timers; applications approved to date includes 225 engine block heater timers.

Utility Notes:

¹³ Portfolio Costs are not included in the program budget or actual costs. Consistent with the Companies' July 9, 2009 letter to the Secretary in Cases 07-M-0548 et al. ("July 9 letter") and the Companies' prior and subsequent energy efficiency program submittals, Portfolio Costs are incremental and are incurred as a result of the Companies' ongoing active participation in the New York State Public Service Commission's ("Commission") energy efficiency proceedings. Portfolio Costs allow the Companies to jointly provide efficient support for the complete suite of specific energy efficiency programs ultimately approved by the Commission.

⁴ Incentives and services costs are reported based on Company payment of invoices received from program implementation contractors for incentive payments made to program participants. They will thus lag the actual issuance of incentive payments to program participants.

⁵ Impacts are calculated using actual installed measure information for all measures.

⁶ All program costs identified in this section are recovered through the SBC surcharge unless otherwise noted.

¹⁷ Information presented here may include changes to previously filed monthly scorecard tables based on: review of additional information, reconsideration of eligibility decisions made by the implementation contractor during prior reporting periods, or other factors.

⁸ Data contained in these fields reflects the most recent month's expenditures in the respective category, as reported in the companies' accounting systems, not "to date" information.

¹⁹ Effective February 9, 2011, Staff requested that Program Administrators report their Net Savings as a percent of the total program goal through 2011, as it is set forth in the relevant Commission Order or, for certain programs, the approved Operating Plan, whichever is appropriate. Since most programs are in their second year of implementation, comparing achievements to date against an annual goal would distort a program's achievements and would no longer provide the meaningful information that Staff and the EAG had intended when they developed the Reporting Guidelines.

⁰ Effective with the June 2011 scorecard, monthly savings goals have been revised based on the reallocations of savings between programs approved on May 27, 2011.

¹Effective with the June 2011 scorecard, the total program budget has been revised based on the reallocations of spending between programs approved on May 27, 2011.

¹ Effective with the June 2011 scorecard, the total program budget has been revised based on the reallocations of spending between programs approved on May 27, 2011.

Attachment 1

DPS Staff Notes:

¹ DPS Staff needs to work with utilities to develop a Program ID naming convention. However, a Program ID number is not required for the first reports. Note that when developing program ID naming conventions, utilities would like to minimize computer programming/reporting costs that they might incur if the proposed naming conventions are complex or the utility's current naming conventions require modification to Staff's proposed format.

²There is not currently a consistent list of program types but individual categories for common use by administrators could be developed.

³ First-year savings are defined as the annual savings expected from a given measure in the first year after installation. The annual savings are sometimes the result of annualizing estimated savings that are based on data that cover less than one year. Acquired kWh savings are defined as those savings that are reported by the program administrator in program tracking databases and for which a rebate check has been sent to th participant on a specific date.

⁴Regardless of the month in which a measure is installed within a given calendar year, the program is credited with the associated savings for the entire year.

⁵ Program Administrators should make best estimate of the annual goal even though the goal might in some cases cover two calendar years. Also, Staff wants administrators to try to be as accurate as possible in determining the monthly goals but does not want to mandate monthly goals, at least initially.

⁵ Peak is defined uniquely for each utility.

⁷ The lifecycle savings are tracked beginning in the year in which a given measure was installed. Over the period 2008-2015, PA's must take into account the fact that savings from measures installed early in the period will vanish at the end of their useful life before the end of 2015. Thus, the lifecycle impacts acquired to date will be different for each month as a function of adding savings from measures installed in a given month and subtracting savings from measures installed earlier in the funding cycle that have reached the end of their useful life.

⁸ Committed savings are defined as those for which funds have been encumbered but not yet spent. When the funds are spent (i.e., a rebate check has been sent to the participant on a specific date), the savings are then considered "acquired." Staff would like to see the program administrator's best estimate of what they have committed. There should be some assumptions on how the administrator does that. Program administrators should forecast as accurately as possible and it should get more precise with program experience, e.g., the difference between achieved and committed should get closer over time.

⁹ These are the budget categories to be used by companies when submitting the required energy efficiency program implementation plans. In its January 16, 2009 Order, the Commission directed Staff to provide definitions for the budget categories to be used in the preparation of thes plans (See Order Approving "Fast Track" Utility-Administered Electric Energy Efficiency Program With Modification at page 11). These categories are provided to promote consistency in budget construction and reporting among the utility plans. Companies should identify whether each cost item is to be recovered through the SBC surcharge, base rates, or other recovery mechanism <u>é.g.</u>, monthly adjustment charges).

¹⁰ An application is processed once the PA has reviewed the application and made a decision whether to approve the incentive payment to the customer. Once the decision has been made to pay the incentive to the customer, these funds and their associated energy and demand impacts become "Committed."

¹¹ The application is approved once the decision has been made to pay the incentive to the customer. Note that these funds and their associated energy and demand impacts become "Committed" once this decision is made. Also note that for programs in which an application could be received, processed, and approved all in one day, a "1" would be counted for each step in the tracking lifecycle.

¹² See CO2 Reduction Values tab in Data Reporting Template 6-26-09.Xls (quarterly and annual reports only)
